DEGREE AND CERTIFICATES43

COURSE DESCRIPTIONS184

Welcome to Clark State

We are so pleased that you have chosen Clark State! Your success is important to us, and the faculty and staff are here to ensure that you achieve your goals.

Clark State offers many degree and certificate options, including the addition of bachelor’s degree in Manufacturing Technology Management and Web Design and Development. Our many certificate and degree programs result in high-wage, high-demand careers, as well as a general education curriculum that will transfer to most four-year universities.

We are proud of our dedication to student success at Clark State, and this catalog should help you learn more about the programs and services we offer, as well as how to get involved in campus activities.

If there is anything you should need during your time here at Clark State, please do not hesitate to contact my office. Thank you.

Sincerely,

Jo Alice Blondin, Ph.D.
President

This Catalog was prepared prior to the 2020 - 2021 academic year for informational purposes only. The educational programs are changed whenever it is necessary to stay abreast of rapid changes in technology and our world. Clark State reserves the right to alter or amend any item contained herein without notice. We encourage you to consult with your advisor or the appropriate College official for confirmation of matters that are essential to your program of study.

Clark State does not discriminate on the basis of race, color, sex, gender, ethnicity, religion, national origin, sexual orientation, ancestry, age, marital status, veteran status, socio-economic status, gender expression, gender identity, pregnancy or physical or mental disability and any other protected group status as defined by law or College policy in its educational programs, activities, admissions, or employment practices as required by Title IX of the Educational Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act, and other applicable statutes.

In accordance with the Americans with Disabilities Act, it is the policy of Clark State to provide reasonable accommodations to persons with disabilities. If you require disability-related accommodations, please contact the Office of Accessibility at 937.328.6019.

Please address correspondence to Clark State, Post Office Box 570, Springfield, Ohio 45501 or telephone 937.325.0691.

About Clark State

Whether students have chosen Clark State because of our small class sizes, devotion to quality education, affordability, or exceptional variety of programs, we're glad they did. The following information tells more about Clark State and how it evolved into the progressive learning institution it is today. It will also give valuable insight into our mission and how we can help students achieve their academic goals.

History of the College

Clark State College began in 1962 as the Springfield and Clark County Technical Education Program in an effort to meet the post-secondary, technical education needs of Springfield and the surrounding area. In 1966, the name was changed to Clark County Technical Institute (CCTI) and was chartered by The Ohio Board of Regents as Ohio's first technical college. In 1972, ten years after its birth, CCTI had grown to 1,000 students and officially became Clark Technical College. New programs in agriculture, business, engineering technologies, health, public services and general studies were developed in response to the community's changing educational and economic needs.

In the 1970s the College re-examined its mission and determined that programs, which can be transferred to four year colleges, should be included as a secondary

focus. In order to accomplish this, many new courses in humanities and social sciences were added to the curriculum. By 1985, Clark Technical College had developed one of the broadest general education programs of any technical college in the state. It was this solid foundation, together with the many strong technical programs, that made the evolution to a community college a smooth and logical step.

On July 1, 1988, The Ohio Board of Regents approved the change of Clark Technical College to Clark State Community College. As a result of this action, Clark State added the Associate of Arts and Associate of Science degrees (university parallel programs) to the nearly 30 technical associate degrees and certificates it had offered for years. The College now has more than 80 degree and certificate programs.

Today Clark State looks proudly at its past and looks forward to the future, ready to meet the needs of today's and tomorrow's students.

In 2019, The ODHE and Higher Learning Commission approved the addition of Clark State College's first Bachelor of Science degree in Manufacturing Technology Management.

Mission

To engage and empower diverse learners by providing high-quality educational programs and services that emphasize student and community success.

Vision

Clark State College will be the leader in education by partnering with our communities, businesses and industries while achieving the highest levels of student success within a culture that provides intellectual, personal, and professional growth.

Guiding Principles

We believe in the transformative power of education through:

1. Learning

We use best practices and resources to create a learning community that challenges, transforms, and empowers students and employees.

2. Community

We value, trust, and support people with whom we work and serve.

3. Partnerships

We collaborate to address stakeholder needs and contribute to the economic and holistic well-being of society.

4. Innovation

We champion an environment that encourages creativity and embraces change.

5. Diversity

We welcome and engage all individuals to create an equitable and inclusive culture.

Assessment of Student Academic Achievement

Improving Student Learning

The Board of Trustees, faculty, and staff affirm that student learning is at the core of our purpose as a College. The ability to measure learning accomplishes two purposes: it allows us to demonstrate our accountability to our various publics, but more importantly, it provides us with the capacity to impact and improve the degree of learning that goes on in our College. The College has developed a Plan to Assess Student Academic Achievement in accordance with the requirements of The Higher Learning Commission. The plan ensures the College has specific learning outcomes for each of its degree programs and validates that students earning degrees have achieved those outcomes. Validity measures include instructor assessment, certification examinations, national standard examinations, employer surveys, success of student transfer, and evaluations by external professionals. The results of the assessment efforts are used to improve instruction as necessary to guarantee that our students can succeed in the workforce or in further education.

Facilities

Clark State's main campus location is in Springfield, Ohio. Clark State also has satellite locations in Beavercreek, Bellefontaine, Xenia and in various high schools and career technology centers in the region. The Springfield campus has two locations: the Leffel Lane Campus at 570 East Leffel Lane, situated on the southern border of Springfield just north of Interstate 70, and the Downtown Campus located on the heart of downtown Springfield. Major city streets and city bus service provide easy travel between campuses. The Clark State Greene Center is located in Beavercreek at 3775 Pentagon Blvd. The Clark State satellite location in Bellefontaine is on the campus of Ohio Hi-Point Career Center at 2280 State Route 540. The Clark State location in Xenia is located at the YMCA at 334 Progress Drive.

Online Learning

Online learning at Clark State offers alternative modes of instructional delivery for students who, for a variety of reasons, may not be able to attend traditionally scheduled classes. Clark State offers almost 250 online and hybrid courses. In online courses, all instructional and lab activities are completed in an online environment. Online courses require no visits to campus; however, students may be required to use a proctored testing facility. Hybrid courses combine the elements of the traditional, face-to-face classroom with online instruction. These hybrid courses require attendance at scheduled sessions on campus or at clinical locations for lectures, labs, or clinical experiences. The time spent on

campus is generally 50 percent less than for traditional courses; the remainder of the time is spent in the online environment. The College also offers self-paced and directed learning courses. In self-paced courses, the students set their own pace within the guidelines set for each course. For example, the Clark State MathLab is a high technology learning environment where students work at their own pace through College Preparatory mathematics courses. Directed learning courses are self-paced courses except that class work must be completed on Clark State's campus using the Directed Learning Lab and its resources.

Through these alternative modes of instructional delivery, accredited courses are accessible to anyone, anywhere, at any time, providing students with a convenient way to complete their degrees. Students enroll and progress through their courses following an established calendar of assignments. As long as they meet the established deadlines for contributions, students can participate at times convenient for them. Online courses and programs have full approval from The Higher Learning Commission. It is recommended that students interested in online or hybrid coursework take the Blackboard online tutorial. Access can be requested through the Student Success Center and helps students determine their readiness and potential for success in an online learning environment.

Accreditations/Approvals

Clark State College is accredited by the Higher Learning Commission, 230 South LaSalle Street, Suite 7-500, Chicago, IL 60604, 1.800.621.7440.

The Realtime Court Reporting program, both Judicial and Broadcast Captioning/CART options, is approved by the National Court Reporters Association, 8224 Old Courthouse Road, Vienna, VA 22182-3808, 703.556.6272.

The Early Childhood Education program is approved by the Ohio Department of Higher Learning for Pre-Kindergarten Associate Licensure, 25 South Front Street, Columbus, OH 43215, 877.644.6338.

The Registered Nursing program is approved by the Ohio Board of Nursing, 17 South High Street, Suite 660, Columbus, OH 43215-3466, 614.466.3947, www.nursing.ohio.gov and accredited by the Accreditation Commission for Education in Nursing, Inc., 3343 Peachtree Road NE, Suite 850, Atlanta, GA 30326, 404.975.5000, www.acenursing.org.

The Practical Nursing program is approved by The Ohio Board of Nursing, 17 South High Street, Suite 660, Columbus, OH 43215-3466, 614.466.3947, www.nursing.ohio.gov.

The Medical Assisting Certificate program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP), 25400 U.S. Highway 19 North, Suite 158, Clearwater, FL 33756, 727.210.2350, www.caahep.org upon recommendation of the Medical Assistant Education Review Board (MAERB).

The Medical Laboratory Technology program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences, 5600 North River Road, Suite 720, Rosemont, IL 60018, 773.714.8880, www.naacls.org.

The Paramedic program (#308-OH) is accredited by the Ohio Department of Public Safety Services, Division of Emergency Medical Services, 1970 West Broad Street, Columbus, Ohio 43218-2073, 800.233.0785 and by the Commission on Accreditation of Allied Health Education programs, 25400 U.S. Highway 19 North, Suite 158,

Clearwater, FL 33756, 727.210.2350, upon recommendation of the Committee on Accreditation for the Emergency Medical Services Profession (CoAEMSP).

The Physical Therapist Assistant program is accredited by the Commission on Accreditations in Physical Therapy Education of the American Physical Therapy Association, 1111 N. Fairfax Street, Alexandria, VA 22314, 703.706.3245, www.captionline.org, e-mail: accreditation@apta.org.

The Firefighter program (#308-OH) is accredited by the Ohio Department of Public Safety Services, Division of Fire Services, 1970 West Broad Street, Columbus, OH 43218, 800.233.0785.

Degrees

Our degree programs are designed as four and two-year programs provided students attend Clark State on a full-time basis. Many of our students, however, take longer than four or two years to complete degree requirements. Although many courses from the technical programs are transferable, these programs are designed primarily as pre-employment programs. The following degrees are offered:

- Associate of Applied Business (AAB)
- Associate of Applied Science (AAS)
- Associate of Technical Studies (ATS)
- Bachelor of Applied Science (BAS)

Agriculture and Food Science

Agricultural Business	AAB
Agricultural Business - Agricultural Engineering Technology Option	AAB
Food Science and Technology	AAS
Horticultural Industries - Golf Course Operations Option	AAS
Horticultural Industries - Landscape Design Option	AAS
Horticultural Industries - Natural Resources Option	AAS
Horticultural Industries - Nursery Operations Option	AAS
Horticultural Industries - Turf and Landscape Operations Option	AAS
Precision Agriculture	AAS
Precision Agriculture - Technician Option	AAS

Arts and Humanities

Associate of Arts	AA
Communication	AA
Graphic Design	AAB
New Media	AAB
New Media - Web Design Option	AAB
Theatre Arts - Performance	AA
Theatre Arts - Technical Theatre	AA
Web Design and Development - Web Design Concentration	BAS

Business

Accounting	AAB
Business Transfer-Central State University	AS
Business Transfer-Wright State University	AS
Judicial Court Reporting	AAB
Management	AAB
Management - Banking Option	AAB
Management - Human Resource Management Option	AAB
Management - Insurance Option	AAB
Management - Logistics and Supply Chain Management Option	AAB
Management - Marketing Option	AAB
Management - Real Estate Option	AAB
Office Administration	AAB
Paralegal	AAS
Professional Services Management	ATS

Computer and Information Technology

Computer Networking	AAB
Computer Networking -Technical Systems Support Option	AAB
Computer Software Development	AAB
Computer Software Development - Cybersecurity Option	AAB
Computer Software Development - Web Development Option	AAB
CyberSecurity/Information Assurance Technology	AAS
GIS/Geospatial Technology	AAS
Information Services: Library Paraprofessional	AAS
Web Design and Development - Web Development Concentration	BAS

Education

Career and Technical Education	ATS
Early Childhood Education	AAS
Teacher Education Transfer	AA

Engineering, Manufacturing, and Mechanical Services

Computer-Aided Design Technology	AAS
Diesel Technology Program	ATS
Heating, Ventilation, Air Conditioning, and Refrigeration (Clark County CTC)	ATS
Heating, Ventilation, Air Conditioning, and Refrigeration (Greene County CTC)	ATS
Industrial Technology	AAS
Manufacturing Engineering Technology	AAS
Manufacturing Technology Management - Computer-Aided Design Concentration	BAS
Manufacturing Technology Management - Industrial Technology Concentration	BAS
Manufacturing Technology Management - Manufacturing Engineering Technology Concentration	BAS
Manufacturing Technology Management - Mechanical Engineering Technology Concentration	BAS
Mechanical Engineering Technology	AAS

Health

Addiction and Recovery Services *	
*pending approval	AAS
Associate of Arts - Healthcare Concentration Transfer	AA
Associate of Science - Healthcare Concentration Transfer	AS
Diagnostic Medical Sonography	AAS
Emergency Medical Services	AAS
Health Sciences*	
*pending approval	AAS
Medical Assisting	AAS
Medical Laboratory Technology	AAS
Multi-Skilled Healthcare	ATS
Occupational Therapy Assistant (Consortium Program)	
Office Administration - Medical Office Administration Major	AAB
Physical Therapist Assistant	AAS
Radiographic Imaging (Consortium Program)	
Registered Nursing	AAS
Registered Nursing - Evening-Weekend	AAS
Registered Nursing - LPN to RN Transition	AAS
Registered Nursing - Paramedic to RN Transition	AAS
Respiratory Care (Consortium Program)	

Math and Sciences

Associate of Science AS

Social Sciences/Human Services and Public Safety

Addiction Recovery Services*	
*pending Approval	AAS
Criminal Justice Technology - Corrections Concentration	AAS
Criminal Justice Technology - Law Enforcement Concentration	AAS
Social Services Technology	AAS
Social Work Transfer - Wright State University	AAS

Associate of Technical Studies

Clark State also offers an Associate of Technical Studies degree if students' career needs are not met by one of our technical degrees. The flexibility of this program permits students to work with an advisor to construct an inter-disciplinary degree program from present course offerings. To pursue an Associate of Technical Studies, students need to apply prior to completing 40 credit hours. Students can apply at any academic school office.

General Education

CORE (Common Outcomes Required in Education) is Clark State College's philosophy of general education - the general body of common knowledge, concepts, and attitudes essential to functioning effectively in a complex, diverse, and changing world. The common CORE supports learners in their journey toward life-long fulfillment.

Upon completion of a degree from Clark State, a graduate will be able to do the following:

- Write clearly and accurately in a variety of contexts and formats.
- Speak clearly and accurately in a variety of contexts and formats.
- Use critical thinking and problem solving to draw logical conclusions.
- Use numerical data to solve problems, explain phenomena, and make predictions.

The faculty under leadership of the College's Assessment Committee has established criteria and tools by which student achievement of the CORE is assessed and reported in all academic programs.

General Education Requirements for Technical Programs

Clark State students are required to complete courses that focus on the development of skills and knowledge in general education. These courses include requirements in written and oral communication, arts and humanities, social and behavioral sciences, mathematics, and physical/natural sciences.

Students in technical programs take English I, plus at least three additional credit hours in the area of oral and written communication and three credit hours in mathematics. Technical students must also take a minimum of six credit hours from two of three categories including arts and humanities, social/behavioral sciences and natural/physical sciences. Technical programs may define which courses a student must take in a given area or they may allow the student to select the courses from the list below.

Global Awareness

Because of the importance of international events to our lives, we require each student to successfully complete one or more courses that emphasize global awareness. The number of classes varies with the degree being sought. Courses meeting this requirement are designated with a GA following each course. Students registering for general education courses in technical programs should use the following list:

Written and Oral Communication

COM 1110	Interpersonal Communication I (GA)
COM 1120	Public Speaking I
COM 1130	Introduction to Mass Communication
COM 1170	Small Group Communication
ENG 1112	English II
ENG 2211	Business Communication (GA)
ENG 2230	Technical Report Writing

Social and Behavioral Sciences

ECO 1100	General Economics*
ECO 2210	Principles of Macroeconomics
ECO 2220	Principles of Microeconomics
GEO 1000	Introduction to GIS and Cartography (GA)
GEO 1100	Human Geography (GA)
GEO 2200	World Regional Geography (GA)
PLS 1100	Introduction to American Politics
PLS 1300	Introduction to Comparative Politics (GA)
PLS 2300	Introduction to International Relations (GA)
PSY 1111	Introduction to Psychology (GA)
PSY 2218	Introduction to Educational Psychology (GA)
PSY2223	Lifespan Human Growth and Development (GA)
PSY 2230	Abnormal Psychology (GA)
RST 2700	Regional Studies: Africa (GA)
RST 2800	Regional Studies of Latin America (GA)
SOC 1110	Introduction to Sociology (GA)
SOC 2220	Comparing Cultures (GA)
SOC 2230	Social Problems (GA)
SOC 2240	Racial and Cultural Minorities (GA)
SOC 2250	Sociology of Poverty: Feminization of Poverty
SOC 2260	Sociology of Sex and Gender

*ECO 1100 cannot be used as a general education elective in any program that requires ECO 2210 or ECO 2220.

Arts and Humanities

ART 1001	Art History I (GA)
ART 1002	Art History II (GA)
ART 1300	Appreciation of the Arts (GA)
ASL 1111	Beginning American Sign Language, Course I (GA)
ASL 1112	Beginning American Sign Language, Course II (GA)
ENG 1600	Introduction to Literature (GA)
ENG 2300	Great Books: World Literature (GA)
ENG 2500	American Literature
ENG 2610	British Literature to 1800
ENG 2620	British Literature from 1800 to the Present
FRN 1111	French I (GA)
FRN 1112	French II (GA)
HST 1110	Western Civilization to 1600 (GA)
HST 1120	Western Civilization Since 1600 (GA)
HST 1210	American History to 1865 (GA)
HST 1220	American History Since 1865 (GA)
HST 2200	Topics in African-American History and Culture (GA)
MUS 1130	Music Appreciation (GA)
PHL 2000	Critical Thinking
PHL 2050	Deductive Logic
PHL 2100	Ethics (GA)
PHL 2300	Medical Ethics (GA)
PHL 2400	Philosophy of World Religions (GA)
SPN 1100	Survival Spanish (GA)
SPN 1111	Beginning Spanish, Course I (GA)
SPN 1112	Beginning Spanish, Course II (GA)
THE 1130	Theatre Appreciation (GA)
THE 1133	Script Analysis
THE 2241	Theatre History I (GA)
THE 2242	Theatre History II (GA)

Mathematics and Physical/Natural Sciences

BIO 1105	Fundamentals of Anatomy and Physiology
BIO 1131	Microbiology
BIO 1410	Fundamentals of Biology
BIO 1420	Global Biology (GA)
BIO 1510	Biology I
BIO 1520	Biology II
BIO 2121	Anatomy and Physiology I
BIO 2122	Anatomy and Physiology II
CHM 1150	Introduction to General Chemistry
CHM 1210	General Chemistry I
CHM 1220	General Chemistry II
GLG 1131	Physical Geology
GLG 1132	Historical Geology
MTH 1070	Quantitative Reasoning
MTH 1060	Business Mathematics
MTH 1115	Industrial Calculations
MTH 1200	Technical Math for Agriculture
MTH 1280	College Algebra
MTH 1340	Pre-Calculus
MTH 2100	Calculus for the Management, Life and Social Sciences

MTH 2200	Calculus I
MTH 2220	Calculus II
MTH 2242	Multivariable Calculus
MTH 2430	Differential Equations
MTH 2530	Matrix Algebra
PHY 1100	Fundamentals of Physics
PHY 1200	Introduction to Astronomy
PHY 1501	General Physics I with Algebra
PHY 1502	General Physics II with Algebra
STT 2640	Elementary Statistics I
STT 2650	Elementary Statistics II

Transfer Options

Students commonly combine credits to reach an academic goal, such as an associate degree or a bachelor's degree. Transferring credit includes the mobility between high school and college institutions; between two or more colleges; for example, community college to community college, or between a community college and a four-year institution. For the high school student, it may include transferring college credit received during high school to an institution of higher education. This may have been accomplished through Tech Prep, College Credit Plus (CCP), College in the Classroom (CITC), or articulated credit from a career center.

Many students who begin their college career at Clark State intend to eventually transfer their Clark State College credits to a university to obtain a bachelor's degree. Our transfer degree programs are designed to fulfill many of the pre-major and general education requirements of the first two years of a traditional four-year or bachelor's degree. The Associate of Arts degree or the Associate of Science degree at Clark State are transfer degrees and are designed to facilitate that process. The general transfer options within the Associate of Arts and Associate of Science degrees are flexible, allowing students to choose their individual courses from within certain predetermined categories or areas (see Degree Program section).

Because of this flexibility, students should consult carefully with their intended transfer destination to ensure optimal transfer of Clark State credits to another institution.

Information in the Ohio Transfer Module (OTM), the Transfer Assurance Guidelines (TAGS), Career Technical Assurance Guidelines (CTAGS) and Transferology explain in detail how to use these advising tools to choose courses for a seamless transition to the transfer institution. In addition, Clark State has developed university parallel transfer degrees through articulation agreements with most four-year colleges and universities in the area.

Specific degrees and transfer plans with the Associate of Arts and Associate of Science degrees include:

- Associate of Arts
- Associate of Science
- Business Transfer - Central State University
- Business Transfer - Wright State University
- Communication
- Health Care Concentration - Associate of Arts
- Health Care Concentration - Associate of Science
- Social Work Transfer - Wright State University
- Teacher Education Transfer

Students who seek an Associate of Applied Business degree or Associate of Applied Science degree do so to readily obtain employment with skills gained in Clark State technical courses/curriculum. While these programs are not necessarily designed to transfer to most four-year institutions/universities, there are specific universities that have developed bachelor's degrees to accommodate the AAB and AAS students. Clark State has developed articulation agreements with many of these universities.

All students should work with their success coach initially and then their faculty advisor to develop academic goals, including course schedules that would facilitate a timely transition to a four-year institution.

Clark State also serves students whose goal it is to obtain occasional credit to transfer back to a home institution. This is referred to as transient coursework. Interested students should meet with their home institution's academic advisor to select the appropriate coursework from Clark State. Upon enrolling at Clark State, a success coach, as well as the Records and Registration Office, will assist the student with necessary documentation.

Guidelines for Effective Transfer

Students should determine the four-year college or university to which they will transfer and the prospective major as early as possible in the academic program. Request a catalog or curriculum from the prospective transfer institution early and become familiar with its admissions policies, scholarship options/deadlines, and degree requirements. Generally, students will receive credit for most of their courses at the transfer institution if they have worked carefully with a Clark State success coach and with personnel at the prospective transfer institution. The transfer institution, however, will make the final determinations.

A minimum of 60 semester credit hours is required to graduate with a Clark State Associate of Arts or Associate of Science degree. Work with a success coach and sign up for appropriate courses each term. The primary purpose of the AA and AS degree is to provide transfer credit to four-year colleges and universities. Students regularly transfer to other institutions in areas such as business, psychology, English, theatre, sociology, urban affairs, art, agriculture, education, engineering sciences, and engineering technologies.

Clark State College has transfer agreements with the following four-year institutions for students completing AA and AS transfer degrees and/or students completing AAS and AAB technical degrees.

- Antioch
- Antioch University Midwest
- Bowling Green State University
- Capital University
- Central State University
- Cincinnati College of Mortuary Science
- Defense Acquisition University
- Excelsior
- Franklin University
- Indiana Wesleyan
- Kent State University
- Miami University
- Mount Vernon Nazarene University
- Ohio Dominican University
- The Ohio State University
- Ohio University
- Otterbein University
- Park University
- Union Institute
- University of Akron
- University of Arkansas of Medical Sciences
- University of Cincinnati
- University of Dayton
- University of Toledo
- Western Governor's University
- Wilmington University
- Wittenberg University
- Wright State University

Transferology

Clark State College is a member of Transferology. Information about the transferability of Clark State's credit hours may be found by accessing Transferology at <https://www.transferology.com>. Students interested in transferring credits to Clark State may access Transferology to determine credit equivalency. Please note that not all colleges/universities are listed in Transferology. To verify credit transferability, official transcripts should be submitted to the Admissions Office, Clark State College, P.O. Box 570, Springfield, Ohio 45501.

Transferology was developed as an online tool that serves as a gateway to participating institutions' transfer articulation systems. Upon creating a free account in Transferology, students and/or parents may view course equivalencies, request information about program requirements, and request an evaluation of transfer work toward a specific program.

Clark State/Wright State University Gateway Program

To increase access and affordability for a college education, Wright State University and Clark State College have entered into an agreement to provide a "gateway" to bachelor degree programs. Students will receive shared advising from the two schools to ease

the transition to Wright State. All Gateway students have the option to apply for housing at Wright State. Students are encouraged to enroll at Clark State with the intention to transfer to Wright State.

Wright State University - Transfer Options

Wright State University has developed the following articulation (transfer) agreements and equivalency guides. These agreements outline which courses students should take in order to complete an associate degree at their current institution and to transfer into the specific major(s) indicated on the agreement.

- Anthropology
- Art/Art History
- Biological Science
- Biomedical Engineering
- Business
- Business Education
- Chemistry
- Clinical Lab Science
- Communication
- Computer Science
- Computer Science-Cyber Security
- Crime and Justice
- Early Childhood
- Earth Science
- Electrical Engineering
- Engineering Physics
- English Education
- Environmental Health Sciences
- Geography
- History
- Industrial Engineering
- International Studies
- Liberal Arts
- Mass Communication
- Mechanical Engineering
- Middle Childhood Education
- Nursing
- Organizational Leadership
- Physics
- Political Science
- Psychology
- Rehabilitation Services
- Social Work
- Sociology
- Spanish
- Sports Science

Franklin University - Transfer Options

Through a special alliance with Franklin University, graduates of technical programs (Associate of Applied Business or Associate of Applied Science degrees) at Clark State can complete a Bachelor of Science degree online with the completion of a selected number of additional bridge courses at Clark State and 30 to 40 semester hours at Franklin. All Clark State courses are referred to as bridge courses and all Franklin courses are referred to as completion courses. Clark State graduates

who are part of this program are able to continue using the Clark State library, computer labs, and other resources while they continue their studies at Franklin University.

With this program, a student completes an associate degree at Clark State in a technical area such as management, manufacturing, engineering technology, physical therapist assistant, corrections, or any of our other applied programs.

The student then determines which of different majors he or she would like to pursue at Franklin. A student also completes any additional bridge courses at Clark State that he or she has not already taken—all at Clark State prices.

Students can find a separate Bridge and Completion Guide for each Franklin University major on the Clark State website. Students should consult with their academic advisor for assistance with these guides. The majors currently available at Franklin University via this alliance include the following:

- Accounting
- Allied Healthcare Management
- Applied Management
- Applied Psychology
- Business Administration
- Business Economics
- Business Forensics
- Communication
- Computer Science
- Criminal Justice Administration
- Financial Management
- Financial Planning
- Forensic Accounting
- Healthcare Management
- Human Resources Management
- Information Technology
- Interactive Media Design
- Interdisciplinary Studies
- Internet Marketing
- Management and Leadership
- New Media
- Nursing
- Operations and Supply Chain Management
- Public Relations
- Social Media Design

Antioch University Midwest - Transfer Options

Antioch University Midwest is a campus of Antioch University, which is accredited by The Higher Learning Commission. Antioch Midwest offers Bachelor of Arts degrees through its degree completion program.

Clark State College and Antioch University Midwest have developed articulation agreements for students who earn an associate degree from

Clark State and wish to continue their undergraduate education. The purpose of the agreement is to provide a smooth curricular transition for students, allowing them to transfer from Clark State to Antioch University Midwest without loss of credits or duplication of coursework.

Antioch University Midwest offers the following Bachelor of Arts degrees:

- Applied Technology and Business Leadership
- Early Childhood Education
- Healthcare Administration
- Liberal Studies with concentrations in: Conflict Studies, Creative Writing and Literature, Environmental Sustainability, Information Technology Management

Wittenberg University - Transfer Options

Wittenberg University is a nationally recognized college for the liberal arts and sciences affiliated with the Evangelical Lutheran Church in America. Wittenberg University provides a liberal arts education dedicated to intellectual inquiry and wholeness of person within a diverse residential community. Reflecting its Lutheran heritage, Wittenberg challenges students to become responsible global citizens, to discover their callings, and to lead personal, professional, and civic lives of creativity, service, compassion, and integrity. Eligible students will enter Wittenberg through one of two pathways, traditional or adult. Clark State students should consult their Success Coach for more information.

Ohio University - Transfer Options

Ohio University is dedicated to providing opportunities for high-quality higher education to residents across Ohio. The Ohio University Community College Partnership with Clark State College helps the university deliver on that promise, bringing bachelor's degree completion programs to students where they live and work.

Clark State students may take courses from both Ohio University and Clark State to complete a bachelor's degree from Ohio University. The collaboration helps to meet the diverse and unique needs of working professionals who want to advance their education and their careers.

Students can discover their promise at Ohio University without having to leave home. If they cannot attend classes at any of the Ohio University campuses, they can become an Ohio University student through our community college partnership programs and experience the Ohio University environment, the people, the opportunities, and quality education. Ohio University offers more than 250 campus-based programs of study and the following nine degree completion programs:

- Applied Communication
- Applied Management

- Criminal Justice
- Customer Service
- Integrated Healthcare Studies
- Psychology
- RN to BSN
- Technical and Applied Studies
- Technical Operations Management

Northwest Ohio Allied Health Education Consortium

Clark State College is a member of the Northwest Ohio Allied Health Education Consortium (NOAHEC), which expands local allied health training options. Through this consortium, which includes Clark State College, Marion Technical College, Northwest State Community College, and Rhodes State College, Clark State students have an opportunity to complete Radiographic Imaging Technology, Respiratory Care Practitioner and Occupational Therapist Assistant programs. Students enroll at both Clark State and Rhodes State and complete their general education classes and basic program classes through Clark State at one of our campuses or online. Technical courses are taught by Rhodes State faculty through distance learning on the Clark State campus. Clinical requirements take place at a regional healthcare facility. Students need to periodically travel to the Rhodes State campus in Lima for skills lab instruction and hands-on practice.

Visit the program area of Clark State's catalog and website or www.ohioalliedhealth.com for more information.

Policy of Statewide Articulation Agreement Institutional Transfer

Institutional Transfer

The Ohio Department of Higher Education in 1990, following a directive of the 118th Ohio General Assembly, developed the Ohio Articulation and Transfer Policy to facilitate students' ability to transfer credits from one Ohio public college or university to another in order to avoid duplication of course requirements. A subsequent policy review and recommendations produced by the Articulation and Transfer Advisory Council in 2004, together with mandates from the 125th Ohio General Assembly in the form of Amended Substitute House Bill 95, have prompted improvements of the original policy. Additional legislation from the 125th Ohio General Assembly also initiated the development of a statewide system for articulation agreements among state institutions of higher education for transfer students pursuing teacher education programs.

Action by the 126th Ohio General Assembly led to the establishment of criteria, policies, and procedures for the transfer of technical courses completed through a career-technical education institution; and standards for the awarding of college credit based on Advanced Placement (AP) test scores.

Legislation from the 130th Ohio General Assembly required public institutions of higher education to: use baseline standards and procedures in the granting of college credit for military training, experience, and coursework; establish an appeals process for resolving disputes over the awarding of credit for military experience; provide specific assistance and support to veterans and service members; adopt a common definition of a service member and veteran; and establish a credit articulation system in which adult graduates of public career-technical institutions who complete a 900 clock-hour program of study and obtain an industry-recognized credential approved by the Chancellor shall receive 30 college technical credit hours toward a technical degree upon enrollment.

While all public colleges and universities are required to follow the Ohio Articulation and Transfer Policy, independent colleges and universities in Ohio may or may not participate in the Transfer Policy. Therefore, students interested in transferring to independent institutions are encouraged to check with the college or university of their choice regarding transfer agreements. In support of improved articulation and transfer processes, the Ohio Department of Higher Education has established an articulation and transfer clearinghouse to receive, annotate, and convey transcripts among public colleges and universities. This system is designed to provide standardized information and help colleges and universities reduce undesirable variability in the transfer credit evaluation process.

Acceptance of Transfer and Articulated Credit

To recognize courses appropriately and provide equity in the treatment of incoming transfer students and students native to the receiving institution, transfer credit will be accepted for all successfully completed college-level courses completed in or after Fall 2005 from Ohio public institutions of higher education. Students who successfully completed Associate of Arts (AA) or Associate of Science (AS) degrees prior to Fall 2005 with a 2.0 or better overall grade-point average would also receive credit for all college-level courses they have passed. While this reflects the baseline policy requirement, individual institutions may set equitable institutional policies that are more accepting.

Pass/Fail courses, credit-by-examination credits, experiential learning courses, and other non-traditional credit courses that meet these conditions will also be accepted and posted to the student record.

Application of Transfer and Articulated Credit

Application of credit is the decision process performed by the receiving institution to determine how the credits it has accepted and recorded on the student's official academic transcript will or will not apply toward program and degree requirements. While the receiving institution makes this decision, it will do so within the parameters of this Policy.

The following guidelines and requirements shall govern the application of transfer and articulated credit:

Ohio Transfer Module

The Ohio Department of Higher Education's Articulation and Transfer Policy established the Ohio Transfer Module, which may be a subset or the entire set of a public higher education institution's general education curriculum in Associate of Arts (AA), Associate of Science (AS) and baccalaureate degree programs. Students in applied associate degree programs may complete some individual Ohio Transfer Module courses within their degree program or continue beyond the degree program to complete the entire Transfer Module. The Ohio Transfer Module contains 36-40 semester or 54-60 quarter hours of course credit in English composition (minimum of 3 semester or 5 quarter hours); mathematics, statistics and logic (minimum of 3 semester or 3 quarter hours); arts and humanities (minimum of 6 semester or 9 quarter hours); social and behavioral sciences (minimum of 6 semester or 9 quarter hours); and natural sciences (minimum of 6 semester or 9 quarter hours). Oral communication and interdisciplinary areas may be included as additional options. Additional elective hours from among these areas make up the total hours for a completed Ohio Transfer Module. Courses for the Ohio Transfer Module should be 100- and 200-level general education courses commonly completed in the first two years of a student's course of study. Each public university and technical and community college is required to establish and maintain an approved Ohio Transfer Module.

Ohio Transfer Module course(s) or the full module completed at one college or university will automatically meet the requirements of individual Ohio Transfer Module course(s) or the full Ohio Transfer Module at another college or university once the student is admitted. Students may be required, however, to meet additional general education requirements at the institution to which they transfer. For example, a student who completes the Ohio Transfer Module at Institution S (sending institution) and then transfers to Institution R (receiving institution) is said to have completed the Ohio Transfer Module portion of Institution R's general education program. Institution R, however, may have general education courses that go beyond its Ohio Transfer Module. State policy initially required that all courses in the Ohio Transfer Module be completed to receive its benefit in transfer. However, subsequent policy revisions have extended this benefit to the completion of individual Ohio Transfer Module courses on a course-by-course basis.

Clark State students completing the AA or AS degree requirements will have satisfied this Transfer Module unless program articulation agreements signed by other colleges and universities dictate otherwise.

English Composition

ENG 1111	English I	3
ENG 1112	English II	3

Oral Communication

COM 1120	Public Speaking	3
----------	-----------------	---

Mathematics

Complete a minimum of three semester hours chosen from the following:

MTH 1070	Quantitative Reasoning	3
MTH 1280	College Algebra I	4
MTH 1340	Pre-Calculus	5
MTH 2100	Calculus for Management, Life, and Social Sciences	5
MTH 2200	Calculus I	5
MTH 2220	Calculus II	5
MTH 2242	Multivariable Calculus	5
MTH 2430	Differential Equations	4
MTH 2530	Matrix Algebra	4
STT 2640	Statistics I	3

Arts & Humanities

Complete six semester hours by choosing three semester hours from Category A and three semester hours from Category B.

Category A

ART 1001	Art History I	3
ART 1002	Art History II	3
ART 1300	Appreciation of the Arts	3
ENG 1600	Introduction to Literature	3
ENG 2300	Great Books: World Literature	3
ENG 2500	American Literature	3
ENG 2610	British Literature to 1800	
ENG 2620	British Literature from 1800 to the Present	3
MUS 1130	Music Appreciation	3
THE 1130	Theatre Appreciation	3
THE 1133	Script Analysis	3
THE 2241	Theatre History I	3
THE 2242	Theatre History II	3

Category B

HST 1110	Western Civilization to 1600	3
HST 1120	Western Civilization Since 1600	3
HST 1210	American History to 1865	3
HST 1220	American History Since 1865	3
PHL 2000	Critical Thinking	3
PHL 2100	Ethics	3
PHL 2300	Medical Ethics	3
PHL 2400	Philosophy of World Religions	3

Social & Behavioral Sciences

Complete six semester hours chosen from at least two different subject areas from among the following:

ECO 1100	General Economics	3
ECO 2210	Principles of Macroeconomics	3
ECO 2220	Principles of Microeconomics	3
GEO 1100	Human Geography	3
GEO 2200	World Regional Geography	3
PLS 1100	Introduction to American Politics	3
PLS 1300	Introduction to Comparative Politics	3
PLS 2300	Introduction to International Relations	3
PLS 2400	State and Local Politics	3
PSY 1111	Introduction to Psychology	3

PSY 2223	Lifespan Human Growth & Development	3
PSY 2230	Abnormal Psychology	3
RST 2700	Regional Studies: Africa	3
RST 2800	Regional Studies of Latin America	3
SOC 1110	Introduction to Sociology	3
SOC 2220	Comparing Cultures	3
SOC 2230	Social Problems	3
SOC 2240	Racial and Cultural Minorities	3
SOC 2250	Sociology of Poverty: Feminization of Poverty	3

Natural & Physical Sciences

Complete one, two-course sequence in the same science or complete two courses from two separate content areas.

BIO 1410	Fundamentals of Biology	4
BIO 1420	Global Biology	4
BIO 1510	Biology I	5
BIO 1520	Biology II	5
BIO 2121	Anatomy & Physiology I	4
BIO 2122	Anatomy & Physiology II	4
CHM 1150	Introduction to General Chemistry	4
CHM 1160	Introduction to Organic and Biological Chemistry	4
CHM 1210	General Chemistry I	5
CHM 1220	General Chemistry II	5
GLG 1130	Earth and Space Science	4
GLG 1131	Physical Geology	4
GLG 1132	Historical Geology	4
GLG 1133	Environmental Geology	4
PHY 1100	Fundamentals of Physics	4
PHY 1200	Introduction to Astronomy	4
PHY 1501	General Physics I with Algebra	5
PHY 1502	General Physics II with Algebra	5
PHY 2501	College Physics I with Calculus	5
PHY 2502	College Physics II with Calculus	5

Transfer Assurance Guides

Transfer Assurance Guides (TAGs) comprise Ohio Transfer Module courses and additional courses required for an academic major called TAG courses. A TAG is an advising tool to assist Ohio university and community and technical college students in planning for specific majors and making course selections that will ensure comparable, compatible, and equivalent learning experiences across Ohio's public higher education system. A number of area-specific TAG pathways in meta-majors including the arts, humanities, business, communication, education, health, mathematics, sciences, engineering, engineering technologies, social sciences, and foreign languages have been developed by faculty teams.

TAGs empower students to make informed course selection decisions and plans for their future transfer. Advisors at the institution to which a student wishes to transfer should also be consulted during the transfer process. Students may elect to complete the full TAG or any subset of courses from the TAG. Because of specific major requirements, early identification of a student's intended major is encouraged.

Career-Technical Assurance Guides

Collaboration among the Ohio Department of Higher Education, the Ohio Department of Education, and other key stakeholders led to the development of policies and procedures to create statewide career-technical discipline specific articulation agreements and further ensure that students completing coursework at an adult or secondary career-technical institution can articulate and transfer agreed-upon technical courses/programs to any Ohio public institution of higher education and among Ohio public institutions of higher education "without unnecessary duplication or institutional barriers."

Career-Technical Assurance Guides (CTAGs) are statewide articulation agreements that guarantee the recognition of learning which occurs at public adult and secondary career-technical institutions and have the opportunity for the award of college credit toward technical courses/programs at any public higher education institution. CTAGs serve as advising tools, identifying the statewide content guarantee and describing other conditions or obligations (e.g., program accreditation or industry credential) associated with the guarantee.

Military Transfer Assurance Guides

In response to the legislative requirement (Ohio Revised Code 3333.164) to create a military articulation and transfer assurance guide for college-level learning that took place through military training, experience, and coursework, college credit will be granted to students with military training, experience, and/or coursework that is recognized by the American Council on Education (ACE) or a regionally accredited military institution, such as Community College of the Air Force.

In order to streamline the awarding, transferability, and applicability of college credit, service members and veterans are guaranteed to earn certain types of credit(s) or course(s) as specified in the Military Transfer Assurance Guides (MTAGs), which are based on the endorsed baseline standards and procedures by the Chancellor. Equivalent course(s), credits for courses, or block of credit is to be awarded and applied towards general education and/or major course requirements at the receiving institution in accordance with the MTAG guarantee. There is some training, experience, and coursework that the receiving institution may be able to award college credit only toward general or free electives.

In addition, public institutions of higher education shall ensure that appropriate equivalent credit is awarded for military training, experience, and coursework that meet the baseline standards and procedures according to the Ohio Revised Code 3333.164. This requirement goes beyond credit/course awarded based on the MTAG alignment process.

Apprenticeship Pathway Programs

The Apprenticeship Pathways initiative advocates for individuals completing apprenticeships by incorporating their learning into academic credit, thereby saving them time and money and encouraging them to advance their academic credentials to contribute to a strong, educated workforce.

Ohio apprenticeship programs partner with public two-year institutions to provide technology-specific statewide articulation agreements that recognize non-traditional prior learning. College credit is awarded toward a technical associate degree. Each agreement simplifies student advising by outlining how apprenticeship training in a certain pathway applies to an applied associate degree and lists remaining courses required to complete the degree. The application of the credit toward a technical associate degree in these agreements is guaranteed at the participating receiving institutions.

Advanced Placement (AP) Exams

The State of Ohio, working with public institutions of higher education, has initiated policies to facilitate the ease of transition from high school to college, as well as between and among Ohio's public colleges and universities.

Beginning in the Fall term 2009:

1. Students obtaining an Advanced Placement (AP) exam score of 3 or above will be awarded the aligned course(s) and credits for the AP exam area(s) successfully completed.
2. General Education courses and credits received will be applied towards graduation and will satisfy a general education requirement if the course(s) to which the AP area is equivalent fulfill(s) a requirement.
3. If an equivalent course is not available for the AP exam area completed, elective or area credit will be awarded in the appropriate academic discipline and will be applied towards graduation where such elective credit options exist within the academic major.
4. Additional courses or credits may be available when a score of 4 or 5 is obtained. Award of credit for higher score values varies depending on the institution and academic discipline.

In academic disciplines containing highly dependent sequences (Sciences, Technology, Engineering and Mathematics - STEM) students are strongly advised to confer with the college/university advising staff to ensure they have the appropriate foundation to be successful in advanced coursework within the sequence.

College-Level Examination Program (CLEP)

The State of Ohio, working with public institutions of higher education and statewide faculty panels, has

developed policies to recognize students' prior learning and to facilitate the articulation and guaranteed transfer of such learning between Ohio's public colleges and universities.

College credit is guaranteed for students who achieve an established College-Level Examination Program (CLEP) test score for exams that have been endorsed statewide as college level. Statewide faculty panels aligned CLEP exams to equivalent Ohio Transfer Module (OTM) and Transfer Assurance Guide (TAG) courses, as appropriate. If an equivalent course is not available for the CLEP exam area, by default, endorsed elective or area credit will still be awarded and applied towards graduation.

Specific endorsed alignments and scores for individual CLEP exams that are outlined in the College-Level Examination Program (CLEP) Endorsed Alignment Policies document are available on the Ohio Department of Higher Education website at <https://www.ohiohighered.org/transfer/clep>.

One-Year Option Credit Award

The One-Year Option builds upon Ohio's articulation and transfer system to help more adults accelerate their preparation for work by earning a technical associate degree. Consistent with the philosophy of the Career-Technical Assurance Guides (CTAGs), the One-Year Option guarantees that college credit will be awarded for college-level learning that occurs through adult programs at public career-technical institutions.

Adults who complete a career-technical education program of study consisting of a minimum of 900 clock-hours and achieve an industry-recognized credential approved by the Chancellor shall receive thirty (30) semester hours of technical course credit toward a standardized Associate of Technical Study Degree (ATS) upon matriculation at a public institution of higher education that confers such a degree. The 30 semester hours will be awarded as a block of credit rather than credit for specific courses. Proportional credit is to be awarded toward the ATS degree for adults who complete a program of study between 600 and 899 clock hours and achieved an industry-recognized credential approved by the Chancellor.

The credit earned through the One-Year Option will be applied to ATS degrees bearing the following standardized degree titles:

1. Associate of Technical Study in Building and Industrial Technology
2. Associate of Technical Study in Business Technology
3. Associate of Technical Study in Health and Allied Health Technology
4. Associate of Technical Study in Information Technology
5. Associate of Technical Study in Services Technology

Conditions for Transfer Admission

1. Graduates who are considered transfer students under the Integrated Postsecondary Education Data System (IPEDS) definition with associate degrees from Ohio's public institutions of higher education and a completed, approved Ohio Transfer Module shall be admitted to a public institution of higher education in Ohio, provided their cumulative grade-point average is at least 2.0 for all previous college-level courses and other institutional admission criteria, such as space availability, adherence to deadlines, payment of fees, and grade-point average that are fairly and equally applied to all undergraduate students, have also been satisfied. Further, these students shall have admission priority over graduates with an out-of-state associate degree and other transfer students with transferable and/or articulated college credit.
2. Associate degree holders who are considered transfer students under the IPEDS definition and have not completed the Ohio Transfer Module from an Ohio public institution of higher education will be eligible for preferential consideration for admission as transfer students as long as the institution's admission criteria, such as the minimum academic standards, space availability, adherence to deadlines, and payment of fees, are fairly and equally applied to all undergraduate students.
3. In order to encourage completion of the baccalaureate degree, students who are not enrolled in or who have not earned a degree but have earned 60 semester/90 quarter hours or more of credit toward a baccalaureate degree with a cumulative grade-point average of at least a 2.0 for all previous college-level courses will be eligible for preferential consideration for admission as transfer students as long as the institution's admission criteria, such as the minimum academic standards, space availability, adherence to deadlines, and payment of fees, are fairly and equally applied to all undergraduate students.
4. Students who have not earned an associate degree or who have not earned 60 semester/90 quarter hours of credit with a grade-point average of at least a 2.0 for all previous college-level courses will be eligible for admission as transfer students on a competitive basis.
5. Incoming transfer students admitted to a college or university shall compete for admission to selective programs, majors, and units on an equal basis with students native to the receiving institution.

The admission of transfer students by an institution, however, does not guarantee admission to any majors, minors, or fields of concentration at the institution. Some programs have additional academic and non-academic requirements beyond those for general admission to the institution (e.g., background check, a grade-point average higher than a 2.0, or a grade-point average higher than the average required for admission to the institution). Once admitted, transfer students shall be subject to the same regulations governing applicability of catalog requirements as native students. Furthermore, transfer

students shall be accorded the same class standing and other privileges as native students on the basis of the number of credits earned. All residency requirements must be completed at the receiving institution.

Responsibilities of Students

To maximize transfer credit application, prospective transfer students must take responsibility for planning their course of study to meet both the academic and non-academic requirements of the institution to which they desire to articulate or transfer credit as early as possible. The student is responsible to investigate and use the information, advising, and other available resources to develop such a plan. Students should actively seek program, degree, and transfer information; meet with an advisor from both the current and receiving institutions to assist them in preparing a course of study that meets the academic requirements for the program/degree to which they plan to transfer; use the various electronic course/program transfer and applicability database systems, including Ohio Transfer to Degree Guarantee web resources; and select courses/programs at their current institution that satisfy requirements at the receiving institution to maximize the application of transfer credit. Specifically, students should identify early in their collegiate studies an institution and major to which they desire to transfer. Furthermore, students should determine if there are foreign language requirements or any special course requirements that can be met during the freshman or sophomore year. This will enable students to plan and pursue a course of study that will better articulate with the receiving institution's major.

Appeals Process

Following the evaluation of a student transcript from another institution, the receiving college institution will provide the student with a Statement of Transfer and Articulated Credit Applicability (Degree Audit Report). A student disagreeing with the application of transfer and/or articulated credit by the receiving institution must file his/her appeal in writing within ninety (90) days of receipt of the Statement of Transfer and Articulated Credit Applicability. The institution shall respond to the appeal within thirty (30) days of the receipt of the appeal at each appeal level.

Student Complaints Following Transfer Appeals at the Receiving Institution

After a student exhausts the appeals process at the receiving institution and chooses to pursue further action, the Ohio Department of Higher Education (ODHE) responds to formal written complaints related to Ohio Articulation and Transfer Policy against public, independent non-profit, and proprietary institutions of higher education in Ohio. While the ODHE has limited authority over colleges and universities and cannot offer legal advice or initiate civil court cases, staff will review written complaints submitted through its established process and work with student complainants and institutions.

Students should check with their success coach to ensure that the courses selected are appropriate for the major and the transfer institution selected and that they are consistent with the minimum graduation requirements of this institution. Also, check the College catalog for any prerequisites required.

Transfer Credits to Clark State

Students can be granted credit toward a degree at Clark State for work completed at other regionally accredited colleges and universities for courses with a grade of C or better (D or better for courses completed Fall 2005 or later). Some credits may not apply to specific degree programs. The credits must have been earned within a certain time period to be considered current and acceptable. An official transcript needs to be submitted from each college where credits were earned. Transfer credit is evaluated on a course-by-course basis once students have applied to Clark State. Until they are notified of their transcript evaluation, students are responsible for not duplicating courses for which they may obtain transferable credit.

Applicable technical and basic courses taken within the last five years generally will be accepted to meet program requirements. Some technologies have more stringent requirements. Contact the academic school in order to determine what requirements apply.

If students change their major while attending Clark State, they should ask the Records and Registration Office to re-evaluate their transcript for additional transfer credits. Those credits required by the new major will be considered toward degree completion. Transferred credits are counted in the cumulative hours completed but are not counted in the cumulative grade point average. Decisions regarding acceptance of transfer credit are made by academic school deans and the Transfer Evaluation Specialist. If students disagree with a decision, they may follow the appeals process. The appeals process begins with the completion of the Appeal for Credit form located in the Records and Registration Office.

Student Services

Experience everything Clark State has to offer! From financial aid and scholarship opportunities to career planning and tutoring services, successful students take advantage of Student Services.

Getting Started - The Admissions Process

Clark State College is committed to providing each student with the maximum opportunity to develop and learn. As such, we adhere to an Open Admissions policy.

Admission to the College does not ensure admission to a particular program of study. Many technologies have established additional requirements that must be fulfilled prior to acceptance. All prospective applicants are encouraged to contact the Admissions Office for specific information.

Some students may need additional coursework in science, mathematics, and English prior to enrollment in certain courses and programs. Such coursework is determined through a review of a student's past academic record or through the ACCUPLACER Placement Test. While all associate degree programs can be completed in two years of full-time study, it may take longer for some students. This is particularly true if the student is attending on a part-time basis or if the student needs to take college preparatory courses.

Once the student has decided Clark State is the right college for them, there are a few things they need to do to get started.

Apply for Admission

Complete the Clark State admission application online at www.clarkstate.edu. Students interested in applying to the College are encouraged to submit applications early. Completed applications are required for both full-time and part-time students. If students have questions, they may contact the nearest location or e-mail admissions@clarkstate.edu.

Students will be accepted into the College after their completed application has been received by the Admissions Office. Students applying to health programs must also complete additional admissions requirements as noted in the section on Space Limited programs. Students applying to the Realtime Court Reporting programs must submit a high school transcript upon graduation or GED certificate.

Applicants are notified of their acceptance within three business days of the Admissions Office receiving their application. All admission procedures apply to both full-time and part-time students.

Apply for Financial Aid

If students need help paying for their education, they can complete a FAFSA (Free Application for Federal Student Aid). If students have questions, they may visit the nearest location or email financialaid@clarkstate.edu.

Send Transcripts

Students need to send their high school and/or other college transcripts or their General Education Diploma (GED) if:

- Students have previous college credits to transfer into Clark State, or they are registering for a class that requires prerequisites, the College will need an official copy of their college transcripts.
- Students are entering either of the Realtime Court Reporting program options, they must submit their high school transcripts.

High school and/or other college transcripts should be sent to the nearest location.

If students deliver their college transcripts in person to any location, the transcripts must remain sealed in their original envelopes to retain their "official" status.

Take the ACCUPLACER Placement Test

If students are entering a degree or certificate program at the College, they may be required to take placement tests in reading, writing, and mathematics before they register for their first courses. If students are a recent high school graduate, they may be able to use their high school transcripts to bypass all or part of the placement test. To determine if they are eligible, students may call 937.328.6049 or email successcenter@clarkstate.edu. This test will determine the level of classes in which students will have the most success during their first term at Clark State.

A scheduled appointment is required for testing. Allow three hours to take the tests. Testing may not be necessary if students have transfer English and math college courses or adequate ACT or SAT scores (see below). If they are enrolling exclusively in non-credit courses they do not need to take the test.

Paper, pencil, and calculator will be provided. Personal calculators may not be used. A study guide is available at all locations or online at www.accuplacer.org/students.

Most often, students' placement test results will remain valid for three years. Initial placement tests are free of charge. The first retest is allowed seven (7) days after the initial test. All subsequent retests are permitted 120 days from the most recent test. The Retest fee is \$15.

Students' transcripts or scores must be on file at the time of registration. Students will be required to bring a valid photo ID and their acceptance letter.

If students have a documented disability (either a physical or learning disability) and need special accommodations for taking the placement tests, they may make arrangements in advance with the Office of Accessibility Services, 937.328.6019 or 937.431.7155.

To schedule an appointment to take the placement test, students may contact the nearest location:

- Leffel Lane Campus, Springfield: Student Academic Support Center, Rhodes Hall first floor, 937.328.6049 or springfieldtesting@clarkstate.edu

- Beaver creek location: Success Center, Room 121, 937.429.8921
- Bellefontaine location: Ohio Hi-Point Career Center, 937.599.7602
- Xenia location: 937.431.7171

As an open admissions institution, Clark State does not require college entrance exams. However, if students are currently in high school, they are encouraged to take either the ACT or SAT, especially if they will be transferring to a four-year college to complete a bachelor's degree. The following scores on these tests will exempt students from having to take initial placement tests:

Students are excused from mathematics/algebra placement testing if they have received the following mathematics scores in the last three years: 22 ACT or 520 SAT.

Students are excused from placement testing in reading if they have received the following Reading scores in the last three years: 21 ACT or 450 SAT.

Students are excused from placement testing in writing if they have received the following English scores in the last three years: 18 ACT or 430 SAT.

Students with mathematics scores of 23 ACT or 700 SAT are eligible for mathematics proficiency tests.

Students with English scores of 23 ACT or 670 SAT are eligible for English proficiency tests.

If students recently graduated from high school or recently earned their GED they may be able to bypass parts of the placement test. To see if they qualify, students can call 937.328.6049 or email successcenter@clarkstate.edu.

Attend Orientation

Orientation will help students navigate their education at Clark State and assist them in making the transition to a college environment. Orientation will allow students to explore and utilize pertinent campus resources, services, and technologies. They will have the chance to meet other new students and staff. They can register for orientation online at www.clarkstate.edu or by calling 937.328.6084 for the Springfield Campus or 937.429.8819 for the Beaver creek location. If they are a fire or police academy student, they do not have to attend orientation. Online orientation will be available to students in myClarkState as soon as their application is processed. Once online orientation is complete, students can setup their first advising appointment.

Students will complete the following at orientation:

- Meet with a success coach who will help them register for classes.
- Pick up their new student ID.
- Obtain their schedule from any of our locations.
- Pay for or arrange for payment of their classes at the

Cashiers Office in Springfield or Beaver creek. Credit card payments may be made in person, by calling 937.328.6048 or 937.429.8819, or online through Self-Service.

- If they need help paying for their classes, students can meet with financial aid specialists to find out how to apply for federal student aid and what types of aid may be available. If they are receiving financial aid to help pay for their books, they must bring photo ID. Check the online calendar for dates when bookstore allowances can be used.

Obtain A Student ID

Students may obtain their ID at the Library in the Sara T. Landess Technology and Learning Center, Room 122 or at the Greene Center Information Desk beginning the first day of the term. Students can check the online calendar for dates when financial aid allowances are open.

Student Types

Adult Student

School is probably just one of many responsibilities that students will have to keep track of during their normal day. Clark State will work with students' busy schedule by offering flexible day and evening class schedules at our four campus locations or online with over 250 courses offered each semester, so that they can maintain their career, family, and home. Clark State offers over 125 degrees and certificates both credit and non-credit that will assist students with their transition into college or help them start on the path to a new career. We encourage students to take full advantage of our services for adult students that include academic advising, career exploration, financial aid and scholarships, and veterans services to name a few. Additional information on entrance requirements and services can be obtained at any of our locations or admissions@clarkstate.edu.

High School Student

High school students have a variety of options to earn college credits before they graduate. To learn more about becoming a Clark State student while still in high school, students should contact their high school counselor. If students have additional questions, they may contact the nearest location or email admissions@clarkstate.edu.

College Credit Plus Program (CCP)

The College Credit Plus Program provides 7th through 12th grade students who are academically ready for college with a chance to start college early. The program is intended to provide students with a more rigorous academic schedule while earning both high school credit and college credit simultaneously in a variety of subjects. After graduating from high school, CCP

students can use their CCP credits to continue their education at Clark State to complete a certificate, an associate degree, or a bachelor's degree, or they can transfer their credits to another college or university. This program is free for all public high school students who participate. College Credit Plus is offered in a variety of modalities for students: in the high school (where approved), online, and on campus.

Clark State has created partnerships with local high schools by offering college level courses at their location taught by appropriately credentialed high school instructors to high school students who meet the required course requirements. All CCP course final grades will be based on the final letter grade the student receives in the college course offered at the high school. Grades will be calculated according to the high school instructor's standards and will also be the grade recorded on the student's official college transcript. High school instructors and counselors can help students decide if the classes they are taking meet the Clark State requirements for credit and can facilitate their enrollment. The Admissions Office can provide additional information and entrance requirements.

CCP students can also take courses online or at Clark State's Springfield, Beavercreek, Bellefontaine, or Xenia locations. CCP students on a Clark State campus will experience a positive college environment with personal attention in the classroom with our small class sizes. If students are ready for the college experience, Clark State is a great place to begin!

All CCP students must complete the online College Credit Plus Program application by going to www.clarkstate.edu and selecting "Apply Online." CCP students must then select "Apply for High School Programs" to complete the application. CCP students must submit either ACT, SAT or ACCUPLACER Placement test results to determine eligibility for acceptance into the program and course enrollment as well as attend a CCP orientation session.

Clark State now offers a scholarship for those students who complete 30 credit hours or more in the CCP Program with a 3.0 cumulative GPA who attend Clark State upon graduation. This scholarship could cover the remaining tuition needed to complete a degree at Clark State!

High school students who are not enrolled in the CCP Program and are seeking to enroll at Clark State should refer to the Jump Start Option instructions.

College Tech Prep

Tech Prep is the national initiative which creates curriculum pathways between high schools and career centers and colleges. Clark State is part of the Northwest Ohio Tech Prep Regional Center. Students in career technology programs and area high schools may receive college credit for their high school technology training. Clark State has articulations with high schools as well as career centers and their satellite locations in

Clark, Champaign, Logan, Hardin, Union, Montgomery, and Greene counties.

Clark State offers pathways in:

- Agriculture/Landscape/Turf Management
- Animal Science
- Business Technologies: Accounting, Marketing
- Computer-Aided Design
- Criminal Justice
- Digital Media
- Diesel Technology
- Early Childhood
- Engineering Technologies
- Financial Services
- Geographic Information Systems (GIS) and Geospatial Technologies
- Graphic Design
- Health Occupations/Nursing/Physical Therapy Assistant
- Heating, Ventilation, Air Conditioning and Refrigeration
- High School of Business
- Interactive Media
- Medical Assisting
- Networking
- Office Administration
- Project Lead the Way
- Supply Chain Management
- Software Design
- Welding

Clark State also offers an Associate of Technical Studies degree for students whose technical skills are not offered in a specific technical degree program. This is offered to career center and high students in career tech programs such as carpentry, cosmetology, and others.

A great opportunity for all high school career tech students is the \$3,000 George Mueller Tech Prep Scholarship. This is open to all qualified Tech Prep students in career centers and high schools graduating with a 2.25 GPA or better.

Jump Start Option

High school students who are not participating in the College Credit Plus (CCP) Program can still enroll in college classes on Clark State's campus while in high school. Students interested in this option must apply and meet all necessary prerequisites and co-requisites for all Clark State courses. All costs associated with attending college classes under this option are the responsibility of the student and their parents or guardian.

New Student

Students who have never attended a college will need to take the placement test, provide ACT/ SAT scores, or Ohio high school transcript, and attend orientation. Students who need additional academic support may be referred to a local ASPIRE or adult literacy program.

Transfer Student

If students are transferring from a regionally accredited college or university, they need to submit official college transcripts for courses they want evaluated for transfer credit. Official transcripts must be mailed directly from the college to Clark State College, P.O. Box 570, Springfield, OH 45501, or hand-carried, sealed and unopened, to a Clark State location.

Active Duty Military Personnel

If students are military personnel with active orders, they are eligible for a reduced tuition rate of 50%, not including fees. Spouses of active duty military personnel are eligible for a 25% reduced tuition rate. Students may take the required general education courses at Clark State and transfer them back to the Community College of the Air Force (CCAF) and apply them to their associate degree. Students may also transfer their credits from CCAF to one of the many Clark State degree programs.

Students may choose to begin their bachelor's degree by completing an Associate of Arts or Associate of Science transfer degree at Clark State. They may opt to complete one of our fail-safe transfer degrees and begin as a junior at Wright State University. Or, they may complete the Transfer Module set of courses and transfer those courses to the college/university of their choice.

The admissions staff will not make multiple unsolicited contacts (3 or more), including contacts by phone, email, or in-person, or engage in same-day recruitment and registration for the purpose of securing Service member enrollments.

For more information, call the Beavercreek location at 937.429.8819 or Springfield Campus at 937.328.6462.

Veteran

Students that are veterans or a dependent of a veteran, may qualify for educational benefits. Students that have served in the military, Selected Reserve, or National Guard, financial assistance for college may be available. An academic advisor specializing in educational benefits for veterans will assist students who qualify for this type of assistance to cover the expense of college tuition.

Advisors will help students complete the appropriate VA forms to receive educational benefits and provide important information on what must be done to maintain the benefit while taking classes at Clark State.

For more information or to receive personal assistance, students may contact Veteran Services at 937.328.6462.

Prior Learning

Earn credit for prior learning! Students with years of work experience, may be closer to a college degree than they may think! Clark State can help students apply their experience, knowledge and skills toward a degree, which could save them time and money.

Prior Learning Assessment (PLA) is a process that enables learners to demonstrate what they have learned and translate that learning into college credit. PLA validates knowledge acquired through life experience, work experience, military experience, civic engagement, individual study, reading and participation in classes or training sponsored by business and industry, professional organizations and/or government agencies. Credit is awarded for college-level knowledge gained from experience and not for the experience itself. College-level learning is validated through PLA when learners prove their mastery of the knowledge, skills, competencies and abilities in a specific area of study offered by the college.

For more information, students may contact Academic Affairs at 937.328.3867.

Mature Citizen

Ohio residents who are 60 years of age or older, may enroll in college credit and non-credit classes on a space-available basis. Instructional and general fees are waived. In addition to course enrollment, they will have the opportunity to use the College facilities and educational services. We also encourage mature citizens to take part in student activities.

International Student

Clark State is authorized under federal law to accept non-immigrant (F-1 visa) students. Students wishing to enroll under this immigration status must apply through the Admissions Office following the instructions and guidelines on our website, www.clarkstate.edu/international. The following documents are required:

New Student (Students currently living in their home country)

International Student Application: Please print clearly. Be sure the name on the application is spelled the same as the name in the passport. This application can be found on our website, www.clarkstate.edu/international_admissions.

A photocopy of passport: Pages with identification information and expiration date.

Proof of Graduation from High School: Original or certified copies of official diploma or certificate from each high school translated in English.

Evidence of English Language Proficiency (waived for students whose native language is English): Applicants must present evidence of their level of English language proficiency. Any of the methods below can be used to satisfy this requirement:

- **Test of English as a Foreign Language (TOEFL):** The applicant must attain a score of at least 60 on the Internet-based test or 500 on the paper-based test. Applicants applying from abroad must submit an official TOEFL score report to the College. The TOEFL code for Clark State College is 1127.

- International English Language Testing System (IELTS): The applicant must attain an overall IELTS Band Score of 5.0 or better.
- Official transcripts from a previous U.S. college or university showing a grade C or better in college/university-level English courses. This does not include English as a Second Language.

Please note: Regardless of TOEFL or IELTS scores, all new students are required to take the ACCUPLACER placement test upon arrival at Clark State College.

Evidence of Financial Support: The student and their sponsor(s) must complete the Statement of Financial Support, which states that there are sufficient funds available to cover educational and living expenses, estimated at \$25,200 per year.

IMPORTANT: the student's sponsor MUST also provide current financial documentation such as bank statements, employment/salary letters, tax returns, etc. The documentation must be less than six months old, include the sponsor's name and signed by the appropriate bank or government official.

Transfer Student (Students transferring from another U.S. institution)

Complete and submit the following:

- All documents required for a New Student under the International Student Admission.
- Form I-20: Copies of current and all previous I-20s.
- A photocopy of the passport: Pages with identification information and expiration date.
- A photocopy of the current Visa in the passport.
- If eligible, the transfer form will be made available after all admission documents have been received.
- The student and their DSO at their current institution must complete this form.

Concurrent Student (Students concurrently enrolled at their U.S. home institution and Clark State College):

Complete and submit the following:

- International Student Application. Please print clearly. Be sure that the name on the application is spelled the same as the name in the passport.
- Copy of current I-20.
- Copy of VISA.
- Transcript(s) from current U.S. college or university.

Please note: If the transcript does not show the necessary course prerequisite(s), students may be denied approval to register for a specific course.

Clark State will issue an I-20 for an F-1 student visa only after the necessary documents have been received and evaluated.

Incomplete application packages will not be processed. Failure to submit the documents as required will result in a delay of processing.

Fresh Start

Students that re-enroll after an absence of three or more consecutive academic years, may petition the Records and Registration Office to eliminate the progress and transcript GPAs of their previous enrollment. Any courses in which students received a C or better will be counted in the "hours earned" but not in the GPA. To qualify students must have a cumulative progress GPA of 2.5 or less prior to readmission. In addition, the student must have at least 30 semester hours remaining before completing a bachelor's degree, fifteen semester hours remaining before completing an associate degree and/or at least twelve semester hours remaining before completing a one-year certificate. A Fresh Start can only be used once and cannot be applied to the coursework of a degree or certificate that has already been conferred. A Fresh Start will not change the academic progress calculation for financial aid purposes of warning or suspension. For more information about Fresh Start and eligibility, students may contact the Records and Registration Office at 937.328.6015.

Re-Admission

When students return to Clark State after three years or more, they will need to update their student information in the Admissions Office. Students who interrupt their attendance for four or more consecutive semesters and later return must meet the curricular requirements in place at the time of their return. Technical and basic courses taken prior to any interruption may have to be re-evaluated. Those that were taken in the last five years generally will still meet graduation requirements. However, some technologies may have more stringent requirements. Students should contact their academic school to determine the acceptability of previous courses.

Courses that were taken more than five years ago will be evaluated on an individual course basis. Courses taken more than seven years ago will be evaluated for acceptability by the academic school dean.

If students want to re-enter a health program, they should also contact the Health, Human and Public Services School for additional reinstatement requirements.

Students enrolling after an absence of three or more consecutive years may wish to investigate the Fresh Start option.

English Proficiency

If students wish to test out of English 1111, they will need to complete a three-hour exam. This exam will include a written essay and a multiple-choice test which has been prepared by the English faculty at Clark State. This test is not available to students who are currently enrolled in English 1111, or have previously taken ENG 1111 at Clark State with a grade of A, B, C, D, F, W, or Z. Proficiency testing is not available for English 1112.

Students should take the test before the end of midterm week of the term before they plan to be registered for the class. For Fall Semester, the test should be taken in the spring. To take this exam, follow the process for obtaining prior learning credit.

Space-Limited Programs

Some programs offered at Clark State are restricted in the number of students who can be admitted each year. These space-limited programs are Medical Assisting, Medical Laboratory Technology, Physical Therapist Assistant, Practical Nursing, Registered Nursing, Nursing Transition (Practical Nursing to Registered Nursing, Paramedic to Registered Nursing), Diagnostic Medical Technology (Pending Approval), and the health programs offered through the Northwest Ohio Allied Health Education Consortium (Respiratory Care, Radiographic Imaging, and Occupational Therapy Assistant programs).

Health Technologies Admissions

Applicants for Health Technologies programs must submit a program-specific petition/application request. Students must fulfill the prerequisites as listed prior to petitioning/applying to a health program. High school applicants for these programs are encouraged to apply for admission to the College in their junior or senior year.

Entry into some of the health programs is competitive and based on academic achievements.

All applicants must meet the required cumulative grade point average and academic requirements for the respective program prior to applying. College preparatory courses and other courses, which are not listed as part of the curriculum, are not typically included in calculating the cumulative GPA.

Transcripts are reviewed prior to sending acceptance letters for these programs and prior to the beginning of the technical courses. Applicants must have the required grade point average in order to be eligible for acceptance into the program.

Non-space limited healthcare certificates and AA, AAS, AS, and ATS degrees are available. Students interested in completing one of the certificates or degrees while waiting to enter a space-limited program should contact an academic advisor for guidance. Students should also contact the Financial Aid Office to determine the impact pursuing an additional certificate or degree might have on their financial aid eligibility.

Physical Therapist Assistant

Students must obtain the PTA Program Application Handbook from the Admissions Office, Health and Human Services School Office, the Greene Center, or online, and complete an application to enter the PTA program. Students must refer to PTA program information pages in the Catalog and the PTA Application Handbook for information and take the following steps:

- Demonstrate a minimum 2.5 cumulative grade point average (GPA) for all required courses in the curriculum, regardless of where the course were completed.
- Have a minimum 2.0 cumulative Clark State institutional GPA.
- Successfully complete reading, writing, and math placement tests or equivalency prior to applying.
- Successfully complete or be currently enrolled in course to complete the biology and physics prerequisites prior to applying.
- Complete 60 hours of observation.

Acceptance into the PTA program is a competitive admission process. Applications are accepted in the Health and Human Services School Office, Applied Science Center, Room 133 or at the Greene Center between December 1-February 1 of each school year. Students are entered into the program once a year in the Fall Semester. Admission notifications are made in March or April of each year.

Medical Assisting

Students must successfully complete reading, writing, and math/algebra placement tests or obtain a grade of C or better in the appropriate college preparatory or college-level course prior to petitioning for the program.

After the petitioning requirements have been completed, students must petition for the program online. Students who have met the petition requirements and submitted a petition are eligible to start the Medical Assisting program's technical (MAS) course sequence. They must contact the Medical Assisting program coordinator for academic advising and approval to enroll in the MAS courses.

Medical Laboratory Technology

Students must successfully complete reading, writing, math, and algebra placement tests or obtain a grade of C or better in the appropriate college preparatory or college-level course prior to petitioning for the program.

After the petitioning requirements have been completed, students must petition for the program online. Students are entered into the program once a year in Fall Semester based on the date of their approved petition request. Space limitations do not apply to distance students who complete lab sessions at out-of-area, off-campus sites.

Practical Nursing

Students must successfully complete the reading, writing, math, and algebra placement tests or equivalency prior to petitioning to the program. Refer to program information for equivalencies. After the petitioning requirements have been completed, students must petition for the program online. The number of students that can be admitted to the program each year is restricted due to the limited availability of clinical sites. All applicants are considered for admission by the date in which they complete all petitioning prerequisites and file a petition online to be placed on the waiting list.

Students must successfully complete MST 1181 or an equivalent nurse aide training course and furnish verification of nurse aide competency at the time of enrollment in the technical courses. MST 1181 is not a requirement for the waiting list.

Registered Nursing / Nursing Transition (Paramedic to RN; LPN to RN)

The Registered Nursing (RN) program is space limited and has a competitive admission process. Application to the program does not guarantee admission. To be considered for acceptance into the RN Program, students must:

- Complete application to the college, declaring RN as their major.
- Provide official high school transcripts or GED certificate and official transcripts from all previously attended colleges/universities to the Admissions Office if needed to demonstrate completion of admission requirements, prerequisites, or curriculum courses.
- Demonstrate a minimum 2.5 cumulative grade point average (GPA) for all required courses in the curriculum, regardless of where the courses were completed.
- Have a minimum 2.0 cumulative Clark State institutional GPA.
- Complete TEAS (Test of Essential Academic Skills)
- Complete reading, writing, math, and algebra placement tests or equivalency (refer to nursing program information for equivalencies) if needed.
- Have high school or college chemistry or biology

Lab course (refer to nursing program information for more specific information).

- Have current STNA certification or MST 1181 completed, in progress, or planned for completion prior to starting nursing courses (not required for LPN to RN).

Completion of the above minimum requirements and application to the program does not guarantee admission. Entry to the nursing program is competitive and based on academic achievements. Applications are

reviewed and scored using a rubric. Applicants with the highest points will be offered admission to the program. If spaces are not available for all applicants with the same score, these applicants will be ranked by the dates and times their applications were received.

Northwest Ohio Allied Health Education Consortium Programs

Students submit their program application to Rhodes State College. Refer to the programs and majors area on Clark State's web site for application requirements.

Diagnostic Medical Sonography (Coming Fall 2020)

The Diagnostic Medical Sonography (DMS) program will be space limited and have a competitive admissions process. The anticipated application deadline will be October 15, 2020 for the start of technical courses in the DMS program in the following spring semester. When available, applications will be accessible on the program page of the College website, through success coaches and at the Xenia location.

Reinstatement for Health Programs

If students withdraw from or do not continue in the technical courses in a space-limited program and wish to re-enter, they should contact the Health, Human, and Public Services School for a copy of the program-specific Reinstatement Policy.

Students who wish to re-enter are required to have at least a 2.0 cumulative grade point average in courses required for the program before the reinstatement request will be considered. Transcripts are reviewed on an individual basis prior to accepting students for reinstatement. Students may be required to demonstrate competency in previously completed courses and some courses may need to be repeated. If reinstatement criteria are met, eligible students are reinstated on a space-available basis. Reinstatement is not guaranteed.

Degrees or Certificates Leading to Professional Licensure or Certification and/or Participation in Clinical Placement, Internships or Practicums

Students who are pursuing degrees or certificates leading to application for professional licensure or certification and/or who will be participating in clinical placements, internships, or practicums through their program should be aware that their host facility may require a criminal background check, finger printing, and/ or drug screening. In such situations, each student is responsible for obtaining and paying for the background check or other screening process. Although the College will make reasonable efforts to place admitted students in field experiences and internships, it will be up to the host facility to determine whether a student will be allowed to be placed at that facility. Host facilities may consider expunged convictions in placement decisions. Students shall further be aware that a criminal record may jeopardize licensure by

the state certification body. Students should consult the licensing or certification body corresponding to their intended occupation for more details. Successful completion of a program of study at the College does not guarantee licensure, certification, or employment in the relevant occupation. Standards may change during a student's program of study.

Academic Advising

Academic advising is a shared responsibility between the student and success coach. The student and success coach collaborate to develop, follow and complete an academic plan for the first two semesters. New students are expected to begin their academic program by discussing goals with a success coach. First-term students, should attend New Student Orientation for placement test score interpretation and first term scheduling assistance.

Success coaches can help students by answering questions about how to obtain the necessary information to complete a program of study. It is recommended that students develop both short and long-term plans and discuss those with their success coach. The success coach's role is to discuss options and offer advice regarding academic programs of interest.

After completing the application process and either taking the ACCUPLACER placement test, or after transcripts from previous institutions have been received and reviewed, success coaches can provide guidance with term scheduling.

Students with transfer credit from another college should have official transcripts sent to the College, and should also have an unofficial copy in hand when they meet with a success coach.

During the advising session in or after New Student Orientation, success coaches will review the specific requirements for completion of the student's academic program. The program requirements can also be found on the Clark State website.

Priority registration provides current students with first choice of classes. It is highly recommended that current students take advantage of this opportunity and work with their success coach to make appropriate course selections.

New students will meet with their success coach for their first two terms after which time they will transition to their programmatic faculty advisor. Health majors may work with their success coach until they have been admitted into their program.

If students do not know the name of their success coach, they may contact the nearest location or email at advisors@clarkstate.edu.

Registration Information

New students should attend New Student Orientation before registering for classes. Students will meet with a success coach for scheduling.

Returning students, should contact a success coach for registration assistance.

Priority registration is for students who are currently enrolled at the College and those students enrolled any of the four previous semesters. This system gives students registration priority based on the number of credit hours earned. Open registration is for new and returning students.

Veteran (Proof of Veteran status or a Military ID Required), students will have priority registration on the first day registration opens for a semester.

Information about when to register for classes is found on the college calendar at www.clarkstate.edu.

Appeals for Transfer Credit

Students disagreeing with their application of transfer credit by Clark State shall be informed of the right to appeal the decision and of the process for filing the appeal. The Records and Registration Office shall make available to students the appeal process for Clark State. Students must complete the Transfer Credit Appeal form located in the Records and Registration Office.

The appeal form is forwarded by the Records and Registration Office to the appropriate academic dean. The appropriate academic dean evaluates or re-evaluates the course(s) and returns the decision to the Records and Registration Office. The Records and Registration Office contacts the student regarding the decision.

If student are not satisfied with the decision, they may appeal to the Vice President of Academic Affairs. The Vice President of Academic Affairs has the final decision for all academic matters.

Auditing a Course

If a student audits a course, they will not receive a grade or credit. Students will be permitted to attend classes, but will not be required to take exams. The fee for auditing is the same as for credit. Audit status is not convertible to credit status nor is credit status convertible to audit status once the registration has been completed. Students using Veteran's benefits or receiving financial aid may not audit classes.

Change of Major

Students who decide to change or add a major must complete a Change of Information form and meet with a success coach/faculty advisor for approval.

Credit-Hour Limit

Students may enroll for a maximum of 20 credit hours per term during the regular academic year. They must have the approval of their academic school dean to enroll in more than 20 credit hours.

Credit/No-Credit Enrollment

Students may petition the Records and Registration Office for permission to take one course each term on a credit/no-credit (CR/NC) basis for a maximum total of six courses. Two of these courses may be selected from general education offerings, two courses that are basic to a major, and two from the technical courses.

Students may make their choice at the time of registration. Once the term has begun, they cannot change back to the standard grading system. Instructors will not know of the student's decision. At the end of the term, a grade of C or better is converted to CR and a grade of D or lower is converted to NC. Grades of CR or NC are not included when computing the grade point average, however, the CR grade credits will be added to hours completed.

Dropping Courses

If for any reason a student cannot complete a course, they must officially withdraw from the course. Even if the student never attended a course that they registered for, they must officially drop/withdraw, or a grade may be assigned. To drop/withdraw a course, a student must complete and submit a drop form in accordance with College policy. To drop/withdraw after the 15th day of the term, they need to contact a success coach to formalize the process. The official published dates to drop/withdraw from a course are on the College calendar.

Grades will be reflected on transcripts as follows for a regular 16-week term:

- If the course is dropped on or prior to the 15th calendar day of the term, the work attempted will not be counted and no notation of the enrollment will appear on the transcript.
- If the course is dropped after the 15th calendar day of the term through the published date indicating completion of 70 percent of the term, the grade of W will appear on the transcript.
- If the course is dropped after the published date indicating completion of 70 percent of the term, the earned grade will be recorded.
- Students who do not attend class by the 15th day of the term will be administratively dropped for non-attendance. The course will not be counted and no notation of the enrollment will appear on the transcript.
- Students who stop attending class prior to completion of 70 percent of the term, but fail to officially withdraw from the course will receive a grade of UW (unofficial withdraw).

The last date to withdraw from a 16-week term course and receive a grade of W is available on the online calendar. For the last date to withdraw from courses that run for less than a full semester, students may contact the Records and Registration Office. Registration/Add/Drop forms are available from academic schools, advising offices, Records and Registration and the Beavercreek, Bellefontaine and Xenia locations. Students can also drop courses online. Rules regarding assignment of grades still apply. If a student decides to withdraw from a class and has any form of financial aid, they should consult with the Financial Aid Office prior to the withdrawal to determine what effect it will have on their financial aid awards and eligibility status. If a student receives Veteran's benefits and drops a class or withdraws from all classes, it is their responsibility to notify the Veteran's Certifying Official in the Records and Registration Office, Sara T. Landess Technology and Learning Center, Room 114, 937.328.6462. Courses dropped anytime during the term could result in an over-payment dating back to the first day of the term.

Repeating Courses

Students may repeat any course at the College one time without having to request permission. Permission to take courses a third or more times must be obtained from the dean of the academic school responsible for their program of study. If enrolled in a health sciences program, they must also abide by the program-specific, published regulations about re-enrolling in courses.

A course that is re-taken will count only once toward graduation requirements. All grades will appear on the transcript. For a course taken two or more times, the last grade earned will be included in both the Progress and Transcript GPAs.

For students using federal student aid, a course can be included in financial aid eligibility one time after the course has been completed with a grade of "D" or higher.

SOCHE Cross-Registration Program

Students who are regularly enrolled at Clark State or any other Southwestern Ohio Council for Higher Education (SOCHE) institution, may be eligible to register for classes offered by another SOCHE institution at no additional charge on a space-available basis. Information on the eligibility requirements, registration procedures, a list of the colleges and universities participating in the SOCHE cross-registration program, and the Cross-Registration application are available in the Records and Registration Office and on the web at www.soche.org/cross-registration/.

Ways to Register

Students can register online through Student Planning on the myClarkState student portal or at the nearest location.

Paying for College

How Much Does Clark State Cost?

	Ohio Resident (per credit hour)	Out-of-State Resident (per credit hour)
Instructional Fee	\$137.33	\$274.66
General Fee	\$11.00	\$11.00
Technology Fee	\$11.00	\$11.00
Career Advantage Fee	\$6.00	\$6.00
Total Cost	\$165.33	\$302.66

Other Fees and Expenses

Application fee (one time only)	\$15
Auxiliary fee (per semester)	\$7.50
Health Service fee (per semester) Summer:	\$15
Health Service fee (per semester) Fall/Spring:	\$25
Online fee (per credit hour).....	\$7
Late payment fee (per semester).....	\$15
Late registration fee (per semester).....	\$25
Transcript fee.....	\$5
Delayed Payment Plan service charge.....	\$15
Delayed Payment Plan late fee (per installment).....	\$25
Proficiency fee (written only portion)	\$25/credit hour
Proficiency fee (written only portion) - for 3 or more credit hours	\$75
Proficiency fee (skills only exam)	\$50
Proficiency fee (written and skills exam) - cost of skills portion is contingent upon the possible lab fees/materials needed to complete the skills portion.....	\$75-\$125
Portfolio Assessment - For courses with two or less credits.....	\$100
Portfolio Assessment - For each course with three or more credit hours (equivalent to the total of one credit hour)	\$140
ACCUPLACER retest fee.....	\$15
Returned check fee	\$25

Instructional fees are charged for all credit hours registered in any one academic term. General fees are used to support Student Senate, student activities, and all other student services of the College including Financial Aid, Records, Counseling Services and Student Support.

Auxiliary service fees are used to support the operation and maintenance of parking lots and roadways, the Campus Police Department, and other safety and security activities on all campuses.

Revenue generated by the technology fee is used to directly benefit students by providing the state-of-the-art technology that is critical to the learning experience.

All fees and expenses are established by the Clark State College Board of Trustees and are subject to change without notice. Fees and expenses are due and payable prior to the beginning of the term in which students are enrolled. Although we make every effort to maintain tuition and fees at the lowest possible level, some students may find the cost of a college education to be too great without some form of assistance. The College and the Clark State Foundation provide a variety of federal, state, and institutional financial assistance programs to help. Students may refer to the Financial Aid section in this catalog for more information.

Cash Refund Policy

Refunds of instructional, general, laboratory, and technology fees will be made according to the Fee Refund Schedule. All drops or withdrawals must be in writing and are effective on the date received by the Records and Registration Office. Refunds are not issued for late fees, auxiliary services fees, or Delayed Payment Plan service charges. For certain programs, liability insurance is required to be purchased. For these programs, a lab fee is assessed for this coverage. The coverage will remain in effect until the expiration of the student's insurance contract. For more information, please contact the Financial Aid Office or the Cashiers Office.

Students are refunded at 100% through the 15th calendar day of the term.

Mumma Loan

The Dorothy M. Mumma Short-Term Loan is an emergency loan program for the payment of tuition, fees, and books. This loan cannot exceed \$2,250 per term and must be repaid by the eighth week of the term. There is a \$20 processing fee. The borrower must demonstrate the ability to repay the loan. Receipt of this loan is contingent upon availability of funds.

Ohio Residency

Clark State follows the Ohio Department of Higher Education Rule 3333-1-10 for determining a student's residency status for subsidy and tuition surcharge purposes. Copies of this rule and the Ohio Residency Application are available from the Records and Registration Office or on Clark State's website. Specific exceptions and circumstances may require a review of each student's residency classification on an individual basis. An Ohio Residency Application Packet must be submitted two weeks prior to the term begin date and approved prior to the first day of classes for the term.

Parking Enforcement and Penalties

Parking permits are not required for students. Any vehicle ticketed for a Clark State violation that displays a current Clark State permit will have the fine charged to the permit holder. If the fines assessed are not paid within ten days, a hold will be placed on the permit holder's account, which will prevent the permit holder (if a student) from registering for the following term. Fines can be paid in the Cashiers Office in the TLC Rotunda.

The College partners with the Springfield City Police Department to provide safety and security services. Violations are subject to Clark State fines and penalties or City of Springfield fines, penalties, and a possible court appearance depending upon the nature of the violation.

Clark State violations and fines

Parking on grass, sidewalk, loading zone or other restricted area	\$25
Student in faculty/staff lot.....	\$20
Improper parking	\$20
Parking in visitor designated spaces.....	\$10

City of Springfield violations and fines include the following:

- Handicapped parking without displaying a permit issued by the State of Ohio
- Parking in fire lane
- Disobeying traffic control device
- Reckless operation

These fines are set and controlled by the City of Springfield.

Other violations that could be cited and require a court appearance include speeding, operating vehicle on walkway or grass, driving under suspension, DUI, no valid driver license, failure to stop, refusing to cooperate, giving false information, and obstruction of official business.

Payment

Payment for tuition may be made by cash, check, MasterCard, Discover, or VISA. Students who fail to meet their financial obligations will be administratively withdrawn from classes. In addition, students may not be permitted to graduate, receive an official transcript, or register for subsequent terms until all their financial obligations to the College are satisfied. To help ease the burden of paying tuition costs, Clark State offers a Delayed Payment Plan (DPP).

To participate in this plan for Fall and Spring semesters, students will pay one-fourth of their assessed fees plus the service charge by the fee payment deadline.

The remaining balance is divided into three installments and is payable in approximately three 30-day increments. To participate in this plan for the summer session, students will pay one-half of their assessed fees plus the service charge by the fee payment deadline. The remaining balance is due approximately 30 days later. This plan is not available for students enrolled in mini-mesters. Books and supplies are not included in this fee payment plan. If students register after the fee payment deadline, they must pay the initial installment (including the service charge) when they register.

Student Printing

Each enrolled student is provided \$7.50 in a printing account to print documents on campus each semester. Black and white pages will be charged against the student's printing account at a rate of 3.5 cents (\$0.035) per single-sided page printed and 7 cents (\$0.07) per double-sided page printed. Students who exceed the

\$7.50 allocation for the semester can add additional funds for printing by purchasing a pre-paid top-up card from the Bookstore. Money placed into the students' printing accounts by the student will carry over from one term to the next. However, once the money is placed into the printing account, it cannot be refunded.

Each term, the College will refresh all enrolled student accounts with \$7.50 (150 pages of black and white prints). Unused pages do NOT carry over from one term to another. The value placed in the students' printing accounts by Clark State will be used before any carryover funds added by the student are used.

A lack of funds in a student's printing account will not be considered a valid reason for not meeting deadlines for submitting coursework.

Financial Aid

Financial aid is available from many sources to help students who, without such aid, would be unable to attend college. Although students and their families are primarily responsible for the cost of education, financial aid can fill in the gap if families can afford only part of the cost.

How to Apply

Financial aid applications are available in October for the following financial aid year that begins with Fall semester. Students should file these applications as soon as the FAFSA is available.

Clark State uses the Free Application for Federal Student Aid (FAFSA). The FAFSA is available to complete at www.fafsa.ed.gov. Clark State's Federal School Code is 004852. Students should complete this form using prior prior year income. The information provided on this form is processed and a Student Aid Report (SAR) is sent to the student's e-mail account. This information is also sent to the schools listed on their FAFSA. The SAR will include an estimate of financial need. With a few exceptions, all financial aid

awarded is based on demonstrated financial need. By filing the FAFSA, students will be considered for all aid for which they might be eligible including federal grants and loans. The Financial Aid Office determines eligibility and a student receives an award notification via their Financial Aid Self-Service portal detailing aid that is being offered. Applications for additional aid, such as Federal Work-Study, will be considered as long as funds are available. We encourage students to apply early. Materials completed by the deadlines below will be processed by the beginning of the term, providing the student meets all eligibility requirements and has submitted all requested documents.

Priority Deadlines

Fall May 15
 Spring October 15
 Summer March 15

Generally, Federal Pell Grant funds may be used for the academic year beginning with Fall Semester and ending with Spring Semester. Eligible students who attend in Summer Semester may request financial aid if they have remaining eligibility at the end of the year.

Part-time students may receive Federal Pell Grant. Federal Students Loans require a minimum enrollment of 6 eligible credit hours each semester.

The Financial Aid Office begins processing financial aid applications for the next academic year in the spring. It is suggested that students apply as early as possible.

Financial aid funds can only be used to pay toward courses that are required to complete the student's registered degree or certificate program.

Clark State can provide additional information about scholarships and deadline dates. This information is available on the Financial Aid page of the Clark State website or by calling the Financial Aid Office at 937.328.6034.

Supporting Material

Additional documentation may be needed for certain situations or to comply with U.S. Department of Education verification requirements. The Financial Aid Office will advise students on what they need and this information will also be provided on the Financial Aid Self-Service portal. Students may also be required to confirm their identity and purpose of education.

Eligibility Requirements

The federal program eligibility requirements are listed below:

- Generally, students must show financial need.
- Students need to have a high school diploma or GED. If they completed high school outside of the U.S., their diploma must be the equivalent of a U.S. high school diploma.

- Students are enrolled as a regular student in an eligible program.
- Students are a U.S. citizen or eligible non-citizen.
- Students meet financial aid satisfactory academic progress requirements.
- Denial of Aid.

Aid may be denied for several reasons: no need or insufficient demonstrated financial need, lack of institutional funds, failure to make satisfactory progress toward completion of the certificate or degree, exceeding the maximum credit hours for the certificate or degree, default on a federal student loan, or failure to submit required documentation.

Financial Aid Disbursements

When aid has been awarded, it can be disbursed as payment of tuition, fees, and books. A check for any surplus aid not used is either mailed to the student's home address or direct deposited into a bank account by request in the fifth week of the term. Students who totally withdraw may not receive any surplus funds.

Federal Pell Grant

The Pell Grant is a federal assistance program designed to provide the foundation on which other aid can be built. As in any grant, it is a form of gift aid, which does not have to be repaid if the student completes the semester and earns academic credit. The amount of the award depends on the Expected Family Contribution (EFC) on the Student Aid Report and the number of credit hours for which a student enrolls. A student who has already earned a bachelor's degree is not eligible for this grant. During 2020-2021, the annual value of Pell Grants at Clark State ranged from \$639 to \$6,345 for part-time and full-time students, respectively.

Federal Supplemental Educational Opportunity Grant (FSEOG)

This is a federal grant which provides assistance to eligible undergraduate students who have not earned a bachelor's degree. The maximum award by law is

\$4,000 per year; however, the amount of any individual award may be much less because of restricted funding. FSEOG awards must be targeted to exceptionally needy students with priority given to Pell Grant recipients.

Federal DIRECT Subsidized Stafford Loan Program

This program offers long-term, interest-bearing loans made available to students through the Direct Lending loan program by the U.S. Department of Education to help pay for educational expenses. Repayment is made beginning six months after the borrower ceases to be at least a half-time student (enrolled in six credit hours). This program is open to all dependent and independent undergraduate students based on financial need.

Loan proceeds are usually sent to the College in multiple disbursements. First-year, first-time borrowers cannot receive the first loan payment until 30 days after the first day of their loan period. Arrangements must be made by the student to take care of tuition costs until loan proceeds are issued.

Federal DIRECT Unsubsidized Stafford Loan Program

This loan program is available to dependent or independent undergraduate students regardless of family income. The term unsubsidized means that interest accumulates (i.e., is not paid by the federal government) while the student is enrolled. The application process is the same as for the Federal Subsidized Stafford Loan Program.

Loan proceeds are sent to the College in the same manner as the subsidized loan program and the 30-day wait for new borrowers also applies

Parents' Loans for Undergraduate Students (PLUS)

PLUS loans for dependent students are not need-based and are made regardless of income pending credit approval. They are used to supplement needs not completely met by the Stafford Loan programs. The interest rate of the loan is variable and is set by Congress.

The application process for the federal PLUS loan is at www.studentloans.gov and does not carry a fixed loan limit but is limited to the cost of attendance minus other accepted aid. Parent borrowers must also submit a Clark State Parent PLUS Application.

Academic Progress

Clark State students are required to meet standards of academic progress while working toward a degree or certificate. The Financial Aid Office is required by the U.S. Congress and the U.S. Department of Education to enforce standards of academic progress for students who receive Federal Pell Grant, Federal SEOG, Federal Work-Study, Federal Direct Stafford Loans, and Parent PLUS loans. This policy is applied to all financial aid applicants, regardless of whether they received financial aid previously.

Credit Hour Requirements

Students need to successfully complete 67 percent of all hours attempted, each term and cumulatively, with grades of A, B, C, D, IP or S. Grades of F, Z, W, I, U,UW and PG are not considered as successful completions. Students must also maintain a cumulative grade point average of at least 2.00.

Students must complete their program of study within 150 percent of the program length. Clark State credits and any transfer credits accepted by Clark State are included in the 150 percent timeframe maximums, also including withdrawals, non-completions and College

Preparatory Education credit hours. If a student changes majors within the same degree or certificate, they are still required to complete within the same maximum timeframe.

Financial Aid Warning

Students who fail to complete 67 percent of their attempted hours and/or fall below the minimum GPA requirement are placed on financial aid warning. Aid is applied for one term only and is re-evaluated before the next term. Students must achieve a cumulative 67 percent completion rate of all attempted hours and meet a minimum 2.00 GPA requirement by the end of their warning term. The student's entire academic history at Clark State is included in the evaluation. Students who fail to meet the requirements will be suspended from federal financial aid.

Financial Aid Suspension

If the warning status is not removed in the above-specified manner, federal financial aid will be suspended. Students have an opportunity to appeal a suspension. If they do not appeal, or their appeal is denied, they must successfully complete credit hours without the assistance of federal financial aid to achieve a completion rate of 67 percent and cumulative GPA of 2.00 in order to request reinstatement of further financial aid. If students complete additional credit hours, they must contact the Financial Aid Office to have their academic progress recalculated. Students can still receive non-federal assistance.

Financial Aid Appeals Process

If students lose their financial aid eligibility and feel there are mitigating circumstances, they may appeal in writing to the Financial Aid Office. If the appeal is granted, they will be placed on probation or on an academic plan.

If the student is placed on probation, the cumulative standards of 67 percent completion rate and cumulative GPA of 2.00 must be met by the end of the probation semester.

If the student is placed on an Academic Plan, the student must adhere to all requirements outlined in the Academic Plan. Minimum requirements are successful completion of 67 percent of attempted credit hours and a GPA of 2.00 at the end of the specified semester. Other additional restrictions may apply. Progress is evaluated at the end of each semester. The student may continue on the Academic Plan for subsequent semesters until the cumulative completion rate is at least 67 percent and cumulative GPA is 2.00.

If at the end of either the probation semester or any Academic Plan semester, the minimum standards are not met, the student will be suspended a second time. Once the cumulative minimum standards are achieved, the student will be considered to be making satisfactory academic progress. Students can have two approved appeals during their enrollment at Clark State.

The Fresh Start Program does not affect the Financial Aid Standards of Academic Progress Policy.

Additional Degrees/Certificates

Students who have received one or more degrees or certificates and are returning for an additional degree or certificate must complete a New Degree Appeal in the Financial Aid Office to be considered for any further aid. The student will be notified of the new credit hour maximum limit for financial aid. Once the student has reached the new limit, financial aid will be terminated. Financial aid will be limited to only those classes required for the new degree or certificate.

Work-Study Program

The Federal Work-Study Program provides part-time college employment if students have financial need and want to earn part of their education expenses. Students must be enrolled for at least six credit hours each term to be eligible to participate. To be considered for Summer employment, students must have a completed financial aid award for the upcoming year with federal work-study eligibility. The wage is no less than the federal minimum wage. Students may work up to 18 hours per week. The amount they may earn in a school year is determined by the amount of their financial need, other financial aid, and availability of federal funds.

The College-Funded Work-Study Program provides part-time campus employment even if students do not show financial need (as they would for the Federal Work-Study Program). The wage rate and hours worked are the same as for the federal program.

The Office of Career Services assists students with locating part-time employment on campus.

Remedial Coursework

Students may receive federal financial aid payments for no more than 30 hours of non-credit remedial course work. This restriction holds for all the federal grants, loans and work-study. Students can, however, still receive federal financial aid payments for credit courses enrolled during same term as remedial courses.

Repeated Coursework

Previously passed courses may be included when determining enrollment status for the term as long as it is not the result of more than one repetition of a previously passed course, or any repetition of a previously passed course due to failing other coursework. Students who must repeat coursework due to program requirements (i.e. Judicial Court Reporting Skills) should contact the Financial Aid Office for information.

Withdrawals

Financial aid is based on the number of credit hours for which students are officially registered. They must notify the Financial Aid Office of any changes in enrollment.

If students add or drop credit hours, their financial aid will be automatically recalculated based on their level of enrollment. This recalculation will continue throughout the semester. Federal student aid may have to be reduced, returned to the U.S. Department of Education and the student may owe funds back to Clark State.

Non-Attendance

Students that fail to attend class and actively participate within the first 15 days of the semester (reported by the class instructor) will be administratively withdrawn from the class. Tuition for the class will be refunded and financial aid will be adjusted accordingly.

Unofficial Withdrawals

Students who begin class but stop participating either by class attendance, online contact, or assignments prior to completion of 70 percent of the term, will be considered an unofficial withdrawal. The student will receive a failing grade of UW on their transcript. In addition, a required federal financial aid recalculation will be completed and the student may owe funds back to Clark State.

Financial Aid Return of Title IV Funds Policy

Any student receiving Federal Title IV funds will be subject to the policy below regarding the return of Federal Title IV funds:

Students who withdraw from all classes prior to completing more than 60 percent of an enrollment semester will have their eligibility for federal aid recalculated based on the percentage of the term completed, which shall be calculated as follows:

The percentage of the semester completed is the percentage of aid earned. This is calculated by the number of days the student attended divided by the number of calendar days in the payment period (i.e. semester). For example, if a student completely withdrew on the 20th day of the semester that is 114 days in length, the student would have only earned 17.5 percent of the aid he or she received ($20 \div 114$

$= 0.175$). Clark State and the student will be required to return to the federal aid programs the amount of aid received that was in excess of the aid "earned" for the period the student remained enrolled.

If the College returns funds to the Title IV aid programs, it could result in the student owing Clark State charges that were originally paid at the time of disbursement. Students may also be required to return funds released to them for personal expenses. Unearned federal aid will be returned in the following order: Federal Direct Stafford Loans (unsubsidized, then subsidized), Federal PLUS Loans, Federal Pell Grant, and Federal SEOG.

Students who remain enrolled more than 60 percent of the payment period (semester) are considered to have earned 100 percent of the aid received and will not owe

a repayment of Federal Title IV grant funds. Students who withdraw from current courses but still are enrolled in later term courses must inform the Financial Aid Office of their intent to attend or withdraw from the later starting courses.

*Please note that students are responsible for any balance owed to Clark State as a result of the repayment of federal aid funds. For more information on the Financial Aid Refund Policy, please contact the Financial Aid Office.

Educational Costs

Expense budgets (also called Cost of Attendance) include both direct (on-campus) and indirect (off-campus) educational costs. Direct costs are tuition and fees. Indirect costs may include estimates for books, transportation, room and board, and miscellaneous and personal expenses. These expenses will vary from student to student depending on a number of factors such as dependency status (as defined by federal and state programs), residency, and credit hour enrollment. The total of all aid cannot exceed the student's Cost of Attendance.

Scholarships

Clark State offers a variety of scholarship opportunities. Applications are available on the Clark State website under Scholarships.

Clark State Foundation

The Clark State Foundation is a non-profit organization that provides support to the College and its students. The Foundation offers and administers scholarships funded by contributions from individuals, businesses, and organizations. Applications are available on the Clark State website. Deadlines for applying are stated on the application. Applications are reviewed by the Scholarship Review Committee. Foundation scholarships can be used for tuition, books and fees.

George Mueller Tech Prep Scholarship

High School Tech Prep students graduating from a career center or high school in Clark, Champaign, Greene, Hardin, or Logan County may apply for the George Mueller Tech Prep Scholarship. Students must have a 2.5 GPA during junior and senior years and continue in the same Tech Prep pathway at Clark State to qualify for this \$3000 per year scholarship. Deadline for applications is May 1. Contact the Clark State Admissions Office at 937.328.6028 for additional information. Students should contact their high school counselor for information to apply.

Honors Program

The mission of the Honors Program is to offer enhanced courses and recognition to a community of students with outstanding academic potential, to promote personal and civic responsibility through purposeful

service to others and to equip students to actively engage in academic and community leadership. There are two honors levels. The Eagle Award is designated for students who successfully complete three honors courses with a grade of B or higher. The Honors Scholar is designated for students who successfully complete six honors courses with a grade of B or higher. Limited scholarship opportunities are available for students who are not Trustee Scholarship recipients.

Trustee Scholarship

Fifteen full-tuition packages are available to academically talented students from high schools and vocational schools in Clark, Champaign, Greene, or Logan County.

Recipients must be graduating during the current year, rank either in the upper 15 percent of their high school graduating class or have a 3.5-4.0 GPA, and have demonstrated involvement in activities outside the classroom. Recipients may retain eligibility for a second year by achieving stated academic requirements. Application deadline is March 15. Trustee Scholarship recipients are required to participate in the Honors Program as well.

Other Ohio Scholarships Available

Ohio National Guard Scholarship

The Ohio National Guard will pay a portion of instructional and general fees of its members approved for education. Application is made through the local Guard unit.]

Ohio Safety Officers College Memorial Fund

This program provides tuition assistance to the children and spouses of peace officers, fire fighters and certain other safety officers who are killed in the line-of-duty, anywhere in the United States.

It also provides assistance to the children and spouses of a member of the armed services of the US, who has been killed in the line of duty during Operation Enduring Freedom, Operation Iraqi Freedom or a combat zone designated by the President of the United States. Application is made through the Ohio Department of Higher Education State Grants and Scholarships Department.

Ohio War Orphans Scholarship

The State of Ohio awards scholarships for the partial payment of full-time instructional and general fees to dependent children of deceased or disabled Ohio war veterans. Application is made through the Ohio Department of Higher Education State Grants and Scholarships Department.

Student Records

Our Records and Registration Office maintains student records. It also processes transcripts, diplomas, and changes in student status such as name, address, residency, and major. For more information, please contact the Records and Registration Office.

Access to Educational Records

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their educational records. Students have the right to inspect and review their educational records within 45 days of the day the College receives a request for access. Students should submit to the Registrar written requests that identify the records(s) they wish to inspect. Students may request the amendment of their educational records if they believe it is inaccurate or misleading. Students should write the College department officially responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the problem is not resolved to the student's satisfaction, they may take the matter to the Dean of Student Engagement and Support Services and, in absence of resolution satisfactory to them, to a formal hearing in accordance with the College's established grievance procedures.

Students have the right to consent to disclosures of personally identifiable information contained in the student's educational records, except to the extent that FERPA authorizes disclosure without consent. One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests.

Students also have the right to file a complaint with the U.S. Department of Education concerning alleged failures by the College to comply with the requirements of FERPA. The name and address of the office that administers FERPA is Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, DC 20202-5920.

Transcripts

Students may order an official transcript of their academic records online, in person, or by mail. There is a \$5 fee per transcript. (An additional \$2.25 processing fee will be charged per recipient for online ordering.) All financial obligations to the College must be paid and all College equipment returned before a transcript can be released. Once a request is received, transcripts will, normally, be sent within 3-5 business days.

Online

Clark State offers online transcript ordering, which allows for 24/7 ordering access, faster service, secure transactions, online order tracking, and e-mail updates. For detailed information and a link to online ordering, visit the College website. A major credit card is required for online ordering.

In Person

Transcripts may be ordered in person during normal business hours by completing a Transcript Request Form at the Beaver Creek and Springfield locations.

By Mail

It is strongly encouraged and recommended that students use online transcript ordering. If, however, that is not possible, students may send a written letter of request to: Records Office, Clark State College, PO Box 570, Springfield, OH 45501.

Written requests must contain all of the following information: Full, current name, previous name(s) used while attending Clark State, SSN or student identification number, date of birth, approximate years of attendance, a contact phone number where the student can be reached if there is a problem with the order, number of transcripts requested, name(s) and address(es) where the transcript is to be sent, and the student's signature authorizing release of their transcript.

For in-person and mail orders, Clark State accepts cash, check, money order, VISA, MasterCard, and Discover Card. Payment must accompany the transcript request.

Release of Information

Family Educational Rights and Privacy Act of 1974 as amended is designed to protect a student's privacy and their educational records. Clark State recognizes "Directory Information" as the following: student name, address, email address, telephone number, major, degrees and awards received participating in officially recognized activities and sports, weight and height of members of athletic teams, dates of enrollment, enrollment status, and most recent previous educational agency or institution attended.

Students may request that their "Directory Information" not be released by signing a request to withhold information, available in the Records and Registration Office. The College will not release information to the newspaper concerning academic achievement if they have submitted a request.

Student Services and Programs

Career and Employment Services

Sound career choices are based on knowledge about oneself and the world of work. Whether students are choosing a major, researching their chosen career field, or preparing for their job search, Clark State will help them meet these challenges. We have a full range of services designed to assist students in exploring the wide range of personal and professional choices open to them and to find the career path that fits best. All Clark State students and alumni are encouraged to use the web-based resume referral service, self-assessment, career exploration, and job search resources.

For assistance with career exploration, students may schedule an appointment with a success coach at the nearest location.

For assistance with resume writing, preparing for an interview, obtaining a co-op/internship, applying for jobs, and many other career-related activities, students may call 937.328.6468. Resources are also available online at <http://www.clarkstate.edu/student-life/career-planning>.

College Library

The Clark State Library, located in the Sara T. Landess Technology and Learning Center, provides a variety of materials and services to students, faculty, staff, and the community. The Library owns more than 35,000 books, 150 magazine and journal titles with electronic access to thousands more, and over 2,000 media titles. In addition, through OhioLINK, the library provides access to 17,000 periodicals and more than 49 million books, plus nearly 70,000 e-books. The library website offer links to the catalog and to OhioLINK, as well as to other helpful tools. The website is lib2.clarkstate.edu.

A valid Clark State student identification card serves as the student's library card and entitles them to full borrowing privileges. A valid identification card also serves as a library card to other college and university libraries in Ohio.

Students can reserve small group study rooms, which have VCR/DVD players. Reservations must be made four hours in advance.

The Paul Laurence Dunbar Library at Wright State University serves as the nearest library for students at the Beavercreek and Xenia locations. Students may access and utilize this library with a valid Clark State student ID.

OhioLINK services are available at the Beavercreek location.

Requests for diplomas, transcripts, and registration for subsequent terms may be rejected due to Library obligations.

The Library is closed when the College is closed. Students may call 937.328.6022 or email library@clarkstate.edu for more information.

College Preparatory Education

College Preparatory Education courses in reading, writing, and mathematics are designed to build skills so that students will succeed in college-level classes. If a student has been away from the classroom for a number of years, did not develop strong basic academic skills in high school, or do not have sufficient background in an area (algebra or chemistry, for example), he or she will benefit from these preparatory courses. Placement into these courses is determined by the placement tests and by the student and success coach.

College Preparatory Education courses do not count toward graduation or in the transcript grade point average. They do, however, count in the calculation of full-time status, progress GPAs, and are included in consideration for grants and other financial aid.

A College Preparatory Education course may be repeated twice without permission. Permission to take a course a third or more times must be obtained from the dean of the academic school in the student's major.

Cooperative Education

Cooperative education is a unique form of education which shows students how to use classroom learning in the workplace. This combination of classroom study and related, paid, and supervised on-the-job training prepares students to join the workforce after graduation.

Clark State operates on a semester calendar. This allows students to be placed in a work site for approximately 15 weeks each semester. Most students prefer to work part-time (typically 20 hours per week) while carrying either full- or part-time coursework. Some students may prefer to work full time during the summer.

To participate in the Co-Op Program at Clark State, students must:

- Be a currently enrolled student with a GPA of at least 2.0 (some employers may have a higher GPA requirement),
- Successfully complete the course Employability Skills (EBE 1000), and
- Be committed to obtaining a degree from Clark State.

For more information, students may call the Career Services Coordinator at 937.328.6468.

Counseling Services

Clark State has a licensed professional counselor available to assist students in addressing problems and concerns that may impede academic performance.

Peer listeners are also available to meet with students on a walk-in basis. The peer listeners are trained in a variety of areas including listening skills, crisis management, and problem solving. Counseling is confidential (except in cases in which disclosure of information is necessary to protect students or others from physical or life-threatening danger), and no information will be released without written permission. Referrals to community agencies may be made when appropriate.

The Counseling Center is located in Rhodes Hall, Room 224. Students may walk in or call 937.328.7961 for an appointment. Students at any location are encouraged to schedule an appointment.

Mercy Health Springfield Primary Care at Clark State

The clinic offers a full range of primary care services, prescriptions, immunizations, acute illness care and more. The clinic features three exam rooms and serves as the primary medical care facility for Clark State students, faculty and the community at large.

The health service fee includes five clinic visits per student throughout the year when needed. These visits will include basic in-office testing such as strep, flu and pregnancy tests. One wellness check/physical is also included.

All Clark State students must present their student ID. To make an appointment, students may call 937.523.9280.

Office of Accessibility Services

The Office of Accessibility Services is the official contact for students with any type of disability who request reasonable accommodations, auxiliary aides, and/or services to provide equal opportunity for academic success. Accessibility staff serve as advocates for students and will assist them in achieving equal access to all College programs and services.

Students must self-disclose their disability and register with the Office of Accessibility Services in order to receive accommodations. Students may need to provide documentation of the disability such as an Individualized Education Plan (IEP), Multifactor Evaluation (MFE), or other testing information, or a letter from a doctor or other licensed professional. Students are strongly encouraged to meet with a counselor in the Student Academic Support Center or Greene Center, Room 121 before enrolling in classes to determine eligibility for services. For more information, students may contact the Office of Accessibility Services at 937.328.6019 or 937.431.7155.

Accommodations Related to a Pregnancy

Students who are pregnant or recently have given birth may qualify for accommodations as covered by Title IX of the Education Amendments Act. For more information or to register for accommodations related to a pregnancy, students may contact the Office of Accessibility Services.

Office of Student Support

The Office of Student Support provides support to students throughout their college career and helps them achieve their academic and personal goals. The Student Support Specialist coordinates referrals to campus and community resources and offers follow-up support to address a variety of issues, including but not limited to, housing displacement, lack of childcare, transportation barriers, financial emergencies, food insecurities and physical health/wellness.

Students are encouraged to self-refer to access support and assistance. Faculty and staff may make referrals if there is concern for a student's well-being.

Student Support Services

The Student Support Services Program (TRIO) is funded by the Federal Department of Education to assist students with the challenges of college. TRIO Works: together we create an extraordinary future! We empower TRIO students to reach their academic, personal, and career aspirations.

TRIO provides:

- Effective and strategic academic planning
- Guidance and assistance monitoring academic progress
- Proactive referrals to academic support services
- Personalized coaching in life skills
- Strategic workshops on financial literacy and academic success
- Resources and guidance on transfer pathways to four-year colleges, including campus visits
- Connections to community resources
- Exposure to diverse cultural and educational experiences

For additional information, student may contact the Student Support Services Office at 937.328.6122 or TRIO@clarkstate.edu.

Success Center

The Beavercreek location offers a Success Center located in Room 121. Services include testing, ACCUPLACER testing, Accessibility Services, tutoring, and serves as the drop off and pick up location for OhioLINK online orders.

Tutoring

Tutoring is available by subject area free of charge to all Clark State students. A schedule of available tutoring hours will be posted at the beginning of every term. For more information about tutoring or to become a tutor, students may visit the Student Academic Support Center in the lower level of Rhodes Hall or the Beavercreek location, Room 121. Online tutoring, including the Online Writing Center is available through the Online Tutoring Center in Blackboard. The semester tutoring schedules list courses for which virtual tutoring is available.

Student Life and Athletics

Athletics

Clark State College offers five intercollegiate athletic programs: men's basketball, men's baseball, women's basketball, women's softball, and women's volleyball.

As a member of the National Junior College Athletic Association (NJCAA), Clark State competes in Division II in intercollegiate athletics. Recruited student-athlete applicants to the college must provide official transcripts from all high schools attended, as well as all other colleges attended. Qualified, recruited student-athletes can be offered athletic scholarships. For more information about recruiting, eligibility, and participation in intercollegiate athletics, students may contact the Athletics Office at 937.328.7819.

Students may also participate in recreational and intramural sports. Some of the activities include club golf, flag football, co-ed volleyball, wiffle ball, and basketball.

Epsilon Pi Tau

Epsilon Pi Tau is the International Honor Society for Professions in Technology. The organization was first conceived in 1928 at The Ohio State University as a Greek letter fraternity to recognize leaders and potential leaders in the fields related to technology education of that time and has expanded its role to honor deserving members in the technology professions. There are 123 campus and field chapters throughout the world. To be eligible to join the Clark State Chapter, Delta Iota, students must have a minimum grade point average of 3.25.

Performance/Concerts

Clark State offers students opportunities to participate in the arts at the Clark State Performing Arts Center.

Students can audition for the Theatre Arts Program Fall and Spring plays or musicals.

For more information about the auditions or student theatre productions, students may contact the Theatre Arts Program at 937.328.3880.

In addition to performing opportunities, Clark State offers students the rewarding opportunity to work back stage at the Performing Arts Center events through the College Work-Study Program. Students may contact the Performing Arts Center technical director at 937.328.3863 for more details.

Phi Theta Kappa

Phi Theta Kappa is the International Honor Society for two-year colleges. Phi Theta Kappa was established in 1918 and has over 1,000 chapters in the United States, Canada, and Germany at colleges offering the associate degree. Clark State's chapter, Alpha Nu Lambda, was established in 1987. The purpose of Phi Theta Kappa is to promote scholarship, leadership, fellowship, and service. Induction into Phi Theta Kappa provides national recognition to students of distinguished achievement. Students will be invited to become a member of Phi Theta Kappa once they earn and maintain a cumulative grade point average of 3.5 or higher and complete a minimum of 12 credit hours toward a degree or certificate.

Student Ambassador Program

Student Ambassadors are positive, enthusiastic, and well-informed representatives of the student body who work with faculty, staff, and students to promote Clark State's programs and services. They serve as advocates for all students by fostering support in their academic performance, achievement, and social development. Student Ambassadors are dedicated to student success, diversity, and strengthening student connections. To be eligible, students must have a minimum grade point average of 2.5, completed a minimum of 12 credit hours, and received a recommendation from the Ambassador Selection Committee.

Wellness Center

The Wellness Center is available for any Clark State student, faculty member, or staff member to use. A wide array of cardiovascular equipment as well as strength training equipment is available. The Clark State gymnasium is also available for recreational use and must be entered through the Wellness Center. Locker rooms and showers are available for use. Access to the Wellness Center and gymnasium is only allowed after showing Clark State identification and signing in at the desk outside the Wellness Center.

Academic Policies

The following sections are intended to be an overview of academic policies and procedures at Clark State. For more detailed information, contact the Records and Registration Office. The Vice President of Academic Affairs is ultimately responsible for developing and implementing academic policies.

Academic Misconduct

Students are expected to behave as responsible members of the College community and to be honest and ethical in their academic work. Activities of academic dishonesty corrupt the process of acquiring the knowledge and developing the skills necessary for success in any profession; such activities are considered a violation of the Student Code of Conduct and are therefore prohibited. Students are responsible for understanding and abiding by the College Academic Integrity Policy and definition of academic dishonesty as well as course and faculty-specific standards and expectations.

Cases involving academic dishonesty are handled within the academic school responsible for that course. Faculty and/or the academic school deans have the authority to issue a sanction up to a grade of zero for any assignment in which academic misconduct has occurred. In serious or repetitive incidences, the case will be referred to the Academic Incident Hearing Panel (AIHP) for further action. Such action may include issuing a failing grade for the course, probation, suspension, and/or expulsion.

Academic Probation

Students are considered to be on academic probation when their progress grade point average falls into the ranges listed below:

<i>Hours attempted</i>	<i>Progress GPA</i>
1-10	Below 1.50
11-20	Below 1.60
21-30	Below 1.70
31-40	Below 1.80
Over 40	Below 2.0

Probation means that students are in jeopardy of being dismissed from the College for academic reasons. If their average places them on probation, they must confer with their success coach or faculty advisor to carefully select a course schedule. Students on probation will not be permitted to register without their success coach or faculty advisors' permission. Academic support services such as tutoring is strongly recommended for students on probation.

When on academic probation, students may carry a maximum load of 12 course credits. (This includes students accepted into the College on probation by the Admissions Office.) It is strongly recommended that students repeat any failed courses the next term those courses are offered.

Advanced Placement Credit Award

The State of Ohio, working through the University System of Ohio, has initiated policies to facilitate the ease of transition from high school to college as well as between and among Ohio's public colleges and universities.

As of Fall Term 2009, students obtaining an Advanced Placement (AP) exam score of three or above are awarded the aligned course(s) and credits for the AP exam area(s) successfully completed. General Education courses and credits received will be applied towards graduation and will satisfy a general education requirement if the course(s) to which the AP area is equivalent fulfill a requirement.

If an equivalent course is not available for the AP exam area completed, elective or area credit will be awarded in the appropriate academic discipline and will be applied toward graduation where such elective credit options exist within the academic major.

Additional courses or credits may be available when a score of four or five is obtained. Award of credit for higher score values varies depending on the institution and academic discipline.

In academic disciplines containing highly dependent sequences (Sciences, Technology, Engineering and Mathematics - STEM) students are strongly advised to confer with the college/university advising staff to ensure they have the appropriate foundation to be successful in advanced coursework within the sequence.

Attendance

Achievement of academic goals is best accomplished through regular class participation. Therefore, students are urged to attend all class and laboratory sessions. When unavoidable absences do occur, students should take the responsibility to contact their instructor to make arrangements for work that has been missed. Instructors have the right to issue a failing grade (UW or F) if students incur excessive absences and have not officially withdrawn from a course. Specific information concerning attendance is available in the course syllabus.

The College is required to report non-attendance to federal and state agencies that provide financial assistance to students. Failure to attend classes may also result in having to repay part or all of an allowance from the Veterans Administration or state or federal agencies.

Dean's List

If students carry a minimum of six credit hours of college courses and maintain a transcript grade point average of

3.5 or better for a semester's work, they will be enrolled on the Dean's List in recognition of achievement that semester. Grades of "satisfactory" and grades in college preparatory courses are not included in determining the grade point average.

Definition of Credit Hour

All academic credits are expressed in terms of credit hours. Clark State defines a credit hour based on the requirements of the Ohio Department of Higher Education.

Dismissal

A student is dismissed from the College when their progress grade point average falls below the probation levels listed below. Dismissal means that students must sit out the term following the term in which their progress GPA falls below probation levels. However, they will be placed on probation at least one term before dismissal for academic reasons. During that probation term, they will receive a letter from the Records and Registration Office stating that failure to improve the progress GPA by the end of the term will result in dismissal. Students will be dismissed when their progress grade point average falls into the following ranges.

<i>Hours attempted</i>	<i>Progress GPA</i>
1-10	Below .80
11-20	Below .90
21-30	Below 1.20
31-40	Below 1.40
Over 40	Below 1.60

Graduation Process

Students will receive an email from Records and Registration during the term in which a student is enrolled in the final courses needed to complete their degree or certificate. This email will confirm that the student has registered for the necessary courses and that pending successful completion of those courses, can expect to receive their diploma or certificate at the end of the term.

Once courses have been successfully completed and confirmed by Records and Registration, students will be graduated. They will receive their diploma or certificate through the US Mail approximately eight weeks after the end of the term.

Important things for the graduating student to do prior to/during their last term:

- Check with faculty advisor to ensure that all requirements for degree/certificate will be met by the end of the term in which they wish to complete. Students must also insure that required course substitutions (if any) have been submitted and processed.
- Check Clark State Student email regularly.
- Verify that Records and Registration has a current mailing address.

Grade Reports

Students can access final grades through Self-Service Student Planning. Grades will not be released over the phone. Students may request an official transcript in the Records and Registration Office or online. If students have a concern about a grade, they should discuss it with their instructor within eight weeks after the end of the semester. If the grade was for a Spring or Summer term class, students should discuss it with their instructor by the eighth week of Fall Semester. If the problem is still not resolved, students may discuss it with the academic school dean and then with the Vice President of Academic Affairs.

Graduation Requirements

To qualify for a degree, students must pass all required courses for their major and have a transcript grade point average of at least 2.0. Students in the following majors must have a C as a minimum grade in all required major courses: Early Childhood Education, Emergency Medical, Medical Assisting, Medical Laboratory, Practical Nursing, Registered Nursing, Physical Therapist Assistant, Social Services and Diagnostic Medical Sonography (Pending Approval). Students who graduate from the Registered Nursing program in 2013 or after will be required to have a C or greater in all courses in the curriculum. Students in the Realtime Reporting programs must have passed each of the terminal speed courses within 12 months prior to graduation.

All students are expected to complete the residency requirement of 30 semester hours remaining before completing a bachelor's degree, at least 15 credit hours of coursework at Clark State for an associate degree or 12 credit hours for a one-year certificate program. Credit equivalencies, such as articulated, experiential, transfer, or proficiency credit do not count toward the residency requirement. Credit equivalencies may not exceed one half of the required technical course credits for the degree or certificate program being pursued unless recommended by the faculty and approved by the academic school dean. All financial obligations to the College (instructional fees, general fees, laboratory fees, technology fees, library fines, parking fines, etc.) must be paid and all College equipment returned before grades or a diploma will be issued by the College.

Grading System

Academic achievement is indicated by the following grades and points used in calculating grade point average:

A-Excellent	(4 grade points per credit hour)
B-Good	(3 grade points per credit hour)
C-Average	(2 grade points per credit hour)
D-Poor	(1 grade point per credit hour)
F-Failing	(0 grade points per credit hour)
UW-Unofficial Withdrawal*	(0 grade points per credit hour)

*Student stops attending class prior to completion of 70 percent of the term, but never officially withdraws from the course.

Students' transcript GPA is obtained by dividing the total number of grade points earned in college credit courses by the total number of credit hours attempted in those courses. For example, consider the following grades earned by a student:

	<i>Credit Hours</i>	<i>Grade</i>	<i>Points</i>
Course 1	3	B	9
Course 2	3	C	6
Course 3	4	B	12
Course 4	3	C	6
Totals	13		33

The total number of grade points, 33, is determined by adding together the points earned in each course (credit hours x grade points). That number is then divided by the total number of credit hours, 13, to determine the grade point average. In this example the average is $33/13= 2.538, 2.53$.

Grades issued for College Preparatory courses are not counted in students' transcript grade point average. A transcript grade point average refers to the average for all college credit courses taken during enrollment at the College. There are other symbols that can be issued for which no points are associated:

S.....	Satisfactory
U.....	Unsatisfactory
I.....	Incomplete
PR.....	Proficiency
CR.....	Credit
NC.....	No Credit
EX.....	Experiential Credit
TR.....	Transfer Credit
AR.....	Articulated Credit
W.....	Withdrawal
X.....	Audit
N.....	No Grade Reported (Records Office use only)

Incomplete

Students with extraordinary circumstances may be considered for an incomplete grade if they have completed approximately 70% of the work required for a course and have a passing grade on work already completed. For an incomplete grade that is granted, a student will have additional time to complete the required work according to an agreed upon timeline with the instructor within the maximum time allowed. Any fall incomplete grade not changed before Friday of the eighth week of spring semester and any spring or summer incomplete grade not changed before Friday of the eighth week of fall semester will automatically be changed to an F on the student's transcript.

Military Personnel – Active Duty, Guards, and Reservists with Orders to Deploy

Students who receive orders to deploy, have the option to withdrawal from classes with a tuition refund, or complete within a year and a semester with an incomplete grade assigned, or a “final grade” dependent upon supportive documentation, class performance and time of request.

The student will receive a full refund of tuition and fees paid to Clark State if the time of the request is prior to the last day to drop classes of that term.

The student will have a choice of two options if the request withdrawal is received after the last day to drop classes of that term:

1. If the student does not reach the $\frac{3}{4}$ point of the term, they will be backdated out of the term and all Tuition Assistance paid will be reimbursed to the entity that paid it. OR;
2. If the student has completed at least 75% of the class, with the instructor's approval, a “Final Grade” for the

course may be assigned. The decision to allow assignment of a “Final Grade” is solely the decision of the instructor for the course. OR;

3. If the student receives orders to deploy and reaches an agreement with the instructor(s) to assign an incomplete, the student will have up to one calendar year and 1 academic semester following the end of the semester that the incomplete was assigned to complete any coursework. An incomplete grade in a course allows students the right to complete all coursework without further payment of tuition or fees.

Participation in Commencement

Students earning a degree or one-year certificate will be offered the opportunity to participate in Clark State's annual Commencement Ceremony held at the end of Spring Semester. Information about the ceremony will be sent to participants approximately 30 days before the ceremony. Degree and certificate recipients who will graduate during Fall through Summer Terms are eligible to participate in the May Commencement Ceremony.

Re-Admittance After Dismissal

Students may be re-admitted to Clark State on probation after they have sat out one term or completed the reboot program through ASPIRE, completed the Petition for Re- Admission form available in the Records and Registration Office, and have it reviewed and approved by their success coach.

Upon re-admittance, students must meet with the academic school dean to determine a course of action. They will be permitted to enroll for not more than 12 credit hours for each of the next two terms.

Once re-admitted, students will remain on probation until they move above the probation ranges defined in the table above. However, students will not be dismissed again even if they remain within the dismissal range provided that they maintain a progress GPA of 2.0 each term. If they fail to maintain a progress GPA of 2.0 each term, they will be dismissed again if their cumulative progress GPA falls into the dismissal range.

Students qualifying for a third dismissal will be suspended and must sit out a full calendar year before being allowed to continue taking classes. They must follow the steps outlined above for re-admittance. Any future academic dismissals will also result in additional one-year suspensions.

Student Classification

Students are considered a full-time student when they are enrolled in at least 12 credit hours. If students carry 11 credit hours or less per term, they are part-time.

Students are first-year students if they are registered in a degree or certificate program and have earned fewer than 30 semester hours of credit, including transfer

credit. Students are second-year students once they have earned 30 or more semester hours in a degree or certificate program. Students are third-year students once they have completed 60 or more semester hours of credit in a bachelor's degree program, including transfer. Students are considered fourth-year students once they have completed 90 or more semester hours of credit in a bachelor's degree program, including transfer.

Degrees and Certificates

Agriculture and Food Science

Agricultural Business (1100)

The Agricultural Business program emphasizes preparation for agriculture service-industry occupations. Courses are offered in soil science, soil fertility, animal science, pest management, sales, business management, and marketing. The curriculum is designed to prepare students for employment in the business world of agriculture sales and service. Graduates of this program will find technical and entry-level management positions in crop-care companies, feed-and-livestock product companies, and many other businesses that serve the producer with goods and services.

Learning Outcomes

Upon completion of an Associate of Applied Business degree in Agricultural Business Technology, a graduate will be able to:

- Identify plant nutrient deficiencies and describe corrective measures.
- Identify major plant pests, including weeds, insects, and diseases and describe corrective measures.
- Develop a written agricultural business plan.
- Locate and use current information in solving technical and critical thinking problems.
- Demonstrate effective employability skills.
- Demonstrate basic trouble shooting and maintenance skills for small gas engines.
- Write clearly and accurately in a variety of contexts and formats.
- Speak clearly and accurately in a variety of contexts and formats.
- Use critical thinking and problem solving to draw logical conclusions.
- Use numerical data to solve problems, explain phenomena, and make predictions.

Scholastic Preparation

High school chemistry, biology, geometry, algebra, and keyboarding skills are strongly recommended.

Transfer Options

Students enrolled in Associate of Applied Business degree programs are preparing for employment upon graduation from the program. However, at some point many of these students are also interested in completing a bachelor's degree. A number of colleges or universities have designed bachelor's completion programs designed for students completing applied degrees. See the Transfer section of the catalog for more information.

Course #	Course Title	Credit Hours
Fall		
AGR 1100	Ag Survey and Professional Development	4
AGR 1250	Animal Agriculture	3
AGR 1300	Soil Science	4
ENG 1111	English I	3
Spring		
AGR 1350	Soil Fertility	4

Spring		
AGR 2650	Integrated Pest Management	4
AGR 2775	Ag Marketing and Trade	3
AGR 2800	Equipment Management, Maintenance & Repair	4
AGR 2850	Agricultural Capstone Seminar	3
MKT 2450	Sales and Sales Management	3
Total Credit Hours		63

*At least one must be a global awareness (GA) course. Select from social/behavioral sciences or arts/humanities courses identified in the Catalog as General Education for technical programs.

**AGR elective may be any AGR course not required above. AGR 1700, 1750, 1800, 2300, 2450, are recommended. Other course work may be approved by the division.

The program schedule is designed for full-time students who have completed all prerequisites and who have no college preparatory recommendations. Many individuals, especially part-time students and those taking college preparatory courses, will require additional terms of study. Students should consult their academic advisor for help in planning their schedules.

A complete listing of humanities and social science electives is available in the College Catalog.

Agricultural Business - Agricultural Engineering Technology Option (1120)

The Agricultural Engineering Technology option emphasizes preparation for agriculture service-industry occupations, especially those with a mechanical emphasis. Courses are offered in powered equipment maintenance, facility maintenance and construction, landscape construction, soil science, soil fertility, sales, and business management. The curriculum is designed to prepare students for employment in the business world of agriculture sales and service. Graduates of this program will find technical and entry-level management positions in careers with a mechanical emphasis in the agricultural industry.

Learning Outcomes

Upon completion of an Associate of Applied Business degree in the Agriculture Engineering Technology option, a graduate will be able to:

- Identify plant nutrient deficiencies and describe corrective measures.
- Develop a written agricultural business plan.
- Locate and use current information in solving technical and critical thinking problems.
- Demonstrate effective employability skills.
- Demonstrate the proper care of established plants in the landscape.
- Demonstrate basic trouble shooting and maintenance skills for small gas engines.
- Write clearly and accurately in a variety of contexts and formats.
- Speak clearly and accurately in a variety of contexts and formats.
- Use critical thinking and problem solving to draw logical conclusions.
- Use numerical data to solve problems, explain phenomena and make predictions.

Scholastic Preparation

Scholastic Preparation

* At least one must be a global awareness (GA) course. Select from social/behavioral sciences or arts/humanities courses identified in the Catalog as General Education for technical programs.

** Any AGR, CAD, ENT, INT, OR WLD course not already prescribed.

The program schedule is designed for full-time students who have completed all prerequisites and who have no college preparatory recommendations. Many individuals, especially part-time students and those taking college preparatory courses, will require additional terms of study. Students should consult their academic advisor for help in planning their schedules.

A complete listing of humanities and social science electives is available in the College Catalog.

Food Science and Technology (1600)

The Food Science program provides basic preparation for careers in the Food Science Industry. Courses are offered in Food Science, Food Processing, Hazard Analysis and Critical Control Points (HACCP), Food Marketing, Food Law, and Advanced Topics in Food Science. Careers in this field include but are not limited to Food Safety Coordinator, Food Science Technician, Product Development, and Research and Development.

Learning Outcomes

Upon completion of an Associate of Applied Science degree in Food Science and Technology, a graduate will be able to:

- Apply basic food science and technology concepts, skills and tools.
- Demonstrate ability to collect, analyze and apply market data.
- Develop ability to quantify data as it relates to food industry.
- Develop and market all aspects of a product in a domestic and global market.
- Demonstrate knowledge of food science trends.

Scholastic Preparation

Students should have successfully completed high school chemistry, biology, geometry, and algebra. Keyboarding skills are also strongly recommended.

Career Coach

The employment rate of agricultural and food science technicians is projected to grow from 2012 to 2022. More technology and scientific knowledge related to food production will allow greater control of the production and processing activities and in turn increase demand for these workers. Continued population growth will drive the need to increase efficiency of production and processing methods. More awareness and enforcement of food safety regulations will increase inspection requirements, which, in turn, will increase the need for agricultural and food science technicians.

Transfer Options

Students enrolled in Associate of Applied Science degree programs are preparing for employment upon graduation. However, at some point, many of these students are also interested in completing a bachelor's degree. A number of colleges and universities have designed bachelor degree completion programs for students completing applied degrees. See the Transfer section of the catalog for more information or talk to your academic advisor.

Course #	Course Title	Credit Hours
Fall		
FST 1100	Introduction to Food Science	3
AGR 1100	Ag Survey and Professional Development	4
CHM 1150	Introduction to General Chemistry	4

ENG 2211	Business Communication	3
SOC 1110	Introduction to Sociology	3
Total Credit Hours		62

Students with little or no computer background should enroll in ITS 0800 before taking other computer courses. Students without adequate keyboarding skill should enroll in IT 0810 before taking a computer class.

Horticulture Industries - Golf Course Operations Option (1410)

The Horticultural Industries program provides basic preparation for careers in the landscape and turfgrass industries. The campus grounds, including a greenhouse facility and a one-hole golf course, act as a working laboratory to give students practical training. Clark State students can specialize in golf course operations as they apply to maintaining the golf course leading to a career in the golf course industry.

Learning Outcomes

Upon completion of an Associate of Applied Science degree in the Golf Course Operations option, a graduate will be able to:

- Identify plant nutrient deficiencies and describe corrective measures.
- Identify major plant pests, including weeds, insects and diseases and describe corrective measures.
- Develop a written agricultural business plan.
- Locate and use current information in solving technical and critical thinking problems.
- Demonstrate effective employability skills.
- Identify common landscape plant materials.
- Demonstrate the proper care of established plants in the landscape.
- Demonstrate basic trouble shooting and maintenance skills for small gas engines.
- Write clearly and accurately in variety of contexts and formats.
- Speak clearly and accurately in a variety of contexts and formats.
- Use critical thinking and problem solving to draw logical conclusions.
- Use numerical data to solve problems, explain phenomena and make predictions.

Scholastic Preparation

High school chemistry, biology, geometry, algebra, and keyboarding skills are strongly recommended.

Transfer Options

Students enrolled in Associate of Applied Science degree programs are preparing for employment upon graduation from the program. However, at some point many of these students are also interested in completing a bachelor's degree. A number of colleges or universities have designed bachelor's completion programs designed for students completing applied degrees. See the Transfer section of the catalog for more information.

* At least one must be a global awareness (GA) course. Select from social/behavioral sciences or arts/humanities courses identified in the Catalog as General Education for technical programs.

A complete listing of humanities and social science electives is available in the College Catalog.

Horticulture Industries - Landscape Design Option (1440)

The Horticultural Industries program provides basic preparation for careers in the landscape and turfgrass industries. The campus grounds, including a greenhouse facility and a one-hole golf course, act as a working laboratory to give students practical training. Clark State students can specialize in landscape design. Landscape plant materials, design, and computer-aided design are emphasized leading to careers in the landscape industry.

Learning Outcomes

Upon completion of an Associate of Applied Science degree in the Landscape Design option, a graduate will be able to:

- Identify plant nutrient deficiencies and describe corrective measures.
- Identify major plant pests, including weeds, insects and diseases and describe corrective measures.
- Develop a written agricultural business plan.
- Locate and use current information in solving technical and critical thinking problems.
- Demonstrate effective employability skills.
- Identify common landscape plant materials.
- Demonstrate the proper care of established plants in the landscape.
- Write clearly and accurately in variety of contexts and formats.
- Speak clearly and accurately in a variety of contexts and formats.
- Use critical thinking and problem solving to draw logical conclusions.
- Use numerical data to solve problems, explain phenomena and make predictions.

Scholastic Preparation

**AGR elective maybe any AGR course not required above. AGR 1700, 1750, 1800, 2300, 2450 are recommended. Other course work may be approved by the division.

A complete listing of humanities and social science electives is available in the College Catalog.

Horticulture Industries - Natural Resources Option (1451)

The Horticultural Industries program provides basic preparation for careers in the landscape and turfgrass industries. The campus grounds, including a greenhouse facility and a one-hole golf course, act as a working laboratory to give students practical training. Clark State students can specialize in parks and recreation operations. Tree and shrub identification, landscape maintenance, turf science, and communication skills are emphasized leading to careers in the parks and recreational industry.

Learning Outcomes

Upon completion of an Associate of Applied Science degree in the Natural Resources option, a graduate will be able to:

- Identify plant nutrient deficiencies and describe corrective measures.
- Identify major plant pests, including weeds, insects and diseases and describe corrective measures.
- Develop a written agricultural business plan.
- Locate and use current information in solving technical and critical thinking problems.
- Demonstrate effective employability skills.
- Identify common landscape plant materials.
- Demonstrate the proper care of established plants in the landscape.
- Demonstrate basic trouble shooting and maintenance skills for small gas engines.
- Write clearly and accurately in variety of contexts and formats.
- Speak clearly and accurately in a variety of contexts and formats.
- Use critical thinking and problem solving to draw logical conclusions.
- Use numerical data to solve problems, explain phenomena and make predictions.

Scholastic Preparation

High school chemistry, biology, geometry, algebra, and keyboarding skills are strongly recommended.

Graduation Requirements

A complete listing of humanities and social science electives is available in the College Catalog.

Transfer Options

Students enrolled in Associate of Applied Science degree programs are preparing for employment upon graduation from the program. However, at some point many of these students are also interested in completing a bachelor's degree. Horticulture Industries - Nursery Operations Option (1420)

The Horticultural Industries program provides basic preparation for careers in the landscape and turfgrass industries. The campus grounds, including a greenhouse facility and a one-hole golf course, act as a working laboratory to give students practical training. Clark State students can specialize in nursery operations. Landscape plant materials, landscape installation, and plant propagation are areas emphasized leading to careers in the garden-center and nursery industries.

Learning Outcomes

Upon completion of an Associate of Applied Science degree in the Nursery Operations option, a graduate will be able to:

- Identify plant nutrient deficiencies and describe corrective measures.
- Identify major plant pests, including weeds, insects and diseases and describe corrective measures.
- Develop a written agricultural business plan.
- Locate and use current information in solving technical and critical thinking problems.
- Demonstrate effective employability skills.
- Identify common landscape plant materials.

Horticulture Industries - Turf and Landscape Operations Option (1430)

The Horticultural Industries program provides basic preparation for careers in the landscape and turfgrass industries. The campus grounds, including a greenhouse facility and a one-hole golf course, act as a working laboratory to give students practical training. Clark State students can specialize in turf and landscape operations. Turfgrass science and turf management as well as landscape maintenance are emphasized leading to careers in the lawn-care and landscape maintenance industries.

Learning Outcomes

Upon completion of an Associate of Applied Science degree in the Turf and Landscape Operations option, a graduate will be able to:

- Identify plant nutrient deficiencies and describe corrective measures.
- Identify major plant pests, including weeds, insects and diseases and describe corrective measures.
- Develop a written agricultural business plan.
- Locate and use current information in solving technical and critical thinking problems.
- Demonstrate effective employability skills.
- Identify common landscape plant materials.
- Demonstrate the proper care of established plants in the landscape.
- Demonstrate basic trouble shooting and maintenance skills for small gas engines.
- Write clearly and accurately in variety of contexts and formats.
- Speak clearly and accurately in a variety of contexts and formats.
- Use critical thinking and problem solving to draw logical conclusions.
- Use numerical data to solve problems, explain phenomena and make predictions.

Scholastic Preparation

High school chemistry, biology, geometry, algebra, and keyboarding skills are strongly recommended.

Transfer Options

Total Credit Hours		62

*At least one must be a global awareness (GA) course. Select from social/behavioral sciences or arts/humanities courses identified in the Catalog as General Education for technical programs.

The program schedule is designed for full-time students who have completed all prerequisites and who have no college preparatory recommendations. Many individuals, especially part-time students and those taking college preparatory courses, will require additional terms of study. Students should consult their academic advisor for help in planning their schedules.

A complete listing of humanities and social science electives is available in the College Catalog.

Precision Agriculture (1510)

The Precision Agriculture program option emphasizes preparation for agriculture service-industry occupations. Courses are offered in soil science, soil fertility, plant pests, precision agriculture, remote sensing, applied GIS for Agriculture and data analysis. The curriculum is designed to prepare students for employment with companies using geospatial technologies, including geographic information systems (GIS) and global positioning systems (GPS) applied to agricultural production or management activities, such as pest scouting, site-specific pesticide application, yield mapping, or variable-rate irrigation.

Embedded Certificate

This degree program contains one or more embedded certificates which will automatically be awarded if the certificate requirements are met unless the student contacts Records and Registration and indicates he/she does not wish to have the certificate credential awarded.

Learning Outcomes

Upon completion of an Associate of Applied Science degree in Precision Agriculture, a graduate will be able to:

- Identify plant nutrient deficiencies and describe corrective measures.
- Identify major plant pests, including weeds, insects, and diseases and describe corrective measures.
- Develop a written agricultural business plan.
- Locate and use current information in solving technical and critical thinking problems.
- Demonstrate effective employability skills.
- Analyze data from precision agriculture platforms and prepare recommendations.
- Write clearly and accurately in a variety of contexts and formats.
- Speak clearly and accurately in a variety of contexts and formats.
- Use critical thinking and problem solving to draw logical conclusions.
- Use numerical data to solve problems, explain phenomena, and make predictions.

Scholastic Preparation

High school chemistry, biology, geometry, algebra, and keyboarding skills are strongly recommended.

Transfer Options

Students enrolled in Associate of Applied Science degree programs are preparing for employment upon graduation from the program. However, at some point many of these students are also interested in completing a bachelor's degree. A number of colleges or universities have designed bachelor's completion programs designed for students completing applied degrees. See the Transfer section of the catalog for more information or talk to your academic advisor.

Precision Agriculture - Technician Option (1520)

The Precision Agriculture Technician program option emphasizes preparation for agriculture service-industry occupations. Courses are offered in soil science, soil fertility, plant pests, precision agriculture and applied precision agriculture technical information. The curriculum is designed to prepare students for employment with companies using precision agriculture equipment.

Learning Outcomes

Upon completion of an Associate of Applied Science degree in Precision Agriculture, a graduate will be able to:

- Troubleshoot, evaluate equipment to determine faulty components.
- Demonstrate an understanding of the precision equipment required for a given production goal.
- Present recommendations for the addition or retrofitting of precision equipment and install new or replacement components.
- Identify plant nutrient deficiencies and describe corrective measures.
- Identify major plant pests, including weeds, insects, and diseases and describe corrective measures.
- Develop a written agricultural business plan.
- Demonstrate effective employability skills.
- Write clearly and accurately in a variety of contexts and formats.
- Speak clearly and accurately in a variety of contexts and formats.
- Use critical thinking and problem solving to draw logical conclusions.

Scholastic Preparation

High school chemistry, biology, geometry, algebra, and keyboarding skills are strongly recommended.

Transfer Options

Students enrolled in Associate of Applied Science degree programs are preparing for employment upon graduation from the program. However, at some point many of these students are also interested in completing a bachelor's degree. Agriculture and Food Science Certificates

Precision Agriculture Short-Term Technical Certificate (1510D)

Agricultural sales and service companies are hiring people who have complete coursework in both agriculture and geospatial technologies to develop precision agriculture programs or to provide technical assistance to farmers. The Precision Agriculture Specialist certificate is designed to provide the technical background necessary to begin a successful career as a Precision Agriculture Specialist.

Students enrolled in Precision Agriculture certificate usually have an associate or bachelor's degree. However, coursework included in a certificate program may ultimately be applied for the associate degree in the related technology program.

Learning Outcomes

- Students will develop the skills needed to use, manage, and manipulate GIS applications
- Hands-on experience using GIS software
- Knowledge of fundamental concepts and issues related to precision agriculture
- Skills necessary to conduct precision agricultural analysis

Arts and Humanities

Associate of Arts (3180)

Four-year colleges and universities generally require that students spend a significant portion of their first two years taking courses that build their knowledge and skills in general education. A student with an AA degree may transfer these courses to a four-year institution. Of the 60 semester credit hours necessary to earn an AA degree at Clark State, a minimum of 44 credit hours must come from areas 1-6 in the outline of degree requirements. The remaining credit hours are divided among courses in the student's area of concentration and elective courses. The AA degree focuses on courses in the liberal arts and sciences.

To explore different pathways and focus areas, go to <https://www.ohiohighered.org/OGTP>. This includes information regarding discipline specific Associate of Arts degree options for transferrability to other state institutions.

Learning Outcomes

Upon completion of an Associate of Arts degree, a graduate will be able to:

- Write clearly and accurately in a variety of contexts and formats.
- Speak clearly and accurately in a variety of contexts and formats.
- Use critical thinking and problem solving to draw logical conclusions.
- Use numerical data to solve problems, explain phenomena and make predictions.
- Successfully transfer to a baccalaureate degree program.

Transfer Options

Clark State has detailed transfer agreements with many local colleges and universities. The greatest number of these are with Wright State University and are in areas such as Business, English, Math, Pre-Teacher Education, Psychology, etc. Check the transfer guide section of the Clark State website for more information about these transfer agreements.

Transfer institutions make the determination in acceptance of credit. The student should consult his/her academic advisor and the intended transfer institution when planning a schedule of classes. With careful scheduling and advising, a student should be able to transfer with junior standing, especially within the state of Ohio.

Area 1 - English (6 credit hours)

Grades of C or better in ENG 1111 English I and ENG 1112 English II are required for graduation with the AA degree.

Area 2 - Communication (3 credit hours)

At least one course from COM 1110, 1120, 1130, 1170

Area 3 - Literature, the Arts, and Humanities (15 credit hours)

Five courses including PHL 2000; one chosen from ENG 1600, 2300, 2500, 2610, 2620; one course from HST 1110, 1120, 1210, 1220, PHL 2100, 2300, 2400; one course from ART, ASL, ENG, FRN, HST, HUM 1110, MUS, PHL, SPN or THE; and one course at the 2000 level from ASL, ENG, HST, PHL, SPN, or THE.

Area 4 - Social Sciences (9 credit hours)

Two courses from two different subject areas chosen from ECO 1100, 2210, 2220, GEO 1100, 2200, PLS 1100, 1300, 2300, 2400, PSY 1111, 2218, 2223, 2230, RST 2700, 2800, SOC 1110, 2220, 2230, 2240, 2250; and one course at the 2000 level from ECO, GEO, PLS, PSY, RST, or SOC.

Area 5 - Mathematics (3 credit hours)

At least one course from MTH 1070, 1280, 1340, 2100, 2200, 2220, 2242, 2330, 2530, STT 2640.

Area 6 - Natural Sciences (8 credit hours)

Many options are available; choose one most suited to your transfer institution. At least two classes from BIO, CHM, GLG, PHY; taken from those listed under Natural & Physical Sciences in the Transfer Module. Foundations (1 credit hour)

All students pursuing an AA degree must take FYE 1100 College Success. FYE 1100 should be taken as early as possible in a student's academic career.

Concentration/Elective (15-28 credit hours)

These hours should be clearly transferable and count toward or be related to the major at the transfer institution. They may also be used to fulfill additional general education requirements at the four-year institution. These classes should be planned carefully with an advisor. The credits in this category must bring the total degree credits to at least 60 semester credit hours.

Global Awareness

In recognition of the growing importance of global awareness, the College also requires that students receiving the Associate of Arts degree take at least four courses with significant international content. Courses meeting the requirement are identified in the College catalog. These classes will typically be in the Concentration/Elective area, but may also fulfill requirements in Areas 2 - 6 above.

Advanced Courses

All students pursuing the AA degree are required to complete at least 9 credit hours in courses numbered 2000 or higher. These classes will typically be in the Concentration/Elective area, but may also fulfill requirements in Areas 2 - 7 above.

Total Credit Hours: 60

* The number of credit hours and courses may vary with specific curriculum guides. Check with your advisor first.

Communication (3380)

This program is offered at Clark State's Greene Center campus in Beavercreek, at the Leffel Lane campus in Springfield, and 100% online.

Learning Outcomes

Upon completion of an associate degree in Communication, a graduate will be able to meet the goals outlined for the general Associate of Arts; additionally, the student will:

- Write clearly and accurately in a variety of contexts and formats.
- Speak clearly and accurately in a variety of contexts and formats.
- Use critical thinking and problem solving to draw logical conclusions.
- Use numerical data to solve problems, explain phenomena and make predictions.
- Successfully transfer to a baccalaureate degree program.

Scholastic Preparation

Students entering this program should have taken the college preparatory courses offered by their high schools. Students who do not test into MTH 1070 Quantitative Reasoning will need to take the necessary prerequisite mathematics courses before beginning the required math course. Additionally, some institutions require foreign language for a bachelor of arts degree in Communication. Check the institutions you are considering for details on foreign language requirements. Talk to your Communication advisor at Clark State for specific information regarding this degree program.

* 8 credit hours are required in science for an AA degree. See the Associate of Arts degree requirements for courses that fall into this category; additionally, it is best to select courses which are compatible with the degree plan at the intended transfer institution.

** Online availability.

*** A minimum of 15 hours are required in literature, the arts, and humanities for an AA degree. See the Associate of Arts degree requirements and transfer module for the courses that fall into this category area. Additionally, it is best to select courses which are compatible with the degree plan at the intended transfer institution.

**** Some institutions require foreign language for a bachelor of arts degree in Communication; check the institutions you are considering for details on foreign language requirements. If foreign language is required, plan accordingly when creating your academic schedule.

All students pursuing the AA degree are required to complete at least 9 credit hours in courses numbered 2000 or higher. These classes will typically be in the Concentration/Elective area, but may also fulfill requirements in other subject areas.

Graphic Design (3700)

Graphic designers develop a variety of visual communication solutions for clients including magazine, billboard and newspaper advertising, product packaging, brochures, brand development, catalogs, editorial graphics, book covers, and posters. The aim is integration of the conceptual and the technical. Students will develop critical and conceptual thinking skills so that they can communicate any idea clearly, creatively and powerfully. Students will be prepared for the practice of design in the professional context and provided the basis for their continued creative, personal and professional growth. With a problem-solving, project-based format, students will develop visual communication skills, explore the integration of type and images through a variety of traditional and computer media and imaginatively deliver messages responsive to the needs of the client and their target audience.

The Graphic Design program is a two-year computer intensive learning experience focusing on industry-standard practices. Dedicated to keeping up with technological advances affecting the visual arts, the program integrates technology with fine arts sensibility. Students with little experience with computers should take special note of the "Academic Preparation" section. Graduating graphic design students wishing to further build their web design skills could also receive an Associate of Applied Business in New Media by completing an additional 11 courses in the New Media curriculum.

Learning Outcomes

Upon completion of an Associate of Applied Business in Graphic Design, a graduate will be able to:

- Utilize industry standard software effectively for design.
- Professionally communicate ideas, concepts and design knowledge.
- Manage a design problem from conceptualization to a finished project.
- Design and present a professional portfolio.

Scholastic Preparation

Graphic Design students with little or no computer background should enroll in ITS 0800, Computer Fundamentals, as a preparatory course before taking other computer courses. Students without adequate keyboarding skills should enroll in ITS 0810, Beginning Keyboarding.

Transfer Options

Students enrolled in Associate of Applied Business degree programs are preparing for employment upon graduation from the program. However, at some point many of these students are also interested in completing a bachelor's degree. Some colleges or universities have designed bachelor's completion programs designed for students completing applied degrees. See the Transfer section of the catalog for more information.

New Media (3800)

New media brings together web design and development; social media; and digital content creation such as photography, video, audio, and animation to create the ultimate, interactive experience for a computer user. Students with this degree can work in the field of web design and development, user experience design, social media strategy, digital marketing, and multimedia content production. Graduates in new media need a balance of technical skills and aesthetic design sense with strong communication and personal skills to interact with clients. Employers in new media need skilled and intuitive, creative problem solvers to help them adapt to this new technological age. Employees in New Media must have strong computer competencies to allow them to work remotely from home.

The New Media program is a two-year computer intensive learning experience focusing on industry-standard practices. Students with little experience with computers should take special note of the “Academic Preparation” section.

Graduating new media students wishing to further build their skills could also receive an Associate of Applied Business in Graphic Design by completing an additional 12 courses in the Graphic Design curriculum and an Associate of Applied Business in Computer Software Development by completing an additional 12 courses in the Computer Software Development curriculum.

Embedded Certificate

This degree program contains one or more embedded certificates which will automatically be awarded if this certificate requirements are met unless the student contacts Records and Registration and indicates he/she does not wish to have the certificate credential awarded.

Learning Outcomes

Upon completion of an Associate of Applied Business degree in New Media, a graduate will be able to:

- Design websites with usability in mind.
- Manage a new media design problem from conceptualization to finished project.
- Utilize industry standard software effectively for digital content creation.
- Use social media effectively as a strategic marketing tool.

Scholastic Preparation

New Media students need a high school algebra background equivalent to CPE 0500 Pre-Algebra. Students with little or no computer background should enroll in ITS 0800 Computer Fundamentals as a preparatory course before taking other computer courses. Students without adequate keyboarding skills should enroll in ITS 0810 Beginning Keyboarding.

Transfer Options

Students enrolled in Associate of Applied Business degree programs are preparing for employment upon graduation from the program. However, at some point many of these students are also interested in completing a bachelor's degree. Students who wish to continue with their education can apply for Bachelor of Applied Science in Web Design and Development at Clark State. See the Bachelor Degree section of the catalog for more information.

New Media - Web Design Option (3815)

The New Media Web Design Option focuses on teaching front-end interface design skills with the necessary programming skills needed to obtain work as front-end web developers or user experience designers. Graduates in the New Media Web Design option need a balance of technical skills and aesthetic design sense with strong communication and personal skills to interact with clients. Employers in new media need skilled and intuitive, creative problem solvers to help them adapt to this new technological age. Employees in New Media must have strong computer competencies to allow them to work remotely from home.

The New Media program is a two-year computer intensive learning experience focusing on industry-standard practices. Students with little experience with computers should take special note of the “Academic Preparation” section below.

Graduating new media students wishing to further build their skills could also receive an Associate of Applied Business in Graphic Design by completing 12 additional courses in the Graphic Design curriculum and an Associate of Applied Business in Computer Software Development by completing an additional 10 courses in the Computer Software Development curriculum.

Learning Outcomes

Upon completion of an Associate of Applied Business degree in New Media - Web Design Option, a graduate will be able to:

- Design websites with usability in mind.
- Manage a new media design problem from conceptualization to finished project.
- Utilize industry standard software effectively for digital content creation.
- Write computer programs to implement information systems designs.

Scholastic Preparation

New Media students need a high school algebra background equivalent to MTH 0650 Pre-Algebra for Non-STEM majors. Students with little or no computer background should enroll in ITS 0800 Computer Fundamentals, as a preparatory course before taking other computer courses. Students without adequate keyboarding skills should enroll in ITS 0810 Beginning Keyboarding.

Transfer Options

Students enrolled in Associate of Applied Business degree programs are preparing for employment upon graduation from the program. However, at some point many of these students are also interested in completing a bachelor's degree. Students who wish to continue with their education can apply for the Bachelor of Applied Science in Web Design and Development at Clark State. See the Bachelor Degree section of the catalog for more information.

The program course schedule is designed for full-time students who have completed all prerequisites and who have no college preparatory recommendations. Many individuals, especially part-time students and those requiring college preparatory courses, will need additional semesters of study. Students should also consult their academic advisor for help in planning their schedules.

Theatre Arts - Performance (3110)

Performance majors focus on acting, voice, movement, as well as general education theatre topics like theatre history and script analysis. Performance students will most likely transfer to a university program with a performance focus or may choose a non-technical theatre area of study like playwriting or directing. Students have the opportunity to perform in theatrical productions each semester in either the Turner Studio Theatre or Kuss Auditorium located in the Clark State Performing Arts Center. Students majoring in Performance must audition for program productions as part of their coursework.

Learning Outcomes

Upon completion of an associate degree in Theatre Performance, a graduate will be able to:

- Demonstrate auditioning and performance skills and professionalism.
- Demonstrate an understanding of the roles of all theatre personnel and use correct terminology.
- Analyze a play's structure, character, themes and production values.
- Differentiate among major periods in theatre history.

Global Awareness

In recognition of the growing importance of global awareness, the College also requires that students receiving the Associate of Arts degree take at least four courses with significant international content. Courses meeting the requirement are identified in the College catalog. The classes will typically be in the Concentration/Elective area, but may also fulfill requirements in Areas 2 - 6 above.

Advanced Courses

All students pursuing an AA degree are required to complete at least 6 credit hours in courses numbered 2000 or higher. The classes will typically be in the Concentration/Elective area, but may also fulfill requirements in Areas 2 - 6 above.

In order to finish a Theatre Arts - Performance degree in two years, full-time students should have completed all prerequisites and have no college preparatory requirements. Many individuals, especially part-time students and those taking preparatory courses will require additional semesters of study. Students should consult their academic advisor for help planning their schedules.

Theatre Arts - Technical Theatre (3150)

Technical Theatre majors focus on stagecraft, lighting, sound, as well as general education theatre topics like theatre history and script analysis. Technical Theatre majors should be prepared for entry-level technical careers at the end of the two years of full-time study, although some students may choose to transfer to university programs with a technical or design focus. Students have the opportunity to be involved in theatrical productions each semester in either the Turner Studio Theatre or Kuss Auditorium located in the Clark State Performing Arts Center. Students majoring in Technical Theatre must crew program productions as part of their coursework.

Learning Outcomes

Upon completion of an associate degree in Theatre Arts - Technical Theatre, a graduate will be able to:

- Demonstrate theatre technology equipment skills including analyzing design packages and plots.
- Demonstrate an understanding of the roles of all theatre personnel and use correct theatre terminology.
- Analyze a play's action, structure, character, themes, and production values.
- Differentiate among major periods in theatre history.

Global Awareness

In recognition of the growing importance of global awareness, the College also requires that students receiving the Associate of Arts degree take at least four courses with significant international content. Courses meeting the requirements are identified in the College catalog. These classes will typically be in the Concentration/Elective area but may fall into other areas.

Advanced Courses

Arts and Humanities Certificates

Arts Administration Departmental Certificate (3150D)

The Arts Administration departmental certificate is designed to prepare students for entry-level positions in arts administration. General education courses in theatre, as well as arts administration, acting, and stagecraft provide a broad overview of the arts. Accounting, marketing, and management courses will give the students the business background they need to succeed in arts management. Many of the courses needed for this certificate overlap those required in Management and/or Theatre Arts, so students can apply many of the following classes to the requirements for those programs.

Course #	Course Title	Credit Hours

* Humanities elective meeting Global Awareness requirement.

Communication Departmental Certificate (4704D)

This certificate will provide the student with extensive background in and knowledge of effective communication skills necessary in today's work environment, including writing, oral, and listening skills. The ability to communicate effectively is listed among the top five qualifications that employers require and is often ranked as the number one required skill. In today's information-based world, excellent communication skills are vital to success, and this certificate will provide students the opportunity to gain invaluable knowledge of and practice using effective communication skills and/or to improve the communication skills they already possess. Students should follow the recommended sequencing of courses, with consideration to the pre/co-requisites, including college preparatory (CPE) requirements.

Learning Outcomes

Upon completion of a Communication Departmental certificate, a graduate will be able to:

- Demonstrate effective interpersonal communication skills
- Describe relationships between mass media and other forms of media in society
- Produce well-constructed written communication utilizing the eight parts of speech
- Prepare and analyze quality business documents

Bachelor's Degrees

Manufacturing Technology Management - Computer-Aided Design Concentration (5910)

Students completing a Bachelor of Applied Science degree in Manufacturing Technology Management are qualified to pursue management, supervisor, and team leader roles in manufacturing, distribution, and engineering related facilities. Training in this program includes hands-on technical labs in robotics, welding, computer numerical control (CNC), industrial maintenance, manufacturing, additive, and computer-aided design. Management skills are embedded in each course to give students the opportunity to have real life experiences in the areas of human relations, communication, project management, and business.

Learning Outcomes

Upon completion of a Bachelor of Applied Science degree in Manufacturing Technology Management, a graduate will be able to:

- Integrate principles of management with manufacturing processes, procedures, and production to develop problem solving and critical thinking skills in a manufacturing setting.
- Assess and apply operations management theory and best practices within the manufacturing environment to achieve operational goals.
- Demonstrate the management of integrated manufacturing processes within complex manufacturing environments
- Analyze and improve operations management decisions to meet desired outcomes within the manufacturing facility from design to production to sustainability.
- Generate training programs, evaluation methods and schedules to provide comprehensive training covering a broad range of technical skills used in manufacturing.
- Evaluate communication, leadership, and human relations skills between all levels of personnel within a manufacturing setting.

Total Credit Hours 120

Manufacturing Technology Management - Manufacturing Engineering Technology Concentration (5930)

Students completing a Bachelor of Applied Science degree in Manufacturing Technology Management are qualified to pursue management, supervisor, and team leader roles in manufacturing, distribution, and engineering related facilities. Training in this program includes hands-on technical labs in robotics, welding, computer numerical control (CNC), industrial maintenance, manufacturing, additive, and computer-aided design. Management skills are embedded in each course to give students the opportunity to have real life experiences in the areas of human relations, communication, project management, and business.

Learning Outcomes

Upon completion of a Bachelor of Applied Science degree in Manufacturing Technology Management, a graduate will be able to:

- Integrate principles of management with manufacturing processes, procedures, and production to develop problem solving and critical thinking skills in a manufacturing setting.
- Assess and apply operations management theory and best practices within the manufacturing environment to achieve operational goals.
- Demonstrate the management of integrated manufacturing processes within complex manufacturing environments
- Analyze and improve operations management decisions to meet desired outcomes within the manufacturing facility from design to production to sustainability.
- Generate training programs, evaluation methods and schedules to provide comprehensive training covering a broad range of technical skills used in manufacturing.
- Evaluate communication, leadership, and human relations skills between all levels of personnel within a manufacturing setting.

Web Design and Development - Web Design Concentration (5710)

The Bachelor of Applied Science Degree in Web Design and Development is a combination of front-end (Web Design) and back-end (Web Development) skills with an emphasis on experiential learning. There is a need for web designers and developers (who are typically labeled Full Stack Web Developers) because the individual roles of web designer and web developer are increasingly crossing over as internet technology and web programming languages evolve. Even if you are only going to serve in a front end or back end role for a project, you must know the language of both to function effectively in a team.

Web Developers with front-end development skills are able to design responsive, user interfaces based on client or team specifications. They use the elements and principles of design, analytics, and usability to inform their design choices. Web Developers with back-end development skills are creating advanced website or web application functionality using both client-side and server-side programming languages and databases with an attention to security and version control. Web Developers with back-end development skills are adaptable problem solvers who are able to address web application programming challenges.

The Bachelor of Applied Science Degree in Web Design and Development will prepare students for employment as Web Developers, Web Designers, Front End Developers, Software Developers, and Full Stack Web Developers.

Learning Outcomes

- Adapt to various problem-solving needs using the appropriate tools in web design and development while utilizing persistence, curiosity, research, and a willingness to learn.
- Communicate effectively, able to make formal and informal presentations to clients, managers, technical, and non-technical staff.
- Deploy full-stack web applications with integrated server-side databases in a testing environment, on a web server, or in the cloud while using an Agile Development model and working in teams and individually.
- Design responsive, front-end user interfaces based on client need, design elements and principles, analytics, usability testing, and best practice coding that adheres to web standards and semantics.
- Work with various computer platforms, including Windows, Mac OS, and Linux.
- Write computer programs to support web applications such as client-side scripts, server-side scripts with attention to version control, web security, and client specifications.

Transfer Options

Students who wish to continue with their education can apply for the Bachelor of Applied Science in Web Design and Development at Clark State. See the Bachelor Degree section of the catalog for more information.

Web Design and Development - Web Development Concentration (5720)

This is a new program that will begin Fall 2020. The Bachelor of Applied Science Degree in Web Design and Development is a combination of front-end (Web Design) and back-end (Web Development) skills with an emphasis on experiential learning. There is a need for web designers and developers (who are typically labeled Full Stack Web Developers) because the individual roles of web designer and web developer are increasingly crossing over as internet technology and web programming languages evolve. Even if you are only going to serve in a front end or back end role for a project, you must know the language of both to function effectively in a team.

Web Developers with front-end developmental skills are able to design responsive, user interfaces based on client or team specifications. They use the elements and principles of design, analytics, and usability to inform their design choices. Web Developers with back-end development skills are creating advanced website or web application functionality using both client-side and server-side programming languages and databases with an attention to security and version control. Web Developers with back-end development skills are adaptable problem solvers who are able to address web application programming challenges.

The Bachelor of Applied Science Degree in Web Design and Development will prepare students for employment as Web Developers, Web Designers, Front End Developers, Software Developers, and Full Stack Web Developers.

Learning Outcomes

- Adapt to various problem-solving needs using the appropriate tools in web design and development while utilizing persistence, curiosity, research, and a willingness to learn.
- Work with various computer platforms, including Windows, Mac OS, and Linux.
- Write computer programs to support web applications such as client-side scripts, server-side scripts with attention to version control, web security, and client specifications.
- Deploy full-stack web applications with integrated server-side databases in a testing environment, on a web server, or in the cloud while using an Agile Development model and working in teams and individually.
- Communicate effectively, able to make formal and informal presentations to clients, managers, technical, and non-technical staff.
- Design responsive, front-end user interfaces based on client need, design elements and principles, analytics, usability testing, and best practice coding that adheres to web standards and semantics.

Transfer Options

Students who wish to continue with their education can apply for the Bachelor of Applied Science in Web Design and Development at Clark State. See the Bachelor Degree section of the catalog for more information.

Business

Accounting (4100)

Accountants must have an appreciation of all aspects of business organizations as well as technical proficiency in maintaining accurate records, preparing and analyzing financial statements and other types of financial reports. Accountants may work in such areas as general accounting, bookkeeping, auditing, tax preparation, cost accounting, budgeting, or financial investigation. The demand for trained accountants has increased substantially with the growth and complexity of business and government. According to the U.S. Bureau of Labor Statistics, accountants and auditors can expect faster than average employment growth over the 2018-2028 decade.

Embedded Certificate

This degree program contains one or more embedded certificates which will automatically be awarded if the certificate requirements are met unless the student contacts Records and Registration and indicates he/she does not wish to have the certificate credential awarded.

Degree Availability

This program is available both in class and online. Students should consult with their advisor for the recommended sequencing of evening courses.

Learning Outcomes

Upon completion of an Associate of Applied Business degree in Accounting, a graduate will be able to:

- Demonstrate an understanding of the federal tax laws and their application to both individuals and business entities. (S)
- Demonstrate the ability to utilize and apply technology as it impacts the accounting profession. (Microcomputer & Spreadsheets) (S)
- Apply mathematical concepts and technology to interpret, understand, and communicate quantitative data. (S)
- Demonstrate an understanding of the basic concepts of managerial and cost accounting and their roles in business and decision making. (Managerial-Cost) (S)
- Interpret, analyze, and present reliable and relevant information to financial statement users based upon generally accepted accounting principles both manually and electronically (S)

Transfer Options

Students enrolled in Associate of Applied Business degree programs are preparing for employment upon graduation from the program. However, at some point many of these students are also interested in completing a bachelor's degree. A number of colleges or universities have designed bachelor's completion programs designed for students completing applied degrees. See the Transfer section of the catalog for more information.

Total Credit Hours 63

^Proficiency test available.

* Students with little or no computer background should enroll in ITS 0800 before taking other computer courses. Students without adequate keyboarding skills should enroll in ITS 0810 before taking a computer class.

** Or advisor approval on alternate Arts/Humanities Global Awareness (GA) elective.

The program schedule is designed for full-time students who have completed all prerequisites and who have no college preparatory recommendations. Many individuals, especially part-time students and those taking college preparatory courses, will require additional semesters of study. Students should consult their academic advisors for help in planning their schedules.

A complete listing of humanities and social science electives is available in the College Catalog.

Business Transfer - Central State University (3210G)

The Business Transfer program is a calculus-based curriculum that will prepare a student to transfer into the College of Business at Central State University. This selection of courses is designed to allow a student to enter the College of Business with junior status upon completion, provided the student has maintained the requisite GPA.

Learning Outcomes

Upon completion of an associate degree in Pre-Business, a graduate will be able to meet the goals outlined for the general associate of science degree; additionally, the student will be able to:

- Demonstrate awareness of the role of the business person in society.
- Demonstrate awareness of the rapidly changing global business environment.

Scholastic Preparation

Students entering this program should have taken mathematics courses each year of high school. Students who do not test into MTH 1280 College Algebra will need to take the necessary prerequisite mathematics courses before beginning the mathematics sequence.

Area 1 - English (6 credit hours)

Grades of C or better in ENG 1111 English I and ENG 1112 English II are required for graduation with the AA or AS degree.

Area 2 - Communication (3 credit hours)

Take COM 1120 Public Speaking

Area 3 - Literature, the Arts, and Humanities (9 credit hours)

Take ENG 2300 Great Books: World Literature, HST 2200 Topics in African American History and Culture, and either HST 1110 Western Civilization to 1600 or 1120 Western Civilization since 1600

Area 4 - Social Sciences (9 credit hours)

Take PSY 1111 Introduction to Psychology, SOC 1110 Introduction to Sociology, and either ECO 2210 Macroeconomics or ECO 2220 Microeconomics

Area 5 - Mathematics (5 credit hours)

Take MTH 1280 College Algebra and MTH 2100 Business Calculus

Area 6 - Natural & Physical Sciences (10 credit hours)

Take BIO 1510 Biology I and PHY 1501 General Physics with Algebra

Foundations (1 credit hour)

All students pursuing an AA or AS degree must take FYE 1100 College Success. FYE 1100 should be taken as early as possible in a student's academic career.

Concentration/Elective (17-30 credit hours)

Select from ACC 1100 Introduction to Financial Accounting, ACC 1200 Managerial Accounting, ECO 2210 Principles of Macroeconomics (if not taken as part of Area 4), ECO 2220 Principles of Microeconomics (if not taken as part of Area 4), ITS 1105 Computer Concepts & Office Productivity Tools, MGT 1120 Principles of Management, MKT 2000 Marketing Management, MGT 2600 Legal Environment of Business, MGT 1105 Contemporary American Business, STT 2640 Elementary Statistics I.

These Concentration/Elective classes should be planned carefully with an advisor from Central State, and may vary by the specific concentration chosen.

Advanced Courses

All students pursuing the AS degree are required to complete at least 9 credit hours in courses numbered 2000 or higher. These classes will typically be in the Concentration/Elective area, but may also fulfill requirements in Areas 2 - 6 above.

Business Transfer - Wright State University (3210W)

The Business Transfer program is a calculus-based curriculum that will prepare a student to transfer into the Raj Soin College of Business at Wright State University. This selection of courses is designed to allow a student to enter the College of Business with junior status upon completion, provided the student has maintained a GPA of 2.5 or higher.

Learning Outcomes

Upon completion of an Associate degree in Pre-Business, a graduate will be able to meet the goals outlined for the general associate of science degree; additionally, the student will be able to :

- Demonstrate awareness of the role of the business person in society.
- Demonstrate awareness of the rapidly changing global business environment.

Scholastic Preparation

Students entering this program should have taken mathematics courses each year of high school. Students who do not test into MTH 1280 College Algebra will need to take the necessary prerequisite mathematics courses before beginning the mathematics sequence.

MTH 2100	Calculus for the Management, Life and Social Sciences	5
- -	Science*	4
ECO 2220	Principles of Microeconomics	3
MGT 2600	Legal Environment of Business	3
Total Credit Hours		66

*Science classes chosen must be taken from those listed under Natural & Physical Sciences in the Transfer Module; many options available but chose at least two classes from BIO, CHM, GLG, PHY most suited to your transfer institution.

**In recognition of the growing importance of global awareness, the College also requires that students receiving the Associate of Science degree take at least four courses with significant international content. Courses in the curriculum plan above that meet this requirement are identified with the "GA" designation behind the course name.

***All students pursuing the AS degree are required to complete at least 9 credit hours in courses numbered 2000 or higher. These classes will typically be in the Concentration/Elective area but may also fulfill requirements in other subject areas.

This program schedule is designed for full-time students who have completed all prerequisites and who have no college preparatory education recommendations. Some individuals, especially part-time students and those taking college preparatory education courses, will require additional semesters of study. Students should consult their academic advisors for help in planning their schedules.

Judicial Court Reporting (4800)

This online program is a shared program between Clark State and Stark State College, offering a unique opportunity for providing excellence in teaching and learning.

The vital, exciting, and rewarding IT profession of judicial court reporting provides opportunities in multiple realtime career paths. Judicial court reporters are the guardians of the record, providing a verbatim record of the proceedings of a courtroom, deposition, hearing, arbitration, or meeting and producing an accurate transcript of the proceedings, using state-of-the-art technology. This technology allows court reporters to provide instantaneous translation referred to as realtime for all parties involved in the proceedings, whether present on site or at a distance via the Internet. The ability to create word-for-word accounts and provide realtime translation opens the career opportunities beyond the courtroom and depositions to closed captioning and beyond.

Clark/Stark students learn to write realtime using a computerized machine and to prepare transcripts using computer-aided (CAT) software. Students' writing skills are perfected by utilizing a realtime learning practice and testing web environment along with many additional specialized drills, and students have access to an on-campus mock courtroom, as well as on-campus realtime labs. Students are required to complete a significant internship prior to graduating, providing exposure to the judicial court reporting field in a real-world environment.

According to an independent study conducted by Ducker Worldwide (Ducker), one of the nation's leading marketplace analyst firms, demand for court reporters will exceed supply within five years, yielding a nationwide shortage. By 2018, there will be 5,500 new court reporter jobs available in the U.S. … according to the 2013-14 Court Reporting Industry Outlook Report. Average starting salary for a court reporter, as reported by Ducker, is \$43,000 annually; and according to the U.S. Bureau of Labor Statistics, the growth rate for court reporting salaries is expected to increase by 14 percent through the year 2020.

Are you interested in learning more about the world of court reporting? Listen to what graduates had to say! Access their stories now from Discover Court Reporting. Students with little or no computer background should enroll in a computer fundamentals course (consult with academic advisor) as a preparatory course before taking other computer courses.

Learning Outcomes

Upon completion of an Associate of Applied Business degree in Judicial Court Reporting, a graduate will be able to:

- Write a realtime translation theory.
- Read aloud from shorthand notes quickly and accurately.
- Demonstrate knowledge of basic hardware care, maintenance, and setup of a realtime system.
- Demonstrate an understanding and application of law and legal terminology, anatomy and/or medical terminology, and current events.
- Perform skills in reporting procedures, transcript production, and operating practices in the role of the realtime reporter.
- Demonstrate knowledge of professional issues, continuing education, and the NCRA Code of Professional Ethics.
- Write and transcribe testimony at 225 wpm with at least 95 percent accuracy.
- Write and transcribe jury charge at 200 wpm with at least 95 percent accuracy.
- Write and transcribe literary at 180 wpm with at least 95 percent accuracy.
- Perform 75 hours of verified internship, preparing a 40-page complete, accurate transcript, and summarizing the experience in a written narrative.

Scholastic Preparation

Prospective students should be disciplined, self-motivated, computer-literate, and possess above-average language skills. They also need to be able to meet deadlines, work well under pressure, and concentrate for long periods of time.

Graduation Requirements

The Judicial Court Reporting program is approved by the National Court Reporters Association (NCRA). This association's requirements are met or exceeded with the following standards:

- The student shall pass three five-minute tests with a minimum of 95-percent accuracy at each of the following speeds: 225 words per minute (wpm) testimony (two-voice), 200 wpm jury charge, and 180 wpm literary.
- The student shall complete at least 75 verified hours of internship under the supervision of a practicing professional judicial court reporter, composing a summary of complete experience as well as preparing a 40-page complete, accurate transcript from internship experience.
- The student shall prepare a five-page, first-pass transcript with a minimum of 95-percent accuracy.
- Clark State and Stark State reserve the right to change these standards when determined educationally expedient.

Transfer Options

Students enrolled in Associate of Applied Business and Associate of Applied Science degree programs are preparing for employment upon graduation from the program. However, at some point many of these students are also interested in completing a bachelor's degree. A number of colleges or universities have designed bachelor's completion programs designed for students completing applied degrees. See the Transfer section of the appropriate college catalog for more information.

Total Credit Hours	65
--------------------	----

Courses with an "S" in the course number denotes a Stark State course.

*PLS 1100, Introduction to American Politics (prereq: ENG 1111), PSY 1111, Psychology I (GA) (Prerequisite(s): CPE 0100; Pre/Corequisite(s): CPE 0300; An appropriate COMPASS placement, ACT, or SAT score will satisfy the respective CPE requirement); SOC 1110, Introduction to Sociology (GA) (prereq: ENG 1111).

This program schedule is designed for full-time students who have completed all prerequisites and who have no college preparatory recommendations. Many individuals, especially part-time students and those taking college preparatory courses, will require additional semesters of study. Students should consult their academic advisor for help in planning their schedules.

A complete listing of humanities and social science electives is available in the Clark State catalog.

Management (4300)

The Management curriculum provides a well-rounded education consisting of basic courses in accounting, information technology, economics, finance, business law, management, marketing, and operations. The associate degree in Management provides students with knowledge and skills for managing people, finances, and operations.

Students with significant business experience, where expertise equals or exceeds the outcomes of a particular course(s), are offered two options for earning experiential credit. Proficiency exams are available for selected courses. Other courses may allow a student to potentially earn credit through a portfolio presentation. All business students are expected to use information technology skills as it applies to course requirements within all management options.

Embedded Certificate

This degree program contains one or more embedded certificates which will automatically be awarded if the certificate requirements are met unless the student contacts Records and Registration and indicates he/she does not wish to have the certificate credential awarded.

Learning Outcomes

Upon completion of an Associate of Applied Business degree in Management, a graduate will be able to do the following:

- Apply basic business and management concepts, skills, and tools.
- Effectively use communications and human relations knowledge and skills.
- Demonstrate knowledge of social responsibility trends, ethical issues, and legal considerations
- Analyze quantitative data.
- Demonstrate knowledge of global business trends.

Graduation Requirements

A complete listing of humanities and social science electives is available in the College Catalog.

Transfer Options

Students enrolled in Associate of Applied Business degree programs are preparing for employment upon graduation from the program. However, at some point many of these students are also interested in completing a bachelor's degree. A number of colleges or universities have designed bachelor's completion programs designed for students completing applied degrees. See the Transfer section of the catalog for more information.

^Prio Learning Assessment (PLA) Credit Available

*Students with little or no computer background should enroll in ITS 0800 before taking other computer courses. Students without adequate keyboarding skills should enroll in ITS 0810 before taking a computer class.

**Must be a global awareness (GA) course and come from arts/humanities courses identified in the Catalog

***Students who plan on transferring courses for advanced degree work should verify the best/appropriate course selection based on the receiving institutions's degree requirements.

****Technical electives must total one (1) semester hour. They can come from any combination of courses not already prescribed that use the following course codes: HRM, INS, LSC, MGT, MKT, ACC, CSD, CSE, EBE (except EBE 1100), ITS (except ITS 0800, ITS 0810, ITS 1100), NTK, OAD, and RES. ACC 1300 is recommended for HRM students.

The program schedule is designed for full-time students who have completed all prerequisites and who have no college preparatory recommendations. Many individuals, especially part-time students and those taking college preparatory courses, will require additional semesters of study. Students should consult their academic advisors for help in planning their schedules.

Students should follow the recommended sequencing of courses, with consideration to the pre/co-requisites, including college preparatory requirements.

Management - Banking Option (4310)

The Banking option at Clark State provides a well-rounded education consisting of basic management courses with concentrated studies related to the Banking industry in consumer lending, investments, customer service, and money and banking. The associate degree provides students not only with fundamental knowledge and skills for the banking industry but also the skills needed to serve in management and supervisory capacities.

Embedded Certificates

This degree program contains one or more embedded certificates which will automatically be awarded if the certificate requirements are met unless the student contacts Records and Registration and indicates he/she does not wish to have the certificate credential awarded.

Degree Availability

The Banking courses in this option are available online. Other courses are available during the day and the evening in Springfield, at the Greene Center, and online. Each semester offers an 8-week A term, B term, 16-week C term with a 10-week D term offered during the summer. Students should consult with an advisor for the recommended sequencing of courses.

Learning Outcomes

Upon completion of an Associate of Applied Business degree in Banking, a graduate will be able to do the following:

- Apply basic business and management concepts, skills, and tools.
- Effectively use communications and human relations knowledge and skills.
- Demonstrate knowledge of social responsibility trends, ethical issues, and legal considerations
- Analyze quantitative data.
- Demonstrate knowledge of global business trends.
- Demonstrate knowledge of banking including the structure, role in the economy, and products.

Scholastic Preparation

Students with significant business experience, where expertise equals or exceeds the outcomes of a particular course(s), are offered two options for earning experiential credit. Proficiency exams are available for selected courses. Other courses may allow a student to potentially earn credit through a portfolio presentation.

Transfer Options

Students enrolled in Associate of Applied Business degree programs are preparing for employment upon graduation from the program. However, at some point many of these students are also interested in completing a bachelor's degree. A number of colleges or universities have designed bachelor's completion programs designed for students completing applied degrees. See the Transfer section of the catalog for more information.

A complete listing of humanities and social science electives is available in the College Catalog. Students should follow the recommended sequencing of courses, with consideration to the pre/co-requisites, including college preparatory requirements.

Management - Human Resource Management Option (4320)

The Human Resource Management option provides students with a well-rounded education. It consists of basic management courses complemented with in-depth studies of human resource management, staffing, training and development, employment law, and compensation and benefits.

The Human Resource Management curriculum is designed to equip students with knowledge and practical skills for managing a company's human resource function.

All business students are expected to use information technology skills as it applies to course requirements within all management options.

Embedded Certificate

This degree program contains one or more embedded certificates which will automatically be awarded if the certificate requirements are met unless the student contacts Records and Registration and indicates he/she does not wish to have the certificate credential awarded.

Degree Availability

The Human Resource Management option is available in a combination of online, hybrid, and traditional formats. Traditional format is offered during the day and evening at the Greene Center Campus as well as the Springfield Campus. Students should consult with an advisor for the recommended sequencing of courses.

Learning Outcomes

Upon completion of an Associate of Applied Business degree in the Human Resource Management option, a graduate will be able to do the following:

- Analyze quantitative data.
- Apply basic business and management concepts, skills, and tools.
- Demonstrate knowledge of global business trends.
- Demonstrate knowledge of social responsibility trends, ethical issues, and legal considerations
- Effectively use communications and human relations knowledge and skills.
- Apply knowledge and skills in four functional areas of human resources including staffing, training and development, employment law, and compensation and benefits.

Scholastic Preparation

Students with significant business experience, where expertise equals or exceeds the outcomes of a particular course(s), are offered two options for earning experiential credit. Proficiency exams are available for selected courses. Other courses may allow a student to potentially earn credit through a portfolio presentation.

Transfer Options

Students enrolled in Associate of Applied Business degree programs are preparing for employment upon graduation from the program. However, at some point many of these students are also interested in

completing a bachelor's degree. A number of colleges or universities have designed bachelor's completion programs designed for students completing applied degrees. See the Transfer section of the catalog for more information.

*****Students who plan to complete a baccalaureate degree in the future should opt to take ACC 1100, Introduction to Financial Accounting.

The program schedule is designed for full-time students who have completed all prerequisites and who have no college preparatory recommendations. Many individuals, especially part-time students and those taking college preparatory courses, will require additional semesters of study. Students should consult their academic advisors for help in planning their schedules.

Management - Insurance Option (4361)

The Insurance option at Clark State provides a well-rounded education consisting of basic management courses with concentrated studies related to the insurance industry in claims handling, property loss adjusting, customer service, and claims software. The insurance courses prepare the students for the (Associate in Claims) AIC 30 and AIC 31 certification exams. The associate degree provides students not only with fundamental knowledge and skills for the insurance industry but also the skills needed to serve in management and supervisory capacities.

All business students are expected to use information technology skills as it applies to course requirements within all management options.

Embedded Certificate

This degree program contains one or more embedded certificates which will automatically be awarded if the certificate requirements are met unless the student contacts Records and Registration and indicates he/she does not wish to have the certificate credential awarded.

Degree Availability

The Insurance courses in this option are available online. Other courses are available during the day and the evening in Springfield, at the Greene Center, and online. Each semester offers an 8-week A term or B term track, with a D term offered during the summer. Students should consult with an advisor for the recommended sequencing of courses.

Learning Outcomes

Upon completion of an Associate of Applied Business degree in Insurance, a graduate will be able to do the following:

- Apply basic business and management concepts, skills, and tools.
- Effectively use communications and human relations knowledge and skills.
- Demonstrate knowledge of social responsibility trends, ethical issues, and legal considerations
- Analyze quantitative data.
- Demonstrate knowledge of global business trends.
- Demonstrate knowledge of effective handling of insurance claims and adjustments.

Scholastic Preparation

Students with significant business experience, where expertise equals or exceeds the outcomes of a particular course(s), are offered two options for earning experiential credit. Proficiency exams are available for selected courses. Other courses may allow a student to potentially earn credit through a portfolio presentation.

Transfer Options

Students enrolled in Associate of Applied Business degree programs are preparing for employment upon graduation from the program. Students should follow the recommended sequencing of courses, with consideration to the pre/co-requisites, including college preparatory requirements. A complete listing of humanities and social science electives is available in the College Catalog.

Management - Logistics and Supply Chain Management Option (4340)

The Logistics and Supply Chain Management (LSC) option provides a well-rounded education consisting of basic management courses with concentrated studies in purchasing, logistics, negotiation, supply chain management, and inventory/materials management. The associate degree in LSC provides students with fundamental knowledge and skills for managing the logistics and supply chain functions in both profit and not-for-profit organizations/businesses.

Supply Chain Management is the coordinated management and control of the supply chain (the process of supplying a product to a customer), from the acquisition of raw materials from vendors through their transformation into finished goods to the delivery of merchandise to the final customer. It involves information sharing, planning, resource synchronization, and performance measurement.

Logistics is the process of planning, implementing, and controlling the efficient and cost-effective flow and storage of raw materials, in-process stocks, finished goods, and related information from the point of origin to the point of consumption for customers. It is the science and art of ensuring that the right products reach the right place in the right quantity at the right time in order to satisfy consumer demand.

All business students are expected to use information technology skills as it applies to course requirements within all management options.

Embedded Certificate

This degree program contains one or more embedded certificates which will automatically be awarded if the certificate requirements are met unless the student contacts Records and Registration and indicates he/she does not wish to have the certificate credential awarded.

Degree Availability

The Logistics and Supply Chain Management program is available during the day and the evening, is offered online, and is available on all campuses. Students should consult with their advisor for the recommended sequencing of courses.

Learning Outcomes

Upon completion of an Associate of Applied Business degree in Management - Logistics and Supply Chain Management option, a graduate will be able to do the following:

- Apply basic business and management concepts, skills, and tools.
- Effectively use communications and human relations knowledge and skills.
- Analyze quantitative data.
- Demonstrate knowledge of social responsibility trends, ethical issues, and legal considerations
- Demonstrate knowledge of global business trends.
- Effectively use knowledge and skills in inventory and materials management, purchasing and supply strategies, negotiation strategies, and logistics and physical distribution.

Career Coach

Career options: Find entry-level to supervisory-level positions in purchasing, logistics, negotiation, and inventory/materials management. Some of the a range of job titles in a career in LSC are: buyer/purchasing agent, freight specialist, shipping-receiving clerk, inventory planner, outbound operations manager, transportation coordinator, warehouse supervisor, distribution manager, management analyst, and customer service manager.

LSC Functional Career Competencies: Professionalism, networking, basics of LSC, transportation, warehousing, materials handling, packaging, inventory planning, supply forecasting, reverse logistics, environmental management, purchasing, contracting, production, product decisions, pricing, customer relationship management, problem solving, functions of management, risk management, quality management, business law, ethics, legal issues, economics, demand forecasting, information technology support, teamwork, and entrepreneurial processes.

Prospective and current students are encouraged to research career opportunities at the Ohio Department of Education's Career Pathways website. A Career Pathway is a collective look at education and training, wage and outlook information for Logistics and Supply Chain Management occupations. These pathways offer an overview of the various career options along with education and training. Visit <http://education.ohio.gov/Topics/Career-Tech/Career-Connections/Career-Pathways> and review job titles, median salary, job growth opportunities for individuals working towards an Associate Degree in Logistics and Supply Chain Management such as Purchasing (Purchasing Agent), Supply Chain Management (I) Production Supervisor and Supply Chain Management (II) Production Clerk - Logistician.

Credentials/Professional Designations: Logistics and Supply Chain Management American Production and Inventory Control Society (APICS) - APICS Certified in Production and Inventory Management (CPIM) Program - Ideal APICS CPIM program candidates: If you are seeking validation or accreditation for future career growth. You have 2 or more years' experience in your field. No bachelor's degree is required.

APICS Certified Supply Chain Professional (CSCP) Program - Ideal APICS CSCP candidates: 3 years of related business experience or Bachelor's degree, or CPIM, CSCP, CLTD, CFPIM, CIRM, SCOR-P, CTL, C.P.M., CSM or CPSM designations.

APICS Certified in Logistics, Transportation and Distribution (CLTD) Program - Eligibility requirements: 3 years of related business experience or Bachelor's degree or the international equivalent* OR CPIM, CSCP, CLTD, CFPIM, CIRM, SCOR-P, CTL, C.P.M., CSM or CPSM designations.

**** Technical electives must total three (3) semester hours. They can come from any combination of courses not already prescribed that use the following codes: HRM, INS, LSC, MGT, MKT, ACC, CSD, CSE, EBE (except EBE 1100), ITS (except ITS 0800, ITS 0810, ITS 1100), NTK, OAD, and RES. ACC 1300 is recommended for HRM students.

Students should follow the recommended sequencing of courses, with consideration to the pre/corequisites, including college preparatory requirements.

The program schedule is designed for full-time students who have completed all prerequisites and who have no college preparatory recommendations. Many individuals, especially part-time students and those taking college preparatory courses, will require additional semesters of study. Students should consult their academic advisors for help in planning their schedules.

A complete listing of humanities and social science electives is available in the College Catalog.

Management - Real Estate Broker Option (4370)

The Real estate broker option at Clark State prepares students to fulfill the requirements to sit for the Ohio Broker Examination. This option has the following requirements:

- Ohio Real Estate Law (40 hours)
- Ohio Real Estate Principles & Practices (40 hours)
- Real Estate Appraisal (20 hours)
- Real Estate Finance (20 hours)
- A Financial Management course
- A Human Resources or Personnel Management course
- An Applied Business Economics course
- A Business Law course

A minimum of two years of post-secondary education, or equivalent hours of (60) sixty semester or (90) ninety quarter hours. Courses #5 - 8 may be included in your post-secondary education.

To sit for the Ohio Real Estate Broker's License, an applicant must also have the following experience:

Experience Requirements - 20 transactions

The Division calculates the transactions to ensure the applicant meets a total of twenty by using the following formulas:

- Listing agent in the sale of property owned by another = 1 transaction
- Selling agent in the sale of property owned by another = 1 transaction
- Listing agent in the lease of commercial or industrial real estate owned by another for a term of at least one year = 1 transaction
- Procuring agent in the lease of commercial or industrial real estate owned by another for a term of at least one year = 1 transaction
- Listing and /or procuring agent in the lease of four residential real estate properties owned by another for a term of at least one-year = 1 transaction

Embedded Certificate

This degree program contains one or more embedded certificates which will automatically be awarded if the certificate requirements are met unless the student contacts Records and Registration and indicates he/she does not wish to have the certificate credential awarded.

Degree Availability

The Real Estate courses are available online and traditionally during the evening. Other courses are available during the day and the evening in Springfield, at the Greene Center, and online. Each semester offers an 8-week A term, B term, 16-week C term with a 10-week D term offered during the summer. Students should consult with an advisor for the recommended sequencing of courses.

Learning Outcomes

Upon completion of an Associate of Applied Business degree in Real Estate Broker Program, a graduate will be able to do the following:

- Apply basic business and management concepts, skills, and tools.
- Effectively use communications and human relations knowledge and skills.
- Demonstrate knowledge of social responsibility trends, ethical issues, and legal considerations
- Analyze quantitative data.
- Demonstrate knowledge of global business trends.
- Apply knowledge and skills in management and the four areas of Real Estate including principles, law, appraisal, and finance.

Scholastic Preparation

Students with significant business experience, where expertise equals or exceeds the outcomes of a particular course(s), are offered two options for earning experiential credit. Proficiency exams are available for selected courses. Other courses may allow a student to potentially earn credit through a portfolio presentation.

Transfer Options

Students enrolled in Associate of Applied Business degree programs are preparing for employment upon graduation from the program. However, at some point many of these students are also interested in completing a bachelor's degree. A number of colleges or universities have designed bachelor's completion programs designed for students completing applied degrees. See the transfer section of the catalog for more information.

^Prior Learning Assessment (PLA) Credit Available.

*Students with little or no computer background should enroll in ITS 0800 before taking other computer courses. Students without adequate keyboarding skills should enroll in ITS 0810 before taking a computer class.

**Must be a global awareness (GA) course and come from arts/humanities courses identified in the Catalog.

***Students who plan on transferring courses for advanced degree work should verify the best/appropriate course selection based on the receiving institution's degree requirements.

**** Technical electives must total three (3) semester hours. They can come from any combination of courses not already prescribed that use the following course codes: HRM, INS, LSC, MGT, MKT, ACC, CSD, CSE, EBE (except EBE 1100), ITS (except ITS 0800, ITS 0810, ITS 1100), NTK, OAD, and RES. ACC 1300 is recommended for HRM students.

The program schedule below is designed for full-time students who have completed all prerequisites and who have no college preparatory recommendations. Many individuals, especially part-time students and those taking college preparatory courses, will require additional semesters of study. Students should consult their academic advisors for help in planning their schedules.

A complete listing of humanities and social science electives is available in the College Catalog. Students should follow the recommended sequencing of courses, with consideration to the pre/co requisites, including college preparatory requirements.

Office Administration (4700)

Office administrators function in a continually shifting role in a variety of office settings because of changing technology, the emphasis on greater efficiency and productivity. With this shift generally comes greater responsibility that is reflected in the duties of the office administrator, which may include integrated computer software applications; organization and scheduling; internet/intranet communications and research; document preparation, storage, and retrieval; and customer service and human relations.

Today's office administrators often purchase office equipment and supplies; plan meetings and special events; work closely with vendors and suppliers; orient, and supervise other staff; write and edit documents; coordinate direct mailings; maintain multiple schedules and calendars; handle messages and correspondence; and maintain computer files, directories, and databases.

Embedded Certificate

This degree program contains one or more embedded certificates which will automatically be awarded if the certificate requirements are met unless the student contacts Records and Registration and indicates he/she does not wish to have the certificate credential awarded.

Learning Outcomes

Upon completion of an Associate of Applied Business degree in Office Administration, a graduate will be able to:

- Compose and produce quality business documents using technology.
- Perform office administrative functions using critical thinking, management, prioritizing, and organizational skills.
- Demonstrate good oral communication skills.
- Demonstrate good human relations skills, including customer service, teamwork, and ethics.

Scholastic Preparation

Office Administration students should possess basic computer skills: use a keyboard, mouse, external storage device, and a printer; differentiate among drives, folders, and files; employ a username and password. Students lacking in any of these areas should enroll in ITS 0800, Computer Fundamentals, prior to enrolling in any OAD or other ITS courses. Students should also be able to type at least 35 words per minute on a five-minute timed writing. Students who cannot meet this standard should enroll in ITS 0810 Keyboarding or ITS 1210 Keyboarding/Word Processing prior to enrolling in any OAD or other college-level ITS course. Students who cannot meet the 35 word-per-minute standard on the first day of OAD 1101 will be required to withdraw and enroll in ITS 0810 or ITS 1210. ITS 0800, ITS 0810 and ITS 1210 are considered preparatory for entry into the Office Administration Program and do not count toward the degree.

Transfer Options

Students enrolled in Associate of Applied Business and Associate of Applied Science degree programs are preparing for employment upon graduation from the program. However, at some point many of these students are also interested in completing a bachelor's degree. A number of colleges or universities have designed bachelor's completion programs designed for students completing applied degrees. See the Transfer section of the catalog for more information.

Students should follow the recommended sequencing of courses, with consideration to the pre/co-requisites, including college preparatory (CPE) requirements.

A complete listing of humanities and social science electives is available in the College Catalog.

Paralegal (4850)

The Paralegal Technology program prepares individuals to assist attorneys in the delivery of legal services. Someone who enjoys conducting research, solving problems, and communicating the results has good potential as a paralegal. Paralegals are employed by private law firms, financial institutions, courts, prosecutors' offices, legal aid societies, public defenders' programs and corporate law offices.

Clark State cooperates with Sinclair Community College in offering the nonparalegal courses for this AAS degree program. Students can take classes at Clark State concurrently with the Sinclair paralegal courses if they wish to complete the degree within a two-year time frame, or they can complete the nonparalegal courses at Clark State first and then transfer to Sinclair to complete the program. Students are cautioned that once they begin the paralegal courses at Sinclair, it will still take two years to sequence through the paralegal courses. By taking course work at Clark State, students are able to minimize commuting time.

The Paralegal Program at Sinclair is a limited-enrollment program and students must be accepted into the program before beginning paralegal courses. Students should contact the Dean of Business and Applied Technologies for information on applying to Sinclair's Paralegal program and for academic advising while enrolled at Clark State.

Completion of the Paralegal Program does not authorize a graduate to practice law as an attorney. The program layout below reflects the recommended sequence of courses for students planning to complete a degree within two years. Clark State courses may be completed concurrently with Sinclair courses or prior to enrolling at Sinclair. Sinclair courses are designated by SCC.

The 32 credit hours at Clark State can be completed by a full-time student within one year provided he or she has few or no college preparatory requirements.

Learning Outcomes

Upon completion of the Paralegal program, a graduate will be able to:

- Competently conduct factual and legal research and communicate the results clearly and concisely.
- Demonstrate competency in current technology.
- Competently prepare and interpret legal documents.
- Exemplify a high standard of ethical and professional behavior individually and as a member of a legal team.

Professional Services Management (4360)

The Associate of Technical Studies in Professional Services Management offers individuals who hold licensure in professional areas such as cosmetology, various building trades, auto services, or other areas to receive up to nine credit hours toward an Associate of Technical Studies degree with a focus in the management of the business operation related to the professional area. Students coming from high school career programs or trade school programs that result in licensure as well as long-term professionals will be interested in this degree option. Students will receive college credit for their professional knowledge while pursuing an education that will provide them the tools with which to successfully launch and manage their own business.

Embedded Certificate

This degree program contains one or more embedded certificates which will automatically be awarded if the certificate requirements are met unless the student contacts Records and Registration and indicates he/she does not wish to have the certificate credential awarded.

Degree Availability

The Professional Services ATS degree is available during the day and in the evening.

Scholastic Preparation

Interested students should contact the academic dean of Business and Applied Technologies early to determine the number of credits that will be applied toward their degree based upon the licensure held. Students will need to provide proof of current licensure. In addition, students are responsible for providing any information related to their licensure that is needed by the academic dean in order to determine the number of credits to be awarded. Once the credit hours applied to the licensure are determined, the student will work with the academic dean who will approve any additional coursework in the professional area.

^ Prior Learning Assessment (PLA) Credit available.

* Students with little or no computer background should enroll in ITS 0800 before taking other computer courses. Students without adequate keyboarding skills should enroll in ITS 0810 before taking a computer class.

** Must be a global awareness (GA) course and come from arts/humanities courses identified in the Catalog.

*** Students who plan on transferring courses for advanced degree work should verify the best/appropriate course selection based on the receiving institution's degree requirements.

**** A total of 9 semester hours must be earned from the professional area. The 9 hours can be earned from professional licensure. Any of the 9 hours not granted for the licensure may come from a field related to the licensure or business courses approved by the division. See the Dean of Business and Applied Technologies to have your professional license evaluated for the number of credit hours that will apply and for approval of any licensure- and business-related courses.

Students should follow the recommended sequencing of courses, with consideration to the pre/co requisites, including college preparatory (CPE) requirements.

The program schedule is designed for full-time students who have completed all prerequisites and who have no college preparatory recommendations. Many students, especially part-time students and those taking college preparatory courses, will require additional semesters of study. Students should consult their academic advisor for help in planning their schedules.

A complete listing of arts and humanities electives can be found in the College Catalog.

Business Certificates

Accounting Certificate (4101C)

Accounting, long referred to as the “language of business,” is an excellent foundation for any type of office position. Most managerial positions require an understanding of accounting. This program provides the basic courses that teach fundamentals of recording business transactions, the balance sheet, the income statement, and basic cost accounting concepts/entries. Courses are applicable to the associate degree program.

Learning Outcomes

Upon completion of an Accounting certificate, a graduate will be able to:

- Demonstrate the ability to utilize and apply technology as it impacts the accounting profession. (Microcomputer & Spreadsheets) (S)
- Demonstrate an understanding of the basic concepts of managerial and cost accounting and their roles in business and decision making. (Managerial-Cost) (S)
- Interpret, analyze, and present reliable and relevant information to financial statement users based upon generally accepted accounting principles both manually and electronically (S)

Scholastic Preparation

Students with little or no computer background should enroll in ITS 0800 Computer Fundamentals, as a preparatory course before taking other computer courses. Students without adequate keyboarding skills should enroll in ITS 1210 Keyboarding/Word Processing.

Judicial Court Reporting-Captioning/CART Career-Enhancement Certificate (4802D)

A one-semester career-enhancement certificate in closed and CART captioning is available upon completion of the Judicial Court Reporting program or with evidence of a degree in court reporting from an accredited college.

This career-enhancement certificate focuses on the skills required in the fields of closed captioning and CART (communication access realtime translation) captioning. Captioners represent an elite group of practioners who provide communication access to those with hearing loss.

Captioners use court reporting skills on the stenotype machine to provide captions of live television programs for deaf and hard-of-hearing viewers, through realtime technology that instantly produces readable English text. The Federal Telecommunications ACT of 1996 lists very specific mandates for closed captioning of local programs around the country, including news broadcasts and live sporting events, which has increased the demand for realtime captioners enormously.

CART is the instant translation of the spoken word into English text using a stenotype machine, computer, and realtime software. The text appears on a computer monitor or other display. The Americans with Disabilities Act (ADA) specifically recognized CART as an assistive technology which affords effective communication access. CART captioners provide communication access primarily for people who are Deaf or Hard of Hearing or who are learning English as a Second Language in settings such as K-12 classrooms, college classrooms, conferences, courtrooms, etc.

Learning Outcomes

Upon completion of the Judicial Court Reporting-Captioning/CART Career-Enhancement certificate, a graduate will be able to:

- Transcribe three five-minute, 180 wpm literary broadcast material takes takes with 1.4 syllabic density at 96-percent accuracy.
- Demonstrate knowledge of and the ability to perform the basic setup and maintenance of captioning equipment.
- Demonstrate knowledge of basic setup of computer hardware and realtime peripherals, including current remote software applications for text transmission and audio acquisition for maximum benefit of CART recipients.
- Prepare unedited captioned translations of three 15-minute programs on varied topics.
- Prepare a realtime translation of two 30-minute segments of CART services on varied topics.
- Paraphrase and accurately finger spell in realtime using software phonetic translator.

- Develop and maintain realtime dictionaries to load for proper translations.
- Interpret NCRA's Code of Professional Ethics, Guidelines for Professional Practice for Broadcast Captioners, Recommended Style and Format Guidelines, CART Provider's Manual, and Guidelines for Professional Practice for CART Providers.
- Demonstrate knowledge of the role of sign language interpreters and oral interpreters.
- Perform 25 verified hours of actual writing and 15 hours of research and dictionary preparation within a captioning environment AND within a CART environment and summarize each experience in written narratives.

Total Credit Hours		36

^ Prior Learning Assessment (PLA) Credit Available.

*Students with little or no computer background should enroll in ITS 0800 before taking other computer courses. Students without adequate keyboarding skills should enroll in ITS 0810 before taking a computer class.

*** Students who plan on transferring courses for advanced degree work should verify the best/appropriate course selection based on the receiving institution's degree requirements.

****Technical electives must total three (3) semester hours.

They can come from any combination of courses not already prescribed that use the following course codes: HRM, INS, LSC, MGT, MKT, ACC, CSD, CSE, EBE (except EBE 1100), ITS (except ITS 0800, ITS 0810, ITS 1100), NTK, OAD, and RES. ACC 1300 is recommended for HRM students.

Management Certificate (4301C)

The Management certificate provides students with an overview of the business environment and a background for understanding and managing people. It provides them with the foundational knowledge of accounting and financial issues needed by all managers. All courses taken for this certificate are applicable to the associate degree in Management.

All business students are expected to use information technology skills as it applies to course requirements within all management options.

Learning Outcomes

Upon completion of the Management certificate, a graduate will be able to do the following:

- Apply basic business and management concepts, skills, and tools.
- Analyze quantitative data.
- Be prepared to enter the workforce with entry-level management skills.

Course #	Course Title	Credit Hours

^ Prior Learning Assessment (PLA) Credit available.

* Students with little or no computer background should enroll in ITS 0800 before taking other computer courses. Students without adequate keyboarding skills should enroll in ITS 0810 before taking a computer class.

** Must be a global awareness (GA) course identified in the catalog.

*** Students who plan on transferring courses for advanced degree work should verify the best/appropriate course selection based on the receiving institution's degree requirements.

**** Technical electives must total 3 semester hours. They can come from any combination of courses not already prescribed that use the following course codes: BNK, HRM, INS, LSC, MGT, MKT, ACC, CSD, CSE, EBE (except EBE 1100), ITS (except ITS 0800, ITS 0810, ITS 1100), NTK, OAD, and RES. ACC 1300 is recommended for HRM students.

The program schedule is designed for full-time students who have completed all prerequisites and who have no college preparatory recommendations. Many individuals, especially part-time students and those taking college preparatory courses, will require additional semesters of study. Students should consult their academic advisor for help in planning their schedules.

Students should follow the recommended sequencing of courses, with consideration to the pre/co requisites, including college preparatory (CPE) requirements.

Marketing Departmental Certificate (4301C)

This certificate is focused on developing the essential knowledge and skills needed by an individual who wants to work in the marketing field. Because of prerequisite requirements, it will generally take more than one academic year to complete. All courses can be applied to the associate degree in Marketing. Students should follow the recommended sequencing of courses, with consideration to the pre/co-requisites, including college preparatory (CPE) requirements.

All business students are expected to use information technology skills as it applies to course requirements within all management options.

Learning Outcomes

Upon completion of the Marketing departmental certificate, a graduate will be able to do the following:

- Apply basic business and management concepts, skills, and tools.
- Demonstrate knowledge of social responsibility trends, ethical issues, and legal considerations
- Apply knowledge and skills in the four Ps of marketing: product management, promotional strategies, pricing strategies, and logistics and physical distribution.

* Students with little or no computer background should enroll in ITS 0800 before taking other computer courses. Students without adequate keyboarding skills should enroll in ITS 0810 before taking a computer class.

***Students who plan on transferring courses for advanced degree work should verify the best/appropriate course selection based on the receiving institution's degree requirements.

Professional Office Administration Certificate (4701C)

A one-year certificate in Office Administration is available for students who need a quicker entry into the job market. This will provide the student with the skills needed for entry-level positions in today's computer-oriented and fast-paced business office. Students can fully apply this one-year certificate toward the completion of either the Office Administration or the Medical Office Administration associate degree programs. This certificate can be earned through a combination of evening and online courses.

Learning Outcomes

Upon completion of Professional Office Administration certificate, a graduate will be able to:

- Compose and produce quality business documents using technology.
- Perform office administrative functions using critical thinking, management, prioritizing, and organizational skills.
- Demonstrate good human relations skills, including customer service, teamwork, and ethics.

Scholastic Preparation

Office Administration certificate students should have basic computer skills: use a keyboard, mouse, external storage device, and a printer; differentiate among drives, folders, and files; employ a username and password. Students lacking in any of these areas should enroll in ITS 0800 Computer Fundamentals, prior to enrolling in any OAD or other ITS courses.

Students should also be able to type at least 35 words per minute on a five-minute timed writing. Students who cannot meet this standard should enroll in ITS 0810 Keyboarding or ITS 1210 Keyboarding/Word Processing prior to enrolling in any OAD or other college-level ITS course. Students who cannot meet the 35 word-per-minute standard on the first day of OAD 1101 will be required to withdraw and enroll in ITS 0810 or ITS 1210. ITS 0800, ITS 0810 and ITS 1210 are considered preparatory for starting the Office Administration certificate and do not count toward the certificate.

Course #	Course Title	Credit Hours

[^]Proficiency test available.

^{*} Students with little or no computer background should enroll in ITS 0800 before taking other computer courses. Students without adequate keyboarding skills should enroll in ITS 0810 before taking a computer class.

^{**}Proficiency test available. Students must pass a 3-minute timed writing test with speed of 35 NWP.

Students should follow the recommended sequencing of courses, with consideration to the pre/co requisites, including college preparatory requirements.

Property Insurance Claims Short-Term Technical Certificate (4361D)

Employment opportunities in the Miami Valley and in Ohio in the finance and insurance industries continue to grow. The Property Insurance Claims Certificate provides students with the skills needed for employment in the property-claims industry and preparing them for the (Associate in Claims) AIC 30 and AIC 31 industry exams. The courses are applicable to the Associate of Applied Business degree in Insurance. Students should follow the recommended sequencing of courses, with consideration to the pre/co requisites, including college preparatory requirements.

Learning Outcomes

Upon completion of the Property Insurance Claims short-Term certificate, a graduate will be able to:

- Demonstrate knowledge of social responsibility trends, ethical issues, and legal considerations
- Listen and speak in a professional manner to customers.
- Demonstrate knowledge of effective handling of insurance claims and adjustments.

Course #	Course Title	Credit Hours
Fall		
INS 1050	Property and Liability Insurance Principles (A Term)	3
INS 1100	Insurance Claims Handling Principles/Practices (A Term)	3
INS 1115	Customer Service for the Insurance Industry (A Term)	2

INS 1325	Property Coverages (B Term)	3
Spring		
INS 1400	Property Loss Adjusting (A Term)	5
	Total Credit Hours	17

Real Estate Short-Term Technical Certificate (4363D)

This certificate focuses on four areas of real estate. Upon completion of this certificate, students have the option to be seated for the Ohio Division of Real Estate exam. Courses are offered in an eight (8) week format to be completed in either Fall, Spring or Summer Semester. The courses are applicable to the Associate of Applied Business degree as a Real Estate Broker.

Learning Outcomes

Upon completion of the Real Estate short-term technical certificate, a graduate will be able to:

- Demonstrate understanding of Ohio Real Estate Law.
- Acquire knowledge of Ohio Real Estate Principles.
- Develop an understanding for Ohio Real Estate Appraisal and Finance.

Course #	Course Title	Credit Hours
RES 1100	Real Estate Principles	3
RES 1200	Real Estate Law	3
RES 1300	Real Estate Appraisal	2
RES 1400	Real Estate Finance	2
	Total Credit Hours	10

* An appropriate compass placement, ACT, or SAT score will satisfy the respective CPE requirement.

Students should follow the recommended sequencing of courses, with consideration to the pre/co requisites, including college preparatory requirements.

Small Business Departmental Certificate (4305D)

This certificate is focused on developing the essential knowledge needed by an individual who wants to start a small business. It will provide the student with the necessary tools for developing a successful business operation. All courses can be applied to the associate degrees in Management or Marketing.

Learning Outcomes

Upon completion of the Small Business departmental certificate, a graduate will be able to:

- Apply basic business and management concepts, skills, and tools.
- Demonstrate knowledge of social responsibility trends, ethical issues, and legal considerations

Course #	Course Title	Credit Hours

* Students with little or no computer background should enroll in ITS 0800 before taking other computer courses. Students without adequate keyboarding skills should enroll in ITS 0810 before taking a computer class.

Students should follow the recommended sequencing of courses, with consideration to the pre/co-requisites, including college preparatory (CPE) requirements.

Supply Chain Management Departmental Certificate (4345D)

This post-degree certificate program is designed for students who already hold a bachelor's degree and are looking to meet their educational and professional development (career broadening) needs relative to logistics and supply chain management. Functional areas covered include: contracting and negotiation, social responsibility, performance management, forecasting, materials and inventory management, transportation and distribution, assessment, planning product and service, development, quality, strategic sourcing, and risk compliance. These foundational topics are often considered by many professional certification organizations as the inner core to the understanding of the logistics and supply chain management career field.

Learning Outcomes

Upon completion of Supply Chain Management departmental certificate, a graduate will be able to:

- Apply basic business and management concepts, skills, and tools.
- Demonstrate knowledge of global business trends
- Effectively use knowledge and skills in inventory and materials management, purchasing and supply strategies, negotiation strategies, and logistics and physical distribution.

^Prior Learning Assessment (PLA) Credit Available.

**** Technical electives must total three (3) semester hours. They may come from any combination of courses not already prescribed that use the following course codes: HRM, INS, LSC, MGT, MKT, ACC, CSD, EBE (except EBE 1100), ITS (except ITS 0800, ITS 0810, ITS 1100), NTK, OAD, or RES. ACC 1300 is recommended for HRM students.

Students should follow the recommended sequencing of courses, with consideration to the pre/co-requisites, including college preparatory requirements.

Computer and Information Technology

Computer Networking (5200)

Information Technology is one of the fastest-growing career fields today. The Computer Networking curriculum prepares students to plan, design, implement, troubleshoot, and administer microcomputer-based networks. This curriculum can assist students in preparing for the following certifications: CompTIA (A+, Network+, Linux+, Security+, Project+); Microsoft Certified Professional, and Cisco Certified Network Associate.

Computer Networking students can increase their learning (and earning) potential by participating in the cooperative education work-experience program. Through this program, students can spend up to two semesters working in the information technology field while earning college credits. Interested students should contact their academic advisor or the Office of Career Management for more information.

Embedded Certificate

This degree program contains one or more embedded certificates which will automatically be awarded if the certificate requirements are met unless the student contacts Records and Registration and indicates he/she does not wish to have the certificate credential awarded.

Degree Availability

This program is available during the day and evening. Contact your academic advisor about an evening curriculum guide. Some classes may be offered on Saturdays, however the entire degree can not be completed on weekends.

Learning Outcomes

Upon completion of an Associate of Applied Business degree in Computer Networking, a graduate will be able to do the following:

- Demonstrate knowledge of computer and network systems terms and concepts.(S)
- Setup, install, configure, and troubleshoot hardware/software for desktop computer systems.(S)
- Install, configure, manage, maintain, and troubleshoot server computer systems.(S)
- Install, configure, manage, and maintain network-based voice, audio, and video technologies.(S)
- Install, configure, manage, and maintain network infrastructure equipment and software.(S)
- Demonstrate knowledge of computer and network security terms and concepts.

Scholastic Preparation

Students should possess mathematical skills and should be comfortable using technology. Students who do not possess basic computer and technology skills should take one or more of the following courses to improve their skill level in basic technology use: ITS 0800, ITS 0810, ITS 1105, ITS 1210. Students who have not completed a full sequence of high school mathematics may need to complete a series of college preparatory math classes.

Transfer Options

Students enrolled in Associate of Applied Business and Associate of Applied Science degree programs are preparing for employment upon graduation from the program. However, at some point many of these students are also interested in completing a bachelor's degree. A number of colleges or universities have designed bachelor's completion programs designed for students completing applied degrees. See the Transfer section of the catalog for more information.

Total Credit Hours		61

* At least one social/behavioral science or arts/humanities elective must be a global awareness (GA) course.

The program schedule is designed for full-time students who have completed all prerequisites and who have no college preparatory recommendations. Many individuals, especially part-time students, and those taking college preparatory courses, will require additional semesters of study. Students should consult their academic advisors for help in planning their schedules.

A complete listing of humanities and social science electives is available in the College Catalog.

Computer Networking - Technical Systems Support Option (5210)

Information Technology is one of the fastest-growing career fields today. The Technical Systems Support curriculum prepares students to support computer and network end users. This curriculum can assist students in preparing for the following certifications: CompTIA (A+, Network+, Linux+, Security+, Project+); Microsoft Certified Professional, and Cisco Certified Network Associate.

Technical Systems Support students can increase their learning (and earning) potential by participating in the cooperative education work-experience program. Through this program, students can spend up to two semesters working in the information technology field while earning college credits. Interested students should contact their academic advisor or the Office of Career Management for more information.

Embedded Certificate

This degree program contains one or more embedded certificates which will automatically be awarded if the certificate requirements are met unless the student contacts Records and Registration and indicates he/she does not wish to have the certificate credential awarded.

Degree Availability

This program is available during the day and evening. Contact your academic advisor about an evening curriculum guide. Some classes may be offered on Saturdays, however the entire degree can not be completed on weekends.

Learning Outcomes

Upon completion of an Associate of Applied Business degree in Technical Systems Support, a graduate will be able to do the following:

- Demonstrate knowledge of computer and network systems terms and concepts.(S)
- Setup, install, configure, and troubleshoot hardware/software for desktop computer systems.(S)
- Install, configure, manage, maintain, and troubleshoot server computer systems.(S)
- Install, configure, manage, and maintain network-based voice, audio, and video technologies.(S)
- Demonstrate knowledge of computer and network security terms and concepts.
- Use and troubleshoot basic application software.(S)

Scholastic Preparation

Students should possess mathematical skills and should be comfortable using technology. Students who do not possess basic computer and technology skills should take one or more of the following courses to improve their skill level in basic technology use: ITS 0800, ITS 0810, ITS 1105, ITS 1210. Students who have not completed a full sequence of high school mathematics may need to complete a series of college preparatory math classes.

Transfer Options

Students enrolled in Associate of Applied Business and Associate of Applied Science degree programs are preparing for employment upon graduation from the program. However, at some point many of these students are also interested in completing a bachelor's degree. A number of colleges or universities have designed bachelor's completion programs designed for students completing applied degrees. See the Transfer section of the catalog for more information.

Total Credit Hours		61

* At least one social/behavioral science or arts/humanities elective must be a global awareness (GA) course.

** A minimum of 9 hours of technical electives must be taken. At least 6 hours must come from ITS courses not already prescribed. They may not include ITS 0810, ITS 1105, ITS 1205. Three additional hours may also come from EBE classes (except EBE 1100). The EBE classes consist of Employability Skills and co-op/internship opportunities.

The program schedule is designed for full-time students who have completed all prerequisites and who have no college preparatory recommendations. Many individuals, especially part-time students, and those taking college preparatory courses, will require additional semesters of study. Students should consult their academic advisors for help in planning their schedules.

A complete listing of humanities and social science electives is available in the College Catalog.

Computer Software Development (5100)

Information technology is one of the fastest-growing career fields today. The Computer Software Development curriculum focuses on programming, database, and web design. Students learn to analyze, design, and develop solutions to business problems through the use of technology.

Embedded Certificate

This degree program contains one or more embedded certificates which will automatically be awarded if the certificate requirements are met unless the student contacts Records and Registration and indicates he/she does not wish to have the certificate credential awarded.

Degree Availability

Most courses in the curriculum are available online or in hybrid format (part online, part classroom). The Advanced Topics course currently requires class attendance. Some courses may be available at only one location (Springfield or Beaver Creek). Some courses are offered only once a year. Contact your academic advisor about course sequencing. Graduating Computer Software Development students wishing to further build their skills could also receive an Associate of Applied Business in New Media by completing an additional 10 courses in the New Media curriculum.

Learning Outcomes

Upon completion of an Associate of Applied Business degree in Computer Software Development, a graduate will be able to do the following:

- Analyze information system requirements and design appropriate software solutions
- Write computer programs to implement information system designs.
- Develop database systems to meet business data requirements
- Design and create websites.
- Find and correct errors in the design and implementation of software solutions

Scholastic Preparation

Computer Software Development students need a high school algebra background equivalent to MTH 0650 Algebra for Non-STEM majors. Students with little or no computer background should enroll in ITS 0800 Computer Fundamentals as a preparatory course before taking other computer courses. Students without adequate keyboarding skills should enroll in ITS 0810 Beginning Keyboarding or ITS 1210 Keyboarding/Word Processing.

Transfer Options

Students enrolled in Associate of Applied Business and Associate of Applied Science degree programs are preparing for employment upon graduation from the program. However, at some point many of these students are also interested in completing a bachelor's degree. A number of colleges or universities have

bachelor's completion programs designed for students completing applied degrees. See the Transfer section of the catalog for more information.

Total Credit Hours		62

^Proficiency test available.

* Students with little or no computer background should enroll in ITS 0800 before taking other computer courses. Students without adequate keyboarding skills should enroll in ITS 0810 before taking a computer class.

The program schedule is designed for full-time students who have completed all prerequisites and who have no college preparatory recommendations. Many individuals, especially part-time students, and those taking college preparatory courses, will require additional terms of study. Students should consult their academic advisors for help in planning their schedules.

A complete listing of humanities and social science electives is available in the College Catalog.

Computer Software Development - Web Development Option (5110)

Information technology is one of the fastest-growing career fields today. The Computer Software Development curriculum focuses on programming, database, and web design. Students learn to analyze, design, and develop solutions to business problems through the use of technology.

Embedded Certificate

This degree program contains one or more embedded certificates which will automatically be awarded if this certificate requirements are met unless the student contacts Records and Registration and indicates he/she does not wish to have the certificate credential awarded.

Degree Availability

Most courses in the curriculum are available online or in hybrid format (part online, part classroom). The Advanced Topics course currently requires class attendance. Some courses may be available at only one location (Springfield or Beaver Creek). Some courses are offered only once a year. Contact your academic advisor about course sequencing. Graduating Computer Software Development students wishing to further build their skills could also receive an Associate of Applied Business in the New Media Web Design Option by completing an additional 3 courses in the New Media curriculum.

Learning Outcomes

Upon completion of an Associate of Applied Business degree in Computer Software Development, a graduate will be able to do the following:

- Analyze information system requirements and design appropriate software solutions
- Write computer programs to implement information system designs.
- Develop database systems to meet business data requirements
- Design and create websites.
- Find and correct errors in the design and implementation of software solutions
- Utilize industry standard software effectively as a digital media editor.

Scholastic Preparation

Computer Software Development students need a high school algebra background equivalent to MTH 0650 Algebra for Non-STEM majors. Students with little or no computer background should enroll in ITS 0800 Computer Fundamentals as a preparatory course before taking other computer courses. Students without adequate keyboarding skills should enroll in ITS 0810 Beginning Keyboarding or ITS 1210 Keyboarding/Word Processing.

Transfer Options

Students enrolled in Associate of Applied Business and Associate of Applied Science degree programs are preparing for employment upon graduation from the program. However, at some point many of these students are also interested in completing a bachelor's degree. A number of colleges or universities have bachelor's completion programs designed for students completing applied degrees. See the Transfer section of the catalog for more information.

Students should consult their academic advisors for help in planning their schedules.

A complete listing of humanities and social science electives is available in the College Catalog.

CyberSecurity/Information Assurance Technology (5300)

Information Technology is one of the fastest-growing career fields today. The CyberSecurity/Information Assurance curriculum prepares students to support the information security needs of businesses. This curriculum can assist students in preparing for the following certifications: CompTIA (A+, Network+, Linux+, Security+, Project+), CISSP and Cisco Certified Network Associate.

CyberSecurity/Information Assurance students can increase their learning (and earning) potential by participating in the cooperative education work-experience program. Through this program, students can spend up to two semesters working in the information technology field while earning college credits. Interested students should contact their academic advisor or the Office of Career Management for more information. Learn more through the Center for Information Assurance/Cyber Defense Education.

Embedded Certificate

This degree program contains one or more embedded certificates which will automatically be awarded if the certificate requirements are met unless the student contacts Records and Registration and indicates he/she does not wish to have the certificate credential awarded.

Degree Availability

This program is available during the day and evening. Contact your academic advisor about an evening curriculum guide. Some classes may be offered on Saturdays but the entire degree cannot be completed on weekends.

Learning Outcomes

Upon completion of an Associate of Applied Science degree in CyberSecurity/Information Assurance, a graduate will be able to:

- Demonstrate knowledge of computer and network systems terms and concepts.(S)
- Setup, install, configure, and troubleshoot hardware/software for desktop computer systems.(S)
- Install, configure, manage, and maintain network-based voice, audio, and video technologies.(S)
- Install, configure, manage, and maintain network infrastructure equipment and software.(S)
- Demonstrate knowledge of computer and network security terms and concepts.(S)
- Implement, configure, and troubleshoot network security software and hardware.
- Design secure computer and network infrastructures.(S)

Scholastic Preparation

Students should possess mathematical skills and should be comfortable using technology. Students who do not possess basic computer and technology skills should take one or more of the following courses to improve their skill level in basic technology use: ITS 0800, ITS 0810, ITS 1105, ITS 1210. Students who have not

completed a full sequence of high school mathematics may need to complete a series of college preparatory math classes.

Transfer Options

Students enrolled in applied associate degree programs are preparing for employment upon graduation from the program. However, at some point many of these students are also interested in completing a bachelor's degree. A number of colleges and universities have designed bachelor's completion programs for students completing applied degrees. See the Transfer section of the catalog for more information.

* At least one social/behavioral science or arts/humanities elective must be a global awareness (GA) course.

**The EBE courses consist of Employability Skills (EBE 1000) and co-op/internship opportunities.

The program schedule is designed for full-time students who have completed all prerequisites and who have no college preparatory recommendations. Many individuals, especially part-time students and those taking college preparatory courses, will require additional semesters of study. Students should consult their academic advisors for help in planning their schedules.

A complete listing of humanities and social science electives is available in the College Catalog.

GIS/Geospatial Technology (5400)

According to the U.S. Bureau of Labor Statistics, jobs for individuals with geospatial technology skills are expected to grow 10 to 20 percent over the next decade. It is a high-technology field with the significant job growth occurring in both the public and private sectors. Career areas include photogrammetry, cartography, geographical information systems, global positioning systems, and remote sensing.

Embedded Certificate

This degree program contains one or more embedded certificates which will automatically be awarded if the certificate requirements are met unless the student contacts Records and Registration and indicates he/she does not wish to have the certificate credential awarded.

Learning Outcomes

Upon completion of an Associate of Applied Science degree in Geospatial Technology, a graduate will be able to:

- Acquire geospatial information from a variety of sources
- Use, combine, and manage geospatial data for a given purpose
- Interpret and analyze geospatial information
- Use geographic information system software for storage, manipulation, and analysis of geospatial data

Scholastic Preparation

Students should possess mathematical, analytical, and spatial reasoning skills and should be comfortable using technology. Students who have not completed a full sequence of high school mathematics will need to complete a series of college preparatory math classes.

Transfer Options

Students enrolled in applied associate degree programs are preparing for employment upon graduation from the program. However, at some point many of these students are also interested in completing a bachelor's degree. A number of colleges or universities have designed bachelor's completion programs designed for students completing applied degrees. See the Transfer section of the catalog for more information.

	Total Credit Hours	61

* Students with little or no computer background should enroll in ITS 0800 before taking other computer courses. Students without adequate keyboarding skills should enroll in ITS 0810 before taking a computer class.

** GST electives must total a minimum of 3 semester hours and may come from any GST, CSD, or ATI course not already prescribed or CAD 1102 or any physics course at the PHY 1100 level or higher. BIO 1420 - Global Biology and GEO 1100 - World Human Geography are recommended electives.

*** This is a suggested Humanities/Social Science elective.

**** This is a suggested Natural/Physical Science elective.

The program schedule is designed for full-time students who have completed all prerequisites and who have no college preparatory recommendations. Many individuals, especially part-time students, and those taking college preparatory courses, will require additional semesters of study. Students should consult their academic advisor for help in planning their schedules.

A complete listing of humanities and social science electives is available in the College Catalog.

Information Services: Library Paraprofessional (5550)

Belmont College and Clark State agree to cooperate in correlating their respective programs for the purpose of providing the Associate of Applied Science degree in Information Services: Library Paraprofessional. This formal arrangement permits Clark State students to benefit in order to pursue library paraprofessional training from Belmont College.

In an information-driven age, there is a definite need for trained information specialists and library paraprofessionals who possess advanced technological skills. This degree provides an array of skill sets that are applicable to many career fields.

This specialty is intended for those interested in employment or already employed in public, academic, K-12, or other type of library or information technology organization. The program is designed to accommodate part-time distance education students. Studies focus on the skills needed to assist information seekers in defining, finding, evaluating and using information. Libraries increasingly need employees who can use computers effectively and present information - especially on the web, as part of patron training, or in professionally developed brochures, and flyers. This specialty focuses on understanding library and information services and operations; finding, evaluating, organizing and presenting information; and preparing information for presentation.

Learning Outcomes

Upon completion of an Associate of Applied Science degree in Information Services: Library Paraprofessional, a graduate will be able to:

- Demonstrate effective team communications and collaboration.
- Demonstrate the ability to effectively use computer software while completing an organizational project.
- Demonstrate the ability to apply information literacy skills
- Demonstrate the ability to apply effective, clear, and grammatically correct written communications.

Geospatial Precision Agriculture Specialist Short-Term Technical Certificate (5405D)

Geospatial Technology has been identified by the U.S. Bureau of Labor as an emerging industry. In addition, agricultural sales and service companies are hiring people who have completed coursework in both agriculture and geospatial technologies to develop precision agriculture programs or to provide technical assistance to farmers.

With this in mind, the Geospatial Precision Agriculture Specialist certificate is designed to provide the technical background necessary to begin a successful career as a GIS precision agriculture specialist. Students enrolled in the Geospatial Precision Agriculture Specialist certificate usually have an associate or bachelor's degree. However, coursework included in a certificate program may ultimately be applied for the associate degree in the related technology program.

Degree Availability

AGR 1750 and AGR 2750 are only offered in Springfield. All other courses can be taken in Springfield or in Beavercreek.

Learning Outcomes

Upon completion of the Geospatial Precision Agriculture Specialist short-term technical certificate, a graduate will be able to:

- Skills needed to use, manage, and manipulate GIS applications
- Hands-on experience using GIS software
- Knowledge of fundamental concepts and issues related to precision agriculture
- Skills necessary to conduct precision agricultural analysis

GIS Analyst Short-Term Technical Certificate (5404D)

Geographic Information Systems (GIS) has been identified by the U.S. Bureau of Labor as an emerging industry. With this in mind, the GIS Analyst certificate is designed to provide the technical background necessary to begin a successful career as a GIS analyst. This certificate is designed for those students who seek to enhance their job-related skills in becoming a GIS analyst. This certificate is two years in length due to the sequence of prerequisites and the terms in which courses are offered.

Students enrolled in the GIS Analyst certificate usually have an associate or bachelor's degree. However, coursework included in a certificate program may ultimately be applied for the associate degree in the related technology program.

Learning Outcomes

Upon completion of an the GIS Analyst short-term technical certificate, a graduate will be able to:

- Skills needed to use and manage GIS applications
- Hands-on experience using GIS software
- Knowledge of fundamental concepts and issues related to GIS
- Skills necessary to conduct spatial analysis

GIS Programming Certificate (5402D)

Geographic Information Systems (GIS) has been identified by the U.S. Bureau of Labor as an emerging industry. With this in mind, the GIS Programming certificate is designed to provide the technical background necessary to begin a successful career as a GIS programmer.

This certificate is designed for those students who seek to enhance their job-related skills in becoming a GIS Programmer. This certificate is two years in length due to the sequence of prerequisites and the terms in which courses are offered.

Students enrolled in the GIS Programmer certificate usually have an associate or bachelor's degree. However, coursework included in a certificate program may ultimately be applied for the associate degree in the related technology program.

Learning Outcomes

Upon completion of the GIS Programming certificate, a graduate will be able to:

- Skills needed to use, manage, and manipulate GIS applications
- Hands-on experience using GIS software
- Knowledge of fundamental concepts and issues related to programming
- Skills necessary to program in a variety of appropriate GIS languages

UAS Operations and GIS Image Analysis Departmental Certificate

Unmanned Aerial Systems (UAS) along with Geographic Information Systems (GIS) have been identified by the U.S. Bureau of Labor as high growth industries. With this in mind, the UAS Operations Plus GIS Certificate is designed to provide the technical background necessary to begin a successful career in UAS operations and data handling.

This certificate is designed for those students who seek to enhance their job-related skills in becoming a UAV operator with the ability to manage and analyze data products. This certificate is one year in length in order to develop foundational skills and knowledge necessary for the workforce.

Students enrolled in the UAS Operations Plus GIS certificate may already have an Associates or Bachelor's degree; however, this program is also an entryway for more traditional college-age students. Coursework included in a certificate program may ultimately be applied for the associate degree in the related technology program, GIS/Geospatial Technology. Down the curriculum sheet for this major.

Learning Outcomes

- Skills needed to use, manage, and manipulate GIS applications
- Hands-on experience using GIS software
- Knowledge of fundamental concepts and issues related to GIS
- Skills necessary to analyze imagery
- Hands-on experience using Unmanned Aerial Vehicles (UAV)

Course #	Course Title	Credit Hours

Education

Career and Technical Education - ATS (9060)

Clark State has developed an Associate of Technical Studies (ATS) degree specializing in career-technical education. This degree was designed specifically for career and technical educators who currently have a Route B career-technical license, so completing the program is easy!

- Utilize your technical work experience
- Transfer in professional career-technical teacher education coursework
- Complete general education coursework through Clark State

Degree Availability

All Clark State coursework can be completed online or at one of our campus locations.

Technical Requirements:

A combination of Professional Teacher Education coursework transferred from ODE approved institutions (up to 26 semester credit hours) and

- STT 2640 Elementary Statistics I (3 semester credit hours)
- COM 1120 Public Speaking (3 semester credit hours).

Basic requirement technical work-based experience credit: 14 semester hour credits based on documentation of Ohio Route B Licensure.

Course #	Course Title	Credit Hours
ENG 1111	English I	3
ENG 1112	English II	or
ENG 2230	Technical Report Writing	3
--	Social Science Elective	3
--	Humanities Elective	3
--	Humanities/Social Sciences Elective	3
Total Credit Hours		15

* At least 20 semester hours must be completed at Clark State.

** At least one of the three humanities/social science courses must contain global awareness and diversity components. These courses have a (GA) after their listing in the catalog.

*** If the combination of education credits transferred in and STT 2640 and COM 1120 do not total 32 semester credit hours, the student will need to have additional technical credits approved by his/her advisor to meet the 32-credit-hour minimum.

Early Childhood Education (7100)

The Early Childhood Education (ECE) program prepares individuals for employment in licensed child care centers, nursery schools, hospitals, group homes, children's homes, and other programs concerned with the well-being, development, and education of the infant, toddler, preschool and school-aged child. Graduates of the Early Childhood Education degree program are prepared to work with young children, helping them develop into the whole, productive persons they are meant to be.

Students receive a total of 300 clock hours of supervised experiences in approved early childhood education settings during Practicum I and II. Curriculum, instruction, and Seminar II provide students the opportunity to observe and complete student teaching with young children in authentic learning environments. Curriculum, instruction, and Seminar II provide students the opportunity to discuss their experiences and share ideas concerning curriculum planning and behavior management. All classes are web enhanced.

Learning Outcomes

Upon completion of an Associate of Applied Science degree in Early Childhood Education, a graduate will be able to:

- Demonstrate knowledge of child development and learning.
- Demonstrate knowledge of effective family and community relations.
- Demonstrate ability to observe, document, and assess young children and families.
- Demonstrate teaching and learning processes.
- Exhibit professional behaviors and attitude.
- Demonstrate proficiency in general education and supportive skills.
- Practice an appreciation and respect for diversity.

Graduation Requirements

A grade of C or better in all ECE and EDU courses is required for graduation. Requests to repeat technical courses more than twice must be approved by the academic dean of Health, Human, and Public Services. Students will be billed for liability insurance for appropriate courses while enrolled in the Early Childhood Education program.

Transfer Options

Students enrolled in the Associate of Applied Science Early Childhood Education degree program are preparing for employment upon graduation. However, many of these students are also interested in completing a bachelor's degree in education that would allow them to teach in the primary grades in school. Opportunities for transfer to a variety of 4-year institutions exist for students completing an A.A.S.

Course #	Course Title	Credit Hours
Fall		
ECE 1101	Professional Development for Educators	1
ECE 1103	Early Childhood Development	3
ECE 1104	Introduction to Early Childhood Education	3
ECE 1105	Language and Literacy in Education	3
ENG 1111	English I	3

ECE 2135	Practicum Field II	2
ECE 2137	Seminar II	2
ECE 1200	Infant Toddler Curriculum	2
EDU 2217	Individuals with Exceptionalities	3
	Total Credit Hours	63

Suggested courses:

*BIO 1410, Fundamentals of Biology; BIO 1105 Fundamentals of Anatomy and Physiology; GLG 1131, Physical Geology; GLG 1129, Survey of Earth Sciences (See list of others under Physical/Natural Sciences in front of catalog)

**MTH 1060, Business Math; MTH 1280, Algebra; MTH 1050, Math and Today's World; STT 2640, Elementary Statistics

Teacher Education Transfer (3333)

The Associate of Arts (AA) Teacher Education Transfer concentration is designed for students who plan to transfer into a Teacher Education program at a four-year college or university. It is not designed to prepare students for immediate employment in an educational setting upon graduation. This is a generalist preparation degree program for all students planning future K-12 licensure.

Students completing the curriculum will satisfy the AA degree requirements and many of the general education courses required for transfer to a four-year teacher preparation program. In addition, students will complete several courses that focus on the foundations of teaching and education.

Four-year colleges and universities generally require that students spend a significant portion of their first two years taking courses that build their knowledge and skills in general education. The AA degree focuses on courses in the liberal arts and sciences. Credit hours must come from areas in accordance with the AA degree requirements listed in the front of the catalog. The remaining credit hours are divided among the College Success course and specific education courses.

Learning Outcomes

Upon completion of an Associate of Arts in Teacher Education Transfer degree, a graduate will be able to:

- Write clearly (Area 1).
- Think critically (Area 1).
- Critically analyze a work of literature, music, theatre, art, or architecture (Area 3).
- Analyze and evaluate issues of the human historical and philosophical experience (Area 3).
- Describe and assess divergent aspects of individual and group human behavior (Area 4).
- Demonstrate mathematical and computer literacy (Area 5).
- Identify and apply the concepts of various aspects of the natural and physical world (Area 6).
- Demonstrate knowledge of core educational concepts and strategies.

Graduation Requirements

Teacher Education students need a college-preparatory high school background. Four years of each of the following content areas is strongly recommended: English, mathematics, science and social studies; foreign language is highly beneficial. Students with fewer classes in these areas may require college preparatory classes or additional coursework at Clark State.

Transfer Options

Students seeking an Associate of Arts Education Transfer degree should plan the details of the program at Clark State according to the requirements of the individual transfer institution. Transfer institutions make the determination in acceptance of credit. The student should consult his/her academic advisor and the intended transfer institution when planning

a schedule of classes. In some instances, to prevent taking additional courses, the student may benefit by transferring to the University after one year at Clark State. Schools to which students may choose to transfer include Wright State University (WSU).

Course #	Course Title	Credit Hours
Fall		
EDU 1110	Introduction to Education *	3
ECE 1103	Early Childhood Development *	3

HST -	History Elective***	3
Total Credit Hours		57

*Ohio TAG course. TAG courses are consistently transferable to other Ohio public colleges and normally will count toward the major at the transfer institution. Courses may also be used to fulfill additional general education requirements at the four-year institution as applicable.

**Science courses should be selected from those listed under Natural & Physical Sciences in the Transfer Module. Many options are available; choose one most suited to your transfer institution.

*** History courses should be selected from those listed under Arts and Humanities, Category B in the Transfer Module.

****The Philosophy course should be selected from those listed under Arts and Humanities, Category B in the Transfer Module.

The program schedule is designed for full-time students who have completed all prerequisites and who have no college preparatory recommendations. Many individuals, especially part-time students and those taking college preparatory requirements, will require additional semesters of study.

In recognition of the growing importance of global awareness, the College also requires that students receiving the Associate of Arts degree take at least four courses with significant international content. Courses in the curriculum plan above that meet this requirement are identified with the "GA" designation behind the course name.

Engineering, Manufacturing, and Mechanical Services

Computer-Aided Design Technology (5810)

Students completing an Associate of Applied Science degree in Computer-Aided Design (CAD) Technology are qualified to play a support role to the engineering professions in industrial, research, and academic areas preparing drawings, blueprints, layouts, bills of materials, manufacturing, and product support documentation. Training in the area of advanced computer-aided drafting is also included. In addition to applied technical courses, Computer-Aided Design (CAD) Technology includes a co-op experience. Students must complete EBE 1000, Employability Skills, and then work with the Office of Career Management to secure an appropriate co-op site.

Embedded Certificate

This degree program contains one or more embedded certificates which will automatically be awarded if the certificate requirements are met unless the student contacts Records and Registration and indicates he/she does not wish to have the certificate credential awarded.

Learning Outcomes

Upon completion of an Associate of Applied Science degree in Computer-Aided Design (CAD) Technology, a graduate will be able to:

- Design a finished product per quality specifications using knowledge of engineering materials, metrology and the manufacturing process.
- Produce a finished product per quality specifications using knowledge of engineering materials, metrology and the manufacturing process.
- Document a finished product per quality specifications using knowledge of engineering materials, metrology and the manufacturing process.
- Analyze a finished product per quality specifications using knowledge of engineering materials, metrology and the manufacturing process.

Scholastic Preparation

It is recommended students starting the program have one year each of high school algebra, trigonometry, and physics or the equivalents.

Transfer Options

Students enrolled in Associate of Applied Business and Associate of Applied Science degree programs are preparing for employment upon graduation from the program. However, at some point many of these students are also interested in completing a bachelor's degree. Students who wish to continue with their education, can apply for the Bachelor of Applied Science in Manufacturing Technology Management offered at Clark State. See the Bachelor Degree Section of the catalog for more information.

Spring

CAD 2200	Advanced Solid Modeling	3
EBE 2703	Co-op Education I	3
ENG 2211	Business Communication	3
ENT 2600	Engineering Design	3

Total Credit Hours 60

* The co-op must be a minimum of 4 semester hours in any combination of co-op (EBE 2701, EBE 2702, EBE 2703, EBE 2704).

The program schedule is designed for full-time students who have completed all prerequisites and who have no college preparatory recommendations. Many individuals, especially part-time students, and those taking college preparatory courses, will require additional semesters of study. Students should consult their academic advisor for help in planning their schedules.

Diesel Technology Program (5650)

The diesel industry is growing and there is a current and future need for qualified technicians. Diesel engines are more powerful and durable than gas engines, making them a popular alternative in the trucking, busing, agriculture, and construction industries.

The Clark State Diesel Technology program is a comprehensive sequence of courses that combine theory and practical applications. Students learn theory, design, operation, diagnosis, repair and service of diesel engines, power train and chassis, hydraulic systems, and fuel injection systems. They develop communication and mathematical skills necessary for the diesel industry. The program includes 300 hours of on-the-job training in a co-op work experience. Students also start earning industry credentials such as Detroit Diesel Engine Platforms, Freightliner Certifications, ASE Entry Level Certifications, and International Harvester Credentials.

Embedded Certificate

This degree program contains one or more embedded certificates which will automatically be awarded if the certificate requirements are met unless the student contacts Records and Registration and indicates he/she does not wish to have the certificate credential awarded.

Degree Availability

This program is taught in a modern, clean training facility at the Miami Valley Career Technology Center at 6800 Hoke Road in Clayton, Ohio. Some general education courses may need to be completed online or at our Beavercreek location.

Learning Outcomes

Upon successful completion of the Associate of Technical Studies in Diesel Technology, a graduate will be able to:

- Diagnose and repair medium and heavy-duty truck engines
- Diagnose and repair medium and heavy-duty truck suspension and steering systems
- Diagnose and repair medium and heavy-duty truck brake systems
- Diagnose and repair medium and heavy-duty truck electrical/electronic systems
- Perform preventative maintenance and inspections on medium and heavy-duty trucks
- Diagnose and repair medium and heavy-duty truck drivelines
- Diagnose and repair medium and heavy-duty truck heating, ventilation and air conditioning systems
- Diagnose and repair medium and heavy-duty-truck fluid power systems

Scholastic Preparation

Basic mechanical ability or previous mechanical work experience is helpful, but not required. Students with little or no computer background should enroll in ITS 0800, Computer Fundamentals, as a preparatory course before taking other computer courses. Students without adequate keyboarding skills should enroll in ITS 1210, Keyboarding/Word Processing.

Career Coach

Diesel technicians perform complete engine overhauls, minor preventative maintenance services, and everything in between. Starting wages are usually in the \$13 to \$16 per hour range with increases going to \$30 per hour or more. Job opportunities are going unfilled in the Miami Valley and throughout Ohio and the country.

The program schedule is designed for full-time students who have completed all prerequisites and who have no college preparatory recommendations. Many individuals, especially part-time students and those taking college preparatory courses, will require additional semesters of study. Students should consult their academic advisors for help in planning their schedules.

A complete listing of humanities and social science electives is available in the College Catalog.

Heating, Ventilation, Air Conditioning, and Refrigeration (Clark County CTC) (5630)

Students completing the Heating, Ventilating, Air Conditioning and Refrigeration Technology program are prepared to find employment with large commercial heating and air conditioning contractors, residential mechanical contractors, parts and equipment distributors, large commercial and industrial facility maintenance departments, hospital facilities maintenance departments, custom design or new construction markets.

The associate degree program offers the training needed to develop a high degree of technical skill, as well as the ability to work with minimal supervision and a strong sense of personal responsibility.

This program is taught in Springfield at the Springfield-Clark Career Technology Center (CTC) (1901 Selma Road) near our Leffel Lane location. General education courses not offered at Springfield-Clark CTC may be completed online or at one of Clark State's locations in Springfield, Bellefontaine or Beavercreek.

Embedded Certificate

This degree program contains one or more embedded certificates which will automatically be awarded if the certificate requirements are met unless the student contacts Records and Registration and indicates he/she does not wish to have the certificate credential awarded.

Learning Outcomes

Upon completion of an associate degree in Heating, Ventilating and Air Conditioning Technology, a graduate will be able to:

- Explain thermodynamics, heat, fluids, and pressures for refrigeration and EPA compliance.
- Prescribe the procedures for making electrical measurements.
- Diagnose and repair gas, electric, fuel oil furnaces and air conditioners - heat pump.
- Determine testing and analyzing instruments for troubleshooting and calculating the combustion process.

--	Co-op or Technical Elective*	3
Total Credit Hours		60

*The technical electives must total a minimum of 3 semester hours in any combination of co-op (EBE 2701 - EBE 2704, EBE 2801 - EBE 2804) or any course not already prescribed in the following areas: CAD, ENT, INT, or NTK 1110.

The program schedule is designed for full-time students who have completed all prerequisites and who have no college preparatory recommendations. Many individuals, especially part-time students and those taking college preparatory courses will require additional semesters of study. Students should consult their academic advisors for help in planning their schedules.

Heating, Ventilation, Air Conditioning, and Refrigeration (Greene County CTC) (5630)

Students completing the Heating, Ventilating, Air Conditioning and Refrigeration Technology program are prepared to find employment with large commercial heating and air conditioning contractors, residential mechanical contractors, parts and equipment distributors, large commercial and industrial facility maintenance departments, hospital facilities maintenance departments, custom design or new construction markets.

The associate degree program offers the training needed to develop a high degree of technical skill, as well as the ability to work with minimal supervision and a strong sense of personal responsibility.

This program is taught in Xenia at the Greene County Career Technology Center at 2960 West Enon Road. General education courses not offered at Greene County CTC may be completed online or at one of Clark State's locations in Springfield, Bellefontaine or Beavercreek.

Embedded Certificate

This degree program contains one or more embedded certificates which will automatically be awarded if the certificate requirements are met unless the student contacts Records and Registration and indicates he/she does not wish to have the certificate credential awarded.

Learning Outcomes

Upon completion of the Heating, Ventilation, Air Conditioning, and Refrigeration Departmental Certificate (Greene County CTC), a graduate will be able to:

- Explain thermodynamics, heat, fluids, and pressures for refrigeration and EPA compliance.
- Prescribe the procedures for making electrical measurements.
- Diagnose and repair gas, electric, fuel oil furnaces and air conditioners - heat pump.
- Determine testing and analyzing instruments for troubleshooting and calculating the combustion process.

Total Credit Hours		60

*The technical electives must total a minimum of 6 semester hours in any combination of co-op (EBE 2701 - EBE 2704, EBE 2801 - EBE 2804) or any course not already prescribed in the following areas: CAD, ENT, INT, or NTK 1110.

The program schedule is designed for full-time students who have completed all prerequisites and who have no college preparatory recommendations. Many individuals, especially part-time students and those taking college preparatory courses will require additional semesters of study. Students should consult their academic advisors for help in planning their schedules.

Industrial Technology (5610)

The Industrial Technology program has been developed in response to the great need expressed by manufacturers in the Champaign, Clark, Greene and Logan County areas for skilled technicians. The program is intended to train for career fields such as machine repair technician, electrical maintenance technician, or industrial maintenance mechanic.

Technical coursework in the program is designed such that it can be used to support company-sponsored apprenticeship programs.

Directed Learning Laboratory

Clark State has recognized the need for students who are currently working to have flexible class hours. As a result, many of the courses in the Industrial Technology program will be offered in the College's Directed Learning Laboratory. Most Industrial Technology (INT) courses, along with other selected technical courses, will be offered in a modular format that will allow students to come to the lab on their own schedule and complete the coursework and laboratory assignments. The lab will be staffed by a faculty member and is open day, evening, and Saturday hours to accommodate many working schedules. The days and times that students complete the coursework in the lab is up to the individual student within the open hours of the lab. The ability to learn on an independent basis will help ensure student success in this program.

Embedded Certificate

This degree program contains one or more embedded certificates which will automatically be awarded if the certificate requirements are met unless the student contacts Records and Registration and indicates he/she does not wish to have the certificate credential awarded.

Degree Availability

Some required courses for the Associates degree are offered only at the Springfield location. In addition to applied technical courses, Industrial Technology includes a co-op experience. Students must complete EBE 1000, Employability Skills, and then work with Career Services to secure an appropriate co-op site.

Learning Outcomes

Upon completion of an associate degree in Industrial Technology, a graduate will be able to:

- Use computers in troubleshooting, maintenance planning, and report writing.
- Use commonly-available instruments, schematics, operating manuals, and troubleshooting guides.
- Demonstrate and understand the safety requirements for working in an industrial setting.
- Demonstrate fundamental knowledge of power machinery.

Scholastic Preparation

Students should have had one year of high school algebra or the equivalent. Students may take preparatory courses at Clark State, but it will require a longer amount of time to complete their degree program.

Transfer Options

Students enrolled in Associate of Applied Business and Associate of Applied Science degree programs are preparing for employment upon graduation from the program. However, at some point many of these students are also interested in completing a bachelor's degree. Students who wish to continue with their education can apply for Bachelor of Applied Science in Manufacturing Technology Management at Clark State. See the Bachelor Degree section of the catalog for more information.

*Arts/Humanities or Social/Behavioral Science Electives recommended are PHL 2000-Critical Thinking, or SPN 1111-Spanish I or ART1300-Appreciation of the Arts. Humanities/Social Science Electives

A complete listing of humanities and social science electives can be found in the College Catalog.

Manufacturing Engineering Technology (5830)

The Manufacturing Engineering Technology program prepares students for a variety of positions within a manufacturing facility.

Students will choose two certificate programs in the following areas; Computer Numerical Control (CNC), Manufacturing, Additive Manufacturing, Welding, SCADA, Computer-Aided Design (CAD), Robotics, and Industrial Maintenance. In addition to the courses in these programs, students will complete additional course work for the Manufacturing Engineering associate degree.

In addition to applied technical courses, Manufacturing Engineering Technology Associate Degree includes a co-op experience. Students must complete EBE 1000, Employability Skills, as a technical elective and then work with Office of Career Management to secure an appropriate co-op site.

Embedded Certificate

This degree program contains one or more embedded certificates which will automatically be awarded if the certificate requirements are met unless the student contacts Records and Registration and indicates he/she does not wish to have the certificate credential awarded.

Learning Outcomes

Upon completion of an Associate of Applied Science degree in Manufacturing Technology, a graduate will be able to:

- Design a finished product per quality specifications using knowledge of engineering materials, metrology and the manufacturing process.
- Produce a finished product per quality specifications using knowledge of engineering materials, metrology and the manufacturing process.
- Document a finished product per quality specifications using knowledge of engineering materials, metrology and the manufacturing process.
- Analyze a finished product per quality specifications using knowledge of engineering materials, metrology and the manufacturing process.

Scholastic Preparation

It is recommended students starting the program have one year each of high school algebra, trigonometry, and physics or the equivalents.

Transfer Options

Students enrolled in Associate of Applied Business and Associate of Applied Science degree programs are preparing for employment upon graduation from the program. However, at some point many of these students are also interested in completing a bachelor's degree. Students who wish to continue with their education can apply for the Bachelor of Applied Science in Manufacturing Technology Management at Clark State. See the Bachelor Degree section of the catalog for more information.

The program schedule is designed for full-time students who have completed all prerequisites and who have no college preparatory recommendations. Many individuals, especially part-time students, and those taking college preparatory courses, will require additional semesters of study. Students should consult their academic advisors for help in planning their schedules.

Mechanical Engineering Technology (5850)

The Mechanical Engineering Technology program is designed to prepare students for entry-level technology occupations related to mechanical engineering. These occupations include a variety of jobs titles in the areas of product design, drafting, analysis, manufacturing, quality control, and testing. Skills in the area of creating and interpreting engineering drawings and the practices and procedures of manufacturing and principles of product design are emphasized.

In addition to applied technical courses, Mechanical Engineering includes a co-op experience. Students must complete EBE 1000, Employability Skills, and then work with Career Services to secure an appropriate co-op site.

Embedded Certificate

This degree program contains one or more embedded certificates which will automatically be awarded if the certificate requirements are met unless the student contacts Records and Registration and indicates he/she does not wish to have the certificate credential awarded.

Learning Outcomes

Upon completion of an associate degree in Mechanical Engineering Technology, a graduate will be able to:

- Design a finished product per quality specifications using knowledge of engineering materials, metrology and the manufacturing process.
- Produce a finished product per quality specifications using knowledge of engineering materials, metrology and the manufacturing process.
- Document a finished product per quality specifications using knowledge of engineering materials, metrology and the manufacturing process.
- Analyze a finished product per quality specifications using knowledge of engineering materials, metrology and the manufacturing process.

Scholastic Preparation

It is recommended students starting the program have taken high-school algebra, trigonometry and physics.

Transfer Options

Students enrolled in Associate of Applied Business and Associate of Applied Science degree programs are preparing for employment upon graduation from the program. However, at some point many of these students are also interested in completing a bachelor's degree. Students who wish to continue with their education can apply for the Bachelor of Applied Science in Manufacturing Technology Management offered at Clark State. See the Bachelor Degree section of the catalog for more information.

Total Credit Hours		63

*Arts/Humanities or Social/Behavioral Science Electives recommended are PSY 1111-Psychology I, or SPN 1111-Spanish I or ART1300-Appreciation of the Arts.

Students wishing to seek an Engineering Technology Bachelor's Degree at a four-year university are highly encouraged to review articulation agreements and consult with their academic advisor.

The co-op must be a minimum of two semester hours in any combination of co-op (EBE 2701, EBE 2702, EBE 2703, EBE 2704).

The program schedule is designed for full-time students who have completed all prerequisites and who have no college preparatory recommendations. Many individuals, especially part-time students, and those taking college preparatory courses, will require additional semesters of study.

A complete listing of humanities and social science electives can be found in the College Catalog.

Engineering, Manufacturing, and Mechanical Services Certificates

Additive Manufacturing Short-Term Technical Certificate (5821D)

The Additive Manufacturing Certificate is designed for students who wish to enhance their skills in areas related to 3D printing and scanning. Students can apply the following program courses to the Manufacturing Engineering Technology Associates Degree.

Career Coach

See this program online for current local data on wages, employment, job postings, and associated education and training.

Learning Outcomes

Upon completion of the Additive Manufacturing Short-Term Technical Certificate, a graduate will be able to:

- Conceptualize objects using 3D printers
- Design and evaluate 3D models for functional improvements

Course #	Course Title	Credit Hours
Fall		
CAD 2100	Solid Modeling	3
EBE 1000	Employability Skills	1
ENT 1000	Introduction to Industrial and Engineering Technology	3
ENT 1050	Manufacturing Foundations	4

Computer Numerical Control (CNC) Short-Term Technical Certificate (5815D)

The Computer Numerical Control (CNC) Certificate is designed for students who wish to enhance their skills in areas related to CNC Machine Operation and CNC programming. Students can apply the following program courses to the Manufacturing Engineering Technology associate degree.

Learning Outcomes

Upon completion of the Computer Numerical Control (CNC) Short-Term Technical Certificate, a graduate will be able to:

- Operate a computer numerical control turning center
- Operate a computer numerical control milling center
- Understand basic G and M codes and program structure

Course #	Course Title	Credit Hours

Total Credit Hours		24

Computer-Aided Design Departmental Certificate (5811D)

The Computer-Aided Design Certificate is designed to provide the technical background necessary to produce mechanical drawings using computer-aided drafting techniques. Manufacturing coursework is included to help students understand the principles of manufacturability in mechanical design.

Certificate programs are designed for those students who seek to enhance their job-related skills in a specialized area. These certificates are typically a portion of the courses in one of the associate degree programs. Coursework included in this certificate program can be applied towards Computer-Aided Design and Manufacturing Engineering Technology Associate degrees.

Learning Outcomes

Upon completion of an Associate of Computer-Aided Design Departmental Certificate, a graduate will be able to:

- Document a part using current 2D and 3D computer-aided design software
- Validate a 3D assembly
- Design and produce a full architectural drawing set

	Total Credit Hours	24

Diesel Technology Short-Term Technical Certificate (5651D)

The diesel industry is growing and there is a current and future need for qualified technicians. Diesel engines are more powerful and durable than gas engines, making them a popular alternative in the trucking, busing, agriculture, and construction industries. Diesel technicians perform complete engine overhauls, minor preventative maintenance services, and everything in between. Job opportunities are going unfilled in the Miami Valley and throughout Ohio and the country.

The Clark State Diesel Technology certificate provides the introductory skills needed to begin working in the diesel-maintenance field. All courses taken on this certificate can be applied to the Associate of Technical Studies degree in Diesel Technology.

Degree Availability

This program is taught in a modern, clean training facility at the Miami Valley Career Technology Center at 6800 Hoke Road in Clayton, Ohio. Some general education courses may need to be completed online or at our Beavercreek location.

Learning Outcomes

Upon completion of the Diesel Technology Short-Term Technical Certificate, a graduate will be able to:

- Diagnose and repair medium and heavy-duty truck engines
- Diagnose and repair medium and heavy-duty truck suspension and steering systems
- Diagnose and repair medium and heavy-duty truck brake systems
- Diagnose and repair medium and heavy-duty truck electrical/electronic systems
- Perform preventative maintenance and inspections on medium and heavy-duty trucks

Heating, Ventilation, Air Conditioning, and Refrigeration Departmental Certificate (Clark County CTC) (5631D)

Students completing the Heating, Ventilating, Air Conditioning, and Refrigeration (HVAC-R) departmental certificate will have the essential skills sets to find employment with a variety of companies providing heating ventilating and air conditioning services. Beginning the HVAC-R course work in January, a student can complete the certificate within twelve months provided the student has no remedial education needs and is able to take the classes as prescribed.

This program is taught in Springfield at Springfield-Clark County Career Technology Center (CTC) at 1901 Selma Road near our Leffel Lane location. General education courses not offered at Springfield-Clark CTC or Greene County Career Center may be completed online or at one of Clark State's locations in Springfield, Bellefontaine or Beavercreek.

Learning Outcomes

Upon completion of the Heating, Ventilation, Air Conditioning, and Refrigeration Departmental Certificate (Clark County CTC), a graduate will be able to:

- Explain thermodynamics, heat, fluids, and pressures for refrigeration and EPA compliance.
- Prescribe the procedures for making electrical measurements.
- Diagnose and repair gas, electric, fuel oil furnaces and air conditioners - heat pump.
- Determine testing and analyzing instruments for troubleshooting and calculating the combustion process.

Course #	Course Title	Credit Hours
Spring		
HVC 1015	HVAC-R Fundamentals and Practices	3

Heating, Ventilation, Air Conditioning, and Refrigeration Departmental Certificate (Greene County CTC) (5631D)

Students completing the Heating, Ventilating, Air Conditioning, and Refrigeration (HVAC-R) departmental certificate will have the essential skills sets to find employment with a variety of companies providing heating ventilating and air conditioning services. Beginning the HVAC-R course work in January, a student can complete the certificate within twelve months provided the student has no remedial education needs and is able to take the classes as prescribed.

This program is taught in Xenia at the Greene County Career Technology Center at 2960 West Enon Road. General education courses not offered at Greene County CTC may be completed online or at one of Clark State's other campus sites in Springfield, Bellefontaine, or Beavercreek.

Learning Outcomes

Upon completion of the Heating, Ventilation, Air Conditioning, and Refrigeration Departmental Certificate (Greene County CTC), a graduate will be able to:

- Explain thermodynamics, heat, fluids, and pressures for refrigeration and EPA compliance.
- Prescribe the procedures for making electrical measurements.
- Diagnose and repair gas, electric, fuel oil furnaces and air conditioners - heat pump.
- Determine testing and analyzing instruments for troubleshooting and calculating the combustion process.

Industrial Maintenance Short-Term Technical Certificate (5611D)

The Industrial Maintenance Certificate provides a broad base of courses in the field of industrial maintenance. Course work completed in this certificate program can be applied toward the Industrial Technology and Manufacturing Engineering Technology Associate Degrees.

Learning Outcomes

Upon completion of the Industrial Maintenance Short-Term Technical Certificate, a graduate will be able to:

- Read Schematics for fluid systems, electrical systems, and mechanical systems.
- Demonstrate knowledge of direct and alternating current motors including their performance characteristics and application.
- Program, connect, and test programmable logic control processes.

Course #	Course Title	Credit Hours
Fall		
INT 1000	OSHA 10-Hour General Safety	1

Manufacturing Departmental Certificate (5841D)

The Manufacturing Certificate is designed for students who wish to enhance their skills in areas related to manufacturing. Course work completed in this certificate program can be applied toward the Manufacturing Engineering Technology Associates Degree. Some of the courses are taught in the Directed Learning Lab.

Learning Outcomes

Upon completion of the Manufacturing Departmental Certificate, a graduate will be able to:

- Program, connect, and test programmable logic control processes
- Demonstrate a knowledge of process control systems, flow and liquid level
- Explain the structural and mechanical properties of ferrous and non-ferrous materials and alloys and non-metallic materials

Course #	Course Title	Credit Hours
Fall		
ENT 1000	Introduction to Industrial and Engineering Technology	3

Manufacturing Foundation Departmental Certificate (5801D)

The Manufacturing Foundation Certificate is designed for students who are looking for entry-level skills in areas related to manufacturing. The program courses are included in all other Industrial and Engineering certificate and associate degree program.

Learning Outcomes

Upon completion of the Manufacturing Foundation Departmental Certificate, a graduate will be able to:

- Obtain the 10-Hour OSHA General Safety certification
- Create a resume and cover letter
- Develop interviewing skills
- Demonstrate how to use precision measurement tools
- Demonstrate successful print reading and part visualization

Course #	Course Title	Credit Hours
ENT 1000	Introduction to Industrial and Engineering Technology	3
ENT 1050	Manufacturing Foundations	4

Total Credit Hours		9

Robotics Departmental Certificate (5871D)

The Robotics Certificate is designed for students who wish to learn how robots perform in a manufacturing system. Students can apply the program courses to the Manufacturing Engineering Technology Associates Degree.

Learning Outcomes

Upon completion of the Robotics Departmental Certificate, a graduate will be able to:

- Operate a FANUC and MOTOMAN robot.
- Program a robot.
- Integrate robots within a manufacturing work cell.

Course #	Course Title	Credit Hours
Fall		
ENT 1600	Introduction to Robotics	3
ENT 1000	Introduction to Industrial and Engineering Technology	3

Welding Short-Term Technical Certificate (5861D)

The Welding Certificate is designed for students who wish to enhance their skills in areas related to SMAW, GMAW, GTAW, oxyacetylene, and plasma cutting. Students can apply the program courses to the Manufacturing Engineering Technology Associates Degree.

Learning Outcomes

Upon completion of the Welding Short-Term Technical Certificate, a graduate will be able to:

- Produce a welded assembly from a print.
- Accurately produce and read prints and welding symbols.
- Weld in 1G, 1F, 2G, 2F, 3G, 3F, 4G, and 4F in GMAW, SMAW, and GTAW

Health

Associate of Arts - Healthcare Concentration Transfer (3440)

The Associate of Arts (AA) Healthcare concentration is designed for individuals desiring to transfer to a four-year institution to complete a Bachelor's degree in a healthcare field. Four-year institutions generally require that students spend a significant portion of their first two years taking courses that build their knowledge and skills in general education. An AA degree focuses on general education courses and a minimum of 44 credit hours must come from areas 1-6 listed in the Associate of Arts section of the catalog. This AA degree is structured to include those general education courses that are commonly included in many bachelor degree healthcare programs. The remaining credit hours are divided among the College Success course, courses in the student's area of concentration, elective courses, and the Capstone Seminar. All students must take the College Success course and the Capstone Seminar in order to complete the AA degree.

Learning Outcomes

Upon completion of an Associate of Arts degree in a Healthcare Concentration, a graduate will be able to:

- Demonstrate knowledge of healthcare language, delivery systems, and occupations.
- Demonstrate familiarity with the ethical and professional behaviors required in healthcare occupations.
- Describe the structure and function of the major systems of the human body

Transfer Options

Students seeking a transfer degree should plan the details of their program of study at Clark State according to the requirements of the transfer institution. Transfer institutions make the determination in acceptance of credit. The student should consult his/her academic advisor and the intended transfer institution when planning a schedule of classes.

Total Credit Hours 60

*Students must complete two science courses (8 credit hours) with a lab component to meet the associate of arts degree requirements. Students who have not completed chemistry and biology in high school with a grade of C or better within the past five years must also take BIO 1410 to meet pre-requisite requirement of BIO 2121, Anatomy and Physiology I. Students who have completed chemistry and biology in high school, may substitute 4 credit hours of concentration/general education electives for BIO 1410.

**Choose from ENG 1600, ENG 2300, and ENG 2610 to meet the ENG literature GA elective requirement.

***Students must complete 3 credit hours of math from those listed under mathematics in the transfer module. Transfer module math courses include MTH 1050, 1280, 1340, 2100, 2200, 2220, 2240, 2330, 2530; STT 2640, 2650. If students choose Statistics to meet the math requirement, they must complete both STT 2640 and STT 2650.

^Three classes (9 credit hours) of Arts/Humanities electives must be completed. Choose from ART 1300, 1001, 1002; MUS 1130; THE 1130, 1133, 2241, 2242; SPN 1111, 1112, 2111, 2112; FRN 1111, 1112; any HST; any PHL; or ENG 1600, 2250, 2300, 2500, 2610, 2620 for Arts/Humanities class.

^^ These classes should be clearly transferable and count toward the major at the transfer institution. Courses should relate to the major to be pursued or may be used to fulfill additional general education requirements at the four-year institution. Courses should be carefully planned with an academic advisor.

The program schedule is designed for full-time students who have completed all prerequisites and who have no college preparatory recommendations. Many individuals, especially part-time students and those taking college preparatory requirements, will require additional semesters of study.

Individuals completing the curriculum will satisfy the College's AA degree requirements and many of the general education courses required for transfer to a four-year healthcare program. In addition, individuals will complete several courses that focus on healthcare which are especially helpful to those students interested in a career in healthcare.

In recognition of the growing importance of global awareness, the College also requires that students receiving the Associate of Arts degree take at least four courses with significant international content. Courses in the curriculum plan above that meet this requirement are identified with the "GA" designation behind the course name.

In addition to the Capstone Seminar, all students pursuing the AA degree are required to complete at least 6 credit hours in courses numbered 2000 or higher. The curriculum plan above meets this requirement.

Associate of Science - Healthcare Concentration Transfer (3440)

The Associate of Science (AS) Health Care concentration is designed for individuals desiring to transfer to a four-year institution to complete a bachelor's degree in a healthcare field. Four-year institutions generally require that students spend a significant portion of their first two years taking courses that build their knowledge and skills in general education. An AS degree focuses on general education courses and a minimum of 40 credit hours must come from areas 1-6 listed in the Associate of Science section of the catalog. This AS degree is structured to include those general education courses that are commonly included in many bachelor degree healthcare programs. The remaining credit hours are divided among the College Success course, courses in the student's area of concentration, and elective courses. All students must take the College Success course in order to complete the AS degree.

Individuals completing the curriculum that follows will satisfy the College's AS degree requirements and many of the general education courses required for transfer to a four-year healthcare program. In addition, individuals will complete several courses that focus on healthcare and will prove to be especially helpful to those students interested in a career in healthcare.

Learning Outcomes

Upon completion of an Associate of Science degree in a Healthcare Concentration, a graduate will be able to:

- Demonstrate knowledge of healthcare language, delivery systems, and occupations.
- Demonstrate familiarity with the ethical and professional behaviors required in healthcare occupations.
- Describe the structure and function of the major systems of the human body

Transfer Options

Students seeking a transfer degree should plan the details of their program of study at Clark State according to the requirements of the transfer institution. Transfer institutions make the determination in acceptance of credit. The student should consult his/her academic advisor and the intended transfer institution when planning a schedule of classes.

Medical Assisting (6700)

Medical assistants perform clinical and administrative tasks in physicians and other health practitioners' offices and outpatient facilities. Specific duties vary from office to office depending on the location and size of the practice and the practitioner's specialty. Administrative duties include answering telephones, greeting patients, scheduling appointments and laboratory services, updating and filing patients' medical records, filling out insurance forms, and handling billing and bookkeeping. Clinical duties include taking medical histories and recording vital signs, explaining procedures to patients, preparing patients for and assisting the physician during examinations, collecting and preparing laboratory specimens, sterilizing medical instruments, instructing patients on medications and special diets, preparing and administering medications as directed by a physician, drawing blood, taking electrocardiograms, removing sutures, and changing dressings.

The primary goal of the Medical Assisting program is to prepare competent entry-level medical assistants in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains. Students who complete the first year of this associate degree program have completed the course work for and should therefore submit a petition to graduate from the certificate program. Completion of the certificate provides the student with the administrative and clinical skills needed for entry-level positions as a medical assistant.

Embedded Certificates

This certificate program contains one or more embedded certificates, which will automatically be awarded if the degree requirements are met unless the student contacts Records and Registration and indicates he/she does not wish to have the certificate credential awarded.

Technical Standards

All students accepted into the Medical Assisting program must be able to perform the essential functions of the medical assistant with or without reasonable accommodations. These essential functions are linked to this program page on the College's web site and are also provided to students via the Medical Assisting Student Handbook. Students are required to sign a form indicating they have reviewed these requirements and submit it to the Medical Assisting Program Coordinator when they enter the program.

Certification

The Clark State Medical Assistant Certificate program is accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon recommendation of the Medical Assisting Education Review Board (MAERB). Commission on Accreditation of Allied Health Education Programs/25400 US Highway 19 North, Suite 158/

Clearwater, FL 33763/Telephone: 727-210-2350
Graduates of the certificate program successfully meet the eligibility criteria to apply for the national certification process through the American Association of Medical Assistants, or another nationally recognized certification credential.

Learning Outcomes

Upon completion of an associate degree in Medical Assisting, a graduate will demonstrate achievement of:

- Communicate effectively with patients, families, and members of the health care team.
- Perform clerical functions necessary to maintain medical office appointments, transcription, and medical records.
- Apply basic billing, collection, insurance, coding, and manage care guidelines needed to maintain office bookkeeping.
- Collect, transport, and process specimens.
- Obtain Vital Signs
- Perform, assist, and follow-up on diagnostic tests and procedures.
- Instruct patients regarding health maintenance and disease prevention.
- Apply legal and ethical concepts.

Graduation Requirements

Students must petition online (apply) for admission to the program. To be eligible to petition to the Medical Assisting program, students must have:

Reading: Appropriate score on reading placement test (ACCUPLACER, ACT, or SAT) or completion of college preparatory reading (CPE 0200 with a grade of C or higher, or ENG 0800 with a grade of A, or ENG 0850 with a grade of C or higher). Students are excused from reading placement tests if they have obtained a C or better in a college-level English composition course or an appropriate recent high school senior English grade in accordance with College policy.

Writing: Appropriate score on writing placement test (ACCUPLACER, ACT, or SAT) or completion of college preparatory writing, (CPE 0300 with a grade of B or higher, or CPE 0400 with a grade of C or higher, or ENG 0900 with a grade of C or higher). Students are excused from writing placement tests if they have obtained a C or higher in a college-level English composition course or an appropriate recent high school senior English grade in accordance with College policy.

Math: Appropriate scores on math/algebra placement tests (ACCUPLACER, ACT, or SAT) or completion of college preparatory math through CPE 0500 with a grade of C or higher, or MTH 0500 with a grade of C or higher within the past ten years. Students are excused from math/algebra placement tests if they have obtained a C or better in a college-level math course within the past ten years or an appropriate recent high school Algebra II grade in accordance with college policy.

Grade point average (GPA): A minimum cumulative Clark State transcript GPA of 2.0 (college preparatory courses are not included in the transcript GPA) as well as a minimum GPA of 2.0 in the courses in the Medical Assisting curriculum.

Students who have met the petition requirements and submitted a petition are eligible to start the Medical Assisting program's technical (MAS) course sequence. Students must contact the Medical Assisting program coordinator for academic advising and approval to enroll in the MAS courses. Students must maintain an overall C or 2.0 grade point average (GPA) for the courses in the Medical Assisting curriculum in order to be enrolled in MAS courses.

In order to progress through the program, students must maintain an overall GPA of 2.0 and a grade of C or better in BIO 1105 and all MAS and MST courses. Admitted students who drop out must complete and submit a request for reinstatement into the MAS courses. Students must have an overall GPA of 2.0 and may be required to retake technical courses that are more than one to two years old to be considered for reinstatement.

Health and Directed Practice Requirements

All Medical Assisting associate degree and certificate students will complete 200 hours of directed practice at the end of the first year of the degree program or end of the certificate program. The directed practice course hours are only available during the daytime hours.

All Medical Assisting students must meet health requirements, obtain a criminal background check, and have current Basic Life Support (BLS)/professional cardiopulmonary resuscitation (CPR) certification prior to entering the directed practice course. Other requirements may be necessary depending on clinical site placement. All students are strongly encouraged to complete Hepatitis B immunizations prior to their second semester in the Medical Assisting program.

Liability Insurance

Students will be billed for liability insurance for the directed practice courses.

Graduation Requirements

Student must pass all the required courses, have a Clark State cumulative transcript grade point average (GPA) of 2.0 (college preparatory courses are not included) and have a C as a minimum grade in BIO 1105 and all MAS and MST courses.

Course #	Course Title	Credit Hours

Total Credit Hours	64
--------------------	----

* Please choose from the following courses to meet the Technical Elective requirement.

- BIO 1110 Basic Human Nutrition (2)
- MGT 1060 Organizational Behavior (3)
- MGT 1120 Principles of Management (3)
- OAD 2301 CPT/ICD -10-PCS Coding (3)
- OAD 2302 ICD-10-CM Coding (3)
- SWK 1105 Chemical Dependency I (3)
- SWK 2205 Chemical Dependency II (3)
- SWK 2215 Chemical Dependency III (3)

The program schedule is designed for full-time students who have completed all prerequisites and who have no college preparatory recommendations. Many individuals, especially part-time students and those taking college preparatory requirements, will require additional semesters of study. In addition to the day program, offered at both the Springfield (fall semester start) and the Beavercreek (spring semester start) campuses, the Medical Assisting program is offered as a part-time evening option, at the Springfield campus, with the MAS courses for this option starting in spring term (January). Part-time evening students will still need to complete their unpaid, supervised Directed Practice clinical hours during the day. Students should consult their academic advisors for help in planning their schedules.

Medical Laboratory Technology (6200)

Medical laboratory technicians are a vital part of the health care process, providing information for patient diagnosis and treatment by performing laboratory tests in areas such as toxicology, chemistry, hematology, immunology and microbiology. Two-year associate degree programs with supervised clinical experience in approved laboratories provide the opportunity to enter this challenging, ever-changing career.

The mission of the MLT program at Clark State is to provide quality instruction, professional training, and technical skills to help graduates pass certification examinations and secure entry-level positions in the field of laboratory medicine. For more information about the program, please email mlt@clarkstate.edu or call 937-328-8077.

Career Coach

See this program online for current local data on wages, employment, job postings, and associated education and training.

Technical Standards

MLT students should possess (with or without reasonable accommodations) appropriate visual, motor, cognitive, technical, communication, and affective skills to be able to accurately and safely perform, plan, prioritize, analyze, solve, and interpret patient's tests and other biological specimens. The National Accrediting Agency for Clinical Laboratory Science (NAACLS) has identified minimum essential functions. These are available as a link on the MLT program pages on the College's website and are also provided to students as they enter the MLT courses. Students are asked to sign a form certifying that they have read, understand, and possess the skills required to meet the essential functions of an MLT.

Course Format

Each MLT course is composed of two required components, an online lecture component and an in-class lab component. Off campus lab sites for distance students must be secured by the student and approved by the MLT program director prior to entry into the program. One suitable directed practice site is found for each student in the program by the MLT faculty and program coordinator.

Liability Insurance

Students will be billed for liability insurance for each year of courses.

Certification

Upon completion of the accredited program, graduates are eligible to take the national certifying examination. This program is accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS), 5600 North River Road, Suite 720, Rosemont, IL 60018; telephone 773.714.8880; www.naacls.org.

Program Outcomes Measures

As a program accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS), the Clark State MLT Program publishes outcomes measures for the past three years (2017, 2018, 2019 graduates). The outcome measures include ASCP Board of Certification (BOC) Exam pass rates, graduation rates, and graduate placement rates for students entering the final half of the MLT program. The definition of these measures and the three year Clark State MLT program percentage rates for these measures are listed below.

- Yearly Certification Pass Percentage: 82% (AY 16-17) | 83% (AY 17-18) | 89% (AY 18-19)
- Yearly Graduation Rate Percentage: 100% (AY 16-17) | 86% (AY 16-17) | 88% (AY 18-19)
- Yearly Average Placement Rate Percentage: 100% (AY 16-17) | 100% (AY 17-18) | 100% (AY 17-18)
- Three Year Average Certification Pass Rate Percentage: 85%
- Three Year Average Graduation Rate Percentage: 91%
- Three Year Average Placement Rate Percentage: 100%

Learning Outcomes

Upon completion of an Associate of Applied Science degree in Medical Laboratory, a graduate will be able to:

- Write clearly and accurately in a variety of contexts and formats.
- Verbally communicate clearly and accurately in a variety of contexts and formats.
- Display professional characteristics.
- Select and use appropriate, safe, and effective tools to solve a variety of problems pertaining to collecting, handling, and conducting tests on samples and to perform corrective and preventative maintenance on instruments.
- Demonstrate ability to think critically; assessing proper correlation between the results and predetermined values; performing quality control activities; relating lab results to disease processes; drawing and defending reasonable conclusions.

Program Admission

Entry into the program is on a space-limited basis. Students must petition for admission. To be eligible to petition, students must successfully complete reading, writing, math, and algebra placement tests or obtain a grade of C or better on the appropriate college preparatory course. Students who meet admission requirements and are accepted to the program are required to meet with the MLT program coordinator prior to enrolling in MLT courses. A list of the MLT clinical sites and copies of the MLT student and directed practice manuals may be obtained by contacting the MLT Program Coordinator or the Health, Human, and Public Services division office.

Health and Clinical Requirements

All Medical Laboratory students must meet health requirements and obtain a criminal background check prior to entering the directed practice course in the last semester of the program. Other requirements may be necessary depending on clinical site placement. Specific information including when to obtain and submit proof of these requirements will be provided during the first semester of the program.

Distance students completing lab courses in clinical agencies may be required to complete health requirements prior to their first lab course.

All students are strongly encouraged to complete Hepatitis B immunizations prior to entry into the first MLT course.

Graduation Requirements

To qualify for an associate degree, a Medical Laboratory student must pass all the required courses, have a cumulative grade point average (GPA) of 2.0, and must have a C as a minimum grade in all the technical courses of the program. Granting of the A.A.S. degree is not contingent upon passing an external certifying examination.

Transfer Options

Students enrolled in the Associate of Science Medical Laboratory Technology degree program are preparing for employment upon graduation from the program. However, at some point many of these students are also interested in completing a bachelor's degree. A number of colleges/universities have designed bachelor's completion programs for students completing applied degrees. Select programs include:

- Franklin University Bachelor of Science in Allied Healthcare Management
- University of Cincinnati Bachelor of Science in Clinical Laboratory Science
- University of Arkansas for Medical Sciences/MLS Program

See the transfer section of the catalog and website and your academic advisor for more information.

* The two semester anatomy & physiology sequence BIO 2121 and BIO 2122 may be substituted for BIO 1105.

** Offered in A term (first eight weeks of the semester)

*** Offered in B term (second eight weeks of the semester)

****Choose from the MTH or STT courses listed under the General Education Requirement for Technical Programs, Mathematics courses.

The program schedule is designed for full-time students who have completed all prerequisites and who have no college preparatory recommendations. Many individuals, especially part-time students and those taking college preparatory requirements, will require additional semesters of study. Students should consult the MLT program advisor for help in planning their schedules.

Multi-Skilled Healthcare Associate of Technical Studies (6550)

The Multi-Skilled Healthcare Associate of Technical Studies degree enables a student to design an individualized program of study to fulfill a unique healthcare career goal that cannot be met through the completion of one of the College's other technical healthcare programs. Students complete core courses and select technical courses from different healthcare specialty areas.

Upon completion of this degree, students will have the skills needed to obtain employment in a variety of healthcare settings. In addition to the degree, completion of some specialty courses result in completion of healthcare certificates and may enable students to take appropriate certification or licensure exams. Courses within this program can also be taken by students in other degree or certificate programs and by healthcare professionals who wish to expand their knowledge and skills and/or increase marketability for employment.

Embedded Certificates

This degree program contains one or more embedded certificates which will automatically be awarded if the certificate requirements are met unless the student contacts Records and Registration and indicates he/she does not wish to have the certificate credential awarded. (Effective spring semester 2017)

Learning Outcomes

Upon completion of an Associated of Technical Studies in Multi-skilled Healthcare, a graduate will demonstrate achievement of:

- Demonstrate knowledge of healthcare delivery systems and healthcare occupations.
- Communicate using correct medical terminology.
- Demonstrate computer skills essential for today's healthcare worker.
- Describe the structures and functions of the human body
- Identify common alterations in health and appropriate measures for prevention, detection, and management.
- Demonstrate knowledge of the interpersonal, ethical, and professional behaviors required in healthcare.

Graduation Requirements

Non-Academic Requirements

- Must meet specified health requirements prior to enrolling in clinical or directed practice courses.
- Will be billed for liability insurance when registering for specified clinical or directed practice courses.
- Will be required to obtain a criminal background check prior to enrolling in specified clinical or directed practice courses. May also be required to obtain drug screen, dependent on clinical agency requirements.

Students should also be aware that clinical/directed practice sites may also require:

- Random drug screening.
- HIV testing, if exposed to blood borne pathogens.
- Submission to treatment/counseling, if exposed to infectious diseases.

Graduation Requirements

To qualify for an Associate of Technical Studies degree in Multi-Skilled Healthcare, students must pass all required courses, obtain a grade of C or better in all technical courses, and have a minimum cumulative GPA of 2.0.

Course #	Course Title	Credit Hours

SPN 1100	Survival Spanish (recommended)	3
- -	Technical Electives*	5
Total Credit Hours		61.5

* Students must choose a total of 22 credit hours of technical elective course work from two or more of the following specialty areas. Students should verify that course prerequisites have been met prior to registering for a course.

The program schedule is designed for full-time students who have completed all prerequisites and who have no college preparatory recommendations. Many individuals, especially part-time students and those taking college preparatory courses will require additional semesters of study. Students should consult their academic advisors for assistance with developing their individualized program plans prior to completing 40 credit hours towards the degree.

Diagnostic Procedures

- MST 1160 Phlebotomy (2 credits) (must also register for MST 1161)
- MST 1161 Phlebotomy Lab (1 credit) (must also register for MST 1160)
- MST 1171 Principles of Electrocardiography (2 credits)
- MLT 1120 Medical Laboratory Orientation and Phlebotomy (2 credits) (must also register for MLT 1125)
- MLT 1125 Medical Laboratory Orientation and Phlebotomy lab (1 credit) (must also register for MLT 1120)

Direct Patient Care

- BIO 1110 Basic Human Nutrition (2 credits)
- MST 1181 Nurse Aide Training (4 credits)
- NUR 1110 Dosage Calculations (1 credit)
- PTA 1112 PTA Survey (1 credit)

Emergency Care

- EMS 1100 EMT Theory and Practice (7 credits)

Chemical Dependency

- SWK 1105 Chemical Dependency I: Pharmacology/Physiology of Psychoactive Substances (3 credits)
- SWK 2205 Chemical Dependency II: Assessment, Diagnosis, and Treatment Strategies (3 credits)
- SWK 2215 Chemical Dependency III: Co-occurring Disorders of Addiction & Mental Health (3 credits)

Medical Coding

- OAD 2301 CPT/ICD-10-PCS Coding (3 credits)
- OAD 2302 ICD-10-CM Coding (3 credits)
- OAD 2312 Advanced Medical Coding (3 credits)
- OAD 2320 Medical Office Certification Review (1 credit)

Healthcare Management

- ACC 1000 Accounting Concepts (3 credits)
- ACC 1100 Introduction to Financial Accounting (4 credits)
- MGT 1060 Organizational Behavior (3 credits)
- MGT 1120 Principles of Management (3 credits)

Other Technical Electives

- EBE 1000 Employability Skills (1 credit)

Occupational Therapy Assistant (Consortium Program) (3430)

As a member of the Northwest Ohio Allied Health Education Consortium Clark State is able to bring an associate degree in Occupational Therapy Assistant to Clark State students. The consortium allows Clark State students to complete their general education and basic classes through Clark State at one of its campuses or online. Students are also enrolled at Rhodes State. Technical courses are taught by Rhodes State faculty through distance learning on the Clark State campus. Students will need to travel to the Rhodes State campus in Lima for skills lab instruction and hands-on practice approximately once a week. Clinical learning experiences will be scheduled in regional healthcare facilities. A very important aspect of the Occupational Therapy Assistant consortium program is that these clinical seats are reserved for qualified Clark State students living in Clark State's service area. Information about the consortium is available at the consortium web site. Specific information about the Occupational Therapy Assistant program is available on Rhodes State web site.

The technical courses in the Occupational Therapy Assistant program start each year in summer semester (May). Seats for the program are filled with qualified applicants. Clark State applicants for this program must apply to Rhodes State online. Students should indicate they are applying to the Northwest Ohio Allied Health Education Consortium and that they are from Clark State by checking the appropriate boxes at the top of the application. Seats are limited so students are encouraged to submit documentation of meeting qualification requirements to Rhodes State in a timely manner.

Occupational Therapy Assistants (OTAs) work with individuals of any age to develop, recover or maintain the skills needed to participate in occupation (everyday activities) with meaning, satisfaction and productivity. Under the supervision of an occupational therapist, an assistant will develop and provide therapeutic activities and strategies that will help their clients gain the cognitive, physical, emotional and/or developmental skills necessary for everyday life. They may also provide adaptive equipment or techniques necessary to carry out life tasks, provide education and consultation to individuals, families and society, and address prevention. The OTA will work with the health care team which may include physicians, nurses, physical therapists, psychologists, social workers, and speech and language pathologists, in a variety of settings including: hospitals, school systems, community mental health centers, nursing homes, home health agencies and private practice.

Technical Standards

All applicants accepted into The Allied Health Consortium must be able to meet the technical standards of the program of study for which they enroll. Students are asked to review the standards and to sign a form certifying that they have read, understand, and are able to meet the standards. Students are to be provided the technical standards information upon selection of their program of study. The Rhodes State Allied Health Department's technical standards are linked here and available on their web site.

Notice to Prospective or Current Occupational Therapy Assistant Students

Students who have been convicted of certain felonies and/or misdemeanor offenses are not eligible to participate in clinical education experiences. A criminal conviction may also affect ability to take the National Certification Examination for the Occupational Therapy Assistant or attain state licensure. Students admitted to a program containing off campus clinical/practicum experiences will be required to submit to drug screening.

Qualification Requirements

Academic qualification for the Occupational Therapy Assistant program are listed below as items 1-6. These requirements must be met in order to be considered for the program. All courses must be completed with a grade of C or better.

1. Appropriate American College Test (ACT) or college placement test scores or completion of college preparatory coursework as listed below.
 - Test out of college preparatory writing coursework, OR completion CPE 0300 with a grade of B or higher, or CPE 0400 with a grade of C or higher, or ENG 0900 with a grade of C or higher.
 - Test out of college preparatory reading coursework, OR completion of CPE 0200 with a C or higher, or ENG 0800 with a grade of A, or ENG 0850 with a grade of C or higher.
 - Test out of college developmental/elementary algebra, OR completion of CPE 0650 with a C or higher, or MTH 0650 with a grade of C or higher.
 - ACT score of 20 or higher in science OR completion of high school chemistry and high school biology OR BIO 1410 with a C or higher within past five years.
2. Overall and calculated GPA of 2.75. (Calculated GPA is defined as the average GPA of program specific coursework excluding the Success course).
3. Complete and score a minimum score of 60 on the Test of Essential Academic Skills (ATI TEAS) assessment exam.
4. Attend a mandatory program orientation session at Rhodes State and sign informed consent forms.

5. Complete 40 hours of observation in a clinical setting with a licensed Occupational Therapist or Occupational Therapy Assistant.

6. Have Clark State and other college transcripts with transferable college credits for basic and general education courses sent to Rhodes State.

After qualifying, a student must maintain a 2.75 or higher GPA in order to remain on the qualified list. If the student's GPA drops below 2.75, the student will be removed from the list. To re-qualify, the student must raise the GPA to or above 2.75. The student will then be added to the qualification list based on the re-qualification date, which would be the day GPA was raised.

If there are more applicants than available spots, students will be offered a seat based on the qualifying criteria (aggregate of calculated GPA, ATI TEAS score, the number of program specific courses completed with a C or better, and the two observation rubrics). If the qualifying criteria aggregate score of two applicants is equal then the college application date will be used to rank order those applicants,

Qualified students who were not admitted due to space limitations will be admitted in a following cohort year. This acceptance is contingent upon re-application prior to the deadline of the offered cohort year to verify continued interest in pursuing the degree. These students will be encouraged to attend an informational meeting with programmatic faculty to discuss strategies for persistence within the program or opportunities for other health care majors with seats available for immediate entry and/or other career directions offered at the College.

Students will have additional requirements that will have to be met before entrance into the Occupational Therapy Assistant program. These requirements include, but are not limited to physical, immunizations, background check, drug screen, CPR certification, and meeting with the Occupational Therapy Assistant program director.

Office Administration - Medical Office Administration Major (4750)

Medical office administrators function in a wide variety of medical settings, including physicians' offices, hospitals and nursing homes. They may prepare medical records or charts, schedule appointments, handle correspondence, prepare bills, and process insurance forms. In addition to excellent keyboarding skills, medical office administrators must possess expertise in medical terminology, familiarization with medical references, knowledge of medical coding, and familiarization with HIPAA regulations. In today's global society basic foreign language skills are increasingly important to facilitate communication in a medical environment. Strong human relations skills are also important as medical office administrators interact with people in stressful situations. These skills provide medical office administrators opportunities for promotion to medical office management positions.

Embedded Certificate

This degree program contains one or more embedded certificates which will automatically be awarded if the certificate requirements are met unless the student contacts Records and Registration and indicates he/she does not wish to have the certificate credential awarded.

Learning Outcomes

Upon completion of an Associate of Applied Business degree in Medical Office Administration, a graduate will be able to:

- Compose and produce quality business documents using technology.
- Perform office administrative functions using critical thinking, management, prioritizing, and organizational skills.
- Code medical documents and assist in the management of patient's health information.
- Demonstrate good oral communication skills.
- Demonstrate good human relations skills, including customer service, teamwork, and ethics.

Scholastic Preparation

Scholastic Preparation

Medical Office Administration students should possess basic computer skills: use a keyboard, mouse, external storage device and a printer; differentiate among drives, folders, and files; employ a username and password. Students lacking in any of these areas should enroll in ITS 0800, Computer Fundamentals, prior to enrolling in any OAD or other ITS courses. Students should also be able to type at least 35 words per minute on a five-minute timed writing. Students who cannot meet this standard should enroll in ITS 0810 Keyboarding or ITS 1210 Keyboarding/Word Processing prior to enrolling in any OAD or other college-level ITS course. Students who cannot meet the 35 word-per-minute standard on the first day of OAD 1101 will be required to withdraw and enroll in ITS 0810 or ITS 1210. ITS 0800, ITS 0810 and ITS 1210 are considered preparatory for entry into the Medical Office Administration Program and do not count toward the degree.

Transfer Options

Students enrolled in Associate of Applied Business and Associate of Applied Science degree programs are preparing for employment upon graduation from the program. However, at some point many of these students are also interested in completing a bachelor's degree. A number of colleges or universities have designed bachelor's completion programs designed for students completing applied degrees. See the Transfer section of the catalog for more information.

OAD 2703	Co-op Education/Internship	3
MST 1140	Human Disease	3
	Total Credit Hours	60

^Proficiency test available.

* Students with little or no computer background should enroll in ITS 0800 before taking other computer courses. Students without adequate keyboarding skills should enroll in ITS 0810 before taking a computer class.

**Proficiency test available. Students must pass a 3-minute time writing test with speed of 35 NWPM. Humanities/Social Science Electives

A complete listing of humanities and social science electives is available in the College Catalog. Students should follow the recommended sequencing of courses, with consideration to the pre/co requisites, including college preparatory (CPE) requirements.

Physical Therapist Assistant (6600)

The Physical Therapist Assistant (PTA) program combines didactic and clinical learning experiences that are within the legal scope of responsibility of physical therapist assistants.

The physical therapist assistant delivers services under the direction and supervision of a physical therapist who completes an initial examination and determines the appropriate treatment plan and goals for the patient. The physical therapist assistant shares the responsibility for administering treatments, instructing patients in exercises and activities of daily living, and documenting the patient's response to therapy. Graduates will be prepared to function in their role to provide treatment in a variety of settings such as inpatient, outpatient, and home care services.

Upon successful completion of all aspects of the PTA program, graduates are eligible to take the state licensing examination. Licensure is mandatory for practice as a physical therapist assistant in the State of Ohio. The Ohio OTPTAT Board requires FBI and Ohio BCI criminal records checks as part of the Ohio licensing application process. Visit the Board website at <http://otptat.ohio.gov> for more information.

Applications will begin being accepted each year on December 1. The application deadline for any given year is February 1. All application materials must be received on or before February 1 of each year. If February 1 falls on a weekend, the packet must be received by the next business day. Any application materials received after this date will be classified as late and will not be processed for the class beginning in that year. In addition, the Admissions Committee must be able to verify that the applicant has made application to Clark State, and that official transcripts from other institutions have been received by February 1. Transfer students should submit their Clark State applications and official transcripts early enough to avoid this problem. Notification of acceptance into the program will not occur before the end of March or early April. Once accepted, the student must maintain the required GPA.

Program Mission

In accordance with the mission of Clark State, the mission of the Physical Therapist Assistant program is to provide didactic and clinical learning experiences which are excellent in quality and reflective of evidence-based physical therapy practice, in order to prepare graduates to pass the state licensing examination and subsequently practice as competent and responsible physical therapist assistants within the scope of the law.

Program Goal

To provide a technical program that gives students the opportunity to develop the knowledge and skills necessary to become successfully employed as a physical therapist assistant.

Technical Standards

All applicants accepted into the Physical Therapist Assistant program must be able to meet the essential functions, skills, and abilities required to provide safe patient practice with or without reasonable accommodations. The essential functions, skills, and abilities are listed in the PTA Application Handbook which is linked to the program page on the College's website. Applicants are required to sign a form indicating they have reviewed these essential functions, skills, and abilities and submit that form as part of the program application process.

Course Format

Most PTA courses are composed of two components, an online lecture component and an onsite lab component, which may be taught at the Leffel Lane campus or another College approved site. Onsite labs are currently only offered in Springfield and Columbus, Ohio. Directed practices are in clinical facilities in the greater Springfield, Dayton, Columbus, and Cincinnati, Ohio regions. The College has national contracts with several organizations and may consider clinical placements outside of these regions.

Liability Insurance

Students will be billed for liability insurance for the academic year of directed practice courses.

Graduate Statistics

Information reported is from the December 2019 Annual Assessment Report to CAPTE and includes the graduating classes of 2017, 2018, and 2019. Additional information about graduation rates can be requested from the program coordinator.

Graduation rate*: 81.1%

*Graduation rate as defined by the Commission on Accreditation in Physical Therapy Education (CAPTE) is completion of the program within their admitted cohort.

Licensure Pass Rate **: 95.79%

**Program Ultimate Pass rate as reported by the Federation of State Boards of Physical Therapy.

Employment rate***: 100%

***Reflects employment rate of graduates who were eligible for and sought employment as a PTA within one year of graduation.

Comments and Suggestions

The Physical Therapist Assistant (PTA) program engages in continuing assessment and improvements. Comments, suggestions and constructive criticism from students and the public are welcome and are part of this process. Comments must be submitted in writing to the PTA program coordinator at the following address.

Clark State
Physical Therapist Assistant Program Coordinator
P.O. Box 570
570 East Leffel Lane
Springfield, OH 45505

The PTA program coordinator will respond to all written comments that include the name and contact information for the individual submitting the comments within ten (10) business days.

Learning Outcomes

Upon completion of an Associate of Applied Science degree in Physical Therapist Assistant, a graduate will be able to:

- Demonstrate proficient entry-level knowledge and skill in implementing treatment practices appropriate to the plan of care established by the physical therapist.
- Demonstrate proficient entry-level knowledge and skill in utilizing testing and measurement techniques appropriate to the plan of care established by the physical therapist.
- Communicate effectively with patients, families, colleagues and other health care providers.
- Demonstrate behavior that reflects respect for and sensitivity to individual differences when working with patients, families, colleagues, and other health care professionals.
- Adhere to ethical and legal standards throughout the provision of physical therapy services.
- Provide patient care in a safe manner that minimizes risk to patient, self, and others.
- Practice physical therapy in an effective manner making judgments consistent with the physical therapist plan of care and the role of the physical therapist assistant.
- Practice lifelong learning that reflects social responsibility and career development.

Program Admission Requirements

The Physical Therapist Assistant program must restrict the number of students accepted into the program each year due to the limited availability of clinical sites. The program is currently able to accept a maximum of 36 students each year; (26 students in Springfield and 10 students in Columbus.) Acceptance into the PTA program is a competitive process and application does not guarantee admission.*

In addition to completing the standard procedures for admission to the College, students must apply to the PTA program separately. The PTA program application process, criteria, selection process and time line are provided in the PTA Application Handbook; a print copy of this handbook is also available from the Health, Human and Public Services Division Office. Abbreviated information about this admission process is also provided here.

Students must have completed the following academic requirements to be eligible to apply to the Physical Therapist Assistant program:

An ACCUPLACER reading score indicating college ready reading skills. If the student does not obtain an appropriate score he/she is required to take and pass ENG 0800 with a grade of A, or ENG 0850 with a grade of C

or higher. Students are excused from taking placement reading exam if reading score on a recent (within three years) ACT or SAT exam is greater than or equal to 21 on ACT and 450 on SAT.

An ACCUPLACER writing score indicating college ready writing skills. If the student does not obtain an appropriate score, he/she is required to take and pass the appropriate college preparatory course ENG 0900 with a grade of C or higher. Students are excused from taking placement writing exam if writing score on recent (within three years) ACT or SAT exam is equal to or greater than 18 on ACT or 430 on the SAT.

Students are excused from taking the reading and writing placement tests if they have obtained a C or higher in a college-level English course. Recent high school graduates who completed a senior level English course may also be excused from placement testing dependent on the grade in the high school course.

An ACCUPLACER math score indicating eligibility to take a 1000 or higher college level math course and PHY 1110, Fundamentals of Physics, if the course is needed to meet program application requirements.

Students must have completed or be enrolled in courses in spring semester of the application year to complete the following academic requirements to be eligible to apply to the Physical Therapist Assistant Program:

A grade of C or better in either high school physics (within the past five years) or a college physics course (PHY 1100 Fundamentals of Physics or its equivalent within the past ten years) or passing of the PTA Physics Proficiency (within the past year) or licensure as an athletic trainer.

A grade of C or better in high school biology and chemistry within the past five years, or a college level biology course (BIO 1410 or the equivalent) with a grade of C or better within the past five years, or completion of BIO 2121, Anatomy and Physiology I (or the equivalent) with a C or better within the past five years.

GPA of 2.5 in the required curricular courses; the GPA includes fundamentals of biology and physics ONLY when no other courses in the PTA curriculum have been taken.

In order to be accepted into the physical therapist assistant courses, students must maintain the required cumulative grade point average in the required courses in the curriculum. College preparatory courses and other courses, which are not listed as part of the curriculum, are not included in calculating the GPA. However, a minimum grade of C is required in the prerequisite and college preparatory courses (CPE). Please refer to the PTA Application Handbook for additional information on courses in which a C is required. While students are waiting to be admitted they may take any of the non-core PTA courses in the curriculum. (BIO 1119, Muscle Anatomy and Biomechanics, is considered a core PTA course).

In addition to the academic requirements listed above, students must complete a total of 60 hours of observation/volunteer/paid work experience in three different settings under the supervision of a PT or PTA within five years and have the supervising PT/PTA at each setting complete the observation evaluation form. Twenty hours are required in an in-patient/hospital setting, 20 hours are required in an out-patient setting, and 20 hours are required in a third setting of the student's choosing. Students are advised to begin their Observation/Volunteer/Paid Work Experience hours while working on their application requirements. All 60 hours must be completed at the time of application.

Graduation Requirements

A 2.0 cumulative grade point average (GPA) on a 4.0 scale and grades of C or better in the major courses in the PTA curriculum are required to graduate. Refer to the PTA Application Handbook for a list of courses that require a grade of C or better.

Clinical Requirements

Prior to summer between the first and second year, a physical exam, a two-step Mantoux test, Hepatitis B immunization or waiver, a health history including record of childhood immunizations or adult titers, a flu shot, professional CPR, and First Aid training are required. A criminal records check must be completed within the three months immediately prior to entry into clinical courses in the summer semester. At a minimum, a civilian (BCI) background check is required. A federal (FBI) background check may be required. Additional medical tests, including drug screens, and other requirements may be necessary depending upon clinical site

Course #	Course Title	Credit Hours

PSY 2223	Lifespan Human Growth and Development	3
Total Credit Hours		65

*May be taken within two years of acceptance into the program although no sooner than one year is preferred. If the course was completed more than 24 months prior to starting the program, the course will need to be repeated.

**Must be accepted into the PTA program to take these classes

***Must be completed with a C or better within 5 years of acceptance to the program. If older than 5 years, the course must be repeated.

^Choose from any college level math or statistics course.

NOTE: MST 1105 and all courses with a BIO or PTA course code must be completed with a C or better.

The program plan is designed for full-time students who have completed all prerequisites and who have no college preparatory recommendations. Many individuals, especially part-time students and those taking college preparatory courses, will require additional semesters of study. Students who plan to continue to work are strongly encouraged to complete all or most non-core PTA courses prior to starting the program. Students should consult their academic advisor for help in planning their schedules.

Radiographic Imaging (Consortium Program) (3410)

As a member of the Northwest Ohio Allied Health Education Consortium, Clark State is able to bring an associate degree in Radiographic Imaging to Clark State students. This consortium allows Clark State students to complete their general education and basic classes through Clark State at one of its campuses or online. Students are also enrolled at Rhodes State. Technical courses are taught by Rhodes State faculty through distance learning via online format. Students will need to travel to the Rhodes State campus in Lima for skills lab instruction and hands-on practice approximately once a week. Clinical learning experiences will be scheduled in regional healthcare facilities. A very important aspect of the Radiographic Imaging consortium program is that these clinical seats are reserved for qualified Clark State students living in Clark State's service area.

Information about the consortium is available at the consortium web site. Specific information about the Radiographic Imaging program is available on Rhodes State web site.

The technical courses in the Radiographic Imaging program start each year in fall semester (August). Seats for the program are filled with qualified applicants. Clark State applicants for this program must also apply to Rhodes State online. Students should indicate they are applying to the Northwest Ohio Allied Health Education Consortium and that they are from Clark State by checking the appropriate boxes at the top of the application. Seats are limited so students are encouraged to submit documentation of meeting qualification requirements to Rhodes State in a timely manner.

The Radiographic Imaging Program provides an education in the technical skills and knowledge necessary to safely use radiation to produce high-quality images of internal structures and body systems to provide physicians with diagnostic information on their patients. Upon successful completion of the program, the student will be awarded an Associate in Applied Science degree from Rhodes State College and is eligible to take the certifying examination in radiography by the American Registry of Radiologic Technologists. Graduates of the program find employment as radiographers in a variety of settings including hospitals, clinics, and physicians' offices.

Notice to Prospective or Current Radiographic Imaging Students

Students who have ever been convicted of a prior felony and/or some misdemeanors may not be able to participate in clinical education experiences at some hospitals or other clinical sites, therefore preventing them from completing the program. A criminal record may also prevent a graduate from obtaining a license or certificate in a chosen health-care profession. Students admitted to a program containing off campus clinical/practicum experiences will be required to submit to drug screening.

Technical Standards

All applicants accepted into The Allied Health Consortium must be able to meet the technical standards of the program of study for which they enroll. Students are asked to review the standards and to sign a form certifying that they have read, understand, and are able to meet the standards. Students are to be provided the technical standards information upon selection of their program of study. The Rhodes State Allied Health Department's technical standards are linked here and available on their web site.

Graduation Requirements

Qualification Requirements

Academic qualification for the Radiographic Imaging program are listed below as items 1-6. These requirements must be met in order to be considered for the program.

1. Appropriate American College Test (ACT) or college placement test scores or completion of college preparatory coursework as listed below.
 - Test out of college preparatory writing coursework, OR completion CPE 0300 with a grade of B or higher, or CPE 0400 with a grade of C or higher, or ENG 0900 with a grade of C or higher.
 - Test out of college preparatory reading coursework, OR completion of CPE 0200 with a C or higher, or ENG 0800 with a grade of A, or ENG 0850 with a grade of C or higher.
 - Test out of college developmental/elementary algebra, OR completion of CPE 0650 with a C or higher, or MTH 0650 with a grade of C or higher.
2. Overall and program-related GPA of 2.75. (Program-related GPA is defined as the average GPA of program specific coursework excluding the Success course).
3. Complete and score a minimum score of 60 on the Test of Essential Academic Skills (ATI TEAS) assessment exam.
4. Attend a mandatory program orientation session at Rhodes State and sign informed consent forms.
5. Complete 16 hours of observation in a clinical setting with a Registered Technologist in Radiography using the Observation Form in the Application Packet.
6. Have Clark State and other college transcripts with transferable college credits for basic and general education courses sent to Rhodes State.

All students who meet the programs' qualification requirements are placed on the qualified list. If there are more applicants than available spots, students will be offered a seat based on the qualifying criteria (aggregate of calculated GPA, ATI TEAS score, the number of program specific courses completed with a C or better, and the two observation rubrics). If the qualifying criteria aggregate score of two applicants is equal, then the college application date will be used to rank order those applicants.

Qualified students who were not admitted due to space limitations will be admitted in a following cohort year. This acceptance is contingent upon re-application prior to the deadline of the offered cohort year to verify continued interest in pursuing the degree. These students will be encouraged to attend an informational meeting with programmatic faculty to discuss strategies for persistence within the program or opportunities for other health care majors with seats available for immediate entry and/or other career directions offered at the College.

Students will have additional requirements that will have to be met before entrance into the Radiographic Imaging program. These requirements include but are not limited to observation hours, physical, immunizations, background checks, drug screens, and meeting with the Radiograph Imaging program director.

Registered Nursing (6300)

Graduates are prepared to function in beginning staff-level registered nurse positions in hospitals, extended care facilities, clinics and comparable health care facilities as members of a health care team.

Licensure

Upon completion of the program, the graduate is eligible to apply to take the NCLEX-RN examination. Licensure is mandatory for practice as a RN. Candidates for licensure in Ohio must obtain a criminal background check and disclose information related to any prior felony or misdemeanor, crimes involving gross immorality or moral turpitude, violation of a drug law, and/or recent diagnosis or treatment of a psychotic disorder. The Ohio Board of Nursing will determine whether the candidate may take the licensing exam.

Student Achievement Data

The nursing program publishes student achievement data that is required by the Accreditation Commission for Education in Nursing (ACEN). The data includes the graduates' success on the licensure examination, program completion rates, and employment rates. Licensure Examination Pass Rate - Performance on the licensure examination for first-time test-takers

- 2019 first-time test-takers from all cohorts (RN, LPN to RN, and Paramedic to RN) = 77.0%
- Traditional RN Day, December 2018 graduates = 76.75%
- Traditional RN Day, May 2019 graduates = 80.55%

Program Completion Rate - Percentage of students who graduate within a defined period of time. The definition used by ACEN for the program completion rate is the number of students who complete the program in no more than 150% of the stated program length beginning with enrollment in the first nursing course.

- 2019 All cohorts (RN, LPN to RN, and Paramedic to RN) = 75.13%
- 2019 Traditional RN Day Cohort = 52.45%

Job Placement Rate - Percentage of graduates, responding to a graduate survey, who were employed in a position for which the program prepared them six (6) to twelve (12) months after graduating.

- 2019 rates for all graduates (RN, LPN to RN, and Paramedic to RN) = 95%

Bachelor of Science in Nursing (BSN) Completion Option

Graduates of the Associate of Applied Science degree in Nursing are prepared to obtain licensure and employment as a registered nurse. Graduates are also prepared to continue their education and obtain a bachelor's degree in nursing. A number of colleges and universities have designed bachelor's nursing completion programs for associate degree prepared registered nurses. Clark State has articulation agreements with a number of area BSN completion programs including Ohio State University, Ohio University, University of Cincinnati, Western Governors

University, Wittenberg University, and Wright State University. Students are encouraged to refer to the transfer section of the catalog, the transfer guides area of the college's web site, and their academic advisor for more information about these programs.

Learning Outcomes

Upon completion of an Associate of Applied Science degree in Registered Nursing, a graduate will be able to:

- Patient Centered Care: Engage in professional nursing practice, providing holistic, individualized, compassionate care that is patient centered, culturally, and developmentally appropriate across the lifespan.
- Communication, Teamwork and Collaboration: Utilize effective communication with nursing and interprofessional teams, fostering open communication, respect, and shared decision making.
- Evidence Based Practice and Quality Improvement: Incorporate a spirit of inquiry through the utilization of current best evidence to make clinical judgements for quality improvement.
- Safety, Informatics and Technology: Integrate informatics and technology to guide nursing judgement in making clinical decisions that minimize the risk of harm to patients and providers.
- Leadership and Professionalism: Transition to the role of the professional nurse, incorporating legal, ethical, and professional standards.

Technical Standards

Specific attributes, characteristics, and abilities are essential to practice nursing. Professional competency is the summation of many cognitive, affective, and psychomotor skills. Students who enter the nursing program must be able to perform (with or without reasonable accommodations) these Technical Standards, which are linked to this program page on the College's web site.

Students who may require accommodations to perform the technical standards should contact the College's Office of Accessibility to request reasonable accommodations.

Students are asked to sign a form certifying that they have read, understand, and are able to perform the Technical Standards of the Student Nurse when applying to the program. These Technical Standards are also reviewed at the program orientation session. Attendance at this session is required for all students who have been accepted to start the nursing program's technical courses.

Admissions Requirements

The RN program is a space limited program that admits students twice a year in fall and spring semesters. In addition to applying to the college, students must apply to the program. Minimum grade point average, reading, writing, math, and science requirements must be met prior to applying to the RN program. Applicants must complete the TEAS test (Test of Essential Academic

Skills). Completion of the minimum requirements and application to the program does not guarantee admission to the program. Entry to the nursing program is competitive and based on academic achievements. Detailed information about the RN Evening program's competitive admission criteria, process, timeline, and forms are available on the Admissions Space Limited Programs web page.

Additional Program Requirements

Prior to starting the program, students must have current healthcare provider cardiopulmonary resuscitation (CPR/BLS) certification and current state-tested nurse aide credentials or have satisfactorily completed MST 1181 or its equivalent at a community college within the past two years. Additional information about these requirements can be obtained from academic and faculty advisors. Students must also meet health requirements, show proof of health insurance, and meet criminal background check and drug screen requirements before starting the program. Students must update health requirements, criminal background checks, drug screens in accordance with program and clinical agency policies. Additional information about these requirements is provided at the nursing program orientation sessions that are required for all students who have been accepted to start the program. Students must complete these requirements at their own expense. Students will be billed for liability insurance for each year of clinical courses as part of a course fee.

All students enrolled in NUR 2239 are required to enroll in the Virtual ATI NCLEX review.

Progression Requirements

In order to enroll in NUR 1130 and progress to subsequent nursing courses, students must have successfully completed all pre-requisite courses with a grade of C or higher.

Graduation Requirements

To qualify for an associate degree, Registered Nursing students must have a cumulative grade point average of 2.0 and have a grade of C or higher in all courses in the nursing curriculum.

Course #	Course Title	Credit Hours
Summer		
BIO 2121	Anatomy and Physiology I *	4
ENG 1111	English I	3

NUR 2236	Adult Nursing II	6.5
Spring		
SOC 1110	Introduction to Sociology	3
NUR 2232	Children-Family Nursing	2.5
NUR 2239	Adult Nursing III	8
Total Credit Hours		65

*BIO 2121 and BIO 2122, or the equivalent must be successfully completed within five years of entry into the first clinical nursing course. If older than five years, the courses must be repeated.

** Students may choose from MTH 1070 Quantitative Reasoning or STT 2640 Elementary Statistics I (see course descriptions for prerequisites). Students who plan to pursue a Bachelor of Science in Nursing (BSN) should choose a math course that will satisfy the BSN program requirements for their school of choice.

The program schedule is designed for full-time students who have completed all prerequisites and who have no college preparatory requirements. Many individuals, especially part-time students and those taking college preparatory education courses, will require additional semesters of study.

The curriculum plan is for the fall semester start. The spring semester start varies somewhat in the sequencing of courses. Contact the Health, Human and Public Services Division office for a copy of the spring semester start curriculum plan. Many non-nursing and some nursing (NUR) courses in the curriculum are available in both traditional and online/hybrid formats. Students should consult their academic advisors for help in planning their schedules.

Registered Nursing - Evening / Weekend (6300)

The Registered Nursing program is also offered as a part-time evening-weekend program. All non-nursing (non NUR) courses must be completed before a student enrolls in the first evening nursing (NUR) course. Graduates are prepared to function in beginning staff-level registered nurse positions in hospitals, extended care facilities, clinics and comparable health care facilities as members of a health care team.

Technical Standards

Specific attributes, characteristics, and abilities are essential to practice nursing. Professional competency is the summation of many cognitive, affective, and psychomotor skills. Students who enter the nursing program must be able to perform (with or without reasonable accommodations) these Technical Standards, which are linked to this program page on the College's web site.

Students who may require accommodations to perform the technical standards should contact the College's Office of Accessibility to request reasonable accommodations.

Students are asked to sign a form certifying that they have read, understand, and are able to perform the Technical Standards of the Student Nurse when applying to the program. These Technical Standards are also reviewed at the program orientation session. Attendance at this session is required for all students who have been accepted to start the nursing program's technical courses.

Licensure

Upon completion of the program, the graduate is eligible to apply to take the NCLEX-RN examination. Licensure is mandatory for practice as a RN. Candidates for licensure in Ohio must obtain a criminal background check and disclose information related to any prior felony or misdemeanor, crimes involving gross immorality or moral turpitude, violation of a drug law, and/or recent diagnosis or treatment of a psychotic disorder. The Ohio Board of Nursing will determine whether the candidate may take the licensing exam.

Student Achievement Data

The nursing program publishes student achievement data that is required by the Accreditation Commission for Education in Nursing (ACEN). The data includes the graduates' success on the licensure examination, program completion rates, and employment rates. Licensure Examination Pass Rate - Performance on the licensure examination for first-time test-takers

- 2019 first-time test-takers from all cohorts (RN, LPN to RN, and Paramedic to RN) = 77.08%
- Traditional RN Evening/Weekend, May 2019 graduates = 75.13%

Program Completion Rate - Percentage of students who graduate within a defined period of time. The definition used by ACEN for the program completion rate is the number of students who complete the program in no more than 150% of the stated program length beginning with enrollment in the first nursing course.

- 2019 All cohorts (RN, LPN to RN, and Paramedic to RN) = 68.88%
- 2019 Traditional RN Evening/Weekend Cohort = 88.88%

Job Placement Rate - Percentage of graduates, responding to a graduate survey, who were employed in a position for which the program prepared them six (6) to twelve (12) months after graduating.

- 2019 rates for all responding graduates (RN, LPN to RN, and Paramedic to RN) = 95%

Bachelor of Science in Nursing (BSN) Completion Options

Graduates of the Associate of Applied Science degree in Nursing are prepared to obtain licensure and employment as a registered nurse. Graduates are also prepared to continue their education and obtain a bachelor's degree in nursing. A number of colleges and universities have designed bachelor's nursing completion programs for associate degree prepared registered nurses. Clark State has articulation agreements with a number of area BSN completion program including Ohio State University, Ohio University, University of Cincinnati, Western Governors University, Wittenberg University, and Wright State University. Students are encouraged to refer to the transfer section of the catalog, the transfer guides area of the college's web site, and their academic advisor for more information about these programs.

Learning Outcomes

Upon completion of an Associate of Applied Science degree in Registered Nursing, a graduate will be able to:

- Patient Centered Care: Engage in professional nursing practice, providing holistic, individualized, compassionate care that is patient centered, culturally, and developmentally appropriate across the lifespan.
- Communication, Teamwork and Collaboration: Utilize effective communication with nursing and interprofessional teams, fostering open communication, respect, and shared decision making.
- Evidence Based Practice and Quality Improvement: Incorporate a spirit of inquiry through the utilization of current best evidence to make clinical judgements for quality improvement.
- Safety, Informatics and Technology: Integrate informatics and technology to guide nursing judgement in making clinical decisions that minimize the risk of harm to patients and providers.
- Leadership and Professionalism: Transition to the role of the professional nurse, incorporating legal, ethical, and professional standards.

Admissions Requirements

The RN Evening program is a space limited program that admits students once a year in fall semester. In addition to applying to the college, students must apply to the program. Minimum grade point average, reading, writing, math, and science requirements must be met prior to applying to the RN program. Applicants must complete the TEAS test (Test of Essential Academic Skills). Completion of the minimum requirements and application to the program does not guarantee admission to the program. Entry to the nursing program is competitive and based on academic achievements. Detailed information about the RN Evening program's competitive admission criteria, process, timeline, and forms are available on the Admissions Space Limited Programs web page.

Additional Program Requirements

Prior to starting the program, students must have current healthcare provider cardiopulmonary resuscitation (CPR/BLS) certification and current state-tested nurse aide credentials or have satisfactorily completed MST 1181 or its equivalent at a community college within the past two years. Additional information about these requirements can be obtained from academic and faculty advisors. Students must also meet health requirements, show proof of health insurance, and meet criminal background check and drug screen requirements before starting the program. Students must update health requirements, criminal background checks, and drug screens in accordance with program and clinical agency policies. Additional information about these requirements is provided at the nursing program orientation sessions that are required for all students who have been accepted to start the program. Students must complete these requirements at their own expense. Students will be billed for liability insurance for each year of clinical courses as part of a course fee.

All students enrolled in NUR 2239 are required to enroll in the Virtual ATI review.

Progression Requirements

In order to enroll in NUR 1130 and progress to subsequent nursing courses, students must have successfully completed all pre-requisite courses with a grade of C or higher.

Graduation Requirements

To qualify for an associate degree, Registered Nursing students must have a cumulative grade point average of 2.0 and have a grade of C or higher in all courses in the nursing curriculum.

Course #	Course Title	Credit Hours
Fall		
ENG 1111	English I	3

* BIO 2121 and BIO 2122, or the equivalent must be successfully completed within five years of entry into the first clinical nursing course. If older than five years, the courses must be repeated.

** Students may choose from MTH 1070 Quantitative Reasoning or STT 2640 Elementary Statistics I (see course descriptions for prerequisites). Students who plan to pursue a Bachelor of Science in Nursing (BSN) should choose a math course that will satisfy the BSN program requirements for their school of choice.

The program schedule is designed for part-time students who have completed all prerequisites and who have no college preparatory requirements. Individuals taking college preparatory education courses will require additional semesters of study. Many non-nursing and some nursing (NUR) courses in the curriculum are available in both traditional and online/hybrid formats. Students should consult their academic advisors for help in planning their schedules.

Registered Nursing - LPN to RN Transition (6400)

The LPN to RN option meets the educational needs of the licensed practical nurse desiring to become a registered nurse.

Graduates are prepared to function in beginning staff-level registered nurse positions in hospitals, extended care facilities, clinics, and comparable health care facilities as members of a health care team.

Technical Standards

Specific attributes, characteristics and abilities are essential to practice nursing. Professional competency is the summation of many cognitive, affective, and psychomotor skills. Students who enter the nursing program must be able to perform (with or without reasonable accommodations) these Technical Standards, which are linked to this program page on the College's website.

Students who may require accommodations to perform the technical standards should contact the College's Office of Accessibility to request reasonable accommodations.

Students are asked to sign a form certifying that they have read, understand, and are able to perform the Technical Standards of the Student Nurse when applying to the program. These Technical Standards are also reviewed at the program orientation session. Attendance at this session is required for all students who have been accepted to start the nursing program's technical courses.

Licensure

Upon completion of the program, the graduate is eligible to apply to take the NCLEX-RN examination. Licensure is mandatory for practice as a RN. Candidates for licensure in Ohio must complete a criminal background check and disclose information related to any prior felony or misdemeanor, crime involving gross immorality or moral turpitude, violation of a drug law, and/or recent diagnosis or treatment of a psychotic disorder. The Ohio Board of Nursing will determine whether the candidate may take the licensing exam.

Student Achievement Data

The nursing program publishes student achievement data that is required by the Accreditation Commission for Education in Nursing (ACEN). The data includes the graduates' success on the licensure examination, program completion rates, and employment rates. Licensure Examination Pass Rate - Performance on the licensure examination for first-time test-takers

- 2019 first-time test-takers from all cohorts (RN, LPN to RN, and Paramedic to RN) = 77.08%
- LPN to RN Day, December 2018 graduates = 58.33%
- LPN to RN Bellefontaine campus, December 2018 graduates = 75%
- LPN to RN Evening/Weekend, May 2019 graduates = 78.5%

Program Completion Rate - Percentage of students who graduate within a defined period of time. The definition used by ACEN for the program completion rate is the number of students who complete the program in no more than 150% of the stated program length beginning with enrollment in the first nursing course.

- 2019 All cohorts (RN, LPN to RN, and Paramedic to RN) = 75.13%
- 2019 LPN to RN Day Cohort = 100%
- 2019 LPN to RN Bellefontaine Campus Cohort = 100%
- 2019 LPN to RN Evening/Weekend Cohort = 85.71%

Job Placement Rate - Percentage of graduates, responding to a graduate survey, who were employed in a position for which the program prepared them six (6) to twelve (12) months after graduating.

- 2019 rates for all graduates (RN, LPN to RN, and Paramedic to RN) = 95%

Bachelor of Science in Nursing (BSN) Completion Options

Graduates of the Associate of Applied Science degree in Nursing are prepared to obtain licensure and employment as a registered nurse. Graduates are also prepared to continue their education and obtain a bachelor's degree in nursing. A number of colleges and universities have designed bachelor's nursing completion programs for associate degree prepared registered nurses. Clark State has articulation agreements with a number of area BSN completion programs including Ohio State University, Ohio University, University of Cincinnati, Western Governors University, Wittenberg University and Wright State University. Students are encouraged to refer to the transfer section of the catalog, the transfer guides area of the college's web site, and their academic advisor for more information about these programs.

Degree Availability

The Registered Nursing - LPN to RN Transition degree is available full-time day in Springfield and part-time evening-weekend in Springfield.

Learning Outcomes

Upon completion of an Associate of Applied Science degree in Registered Nursing, a graduate will be able to:

- Patient Centered Care: Engage in professional nursing practice, providing holistic, individualized, compassionate care that is patient centered, culturally, and developmentally appropriate across the lifespan.
- Communication, Teamwork and Collaboration: Utilize effective communication with nursing and interprofessional teams, fostering open communication, respect, and shared decision making.
- Evidence Based Practice and Quality Improvement: Incorporate a spirit of inquiry through the utilization of current best evidence to make clinical judgements for quality improvement.

- Safety, Informatics and Technology: Integrate informatics and technology to guide nursing judgement in making clinical decisions that minimize the risk of harm to patients and providers.
- Leadership and Professionalism: Transition to the role of the professional nurse, incorporating legal, ethical, and professional standards.

Admission Requirements

The LPN to RN program is a space limited program that admits students twice a year in fall and spring semesters. In addition to applying to the college, students must apply to the program. Minimum grade point average, reading, writing, math, and science requirements must be met prior to applying to the program. Applicants must complete the TEAS test (Test of Essential Academic Skills). Completion of the minimum requirements and application to the program does not guarantee admission. Entry to the LPN to RN program is competitive and based on academic achievements. Detailed information about the program's competitive admission criteria, process, timeline, and forms are available on the RN - LPN to RN transition petition page.

Additional Program Requirements

Prior to starting the program, students must have current healthcare provider cardiopulmonary resuscitation (CPR/BLS) certification. Students must also meet health requirements, show proof of health insurance, meet criminal background check, and drug screen requirements before starting the program. Students must update health requirements, criminal background checks, and drug screens in accordance with program and clinical agency policies. Additional information about these requirements is provided at the nursing program orientation sessions that are required for all students who have been accepted to start the program. Students must complete these requirements at their own expense. Students will be billed for liability insurance for each year of clinical courses as part of a course fee.

All students enrolled in NUR 2239 are required to enroll in the Virtual ATI review.

Progression Requirements

In order to progress to the next nursing course, students must have successfully completed all prerequisite courses with a grade of C or higher.

Graduation Requirements

To qualify for an associate degree, Transition students must have a cumulative grade point average (GPA) of 2.0 and have a grade of C or higher in all courses in the nursing curriculum.

* BIO 2121 and BIO 2122, or the equivalent, must be successfully completed within five years of entry into the first clinical nursing course. If older than five years, the courses must be repeated.

** Students are awarded 8 semester hours of articulated credit for advanced placement after successful completion of NUR 1135 and NUR 1136.

*** Students may choose from MTH 1070 Quantitative Reasoning or STT 2640 Elementary Statistics I (see course descriptions for prerequisites). Students who plan to pursue a Bachelor of Science in Nursing (BSN) should choose a math course that will satisfy the BSN program requirements for their school of choice.

^The 3 day NCLEX review only offered on Springfield Campus during NUR 2239.

The curriculum is offered as a full-time program in Springfield and the Bellefontaine area. A part-time evening weekend program is also available in Springfield. The program schedule is designed for full-time students who have completed all prerequisites and who have no college preparatory requirements. Individuals taking college preparatory education courses or attending school part-time will require additional semesters of study.

Many non-nursing and some nursing (NUR) courses in the curriculum are available in both traditional and online/hybrid formats for Springfield cohort students. All lab sessions are conducted on campus and/or at a healthcare facility, regardless of the format.

All students should consult their academic advisors for help in planning their schedules.

Registered Nursing - Paramedic to RN Transition (6800)

The Paramedic to RN option meets the educational needs of the paramedic desiring to become a registered nurse.

Graduates are prepared to function in beginning staff-level registered nurse positions in hospitals, extended care facilities, clinics and comparable health care facilities as members of a health care team.

Technical Standards

Specific attributes, characteristics and abilities are essential to practice nursing. Professional competency is the summation of many cognitive, affective and psychomotor skills. Students who enter the nursing program must be able to perform (with or without reasonable accommodations) these Technical Standards, which are linked to this program page on the College's website.

Students who may require accommodations to perform the Technical Standards should contact the College's Office of Accessibility to request reasonable accommodations.

Students are asked to sign a form certifying that they have read, understand and are able to perform the Technical Standards of the Student Nurse when applying to the program. These Technical Standards are also reviewed at the program orientation session. Attendance at this session is required for all students who have been accepted to start the nursing program's technical courses.

Licensure

Upon completion of the program, the graduate is eligible to apply to take the NCLEX-RN examination. Licensure is mandatory for practice as a RN. Candidates for licensure in Ohio must complete a criminal background check and disclose information related to any prior felony or misdemeanor, crime involving gross immorality or moral turpitude, violation of a drug law, and/or recent diagnosis or treatment of a psychotic disorder. The Ohio Board of Nursing will determine whether the candidate may take the licensing exam.

Student Achievement Data

The nursing program publishes student achievement data that is required by the Accreditation Commission for Education in Nursing (ACEN). The data includes the graduates' success on the licensure examination, program completion rates, and employment rates. Licensure Examination Pass Rate - Performance on the licensure examination for first-time test-takers

- 2019 first-time test-takers from all cohorts (RN, LPN to RN, and Paramedic to RN) = 77.03%
- Paramedic to RN, December 2018 graduates = 71.42%

Program Completion Rate - Percentage of students who graduate within a defined period of time. The definition used by ACEN for the program completion rate is the number of students who complete the program in no more than 150% of the stated program length beginning with enrollment in the first nursing course.

- 2019 All cohorts (RN, LPN to RN, and Paramedic to RN) = 75.13%
- 2019 Paramedic to RN Cohort = 100%

Job Placement Rate - Percentage of graduates, responding to a graduate survey, who were employed in a position for which the program prepared them six (6) to twelve (12) months after graduating.

- 2019 rates for all responding graduates (RN, LPN to RN, and Paramedic to RN) = 95%

Bachelor of Science in Nursing (BSN) Completion Options

Graduates of the Associate of Applied Science degree in Nursing are prepared to obtain licensure and employment as a registered nurse. Graduates are also prepared to continue their education and obtain a bachelor's degree in nursing. A number of colleges and universities have designed bachelor's nursing completion programs for associate degree prepared registered nurses. Clark State has articulation agreements with a number of area BSN completion program including Ohio State University, Ohio University, University of Cincinnati, Western Governors University, Wittenberg University and Wright State University. Students are encouraged to refer to the transfer section of the catalog, the transfer guides area of the college's web site, and their academic advisor for more information about these programs.

Learning Outcomes

Upon completion of an Associate of Applied Science degree in Registered Nursing, a graduate will be able to:

- Patient Centered Care: Engage in professional nursing practice, providing holistic, individualized, compassionate care that is patient centered, culturally, and developmentally appropriate across the lifespan.
- Communication, Teamwork and Collaboration: Utilize effective communication with nursing and interprofessional teams, fostering open communication, respect, and shared decision making.
- Evidence Based Practice and Quality Improvement: Incorporate a spirit of inquiry through the utilization of current best evidence to make clinical judgements for quality improvement.
- Safety, Informatics and Technology: Integrate informatics and technology to guide nursing judgement in making clinical decisions that minimize the risk of harm to patients and providers.
- Leadership and Professionalism: Transition to the role of the professional nurse, incorporating legal, ethical, and professional standards.

Admission Requirements

The Paramedic to RN program is a space limited program that admits students once a year in fall semester. In addition to applying to the college, students must apply to the program. Minimum grade point average, reading, writing, math, and science requirements must be met prior to applying to the Paramedic to RN program. Applicants must complete the TEAS test (Test of Essential Academic Skills). Completion of the minimum requirements and application to the program does not guarantee admission. Entry to the nursing program is competitive and based on academic achievements. Detailed information about the Paramedic to RN program's competitive admission criteria, process, timeline, and forms are available on the RN - Paramedic to RN transition petition page.

Additional Program Requirements

Prior to starting the program, students must successfully complete MST 1181, Nurse Aide Training course, its equivalent at a community college, or demonstrate proficiency of the knowledge and skills taught in that course. Students who wish to demonstrate proficiency by completion of a proficiency exam should contact their faculty advisor in the Health, Human, and Public Services Division office for proficiency exam information.

Transition students must also meet health requirements, show proof of health insurance, have current healthcare provider cardiopulmonary resuscitation (CPR/BLS) certification, and meet criminal background check and drug screen requirements before starting the program. Students must update health requirements, criminal background checks, and drug screens in accordance with program and clinical agency policies. Additional information about these requirements is provided at the nursing program orientation sessions that are required for all students who have been accepted to start the program. Students must complete these requirements at their own expense. Students will be billed for liability insurance for each year of clinical courses as part of a course fee.

All students enrolled in NUR 2239 are required to enroll in the Virtual ATI review.

Progression Requirements

In order to progress to the next nursing course, students must have successfully completed all prerequisite courses with a grade of C or higher.

Graduation Requirements

To qualify for an associate degree, Transition students must have a cumulative grade point average (GPA) of 2.0 and have a grade of C or higher in all courses in the nursing curriculum.

*** Students will be awarded 6 semester hours of articulated credit for advanced placement after successful completion of NUR 1137, Medic to RN Transition, and NUR 1138, Adult Nursing for Paramedics.

^The 3 day NCLEX review only offered on Springfield campus during NUR 2239.

The program schedule is designed for full-time students who have completed all prerequisites and who have no college preparatory requirements. Individuals taking college preparatory education courses or attending school part-time will require additional semesters of study.

The non-nursing courses in the program are available in an online/hybrid as well as traditional format. The classroom components of the nursing courses are offered in online or hybrid formats. The on-site lectures and labs for the hybrid nursing courses are scheduled at Clark State's Greene Center campus. Students enrolled in online nursing courses are required to take some online exams in a proctored environment. Students are required to attend assigned lab and clinical learning experiences.

Respiratory Care (Consortium Program) (3420)

Clark State joined the Northwest Ohio Allied Health Education Consortium in order to expand its allied health offerings, including an associate degree in Respiratory Care to Clark State students. This consortium allows Clark State students to complete their general education and basic classes through Clark State at one of its campuses or online. Students are also enrolled at Rhodes State. Technical courses are taught by Rhodes State faculty through distance learning on the Clark State campus. Students will need to travel to the Rhodes State campus in Lima for skills lab instruction and hands-on practice approximately once a week. Clinical learning experiences will be scheduled in regional healthcare facilities. A very important aspect of the Respiratory Care consortium program is that these clinical seats are reserved for qualified Clark State students living in Clark State's service area.

Information about the consortium is available at the consortium web site. Specific information about the Respiratory Care program is also available Rhodes State's Respiratory Care program web page.

The technical courses in the Respiratory Care program start each year in summer semester (May). Seats for the program are filled with qualified applicants on a continuous basis. Interested candidates are encouraged to apply early and seek qualified status as soon as possible to secure a seat as seats are limited. Clark State candidates for this program must also apply to Rhodes State online. Students should indicate they are applying to the Northwest Ohio Allied Health Education Consortium and that they are from Clark State by checking the appropriate boxes at the top of the application.

Skillful providers of respiratory care are in increasing demand. Respiratory Care Practitioners are prepared to administer pulmonary care under the direction of licensed physicians. Respiratory Therapists assist physicians in the diagnosis and treatment of lung and breathing disorders. These tasks include administering medical gases, breathing tests, medications by inhalation and drawing of blood for analysis. Knowledge of special life-support equipment and methods of monitoring the critically-ill patients are required of respiratory care practitioners. Individuals educated as respiratory therapists must complete a minimum of two years of education. Upon completing the minimum education, graduates are eligible to sit for national board examinations to become a certified respiratory therapist (CRT) and then a registered respiratory therapist (advanced level).

Technical Standards

All applicants accepted into The Allied Health Consortium must be able to meet the technical standards of the program of study for which they enroll. Students are asked to review the standards and to sign a form certifying that they have read, understand, and are able to meet the standards. Students are to be provided the technical standards information upon

selection of their program of study. The Rhodes State Allied Health Department's technical standards are linked here and available on their web site.

Notice to Prospective or Current Respiratory Care Students

Students who have been convicted of certain felonies and/or misdemeanor offenses are not eligible to participate in clinical education experiences. A criminal conviction may also affect ability to obtain certifications. Students admitted to a program containing off campus clinical/practicum experiences will be required to submit to drug screening.

Graduation Requirements

Academic qualification for the Respiratory Care program are listed below as items 1-5. These requirements must be met prior to being placed on the qualification list. All courses must be completed with a grade of "C" or better.

1. Appropriate American College Test (ACT) or college placement test scores or completion of college preparatory coursework as listed below.
 - Test out of college preparatory writing coursework, OR completion CPE 0300 with a grade of B or higher, or CPE 0400 with a grade of C or higher, or ENG 0900 with a grade of C or higher.
 - Test out of college preparatory reading coursework, OR completion of CPE 0200 with a C or higher, or ENG 0800 with a grade of A, or ENG 0850 with a grade of C or higher.
 - Test out of college developmental/elementary algebra OR completion of CPE 0650 with a C or higher, or MTH 0650 with a grade of C or higher.
 - ACT score of 20 or higher in science OR completion of high school chemistry and high school biology OR BIO 1410 with a C or higher within past five years.
2. A minimum 2.5 grade point average (GPA) for any previous college course work at the time of selection and matriculation.
3. Complete TEAS V test.
4. Attend a mandatory Allied Health Orientation session at Rhodes State and sign informed consent forms.
5. Have Clark State and other college transcripts with transferable college credits for basic and general education courses sent to Rhodes State.

NOTE: Applicants who do not meet academic requirements may plan a program of study under the guidance of an academic advisor to prepare for possible admission to the program.

Students will have additional requirements that will have to be met before entrance into the Respiratory Care program. These requirements include but are not limited to documented observations of a respiratory care practitioner in a hospital, physical, immunizations, background check, drug screen, CPR certification, and interview with the Respiratory Care program director.

Health Certificates

Advanced Medical Coding Short-Term Technical Certificate (4756D)

This certificate is available for students who need a quicker entry into the job market than what an associate's degree requires. Upon completion of this certificate students will be able to take the Certified Coding Associate (CCA) exam through the American Health Information Management Association (AHIMA). This certificate is fully embedded in the Health Information Technology Departmental Certificate as well as the Medical Office Administration associate degree. Students should follow the recommended sequencing of courses, with consideration to the pre/co requisites, including college preparatory requirements. All coding resources available in print and online.

This certificate will also provide the student with experience using ICD-10-CM, CPT, ICD-10-PCS and HCPCS. All coding resources available in print and online.

Degree Availability

Courses are offered in an eight (8) week format to be completed in either summer, fall or spring semesters. Students should follow the recommended sequencing of courses, with consideration to the pre/co requisites, including college preparatory requirements.

Learning Outcomes

Upon successful completion of the Advanced Medical Coding Short-Term Technical Certificate, a graduate will be able to:

- Analyze information and demonstrate comprehension.
- Code medical documents and assists in the management of patient's health information.
- Demonstrate accurate coding of procedures and diagnoses utilizing resources, such as, CPT, ICD-10-CM, ICD-10-PCS, and HCPCS.
- Demonstrate coding skills by qualifying to take the Certified Coding Associate (CCA) exam through (AHIMA) the American Health Information Management Association.

Electrocardiography Short-Term Technical Certificate (6551D)

This certificate/area of specialization is focused on providing students with the basic knowledge and skills needed to perform an electrocardiogram (ECG) and recognize normal and common abnormal cardiac rhythms.

All courses can be applied to the Patient Care Technician departmental certificate, Multi-Skilled Healthcare one-year certificate, Associate of Technical Studies Multi-skilled Healthcare degree, and the Medical Assisting one-year certificate and associate degree programs. Courses can also enhance the skills of students in the associate degree nursing programs. Students who wish to obtain a credential as a certified electrocardiography (ECG) technician can do so through the following Ohio Department of Higher Education (ODHE) approved certification agency. To be eligible to test, the graduate must submit a copy of their Clark State certificate of completion of electrocardiography course work and documentation of successfully performing a specified number of 12-lead ECGs. An ODHE approved credentialing agency is: National Healthcareer Association. Additional information about obtaining these credentials will be provided in MST 1171 class.

Learning Outcomes

Upon completion of the Electrocardiography certificate, a graduate will be able to:

- Demonstrate understanding of basic cardiac anatomy and physiology.
- Correlate ECG wave forms with the chemical and mechanical activity of the heart.
- Identify common abnormal tracings.
- Describe emergency interventions associated with common abnormal heart rhythms.
- Demonstrate equipment operation, troubleshooting, and recording of rhythm strips and multi-lead ECGs.

Course #	Course Title	Credit Hours
MST 1105	Medical Terminology	2
BIO 1105	Fundamentals of Anatomy and Physiology	3
EMS 1171	Basic Life Support: CPR	0.5
MST 1171	Introduction to Electrocardiography	2
Total Credit Hours		7.5

Credit equivalencies may not exceed one half of the required technical course credits and MST 1171 must be completed at Clark State within the previous two years to receive this certificate. Credit equivalencies include articulated, experiential, transfer, and proficiency credit. In addition, all courses in the certificate must be completed with a grade of C or better.

Health Information Technology Departmental Certificate (4757D)

This certificate will provide the Health Information Technology student with experience using ICD-10-CM and ICD-10-PCS codes, preparing medical charts and records, scheduling appointments, handling correspondence, preparing bills, and processing insurance forms in a medical office or facility. The student will also gain knowledge of medical terminology as well as a familiarization with HIPPA regulations. This certificate is fully embedded in the Medical Office Administration associate degree. Students should follow the recommended sequencing of courses, with consideration to the pre/co requisites, including college preparatory) requirements. All coding resources available in print and online.

Learning Outcomes

Upon successful completion of the Health Information Technology Departmental Certificate, a graduate will be able to:

- Compose and produce quality business documents using technology
- Demonstrate an understanding of medical terms and human diseases
- Code medical documents and assist in the management of patient's health information
- Apply knowledge of anatomy and physiology to work place setting

Medical Assisting Certificate (6700)

Medical assistants perform clinical and administrative tasks in physicians and other health practitioners' offices and outpatient facilities. Specific duties vary from office to office depending on the location and size of the practice and the practitioner's specialty. Administrative duties include answering telephones, greeting patients, scheduling appointments and laboratory services, updating and filing patients' medical records, filling out insurance forms, and handling billing and bookkeeping. Clinical duties include taking medical histories and recording vital signs, explaining procedures to patients, preparing patients for and assisting the physician during examinations, collecting and preparing laboratory specimens, sterilizing medical instruments, instructing patients on medications and special diets, preparing and administering medications as directed by a physician, drawing blood, taking electrocardiograms, removing sutures, and changing dressings.

The primary goal of the Medical Assisting Certificate program is to prepare competent entry-level medical assistants in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains. Completion of this certificate will provide the student with the administrative and clinical skills needed for entry-level positions as a medical assistant. Students can fully apply this one-year certificate toward the completion of the Medical Assisting Associate Degree.

Embedded Certificates

This certificate program contains one or more embedded short-term certificates, which will automatically be awarded if the certificate requirements are met unless the student contacts Records and Registration and indicates he/she does not wish to have the certificate credential awarded. (Effective spring semester 2017)

Technical Standards

All students accepted into the Medical Assisting program must be able to perform the essential functions of the medical assistant with or without reasonable accommodations. These essential functions are linked to this program page on the College's web site and are also provided to students via the Medical Assisting Student Handbook. Students are required to sign a form indicating they have reviewed these requirements and submit it to the Medical Assisting Program Coordinator when they enter the program.

Liability Insurance

Students will be billed for liability insurance for the directed practice courses.

Certification

The Clark State Medical Assistant Certificate program is accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org) upon recommendation of the Medical Assisting Education Review Board (MAERB). Commission on Accreditation of Allied Health Education Programs/25400 US Highway 19 North, Suite 158/Clearwater, FL 33763/Telephone: 727-210-2350

Graduates of the certificate program successfully meet the eligibility criteria to apply for the national certification process through the American Association of Medical Assistants, or another nationally recognized certification credential.

Student/Graduate Outcomes

The Medical Assisting Certificate Program at Clark State has a job placement rate of 100% for the 2018 graduates, and an exam passage rate of 84.12% for the 2017 graduates. Clark State provides support services to facilitate the successful completion of the program. Graduates and the employers who hire these graduates of the Medical Assisting Certificate Program at Clark State, report a satisfaction rate of 100% for the past five years.

Learning Outcomes

Upon completion of the Medical Assisting Certificate, a graduate will be able to:

- Communicate effectively with patients, families, and members of the health care team.
- Perform clerical functions necessary to maintain medical office appointments, transcription, and medical records.
- Apply basic billing, collection, insurance, coding, and manage care guidelines needed to maintain office bookkeeping.
- Collect, transport, and process specimens.
- Obtain Vital Signs
- Perform, assist, and follow-up on diagnostic tests and procedures.
- Instruct patients regarding health maintenance and disease prevention.
- Apply legal and ethical concepts.

Graduation Requirements

Students must petition online (apply) for admission to the program. To be eligible to petition to the Medical Assisting program, students must meet the following academic requirements:

Reading: Appropriate score on reading placement test (ACCUPLACER, ACT, or SAT) or completion of college preparatory reading (CPE 0200 with a grade of C or higher, or ENG 0800 with a grade of A, or ENG 0850 with a C or higher). Students are excused from reading placement tests if they have obtained a C or higher in a college-level English composition course or an appropriate recent high school senior English grade in accordance with College policy.

Writing: Appropriate score on writing placement test (ACCUPLACER, ACT, or SAT) or completion of college preparatory writing, (CPE 0300 with a grade of B or higher, or CPE 0400 with a grade of C or higher, or ENG 0900 with a grade of C or higher). Students are excused from writing placement tests if they have obtained a C or higher in a college-level English composition course or an appropriate recent high school senior English grade in accordance with College policy.

Math: Appropriate scores on math/algebra placement tests (ACCUPLACER, ACT, or SAT) or completion of college preparatory math through CPE 0500 with a grade of C or higher, or MTH 0500 with a grade of C or higher within the past ten years. Students are excused from math/algebra placement tests if they have obtained a C or better in a college-level math course within the past ten years or an appropriate recent high school Algebra II grade in accordance with college policy

Grade point average (GPA): A minimum cumulative Clark State transcript GPA of 2.0 (college preparatory courses are not included in the transcript GPA) as well as a minimum GPA of 2.0 in the courses in the Medical Assisting curriculum.

Students who have met the petition requirements and submitted a petition are eligible to start the the Medical Assisting program's technical (MAS) course sequence. Students must contact the Medical Assisting Program Coordinator for academic advising and approval to enroll in the MAS courses. Students must maintain an overall C or 2.0 grade point average (GPA) for the courses in the Medical Assisting curriculum in order to be enrolled in MAS courses.

In order to progress through the program, students must maintain an overall GPA of 2.0 and a grade of C or better in BIO 1105 and all MAS and MST courses. Admitted students who drop out must complete and submit a request for reinstatement into the MAS courses. Students must have an overall GPA of 2.0 and may be required to retake technical courses that are more than one to two years old to be considered for reinstatement.

Health and Directed Practice Requirements

All Medical Assisting certificate students will complete 200 hours of directed practice at the end of the certificate program. The directed practice course hours are only available during the daytime hours.

All Medical Assisting students must meet health requirements, obtain a criminal background check, and have current Basic Life Support (BLS)/professional cardiopulmonary resuscitation (CPR) certification prior to entering the directed practice course. Other requirements may be necessary depending on clinical site placement. All students are strongly encouraged to complete Hepatitis B immunizations prior to their second semester in the Medical Assisting program.

Graduation Requirements

Student must pass all the required courses, have a Clark State cumulative transcript grade point average (GPA) of 2.0 (college preparatory courses are not included) and have a C as a minimum grade in BIO 1105 and all MAS and MST courses.

Course #	Course Title	Credit Hours

MAS 1118	Clinical Perspectives Seminar	1
MAS 2100	Medical Assisting Certification Review	2
Total Credit Hours		40

The program schedule is designed for full-time students who have completed all prerequisites and who have no college preparatory recommendations. Many individuals, especially part-time students and those taking college preparatory requirements, will require additional semesters of study. In addition to the day program, offered at both the Springfield (fall semester start) and Beaver Creek (spring semester start) campuses, the Medical Assisting program is offered as a part-time evening/weekend option on the Springfield campus with the MAS courses for this option starting in spring semester (January). Part-time evening/weekend students will still need to complete their unpaid, supervised Directed Practice clinical hours during the day. Students should consult their academic advisors for help in planning their schedules.

Medical Coding Short-Term Technical Certificate (4756D)

This certificate is available for students who need a quicker entry into the job market. Students receive instruction in CPT/ICD-10-PCS and ICD-10-CM coding, as well in medical terminology and A & P. This certificate is fully embedded in the Advanced Medical Coding Short-Term Technical Certificate, the Health Information Technology Departmental Certificate, as well as the Medical Office Administration associate degree.

Degree Availability

Courses are offered in an eight (8) week format to be completed in either Fall or Spring semesters. Students should follow the recommended sequencing of courses, with consideration to the pre/co requisites, including college preparatory requirements. All coding resources available in print and online.

Learning Outcomes

Upon successful completion of the Medical Coding Short-Term Technical Certificate, a graduate will be able to:

- Analyze information and demonstrate comprehension.
- Code medical documents and assists in the management of patient's health information.
- Demonstrate accurate coding of procedures and diagnoses utilizing resources, such as, CPT, ICD-10-CM, ICD-10-PCS, and HCPCS.

Multi-Skilled Healthcare Certificate (6550C)

The Multi-Skilled Healthcare certificate program is designed for individuals who are currently working in healthcare or who wish to enter the healthcare field. This program provides an introduction to the healthcare environment and provides training in more than one healthcare skill in order to meet the ever changing needs of the healthcare delivery system. Upon completion of this certificate students will have the skills needed to obtain employment in a variety of healthcare settings.

Students complete core courses and select courses from different specialty areas. The flexibility of the program allows students to choose specialty courses that meet their individual interests and needs. Many of these specialty areas have national certification or state licensure. Students who complete these specialty courses will be eligible to take appropriate certification or licensure examinations.

Courses within this program can also be taken by students in other degree or certificate programs and by healthcare professionals who wish to expand their knowledge and skills and/or increase marketability for employment.

Many of the courses within this program also meet course requirements for a variety of the College's associate degree programs. Students who wish to complete an associate degree may also choose the Associate of Technical Studies Multi-skilled Healthcare option and select courses which match their interests and/or career goals.

Embedded certificates

This degree program contains one or more embedded certificates which will automatically be awarded if the certificate requirements are met unless the student contacts Records and Registration and indicates he/she does not wish to have the certificate credential awarded.

Learning Outcomes

Upon completion of the Multi-Skilled Healthcare Certificate the graduate will be able to:

- Demonstrate knowledge of healthcare delivery systems and healthcare occupations.
- Communicate using correct medical terminology.
- Demonstrate computer skills essential for today's healthcare worker.
- Describe the structures and functions of the human body
- Identify common alterations in health and appropriate measures for prevention, detection, and management.
- Demonstrate proficiency in technical skills.
- Demonstrate knowledge of the interpersonal, ethical, and professional behaviors required in healthcare.

Graduation Requirements

Non-Academic Requirements

- Must meet specified health requirements prior to enrolling in clinical or directed practice courses.
- Will be billed for liability insurance when registering for specified clinical or directed practice courses.
- Will be required to obtain a criminal background check prior to enrolling in specified clinical or directed practice courses.

Students should also be aware that clinical/directed practice sites may also require:

- Random drug screening.
- HIV testing, if exposed to blood-borne pathogens.
- Submission to treatment/counseling, if exposed to infectious diseases.

Certificate Requirements

To qualify for a certificate in Multi-Skilled Healthcare students must pass all required courses, must obtain a grade of C or better in all technical courses and have a minimum cumulative GPA of 2.0.

- ACC 1000 Accounting Concepts (3 credits)
- ACC 1100 Introduction to Financial Accounting (4 credits)
- MGT 1060 Organizational Behavior (3 credits)
- MGT 1120 Principles of Management (3 credits)

Other Technical Elective

- EBE 1000 Employability Skills (1 credits)

Nurse Aide Short-Term Technical Certificate (6552D)

This 84 hour course will introduce students to the principles and procedures of basic patient care for a variety of individuals. The course is regulated by the Ohio Department of Health and 100% attendance is required. Students must complete specific health requirements and a criminal background check at their own expense prior to the clinical experience.

After completing the lecture, skills lab, and clinical components of the class, students will be prepared for entry level employment in long term care, home healthcare, hospice, hospital setting(s), and many free standing clinics. Students will also receive a certificate of completion which will allow them to take the Ohio Nurse Aide state test. After passing both the written and skills components of the exam, the student will be placed on the Ohio Nurse Aide Registry.

Successful completion of this course within two years of entry into the first clinical nursing course of the LPN and RN programs meets the prerequisite nurse aide requirement of these programs.

Learning Outcomes

Upon completion of the Nurse Aide Short-term Technical Certificate the graduate will be able to:

- Form relationships, communicate, and interact competently on a one-to-one basis and in a group setting with patients/residents in various healthcare settings.
- Demonstrate sensitivity to the patient's/resident's physical, emotional, social, and mental health needs.
- Assist patients/residents in attaining and maintaining functional independence.
- Exhibit behavior in support and promotion of patient's/residents's rights.
- Demonstrate observation and documentation skills needed to support the assessment and evaluation of the long-term care patient's/resident's health, physical condition, and well-being.

Course #	Course Title	Credit Hours
MST 1181	Nurse Aide Training Nurse Aide Training	4
	Total Credit Hours	4

Paramedic Certification for Registered Nurses (2704D)

This program is designed to provide education encompassing the entire Paramedic curriculum in an enhanced format. The registered nurse who has prior education and experience in emergency and/or critical care will have the opportunity to achieve advanced standing in the Paramedic Certification Program.

Learning Outcomes

Upon completion of the Paramedic Certificate, a graduate will be able to:

- Demonstrate technical proficiency in all skills necessary to fulfill the role of entry-level paramedic.
- Communicate (written, verbal) effectively with patients, families, healthcare providers, and other supportive agencies.
- Exhibit ethical behaviors consistent with professional standards and employer expectations
- Demonstrate ability to integrate patho-physiologic and psycho-social principles and assessment findings to formulate a field impression and implement a treatment plan for the out-of-hospital patient.

Graduation Requirements

An individual seeking a career in emergency medical services should realize that to be successful, he/she must be emotionally stable, flexible and physically fit enough to perform the minimum entry-level job requirements.

Prior to entering EMS 2288, the student must meet the following entrance requirements:

- Complete a Request to Enter form, available on-line or from the Public Safety Services office.
- Have Ohio EMT-Basic certification.
- Have current BLS/CPR provider, ACLS provider or instructor, and PALS provider or instructor certification. PHTLS or ITLS provider certifications are recommended.
- Complete physical exam and health requirements prior to attending clinical.
- Complete criminal background check and drug screen prior to attending clinical if required by clinical agency.
- Have active Ohio licensure/certification as RN, nurse practitioner, respiratory therapist or physician's assistant.

Course #	Course Title	Credit Hours
EMS 2288	Paramedic Theory/RNs	5
	Total Credit Hours	5

Patient Care Technician Short-Term Technical Certificate (6553D)

Patient care technicians are allied health professionals who provide direct patient care under the direction and supervision of a nurse. In addition to providing the direct patient care activities of the nurse aide/nursing assistant, patient care technicians are also educated to perform electrocardiogram (ECG) and phlebotomy tasks. All courses can be applied to the Multi-Skilled Healthcare one-year certificate and Associate of Technical Studies - Multi-skilled Healthcare degree programs

Embedded certificates

This certificate contains one or more embedded certificates which will automatically be awarded if the certificate requirements are met unless the student contacts Records and Registration and indicates he/she does not wish to have the certificate credential awarded.

Course #	Course Title	Credit Hours

	Total Credit Hours	17.5

* Students must complete specific health requirements and obtain a criminal background check at their own expense prior to participating in the clinical component of the course. Students will be billed for liability insurance when registering for the course.

Phlebotomy Short-Term Technical Certificate (6554D)

These courses provide students with the knowledge and skill to collect blood samples by venipuncture and skin puncture.

Students who wish to obtain a credential as a certified phlebotomy technician can do so through the following Ohio Department of Higher Education (ODHE) approved certification agency. The Clark State coursework does NOT include a directed practice or practicum course and therefore the required number of successful punctures required for industry certification cannot be completed while enrolled in Clark State's Phlebotomy course. When registering to test, the graduate must submit a copy of their Clark State certificate of completion of phlebotomy course work as well as employer documentation of a specified number of successful venipunctures and capillary punctures.

Additional information about obtaining this certification will be provided during MST 1161 lab.

Learning Outcomes

Upon completion of the Phlebotomy certificate, graduates will be able to:

- Define legal issues related to phlebotomy.
- Describe the venous anatomy and veins and skin surfaces on which phlebotomy can be performed.
- Describe standard precautions as outlined by Center for Disease Control.
- Identify factors to be considered in venipuncture or skin puncture site selection.
- List the equipment and supplies needed to collect blood by venipuncture and skin puncture.
- Describe patient factors which influence the ability to perform venipuncture successfully.
- Discuss complications associated with venipuncture.
- Describe the steps in accurate specimen collection, documentation, and transportation procedures.
- Demonstrate successful venipunctures and skin punctures.

Course #	Course Title	Credit Hours
MST 1105	Medical Terminology	2
MST 1160	Phlebotomy	2
MST 1161	Phlebotomy Lab	1
	Total Credit Hours	5

All courses can be applied to the Patient Care Technician Departmental certificate, Multi-Skilled Healthcare and Medical Assisting one-year certificate and associate degree programs. Courses can also enhance the skills of students enrolled in the associate degree nursing programs.

Credit equivalencies may not exceed one half of the required technical course credits and MST 1160 and MST 1161 must be completed at Clark State within the previous two years to receive this certificate. Credit equivalencies include articulated, experiential, transfer, and proficiency credit. In addition, all courses in the certificate must be completed with a grade of C or better.

Practical Nursing Certificate (6350C)

The program is also offered as a part-time evening-weekend option at the campus in Beaver Creek.

The 12-month Practical Nursing Certificate is approved by the Ohio Board of Nursing and the Ohio Department of Higher Education.

Technical Standards

Specific attributes, characteristics, and abilities are essential to practice nursing. Professional competency is the summation of many cognitive, affective, and psychomotor skills. Students who enter the nursing program must be able to perform (with or without reasonable accommodations) these Essential Functions, which are linked to this program page on the College's website.

Students who may require accommodations to perform the essential functions should contact the College's Office of Accessibility to request reasonable accommodations.

Students are asked to sign a form certifying that they have read, understand, and are able to perform the Essential Functions of the Student Nurse at the program orientation session. Attendance at this session is required for all students who have been accepted to start the nursing program's technical courses.

Licensure

Upon completion of the program, the graduate may apply to the Ohio Board of Nursing to take the NCLEX-PN Examination. Candidates for licensure in Ohio must disclose information related to any prior felony or misdemeanor, any crime involving gross immorality or moral turpitude, any violation of a drug law, and/or recent diagnosis or treatment of a psychotic disorder. The Ohio Board of Nursing will determine whether the candidate may take the licensing exam.

Student Achievement Data

Licensure examination pass rate- Performance on the licensure examination for first-time test-takers.

- 2018 first time-takers from all cohorts (PN Full-time Program and PN Part-time Evening Weekend Program) = 89.29%
- PN Full-time Day Program (Fall to Spring) = 84.38%
- PN Full-time (Spring to Fall) = 84.41%
- PN Part-time Evening Weekend Program (Fall to Fall) = 81.82%

Program Completion Rate - Percentage of students who graduate within a defined period of time.

- 2018 PN Full-time Day Program (Fall-Spring) = 88%
- 2018 PN Full-time Day (Spring to Fall) = 94.4%
- 2018 PN Part-time Evening Weekend Program (Fall to Fall) = 93.3%

Learning Outcomes

Upon completion of this program of practical nurse education, the graduate will be able to:

- Contribute to the data collection of the health care client from newborn through aged within prescribed settings.
- Within the legal scope of practice for the Practical Nurse, participate in the planning, implementation, and evaluation of nursing care using the nursing process.
- Provide safe nursing care in prescribed situations using nursing skills and principles from the biological and behavioral sciences.
- Clearly and accurately report and document significant findings of the client's condition to the appropriate individual in a timely manner.
- Identify health care learning needs of assigned clients and assist in teaching the health care client.
- Function as an active member of the nursing care team and assume responsibility for continuing growth in nursing knowledge and skills.
- Demonstrate a code of behavior based on ethical principles and an understanding of the legal scope of practice of the Practical Nurse.

Program Application (Petition) Requirements

The number of students that can be admitted to the program each year is restricted due to the limited availability of clinical sites. All applicants are considered for admission by the date in which they complete all petitioning prerequisites and file a petition online to be placed on the waiting list.

To be eligible to petition to the Practical Nursing program, the student must meet the following academic requirements:

Reading: Appropriate score on reading placement test (ACCUPLACER, ACT, or SAT) or completion of college preparatory reading (CPE 200 with a C or higher, or ENG 0800 with an A, or ENG 0850 with a C or higher). Students are excused from reading placement tests if they have obtained a C or higher in a college-level English composition course or have recently completed high school senior English with an appropriate grade in accordance with College policy.

Writing: Appropriate score on writing placement test (ACCUPLACER, ACT, or SAT) or completion of college preparatory writing (ENG 0900 with a grade of C or higher). Students are excused from writing placement tests if they have obtained a C or better in a college-level English composition course or have recently completed high school senior English with an appropriate grade in accordance with College policy.

Math: Appropriate scores on math/algebra placement tests (ACCUPLACER, ACT, or SAT) or completion of college preparatory math through MTH 0600 with a grade of C or higher, or MTH 0650 with a grade of C or higher within the past five years. Students are excused from math/algebra placement tests if they have obtained a C or higher in an Ohio Transfer Module (OTM) equivalent college-level math course within the past five years or have recently completed high school algebra II with an appropriate grade in accordance with College policy.

Grade point average (GPA): A minimum cumulative Clark State transcript GPA of 2.0 (preparatory courses are not included in the transcript GPA) as well as a minimum GPA of 2.0 in the courses in the practical nursing curriculum.

Clinical Requirements

Prior to entering the first clinical nursing course (LPN 1101), students must have current professional cardiopulmonary resuscitation (CPR) provider status and current state-tested nurse aide credentials and/or have satisfactorily completed MST 1181 or its equivalent within the past two years. Please contact your nursing advisor for further information about these requirements.

Practical Nursing students must also meet health and criminal background check requirements and have health insurance before they enter the first clinical nursing course. Drug screening will also be required prior to clinical placement. Specific information will be presented at orientation after acceptance into the Practical Nursing program. Students will be billed for liability insurance for the clinical courses.

Progression and Graduation Requirements

To progress in the program and qualify for a certificate in Practical Nursing, students must have a cumulative Clark State college GPA of 2.0 and must have a C as a minimum grade in all courses in the practical nursing program curriculum.

<i>Course #</i>	<i>Course Title</i>	<i>Credit Hours</i>

* BIO 1105 and MST 1105 must be successfully completed with a C or better within five years of entry into the first LPN course. If older than five years, the course must be repeated.

^ BIO 2121 AND BIO 2122, if completed within the past 5 years with a C or better, can be substituted for BIO 1105.

The program schedule is designed for full-time students who have completed all prerequisites and who have no college preparatory recommendations. Many individuals may require additional semesters of study. Students should consult their academic advisors for help in planning their schedules.

Practical Nursing Certificate - Evening Weekend (6350C)

The Practical Nursing program is also offered as a part-time evening-weekend option. Students will need to travel outside of Greene County, generally to Clark County, for some clinical experiences. The part-time evening-weekend option provides students who are unable to attend school full-time or during the day, another option for certificate completion. Students can enroll on a part-time basis, taking less than 12 credit hours during each semester. The program entrance requirements, learning outcomes, curriculum, clinical, graduation and licensure requirements are the same as listed for the full-time program. The full-time program option is offered at the Springfield and Bellefontaine campus locations.

Technical Standards

Specific attributes, characteristics, and abilities are essential to practice nursing. Professional competency is the summation of many cognitive, affective, and psychomotor skills. Students who enter the nursing programs must be able to perform (with or without reasonable accommodations) these Essential Functions, which are linked to this program page on the College's website.

Students who may require accommodations to perform the essential functions should contact the College's Office of Accessibility to request reasonable accommodations.

Students are asked to sign a form certifying that they have read, understand, and are able to perform the Essential Functions of the Student Nurse at the program orientation session. Attendance at this session is required for all students who have been accepted to start the nursing program's technical courses.

Licensure

Upon completion of the program, the graduate may apply to the Ohio Board of Nursing to take the NCLEX-PN Examination. Candidates for licensure in Ohio must obtain a criminal background check and disclose information related to any prior felony or misdemeanor, any crime involving gross immorality or moral turpitude, any violation of a drug law, and/or recent diagnosis or treatment of a psychotic disorder. The Ohio Board of Nursing will determine whether the candidate may take the licensing exam.

Student Achievement Data

Licensure examination pass rate- Performance on the licensure examination for first-time test-takers.

- 2018 first time-takers from all cohorts (PN Full-time Program and PN Part-time Evening Weekend Program) = 89.29%
- PN Full-time Day Program (Fall to Spring) = 84.38%
- PN Full-time (Spring to Fall) = 84.41%
- PN Part-time Evening Weekend Program (Fall to Fall)= 81.82%

Program Completion Rate - Percentage of students who graduate within a defined period of time.

- 2018 PN Full-time Day Program (Fall-Spring) = 88%
- 2018 PN Full-time Day (Spring to Fall) = 94.4%
- 2018 PN Part-time Evening Weekend Program (Fall to Fall) = 93.3%

Learning Outcomes

Upon completion of the evening weekend Practical Nursing Certificate, the graduate will be able to:

- Contribute to the data collection of the health care client from newborn through aged within prescribed settings.
- Within the legal scope of practice for the Practical Nurse, participate in the planning, implementation, and evaluation of nursing care using the nursing process.
- Provide safe nursing care in prescribed situations using nursing skills and principles from the biological and behavioral sciences.
- Clearly and accurately report and document significant findings of the client's condition to the appropriate individual in a timely manner.
- Identify health care learning needs of assigned clients and assist in teaching the health care client.
- Function as an active member of the nursing care team and assume responsibility for continuing growth in nursing knowledge and skills.
- Demonstrate a code of behavior based on ethical principles and an understanding of the legal scope of practice of the Practical Nurse.

Program Application (Petition) Requirements

The number of students that can be admitted to the program each year is restricted due to the limited availability of clinical sites. All applicants are considered for admission by the date in which they complete all petitioning prerequisites and file a petition online to be placed on the waiting list.

To be eligible to petition to the Practical Nursing program, the student must meet the following academic requirements:

Reading: Appropriate score on reading placement test (ACCUPLACER, ACT, or SAT) or completion of college preparatory reading (ENG 0800 with an A, or ENG 0850 with a grade of C or higher). Students are excused from reading placement tests if they have obtained a C or better in a college-level English composition course or have recently completed high school senior English with an appropriate grade in accordance with College policy.

Writing: Appropriate score on writing placement test (ACCUPLACER, ACT, or SAT) or completion of college preparatory writing (ENG 0900 with a grade of C or higher). Students are excused from writing placement tests if they have obtained a C or higher in a college-level English composition course or have recently completed high school senior English with an appropriate grade in accordance with College policy.

Math: Appropriate scores on math/algebra placement tests (ACCUPLACER, ACT, or SAT) or completion of college preparatory math through MTH 0600 with a grade of C or higher, or MTH 0650 with a grade of C or higher within the past five years. Students are excused from math/algebra placement tests if they have obtained a C or better in an Ohio Transfer Module (OTM) equivalent college-level math course within the past five years or have recently completed high school algebra II with an appropriate grade in accordance with College policy.

Grade point average (GPA): A minimum cumulative Clark State transcript GPA of 2.0 (college preparatory courses are not included in the transcript GPA) as well as a minimum GPA of 2.0 in the courses in the practical nursing curriculum.

Clinical Requirements

Prior to entering the first clinical nursing course (LPN 1101), students must have current professional cardiopulmonary resuscitation (CPR) provider status and current state-tested nurse aide credentials and/or have satisfactorily completed MST 1181 or its equivalent within the past two years. Please contact your nursing advisor for further information about these requirements.

Practical Nursing students must also meet health and criminal background check requirements and have health insurance before they enter the first clinical nursing course. Drug screening will also be required prior to clinical placement. Specific information will be presented at orientation after acceptance into the Practical Nursing program. Students will be billed for liability insurance for the clinical courses.

Progression and Graduation Requirements

To progress in the program and qualify for a certificate in Practical Nursing, students must have a cumulative Clark State college GPA of 2.0 and must have a C as a minimum grade in all courses in the practical nursing program curriculum.

LPN 1501	Nursing Care of Women, Infants & Children	5
Fall		
LPN 1401	Nursing Care of Adults	9
Total Credit Hours		45

*BIO 1105 and MST 1105 must be successfully completed with a grade of C or better within five years of entry into the first LPN course. If older than five years, the course must be repeated.

^ BIO 2121 AND BIO 2122, if completed within the past 5 years with a C or better, can be substituted for BIO 1105.

The curriculum plan is designed for students who have completed all prerequisites and have no college preparatory recommendations. All LPN prefix courses are at the Clark State Beavercreek location.

Math and Sciences

Associate of Science (3250)

Four-year colleges and universities generally require that students spend a significant portion of their first two years taking courses that build their knowledge and skills in general education. A student with an AS degree may transfer these courses to a four-year institution. Of the 60 semester credit hours necessary to earn an AS degree at Clark State, a minimum of 44 credit hours must come from areas 1-6 in the outline of degree requirements. The remaining credit hours are divided among courses in the student's area of concentration and elective courses. The AS degree focuses on courses in the liberal arts and sciences.

To explore different pathways and focus areas, go to <https://www.ohiohighered.org/OGTP>. This includes information regarding discipline specific Associate of Science degree options for transferrability to other state institutions.

Learning Outcomes

Upon completion of an Associate of Science degree, a graduate will be able to:

- Write clearly and accurately in a variety of contexts and formats.
- Speak clearly and accurately in a variety of contexts and formats.
- Use critical thinking and problem solving to draw logical conclusions.
- Use numerical data to solve problems, explain phenomena and make predictions.
- Successfully transfer to a baccalaureate degree program.

Transfer Options

Clark State has detailed transfer agreements with many local colleges and universities. The greatest number of these are with Wright State University and are in areas such as Business, English, Math, Pre-Teacher Education, Psychology, etc. Check the transfer guide section of the Clark State website for more information about these transfer agreements.

Transfer institutions make the determination in acceptance of credit. The student should consult his/her academic advisor and the intended transfer institution when planning a schedule of classes. With careful scheduling and advising, a student should be able to transfer with junior standing, especially within the state of Ohio.

Area 1 - English (6 credit hours)

Grades of C or better in ENG 1111 English I and ENG 1112 English II are required for graduation with the AS degree.

Area 2 - Communication (3 credit hours)

At least one class from COM 1110, 1120, 1130, 1170

Area 3 - Literature, the Arts, and Humanities (9 credit hours)

Three courses, one of which is chosen from ENG 1600, 2300, 2500, 2610, 2620; one course from HST 1110, 1120, 1210, 1220, PHL 2000, 2100, 2300, 2400; and one course at the 2000 level from ASL, ENG, FRN, HST, PHL, SPN or THE.

Area 4 - Social Sciences (9 credit hours)

Two courses from two different subject areas chosen from ECO 1100, 2210, 2220, GEO 1100, 2200, PLS 1100, 1300, 2300, 2400, PSY 1111, 2218, 2223, 2230, RST 2700, 2800, SOC 1110, 2220, 2230, 2240, 2250; and at least one additional course at the 2000 level from ECO, GEO, PLS, PSY, RST, or SOC.

Area 5 - Mathematics (5 credit hours)

At least one course from MTH 1070, 1280, 1340, 2100, 2200, 2220, 2242, 2330, 2530, STT 2640, STT 2650.

Area 6 - Natural & Physical Sciences (8 credit hours)

Many options are available; choose one most suited to your transfer institution. At least two classes from BIO, CHM, GLG, PHY; taken from those listed under Natural & Physical Sciences in the Transfer Module.

Area 7 - Advanced Elective (3 credit hours)

One course at the 2000 level; many options are available; choose one most suited to your transfer institution.

Foundations (1 credit hour)

All students pursuing an AS degree must take FYE 1100 College Success. FYE 1100 should be taken as early as possible in a student's academic career.

Concentration/Elective (16-30 credit hours)

These hours should be clearly transferable and count toward or be related to the major at the transfer institution. They may also be used to fulfill additional general education requirements at the four-year institution. These classes should be planned carefully with an advisor. The credits in this category must bring the total degree credits to at least 60 semester credit hours.

Global Awareness

In recognition of the growing importance of global awareness, the College also requires that students receiving the Associate of Science degree take at least four courses with significant international content. Courses meeting the requirement are identified in the College catalog. These classes will typically be in the Concentration/Elective area, but may also fulfill requirements in Areas 2 - 6 above.

Advanced Courses

Students pursuing the AS degree are required to complete at least 9 credit hours in courses numbered 2000 or higher. These classes will typically be in the Concentration/Elective area, but may also fulfill requirements in Areas 2 - 6.

Total Credit Hours 60

* The number of credit hours and courses may vary with specific curriculum guides. Check with your advisor first.

Social Sciences/Human Services and Public Safety

Criminal Justice Technology-Corrections Concentration (2500)

The Criminal Justice program is comprised of a curriculum that is current and relevant to the needs of criminal justice professionals. Society demands highly educated and well qualified candidates that meet and exceed the standards of local, state, and federal law enforcement agencies.

Criminal Justice is a multi-million dollar industry. Individuals violate laws and require legal interventions and sanctions regardless of the economic conditions. Courses are taught by individuals who have been or currently are practitioners, providing students with instruction from faculty that can combine classroom with real work experiences.

Corrections Concentration

The Corrections Concentration offers the student a broad overview of the correctional system. The program prepares students for immediate employment in federal, state and local correctional facilities. Graduates may expect to qualify for entry-level positions as corrections officers, parole officers, and probation officers, as well as investigators and youth counselors.

Learning Outcomes

Upon completion of an associate degree in criminal justice, a graduate will be able to:

- Apply critical thinking and problem-solving skills
- Employ professional behaviors reflective of the criminal justice professions
- Demonstrate techniques and technology specific to criminal justice
- Formulate effective communication techniques
- Display behaviors that reflect respect for and sensitivity to individual differences while working with citizens, families and coworkers
- Identify community support systems that can be utilized by the criminal justice community

Scholastic Preparation

Anyone considering a criminal justice career should recognize that employment involves meeting physical requirements, which vary greatly among different agencies.

A conviction of any of the crimes below is a disqualifier for this program:

- Any felony
- Domestic violence or reduced charge stemming from a domestic violence incident
- Any person currently registered as a sex offender, child-victim offender, or arson offender
- Misdemeanor convictions of violence, theft or fraud crimes

Other criminal or serious traffic convictions may prevent graduates from obtaining employment in some positions/facilities. Any questions should be directed to the Criminal Justice Program Coordinator.

Criminal Justice Technology - Law Enforcement Concentration (2200)

The Criminal Justice program is comprised of a curriculum that is current and relevant to the needs of criminal justice professionals. Society demands highly educated and well qualified candidates that meet and exceed the standards of local, state, and federal law enforcement agencies.

Criminal Justice is a multi-million dollar industry. Individuals violate laws and require legal interventions and sanctions regardless of the economic conditions. Courses are taught by individuals who have been or currently are practitioners, providing students with instruction from faculty that can combine classroom with real work experiences.

Law Enforcement Concentration

Job opportunities are plentiful in criminal justice. Advances in Technology and the emphasis on homeland security have fueled a demand for law enforcement professionals to be knowledgeable regarding not only law enforcement protocols but relating to the communities in which they serve. Individuals interested in pursuing law enforcement certification upon completion of the Clark State Police Academy may defer eight (8) courses in the criminal justice that are addressed through academy instruction. Once the academy coursework is completed successfully, full credit will then be applied to student's transcript which will allow the student to begin a law enforcement path sooner.

Learning Outcomes

Upon completion of an associate degree in criminal justice, a graduate will be able to:

- Apply critical thinking and problem-solving skills to Criminal Justice related decisions
- Employ professional behaviors reflective of the criminal justice professions
- Demonstrate techniques and technology specific to criminal justice
- Formulate effective communication techniques
- Display behaviors that reflect respect for and sensitivity to individual differences while working with citizens, families and coworkers
- Identify community support systems that can be utilized by the criminal justice community

Scholastic Preparation

Anyone considering a criminal justice career should recognize that employment involves meeting physical requirements, which vary greatly among different agencies.

A conviction of any of the crimes below disqualifies individuals from the program:

- Any felony
- Domestic violence or reduced charge stemming from a domestic violence incident
- Any person currently registered as a sex offender, child-victim offender or arson offender
- Misdemeanor convictions of violence, theft or fraud crimes

Other criminal or serious traffic convictions may prevent graduates from obtaining employment in some positions/facilities. Any questions should be directed to the Criminal Justice Program Coordinator.

Emergency Medical Services (2700)

Emergency medical services are expanding rapidly with more opportunities developing for emergency medical technicians (EMTs) and paramedics. Although working in EMS has traditionally meant working for a fire department, rescue squad or ambulance, there are also positions in education, management, research publishing, communications, support services and health agencies.

Our program introduces students to a variety of emergency care situations and experiences both in the hospital setting and on emergency vehicles. Both day and evening courses are available.

Embedded Certificates

Clark State offers an associate degree and several certification programs. The certification courses may be taken separately or in conjunction with the associate degree program. This degree program contains one or more embedded certificates, which will automatically be awarded if the certificate requirements are met unless the student contacts Records and Registration and indicates he/she does not wish to have the certificate credential awarded.

Articulated Credit

Students who have current Ohio EMT-Paramedic certification and wish to obtain an associate degree in Emergency Medical Services will be granted articulated credit towards the first level EMS courses in the curriculum. These will be granted after the student has completed 15 hours of semester coursework towards their EMS degree at Clark State. Students who wish to be granted articulated credit must submit an EMS Articulated Credit Application form and appropriate documentation to the EMS Program Coordinator.

Learning Outcomes

The College's Common Outcomes Required of Education (CORE) general education outcomes. Upon completion of an associate degree in Emergency Medical Services, a graduate will be able to:

- Demonstrate technical proficiency in skills necessary to fulfill the role of entry-level paramedic.
- Communicate (written, verbal) effectively with patients, families, healthcare providers, and other supportive agencies.
- Exhibit ethical behaviors consistent with professional standards and employer expectations.
- Demonstrate ability to integrate patho-physiologic and psycho-social principles and assessment findings to formulate a field impression and implement a treatment plan for the out-of-hospital patient.
- To prepare competent entry level Paramedics in the cognitive (knowledge), domains with or without exit points at the Advanced Emergency Medical Technician and/or Emergency Medical Technician, and/or Emergency Medical Responder levels.

Scholastic Preparation

An individual seeking a career in emergency medical services should realize that to be successful, he/she must be emotionally stable, flexible and physically fit enough to perform the minimum entry-level job requirements.

Prior to entering EMS 1131, the student must meet the following entrance requirements:

- Pass ACCUPLACER Reading and Writing placement tests with scores testing out of college preparatory reading and writing or pass with a C or better college preparatory courses (CPE 0200 for Reading, CPE 0300 with a B or CPE 0400 with a C for writing).
- Pass Quantitative Reasoning test with a score of 250 or better, or pass with a grade of C or better the CPE 0500.
- Complete MST 1105 and BIO 1105 with a C or better.
- Have Ohio EMT-Basic certification.
- Have Current CPR provider certification.

Prior to scheduling clinical rotations:

- Complete physical exam and health requirements.
- Complete criminal background check requirements.
- Complete drug screen requirement if required by assigned clinical agency.

Prior Learning Assessment

Students who have prior education or training equivalent to the paramedic course of study may demonstrate knowledge acquisition and practical skill competency in a series of steps that may absolve the student from attendance at the formalized paramedic sequence of classes. Contact the EMS Program Coordinator for more information on this Prior Learning Assessment policy.

Graduation Requirements

Students must have a high school diploma or its equivalent. In addition, each student must take reading, writing and math placement tests and may need to take college preparatory courses if indicated by placement testing scores.

Technical Standards

All students accepted into the Emergency Medical Services programs must be able to meet the General Knowledge and Skills Requirements of EMS Personnel with or without reasonable accommodations. These requirements are linked to this program page on the College's website and are also provided to students via the EMS Policy Manual. Students are required to sign a form indicating they have reviewed these requirements and submit that form to the EMS Program Coordinator when they enter the program.

Graduation Requirements

To qualify for an Associate Degree, Emergency Medical Services students must pass all the required courses, have a cumulative GPA of 2.0 and have a C as a minimum grade in all the technical EMS courses.

Course #	Course Title	Credit Hours

	Total Credit Hours	64.5

Students who have current Ohio EMT Advance Certification are given in-class credit for clinical skills previously obtained.

*A complete listing of humanities and social science electives can be found in the College Catalog.

**Math electives include courses that have course codes of MTH or STT.

***Technical electives include: FFC 1070 (1050,1060), FFC 2020 (2010), FFC 2070 (2060), FFC 2080 (2090), MGT 1060, SWK 1105.

Social Services Technology (7200)

Social work education is at the core of the Social Services program. Social work is devoted to helping people function as well as they can within their environments. Areas of employment include alcohol and drug treatment, children's services, juvenile services, mental health, mental retardation and developmental disabilities, and public assistance. The field placement portion of the curriculum provides 420 hours of supervised learning experiences in local social services agencies.

Practicum Coursework

Students will be billed for liability insurance for the year of practicum courses. The student may be requested by the practicum site to complete a criminal background check and a drug screen. Students should contact the practicum instructor with any questions regarding practicum.

Registration as a Social Work Assistant

Students of this program who have achieved a grade of C or better in all Social Services courses are eligible to be registered as Social Work Assistants by the Ohio Counselor and Social Worker Board. Graduates are required to complete a criminal background check when applying for the Social Work Assistant Certificate and when applying for positions in social work.

Learning Outcomes

- Develop skills in screening, assessing and developing treatment plans for client populations in the social services and/or addictions field.
- Demonstrate the ability to integrate social work and/or addictions theory with practical applications.
- Adhere to a professional code of ethics and policy/procedural standards in working with clients and coworkers.
- Complete professional documentation reports, including progress notes, psycho/social histories and mental status evaluations, as well as other professional documentation.

Graduation Requirements

Persons seeking a career in social services should recognize that to be successful, they must be emotionally stable, creative, and flexible. A social services professional must be able to work effectively with diverse groups of people and individuals with a wide variety of ages, racial and cultural backgrounds, and life situations. ENG 1111 and SWK 1100 must be completed with a grade of C or better before enrolling in additional courses. Students will be expected to meet minimum behavioral expectancies in order to continue in the Social Services program.

Math Requirements

Students should speak with an advisor regarding whether MTH 1105, Mathematics and Today's World, or STT 2264, Elementary Statistics I, should be taken in order to meet the program's math requirement when considering transferring to a university setting to complete their bachelor's degree.

Graduation Requirements

In order to graduate, students must obtain a C or better in all SWK courses and demonstrate professional ethical behavior, effective oral and written communication, professional documentation skills, basic listening skills, and an awareness of personal biases as they affect clients.

Transfer Options

Students enrolled in the Social Services Technology Associate of Applied Science degree are preparing for employment upon graduation from the program. However, many of these students are also interested in completing a bachelor's degree in Social Work. Some colleges and universities have designed bachelor's completion programs for students who have completed their associate degree in social work. Local programs include: Capital University and Wright State University. See the transfer section of the catalog and your academic advisor for more information.

* ENG 1111 and SWK 1100 MUST be completed with a C or better before enrolling in additional social service (SWK) courses.

** SWK 2271 Social Service Practicum I and SWK 2291 Social Service Seminar I must be taken together. SWK 2272 Social Service Practicum II and SWK 2292 Social Service Seminar II must be taken together. Students must attend Practicum orientation and have written approval from the field placement instructor in order to be admitted into a practicum course.

The program schedule is designed for full-time students who have completed all prerequisites and who have no college preparatory recommendations. Many individuals, especially part-time students and those taking college preparatory requirements, will require additional semesters of study. Students should consult their academic advisors for help in planning their schedules.

A complete listing of humanities and social science electives can be found in the Clark State catalog.

Social Work Transfer - Wright State University (3190W)

The Social Work Transfer program provides curricular options to prepare a student to transfer into the Bachelor of Arts degree in Social Work at Wright State University. It serves as a semester-by-semester guideline for transfer. It is not designed to prepare students with the skills needed to obtain employment in the field of social work upon completion of this associate degree. Students who wish to obtain employment in the social work field upon completion of an associate degree should follow the Social Services Technology Associate of Applied Science degree that is offered at Clark State.

Learning Outcomes

- Demonstrate familiarity with social welfare policies and processes.
- Demonstrate a basic understanding of social work profession and practice.
- Display an appreciation and respect of diversity.

Scholastic Preparation

Students entering this program should have taken the college preparatory courses offered by their high schools. Students who did not take this track may require college preparatory classes or additional coursework at Clark State.

Graduation Requirements

Foreign language courses are not required for a Clark State AA degree. Foreign language courses are required for BA in social work from WSU. Students may take SPN 1111, 1112, and 2111 at Clark State toward this requirement. SPN 1111 and SPN 1112 are included in the curriculum plan. Foreign language proficiency may replace the foreign language courses; the student who has taken foreign language courses in high school should consult with advisors at Wright State University regarding this requirement.

Transfer Options

Admission to Wright State's Social Work program is competitive. Admission requirements include a cumulative GPA of 2.25 or higher, a grade of C or higher in ENG 1111 and 1112, and completion of the official application to the Social Work program. Students should apply to WSU's Social Work program by 4 p.m. February 1, to be considered for admission. Meeting the minimum requirements does not guarantee admission. The Wright State University Social Work application is available on their Department of Social Work, Bachelor of Arts in Social Work web site.

* Any Ohio Transfer Module (OTM) approved laboratory science course may be substituted for BIO 1420.

** Any Ohio Transfer Module (OTM) approved mathematics course may be taken.

***SWK 2230 and SWK 2271 can be substituted for SWK 2231.

In recognition of the growing importance of global awareness, the College also requires that students receiving the Associate of Arts degree take at least four courses with significant international content. Courses in the curriculum plan that meet this requirement are identified with the "GA" designation behind the course name.

The program schedule is designed for full-time students who have completed all prerequisites and who have no college preparatory recommendations. Some individuals, especially part-time students and those taking college preparatory courses, will require additional semesters of study. Students should consult their academic advisors for help in planning their schedules.

Social Sciences/Human Services and Public Safety Certificates

Basic Peace Officer Academy (8020)

The Clark State Basic Peace Officer Training Academy is designed to meet the requirements of the Ohio Police Officer Training Council (OPOTC) and is offered in cooperation with local law enforcement agencies, the State of Ohio, and OPOTC. Successful graduates of this program will be recommended to take the state certification examination. Successful graduates will also earn college credit towards Clark State's Criminal Justice degree.

Basic Peace Officer Training topics include administration, legal, human relations, firearms, driving, traffic, investigation, patrol, traffic enforcement, civil disorders, defensive tactics, first aid, homeland security and physical conditioning. Additional certificates can be earned for pepper spray and taser.

Four academies are offered each year; two day and two night. Attendance at all classes is mandatory. Formal class meetings for these academies may be held on the Clark State Campus or at a satellite location. Firearms and driver trainings are conducted at off-campus locations. Day academies begin in March and August with classes from 8 a.m. - 5 p.m., Monday through Friday. Evening academies begin January and May with classes from 5:30 p.m. - 10:30 p.m., Monday through Friday. All academies include multiple weekends where some training events are held off-site.

Additional Information and Enrollment Forms are available by calling 937-328-7960, or visiting the Police Academy Office at 100 South Limestone Street, Springfield, Ohio, Room 201A or Room 201B. If you are interested in attending the Basic Peace Officer Training Academy, please complete the online Student Enrollment Interest Form. This provides the college with a record of your interest, and you will be contacted with more information. Applicants must appear in person to enroll in the academy.

Equipment

The academy provides much of the needed equipment. During firearms training, the police academy will provide a firearm, ammunition, holster, duty belt, belt stays, ammo pouches and gun belt for the student's use. A gun belt with training gear that includes, among other things, training Taser and pepper spray canister will be provided to wear during class.

Cost

The cost of the Basic Peace Officer Training Academy is approximately \$5,500 for tuition and fees. Fees will include the required Ohio Criminal Code Handbook, some uniform apparel, and many other items.

Financial Aid

If you need assistance paying for your education, complete a Free Application for Federal Student Aid (FAFSA) online. By filing the FAFSA, you will be considered for all aid for which you might be eligible. The Police Academy is a short-term program and has different annual limits for federal grant and student loans. If you have questions about financial aid contact the Financial Aid office at 937.328.6034 or email financialaid@clarkstate.edu. Clark State provides a Delayed Payment Plan through the Cashier's Office. Veterans approved. For more information about financial aid assistance for veterans, please call 937.328.6014.

Learning Outcomes

Upon completion of the Basic Peace Officer Academy, graduates will be able to:

- Demonstrate technical proficiency in law enforcement skills necessary to fulfill the role of a police officer or sheriff deputy.
- Exhibit required practical skills related to human behavior through training scenarios and practical applications.
- Communicate effectively with other academy members, police officers, and other departments.
- Demonstrate efficiency in various skills required by OPOTC, National Highway Traffic Safety Administration, and the U.S. Department of Homeland Security.

Scholastic Preparation

All basic Peace Officer Training Academy students must test and meet OPOTC physical fitness standards prior to the start of the academy, and in order to be eligible to take the state certification exam.

Graduation Requirements

Applicants should contact Clark State's Police Academy to obtain an application packet which will have detailed information about when and how to complete these requirements.

Admission Requirement

Academy applicants must meet stringent entrance requirements as directed by the Attorney General of the State of Ohio before admitted to the program. Requirements that must be met are:

- High school diploma or its equivalent.
- Must be 21 years of age by completion of the academy.
- If no previous college experience, must take College placement tests in reading and writing. Students must test out of college preparatory (CPE) reading and writing or complete the appropriate college preparatory (CPE) courses before enrolling in the academy.
- Valid driver's license.

- Submit Livescan fingerprints at the Clark County Sheriff's Office for the State of Ohio Bureau of Criminal Identification & Investigation (BCI&I) and the FBI to determine any criminal or traffic convictions that would disqualify a student from the academy.
- Complete and submit results of a drug screening
- Obtain a physical and return a signed medical release from a physician.
- Complete physical fitness test and meet OPOTA's physical fitness standards.

Uniform Requirements

Uniforms are required for all police academy students. The uniform shall consist of a police academy shirt (supplied by the academy), uniform pants, white t-shirt, black belt, black socks, and black shoes or boots. There are no exceptions to the uniform requirement.

Mandatory Attendance

All hours of instruction in the police academy are mandatory. Any missed hours must be made up within 14 days at the cost of \$30.00 an hour for instructional fees.

Graduation Requirements

Graduation is based on successful completion of OPOTA's requirements. Upon successful completion of the program students will be eligible to take the state certification exam. Successful completion of the exam allows students to obtain a position in law enforcement.

Career Coach

The law enforcement field is thriving. Advances in technology and an emphasis on homeland security have fueled a demand for a new breed of law enforcement professionals equipped to meet the changes in national security. Several rewarding law enforcement careers that are in demand in today's security-conscious society include FBI Agent, Homeland Security, Police Officer, Deputy Sheriff, Armed Security, Corrections Officers, Probation Officers, Court Officers, U.S. Marshal, Customs Agent, Secret Service Agent and Game Warden.

Course #	Course Title	Credit Hours
CRJ 1283	Basic Law Enforcement I	8
CRJ 1284	Basic Law Enforcement II	8
Total Credit Hours		16

Must complete CRJ 1283 (Basic Law Enforcement I) before taking CRJ 1284 (Basic Law Enforcement II). Each course is 8 credit hours.

Chemical Dependency Short-Term Technical Certificate (7201D)

This certificate is a recommended addition to the resume of anyone working in service fields including health care, criminal justice, correction, and social services. It recognizes that an individual's scope of knowledge and practice includes specific understanding of the pharmacology, physiology, and treatment processes for substance abuse and addictions concerns seen daily in these fields.

For those interested in working in the field of addictions treatment, this certificate is focused on providing clock hours in the global function domains of practice required by the Ohio Chemical Dependency Professionals Board under the Ohio Department of Alcohol and Drug Addiction Services (ODADAS) that meets the eligibility standards to apply for the Chemical Dependency Counselor Assistant (CDCA) Phase I and II state certifications.

The certificate will be issued for earning a minimum of 135 clock hours (9 credit hours). It will state the number of clock hours earned through taking the various courses listed below.

Course #	Course Title	Credit Hours
SWK 1105	Chemical Dependency I: Pharmacology and Physiology of Psychoactive Substances	3
SWK 2205	Chemical Dependency II: Assessment, Diagnosis, and Treatment Strategies	3
SWK 2215	Chemical Dependency III: Co-Occurring Disorders of Addiction and Mental Health	3
Total Credit Hours		9

EMT Short-term Technical Certification (2702D)

The EMT Course is a seven credit-hour very fast paced and labor intensive course that includes 150-180 hours of classroom, lab, and clinical/field education that can be completed in one semester. Upon successful completion of this course the student is eligible to take the National Registry and State Certification Examination at the basic level. Those who complete the course are prepared to work in an entry-level position in ambulance services and in fire divisions statewide. This course is the foundation course that serves as a stepping stone to full paramedic certification.

Learning Outcomes

Upon completion of the Emergency Medical Technician certificate the graduate will be able to:

- Recognize the nature and seriousness of the patient's condition or extent of injuries to assess requirements for emergency medical care.
- Administer appropriate emergency medical care based on assessment findings of the patient's condition.
- Lift, move, position and otherwise handle the patient to minimize discomfort and prevent further injury.
- Perform safely and effectively the expectations of the job description.

Graduation Requirements

Students entering EMS 1100 must:

- Pass ACCUPLACER Reading and Writing placement tests with scores testing out of college preparatory reading and writing or pass with a C or better college preparatory courses (CPE 0200 for Reading, CPE 0300 with a B or CPE 0400 with a C for writing) prior to enrolling.
- Pass Quantitative Reasoning with a score of 250 or better, or pass with a grade of C or better the CPE 0500 prior to enrolling
- Have Basic Life Support (BLS) certification for professional CPR or enroll in EMS 1171, Basic Life Support, concurrently.
- Complete health requirements prior to attending clinical.
- Complete criminal background check requirement prior to attending clinical.
- Complete drug screen requirement prior to attending clinical if required by assigned clinical agency.

Students must be 17 years of age to take the state examination.

An individual seeking a career in emergency medical services should realize that to be successful, he/she must be emotionally stable, flexible and physically fit enough to perform the minimum entry-level job requirements.

Course #	Course Title	Credit Hours
EMS 1100	EMT Theory & Practice *	7
	Total Credit Hours	7

*Offered fall, spring and summer terms

Firefighter / Transition Departmental Certificate (2801D)

This course is also offered as a direct delivery outreach offering as requested.

This 120 hour course builds on the awareness level 36 hour Volunteer Firefighter course. The course uses extensive hands-on labs to help the student move from an awareness level only Firefighter to a NFPA 1001 Standard Firefighter.

Objectives

- CEVO - Certified Emergency Vehicle Operator certification with documented 8 hours of hands-on driving skills
- Hazardous Materials Operations level certificate
- Interior live fire training
- Vehicle extrication training
- Advanced PPE/SCBA training
- Ventilation and tools
- Rope use and care
- Salvage and overhaul
- Ground ladders
- 16 Life Safety Initiatives

Learning Outcomes

This course transitions the basic 36 hour Volunteer Firefighter to a NFPA 1001 Level 1 Firefighter. The course prepares the firefighter to:

- Operate inside burning structures.
- Safely place and climb ground ladders
- Determine need and apply sound ventilation practices.
- Gain skills in incident command and basic first aid.

Prerequisites

Students must already have their 36 hour Volunteer Firefighter certification, NIMS 100 and 700 and have a valid driver's license.

Graduation Requirements

To successfully complete the Firefighter/Transition Departmental Certificate students must achieve 78% overall course average, successfully pass the Ohio Department of Public Safety exam with a minimum of 70% and pass all Pro Board Accredited skill stations.

Course #	Course Title	Credit Hours
FFC 1020	Firefighter I Transition	5
	Total Credit Hours	5

Firefighter / Volunteer Departmental Certificate (2804D)

This program is also offered as a direct delivery outreach offering as requested.

This 36 hour course, classified as (Awareness level) firefighting, covers the basics of entry level firefighting for volunteers. The course consists of classroom and hands on practical experiences.

Learning Objectives

- Fire department organization and safety
- Basic ground ladder use
- Basic hose evolutions
- Basic tools and equipment
- SCBA and personal protective equipment (PPE)
- Basic fire control and ventilation techniques
- Basic fire behavior
- Portable fire extinguishers

Firefighter course objectives are available on the Ohio Department of Public Safety website.

Learning Outcomes

The student will gain the basic foundational knowledge to:

- Assist fire departments with exterior operations.
- Acquire through department continuing education, the complex techniques required for interior operations and direct fire attack.

Prerequisites

Students must test out of preparatory reading via college placement exam or complete college preparatory reading course (CPE 0200 for Reading, CPE 03000 with a B or CPE 0400 with a C for writing), as well as complete NIMS 100 and 700.

Graduation Requirements

To successfully complete the Firefighter/Volunteer Department Certificate students must achieve 75% overall course average, successfully pass the Ohio Department of Public Safety exam with minimum 70% and pass all Pro Board Accredited skill stations.

Course #	Course Title	Credit Hours
FFC 1010	Volunteer Firefighter	1
	Total Credit Hours	1

Firefighter I Short-Term Technical Certification (2802D)

This course is also offered as a direct delivery outreach offering as requested.

This 156-hour program is designed to meet the NFPA 1001 Standard for Firefighter Professional Qualifications. The program provides the foundation for Firefighters to operate on the fire ground and initiate fire attack inside a structure. The Level I completes the basic training required to enter the Firefighter Level II program required to be a career Firefighter.

Learning Objectives

- Fire Department Organization and Safety
- Life Safety Initiatives
- Fire Behavior
- Building Construction
- Basic Rescue
- Ventilation and Tools
- Salvage and Overhaul
- Ground Ladders
- Certified Emergency Vehicle Operations
- Hazardous Materials Operations Level Certificate
- Incident Command System
- Basic First Aid and CPR Skills
- CEVO - Certified Emergency Vehicle Operator Certification with documented 8 hours of hands on driving skills

An in-depth list of the Firefighter I course objectives are available on the Ohio Department of Public Safety website.

Prerequisites

Students must test out of preparatory reading via the college placement exam or complete college preparatory reading course (CPE 0200 for Reading, CPE 0300 with a B or CPE 0400 with a C for writing), complete NIMS 100 and 700 and have a valid drivers license.

Graduation Requirements

To successfully complete the Firefighter I Short-Term Technical Certificate students must achieve 78% overall course average, pass the State of Ohio Public Safety Level I test with at least 70% and pass all Pro Board accredited skill stations.

Course #	Course Title	Credit Hours
FFC 1070	Firefighter I	7
	Total Credit Hours	7

Firefighter II Short-Term Technical Certification (2803D)

This course is also offered as a direct delivery outreach offering as requested.

This 104 hour Level II course transitions the Level I Firefighter to the minimum requirement under NFPA 1001 Standard for Fire Fighter Professional Qualifications to be a career Firefighter. The Level II course completes the advanced tactics of ventilation, fire control, an in-depth understanding of fire prevention, and public education as well as rope rescue and auto machinery extrication.

Learning Objectives

- Fire alarms and communications
- Firehose appliances and streams
- Foam fire systems
- Rescue
- Fire detection alarm and suppression systems
- Fire cause and education
- Extensive live fire operations

An in-depth list of the Firefighter II course objectives are available on the Ohio Department of Public Safety website.

Most achieve 78% overall course average pass the Ohio Department of Public Safety final exam with 70% and pass all Pro Board Accredited skill stations.

Prerequisites

State of Ohio Level I Firefighter certification, NIMS 100 and 700, Hazardous Materials Responder Operations Level certification and certified emergency vehicle operators (CEVO) certification.

Graduation Requirements

To successfully complete the Firefighter I Short-Term Technical Certificate students must achieve 78% overall course average, pass the State of Ohio Public Safety Level I test with at least 70% and pass all Pro Board accredited skill stations.

Course #	Course Title	Credit Hours
FFC 2020	Firefighter II	4
	Total Credit Hours	4

Paramedic Certification (2701D)

The Paramedic Certification Program provides quality education in the “art and science” of advanced out-of-hospital emergency care. This curriculum provides for integration of knowledge and skills including pre-hospital environment, preparatory skills, trauma and burns, medical emergencies, OB/GYN emergencies, behavioral emergencies and crisis intervention. The program strives to prepare competent entry-level Paramedics in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains.

An individual seeking a career in emergency medical services should realize that to be successful, he/she must be emotionally stable, flexible and physically fit enough to perform the minimum entry level job requirement. The student will find that at least a year’s experience as an EMT will be beneficial as they challenge this advanced course.

Program Outcomes

- 2016: Enrolled: 31: Attrition: 10%: 1st Pass Rate: 81%: Aggregate Pass Rate: 96%
- 2017: Enrolled: 38: Attrition: 3%: 1st Pass Rate: 78%: Aggregate Pass Rate: 98%
- 2018: Enrolled: 37 Attrition: 14% 1st Pass Rate: 78%: Aggregate Pass Rate: 88%

Learning Outcomes

- Demonstrate technical proficiency in skills necessary to fulfill the role of entry-level paramedic.
- Communicate (written, verbal) effectively with patients, families, healthcare providers, and other supportive agencies.
- Exhibit ethical behaviors consistent with professional standards and employer expectations.
- Demonstrate ability to integrate patho-physiologic and psycho-social principles and assessment findings to formulate a field impression and implement a treatment plan for the out-of-hospital patient.
- To prepare competent entry level Paramedics in the cognitive (knowledge), domains with or without exit points at the Advanced Emergency Medical Technician and/or Emergency Medical Technician, and/or Emergency Medical Responder levels.

Prior Learning Assessment

Students who have prior education or training equivalent to the paramedic course of study may demonstrate knowledge acquisition and practical skill competency in a series of steps that may absolve the student from attendance at the formalized paramedic sequence of classes. Contact the EMS Program Coordinator for more information on this Prior Learning Assessment policy.

Technical Standards

All students accepted into the Emergency Medical Services programs must be able to meet the General Knowledge and Skills Requirements of EMS Personnel with or without reasonable accommodations. These requirements are linked to this program page on the College’s web site and are also provided to students via the EMS Policy Manual. Students are required to sign a form indicating they have reviewed these requirements and submit that form to the EMS Program Coordinator when they enter the program.

Prerequisites

Prior to entering EMS 1131, the student must meet the following entrance requirements:

- Pass ACCUPLACER Reading and Writing placement tests with scores testing out of college preparatory reading and writing or pass with a C or better college preparatory courses (CPE 0200 for Reading, CPE 0300 with a B or CPE 0400 with a C for writing).
- Pass a Quantitative Reasoning test with a score of 250 or better, or pass with a grade of C or better the CPE 0500.
- Complete MST 1105 and BIO 1105 with a C or better.
- Have Ohio EMT certification.
- Have Current CPR provider card.
- Complete physical exam and health requirements prior to attending clinical.
- Complete criminal background check requirements prior to attending clinical.
- Complete drug screen prior to attending clinical if required by the clinical agency.

Peer Recovery Support Certificate

Managing recovery with a mental health or addiction issue is a powerful life skill. Certification as a Peer Recovery Supporter offers an opportunity for an individual to use lived experience of recovery in a way that allows them to help others and secure employment. Peer recovery support is designed to assist others recovering from mental illness and addiction in a variety of settings. Peer Recovery Supporters have become vital members in the workforce both in health care and recovery fields, as well as in for-profit corporations. The training needed to be certified as a Peer Recovery Supporter is offered in an 8-week, 4-credit hour course offered every semester. Successful completion of the course allows for certification to be obtained from the Ohio Department of Mental Health and Addictions Services Board as a Certified Peer Recovery Supporter. The additional 8-week and subsequent 16-week Co-Op courses enable placement in the field, usually paid, while maintaining the continued education and support provided by Clark State instructors.

Prerequisites

Persons seeking a career in social services should recognize that to be successful, they must be emotionally stable, creative, and flexible. A social services professional must be able to work effectively with diverse groups of people and individuals with a wide variety of ages, racial and cultural backgrounds, and life situations.

There are no academic prerequisites, other than a high school diploma or GED. Students must fill out an application for the program that they can receive via email by request, then complete an interview with faculty to assess readiness.

Co-Op Requirements

The student may be requested by the co-op site to complete a criminal background check and a drug screen. Students will meet one hour, once a week in a seminar course to continue to provide education and support from the co-op experience. Students should contact the course instructor with any questions regarding co-op.

Course Descriptions

(ACC) Accounting

ACC 1000 Accounting Concepts (3)

Contact hours (3 total): 3 lecture
Survey of financial accounting for nonaccounting majors. Accounting concepts, financial statements, internal control, cash, receivables, inventories, plant and equipment, liabilities, and payroll. Course does not substitute for ACC 1100.
Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher, and NextGen Accuplacer math score of 220 or greater
Terms Offered: Fall, Spring

ACC 1100 Introduction to Financial Accounting (4)

Contact hours (5 total): 3 lecture, 2 lab
Fundamental accounting concepts, terms, and procedures. Emphasis on analyzing, classifying, and recording accounting data.
Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher, and NextGen Accuplacer math score of 220 or greater
Terms Offered: Fall, Spring, Summer

ACC 1200 Managerial Accounting (4)

Contact hours (5 total): 3 lecture, 2 lab
Theories, standards, and practices related to the analysis of accounting data as part of the managerial process of planning, decision making, and control.
Prerequisite(s): ACC 1100
Terms Offered: Fall, Spring

ACC 1300 Payroll Accounting (2)

Contact hours (2 total): 2 lecture
Practical application of payroll tax laws and requirements. Use of manual and computerized systems; payroll registers, tax returns, and deposit coupons.
Prerequisite(s): ACC 1000 or ACC 1100
Terms Offered: Fall, Spring

ACC 1400 Computerized Accounting (3)

Contact hours (3 total): 3 lecture
Integrated accounting systems applications. Maintaining accounting records, financial statement generation using accounting software. Study of both service and merchandising businesses. Microsoft Excel is required software for the course. Students must use a PC. Software is not compatible with MAC computers.
Prerequisite(s): ACC 1100
Terms Offered: Fall, Spring

ACC 2000 Spreadsheet Accounting (3)

Contact hours (3 total): 3 lecture
Accounting applications applied using Microsoft Excel. Financial statement preparation, aging of accounts receivable, loan amortization, ratio analysis, payroll, depreciation, fixed assets covered. Emphasis on sorting, filtering, and formatting.
Prerequisite(s): ACC 1100 and ITS 1235
Terms Offered: Fall, Spring

ACC 2100 Intermediate Accounting I (4)

Contact hours (4 total): 4 lecture
Conceptual framework, standard-setting concepts and principles of both US Generally Accepted Accounting Principles (GAAP) and International Financial Reporting Standards (IFRS), balance sheet, income statement, statement of shareholders equity, statement of cash flows, and disclosures.

Prerequisite(s): ACC 1100
Terms Offered: Fall

ACC 2200 Intermediate Accounting II (4)

Contact hours (4 total): 4 lecture
US Generally Accepted Accounting Principles (GAAP) and International Financial Reporting Standards (IFRS) applied to fixed assets, intangibles, investments, liabilities, income taxes, stockholders' equity, and statement of cash flows.
Prerequisite(s): ACC 2100
Terms Offered: Spring

ACC 2300 Cost Accounting (3)

Contact hours (3 total): 3 lecture
Cost accounting principles including job order cost, process cost, and standard cost accounting. Variance analysis and budgeting also covered.
Prerequisite(s): ACC 1200 and ITS 1235
Terms Offered: Spring

ACC 2400 Tax Accounting (4)

Contact hours (4 total): 4 lecture
Theory of individual taxes and their application under the Internal Revenue Code. Preparation of individual tax returns. Introduction to federal business tax law.
Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher
Terms Offered: Fall

(AGR) Agriculture

AGR 1100 Ag Survey and Professional Development (4)

Contact hours (4.5 total): 3.5 lecture, 1 lab
Exploration of agriculture and horticulture career opportunities. Assessment and development of professional skills, including goals, employability skills, student responsibilities, and industry expectations. Using electronic media for information gathering, presentations, communication, and data management.
Prerequisite(s): ENG 0800 with a grade of C or higher, and ENG 0900 with a grade of C or higher
Lab Fee: \$10.00
Terms Offered: Fall, Spring

AGR 1250 Animal Agriculture (3)

Contact hours (3 total): 3 lecture
Animal science focusing on the economic importance of the animal production industry. Identification of species, breeds, and general production techniques. Feeds, nutrition, animal health, environmental concerns, and facility requirements.
Prerequisite(s): ENG 0800 with a grade of C or higher, and ENG 0900 with a grade of C or higher
Lab Fee: \$10.00
Terms Offered: Fall

AGR 1300 Soil Science (4)

Contact hours (5 total): 3 lecture, 2 lab
A basic understanding of soils; the study of soil formation, physical properties, water movement, organic matter, and soil organisms.
Prerequisite(s): ENG 0800 with a grade of C or higher, and ENG 0900 with a grade of C or higher
Lab Fee: \$30.00
Terms Offered: Fall

AGR 1350 Soil Fertility (4)

Contact hours (5 total): 3 lecture, 2 lab
Principles of soil fertility, plant nutrient requirements, nutrient sources, application methods, and environmental concerns.
Prerequisite(s): AGR 1300
Lab Fee: \$30.00
Terms Offered: Spring

AGR 1400 Turfgrass Science (3)

Contact hours (4 total): 2 lecture, 2 lab
Role of turfgrass in the green industry. Classification and structure of grasses. Development of best cultural practices for landscapes, public areas, sports fields, and golf courses, including establishment, mowing, fertilization, aeration, and irrigation.
Prerequisite(s): ENG 0800 with a grade of C or higher, and ENG 0900 with a grade of C or higher
Lab Fee: \$20.00
Terms Offered: Fall

AGR 1500 Landscape Design (4)

Contact hours (6 total): 2 lecture, 4 lab
A study of landscape design concepts and principles. Emphasis on site survey; site planning; landscape plant utilization; and development of basic sketching, drawing, lettering, and labeling skills.
Prerequisite(s): ENG 0800 with a grade of C or higher, and ENG 0900 with a grade of C or higher
Lab Fee: \$30.00
Terms Offered: Spring

AGR 1600 Landscape Maintenance (4)

Contact hours (5 total): 3 lecture, 2 lab
Approved practices in the care and maintenance of landscape sites. Emphasis on planning, site survey, pruning, mulching, transplanting, plant utilization, and plant care.
Prerequisite(s): ENG 0800 with a grade of C or higher, and ENG 0900 with a grade of C or higher
Lab Fee: \$30.00
Terms Offered: Fall

AGR 1700 Landscape Construction (4)

Contact hours (5 total): 3 lecture, 2 lab
Fundamental principles and practices of landscape construction. Site survey, planning, preparation, materials, techniques, safety principles, and tool and equipment operation. Development of job specification, bids, and workforce and project management.
Prerequisite(s): ENG 0800 with a grade of C or higher, and ENG 0900 with a grade of C or higher
Lab Fee: \$30.00
Terms Offered: Fall

AGR 1750 Precision Agriculture (3)

Contact hours (3 total): 3 lecture
Introduction to precision agriculture, including history, applications, terminology, platforms, data, software, and associated components. Exploration of precision agriculture career opportunities.
Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher, and MTH 0500 with a grade of C or higher
Lab Fee: \$50.00
Terms Offered: Fall

AGR 1800 Welding (4)

Contact hours (5 total): 3 lecture, 2 lab
Introduction to welding techniques such as Stick, MIG, TIG, and oxyacetylene welding. Additional skill development in oxyacetylene brazing, cutting, and plasma cutting.
Prerequisite(s): ENG 0800 with a grade of C or higher
Lab Fee: \$80.00
Terms Offered: Spring

AGR 200B Co-op Experience in Ag Business (2)

Co-op work experience in the student program area. Minimum of 300 hours at an agribusiness selected by the student. Work plan and goals development. Oral and written reports.
Prerequisite(s): AGR 1100 with a grade of C or higher and a minimum of 10 technical hours.
Instructor Permission Required.
Terms Offered: Summer

AGR 200C Co-Op Experience in Precision Ag Tech (2)

Co-op work experience in Precision Ag Tech. Minimum of 300 hours at an agribusiness selected by the student. Work plan and goals development. Oral and written reports.
Prerequisite(s): AGR 1100 and a minimum of 10 technical hours. Must have a C or better in AGR 1100
Terms Offered: Summer

AGR 200E Co-op Experience in Ag Engineering (2)

Co-op work experience in the student program area. Minimum of 300 hours at an agribusiness selected by the student. Work plan and goals development. Oral and written reports.
Prerequisite(s): AGR 1100 with a grade of C or better and a minimum of 10 technical hours.
Instructor Permission Required.
Terms Offered: Summer

AGR 200G Co-op Experience in Golf Course Ops (2)

Co-op work experience in the student program area. Minimum of 300 hours at an agribusiness selected by the student. Work plan and goals development. Oral and written reports.
Prerequisite(s): AGR 1100 with a grade of C or higher
Instructor Permission Required.
Terms Offered: Summer

AGR 200L Co-op Experience in Landscape Design (2)

Co-op work experience in the student program area. Minimum of 300 hours at an agribusiness selected by the student. Work plan and goals development. Oral and written reports.
Prerequisite(s): AGR 1100 with a grade of C or better and a minimum of 10 technical hours
Instructor Permission Required.
Terms Offered: Summer

AGR 200N Co-op Experience in Nursery Ops (2)

Co-op work experience in the student program area. Minimum of 300 hours at an agribusiness selected by the student. Work plan and goals development. Oral and written reports.
Prerequisite(s): AGR 1100 with a grade of C or better and a minimum of 10 technical hours
Instructor Permission Required.
Terms Offered: Summer

AGR 200P Co-op Experience in Natural Resources (2)

Co-op work experience in the student program area. Minimum of 300 hours at an agribusiness selected by the student. Work plan and goals development. Oral and written reports.

Prerequisite(s): AGR 1100 with a grade of C or better and a minimum of 10 technical hours

Instructor Permission Required.

Terms Offered: Summer

AGR 200R Co-op Experience in Precision Agriculture (2)

Co-op work experience in Precision Agriculture.

Minimum of 300 hours at an agribusiness selected by the student. Work plan and goals development. Oral and written reports.

Prerequisite(s): AGR 1100 with grade of C or higher and a minimum of 10 technical hours.

Instructor Permission Required.

Terms Offered: Summer

AGR 200T Co-op Experience in Turf & Landscape (2)

Co-op work experience in the student program area.

Minimum of 300 hours at an agribusiness selected by the student. Work plan and goals development. Oral and written reports.

Prerequisite(s): AGR 1100 with a grade of C or better and a minimum of 10 technical hours

Instructor Permission Required.

Terms Offered: Summer

AGR 2100 Woody Plant Materials (4)

Contact hours (5 total): 3 lecture, 2 lab

Identification of trees, shrubs, ground covers, and related woody plant materials commonly used in the green industry.

Prerequisite(s): ENG 0800 with a grade of C or higher, and ENG 0900 with a grade of C or higher

Lab Fee: \$20.00

Terms Offered: Fall

AGR 2150 Herbaceous Plant Materials (3)

Contact hours (4 total): 2 lecture, 2 lab

Identification of annuals, biennials, perennials, bulbs, and monocots used in the green industry.

Prerequisite(s): ENG 0800 with a grade of C or higher, and ENG 0900 with a grade of C or higher

Lab Fee: \$20.00

Terms Offered: Spring

AGR 2200 Crop Production (3)

Contact hours (3 total): 3 lecture

Adoption, utilization, cultural, and management practices of major agricultural field and forage crops.

Product quality and commercial standards associated with crops and use of electronic equipment and software in approved management techniques.

Prerequisite(s): ENG 1111

Lab Fee: \$10.00

Terms Offered: Fall

AGR 2300 Plant Propagation (4)

Contact hours (5 total): 3 lecture, 2 lab

Principles and techniques used to propagate floral, greenhouse, and landscape plants. Explore materials, facilities, and structures used by commercial growers.

Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher, and ENG 0900 with a grade of C or higher

Lab Fee: \$35.00

Terms Offered: Spring

AGR 2450 Irrigation Systems (3)

Contact hours (4 total): 2 lecture, 2 lab

Irrigation system operation and design. Primary emphasis is on turfgrass, golf course, and commercial operations.

Prerequisite(s): ENG 1111 and MTH 1200

Lab Fee: \$20.00

Terms Offered: Spring

AGR 2500 Advanced Landscape Design (4)

Contact hours (6 total): 2 lecture, 4 lab

Advanced study and application of landscape design principles and techniques with the emphasis on planning, designing, pricing, and selling diversified landscapes.

Prerequisite(s): AGR 1500

Lab Fee: \$30.00

Terms Offered: Spring

AGR 2600 Plant Pests (4)

Contact hours (5 total): 3 lecture, 2 lab

Identification of insects, diseases, and weeds important to the green industry. Pest life cycles, types of damage, and natural controls.

Prerequisite(s): ENG 0800 with a grade of C or higher, and ENG 0900 with a grade of C or higher

Lab Fee: \$30.00

Terms Offered: Fall

AGR 2650 Integrated Pest Management (4)

Contact hours (5 total): 3 lecture, 2 lab

Management of pest problems utilizing approved control methods. Use of cultural, biological, and chemical methods including the safe use, handling, and application of pesticides. Individualized study in the student's area of interest.

Prerequisite(s): AGR 2600

Lab Fee: \$20.00

Terms Offered: Spring

AGR 2700 Ag Business Management (4)

Contact hours (4 total): 4 lecture

An in-depth study of planning, creating, organizing, operating, and managing an agribusiness. Development of a detailed business plan in the student's area of interest.

Pre/Corequisite(s): ENG 1111

Lab Fee: \$10.00

Terms Offered: Fall

AGR 2725 Applied Precision Ag Technology (4)

Contact hours (5 total): 3 lecture, 2 lab

Analyze and troubleshoot various hardware precision agriculture components. Communicate effectively with customers and suppliers. Download apps, update software, and train others to operate precision equipment. Install replacement sensors, components, or new precision equipment.

Prerequisite(s): AGR 1750

Lab Fee: \$100.00

Terms Offered: Fall

AGR 2750 Applied GIS for Agriculture (4)

Contact hours (5 total): 3 lecture, 2 lab
 Collect and analyze agricultural data with geospatial technologies. Utilize precision agriculture software. Create reports and develop prescription/application maps. Apply results to agricultural systems.
 Prerequisite(s): AGR 1750 and GST 1500
 Lab Fee: \$50.00
 Terms Offered: Fall

AGR 2775 Ag Marketing and Trade (3)

Contact hours (3 total): 3 lecture
 Fundamental principles, policies, problems, structure, and strategy of agricultural marketing and international trade. Development of a marketing plan. Implications of world trade and political aspects of world food production.
 Prerequisite(s): AGR 2700
 Pre/Corequisite(s): ENG 1111
 Terms Offered: Spring

AGR 2800 Equipment Management, Maintenance & Repair (4)

Contact hours (5 total): 3 lecture, 2 lab
 Development of best practices for selection, operation, and management of green industry equipment. Small engine operation, troubleshooting, and overhaul. Rent, lease, buy decisions; depreciation schedules, maintenance schedules, and other fleet resources.
 Pre/Corequisite(s): ENG 1111 and MTH 1200
 Lab Fee: \$50.00
 Terms Offered: Spring

AGR 2850 Agricultural Capstone Seminar (3)

Contact hours (3 total): 3 lecture
 Application of knowledge and skills. Use of problem-solving and teaming skills to respond to a series of real-world industry scenarios. Off-site casework may be required.
 Prerequisite(s): AGR co-op, AGR 1350, AGR 2700
 Lab Fee: \$10.00
 Terms Offered: Spring

AGR 2901 Special Topics in Co-op Experience in Ag Business Part I (1)

Co-op work experience in the student program area. Minimum of 150 hours at an agribusiness selected by the student. Work plan and goals development. Oral and written reports.
 Prerequisite(s): AGR 1100 with a grade of C or higher and a minimum of 10 technical hours.
 Terms Offered: Spring

AGR 2902 Special Topics in Co-op Experience in Ag Business Part II (1)

Co-op work experience in the student program area. Minimum of 150 hours at an agribusiness selected by the student. Work plan and goals development. Oral and written reports.
 Instructor Permission Required.
 Terms Offered: Summer

AGR 2903 Special Topics in Co-op Experience in Ag Engineering Part I (1)

Co-op work experience in the student program area. Minimum of 150 hours at an agribusiness selected by the student. Work plan and goals development. Oral and written reports.
 Prerequisite(s): AGR 1100 with a grade of C or better and a minimum of 10 technical hours.
 Instructor Permission Required.
 Terms Offered: Spring

AGR 2904 Special Topics in Co-op Experience in Ag Engineering Part II (1)

Co-op work experience in the student program area. Minimum of 150 hours at an agribusiness selected by the student. Work plan and goals development. Oral and written reports.
 Prerequisite(s): AGR 1100 with a grade of C or better and a minimum of 10 technical hours.
 Instructor Permission Required.
 Terms Offered: Summer

AGR 2905 Special Topics in Co-op Experience in Nursery Ops Part I (1)

Co-op work experience in the student program area. Minimum of 150 hours at an agribusiness selected by the student. Work plan and goals development. Oral and written reports.
 Prerequisite(s): AGR 1100 with a grade of C or better and a minimum of 10 technical hours
 Instructor Permission Required.
 Terms Offered: Spring

AGR 2906 Special Topics in Co-op Experience in Nursery Ops Part II (1)

Co-op work experience in the student program area. Minimum of 150 hours at an agribusiness selected by the student. Work plan and goals development. Oral and written reports.
 Prerequisite(s): AGR 1100 with a grade of C or better and a minimum of 10 technical hours
 Instructor Permission Required.
 Terms Offered: Summer

AGR 2907 Special Topics in Co-op Experience in Natural Resources Part I (1)

Co-op work experience in the student program area. Minimum of 150 hours at an agribusiness selected by the student. Work plan and goals development. Oral and written reports.
 Prerequisite(s): AGR 1100 with a grade of C or better and a minimum of 10 technical hours
 Instructor Permission Required.
 Terms Offered: Spring

AGR 2908 Special Topics in Co-op Experience in Natural Resources Part II (1)

Co-op work experience in the student program area. Minimum of 150 hours at an agribusiness selected by the student. Work plan and goals development. Oral and written reports.
 Instructor Permission Required.
 Terms Offered: Summer

AGR 2909 Special Topics in Co-op Experience in Precision Agriculture Part I (1)

Co-op work experience in Precision Agriculture. Minimum of 150 hours at an agribusiness selected by the student. Work plan and goals development. Oral and written reports.

Prerequisite(s): AGR 1100 with grade of C or higher and a minimum of 10 technical hours.
Instructor Permission Required.

AGR 2910 Special Topics in Co-op Experience in Precision Agriculture Part II (1)

Co-op work experience in Precision Agriculture. Minimum of 150 hours at an agribusiness selected by the student. Work plan and goals development. Oral and written reports.

Instructor Permission Required.
Terms Offered: Summer

AGR 2911 Special Topics in Co-op Experience in Turf & Landscape Part I (1)

Co-op work experience in the student program area. Minimum of 150 hours at an agribusiness selected by the student. Work plan and goals development. Oral and written reports.

Prerequisite(s): AGR 1100 with a grade of C or better and a minimum of 10 technical hours
Instructor Permission Required.
Terms Offered: Spring

AGR 2912 Special Topics in Co-op Experience in Turf & Landscape Part II (1)

Co-op work experience in the student program area. Minimum of 150 hours at an agribusiness selected by the student. Work plan and goals development. Oral and written reports.

Prerequisite(s): AGR 1100 with a grade of C or better and a minimum of 10 technical hours
Instructor Permission Required.
Terms Offered: Summer

AGR 2913 Special Topics in Co-op Experience in Golf Course Ops Part I (1)

Co-op work experience in the student program area. Minimum of 150 hours at an agribusiness selected by the student. Work plan and goals development. Oral and written reports.

Prerequisite(s): AGR 1100 with a grade of C or higher
Instructor Permission Required.
Terms Offered: Spring

AGR 2914 Special Topics in Co-op Experience in Golf Course Ops Part II (1)

Co-op work experience in the student program area. Minimum of 150 hours at an agribusiness selected by the student. Work plan and goals development. Oral and written reports.

Instructor Permission Required.
Terms Offered: Summer

AGR 2915 Special Topics in Co-op Experience in Landscape Design Part I (1)

Co-op work experience in the student program area. Minimum of 150 hours at an agribusiness selected by the student. Work plan and goals development. Oral and written reports.

Prerequisite(s): AGR 1100 with a grade of C or higher
Instructor Permission Required.

Terms Offered: Spring

AGR 2916 Special Topics in Co-op Experience in Landscape Design Part II (1)

Co-op work experience in the student program area. Minimum of 150 hours at an agribusiness selected by the student. Work plan and goals development. Oral and written reports.

Instructor Permission Required.
Terms Offered: Summer

(ART) Art

ART 1001 Art History I (3)

Contact hours (3 total): 3 lecture

Survey of visual art from prehistoric times through the early Renaissance era.

Pre/Corequisite(s): ENG 1111
Terms Offered: Fall

ART 1002 Art History II (3)

Contact hours (3 total): 3 lecture

Survey of visual art and architecture from the early Renaissance era to the Modern period.

Pre/Corequisite(s): ENG 1111
Terms Offered: Spring, Summer

ART 1111 Drawing I (3)

Contact hours (4 total): 2 lecture, 2 lab

Line value, shape, and color in developing visual drawing skills. Two- and three-dimensional problems. Study of location of forms in space, their proportion and structure with light and shade as well as perspective. Representational and contemporary problems with complex composition arrangements, wet/dry media, and simple color drawing to develop visual skills. Use of still life, landscape, and introduction to some figure work. Line, value, shape, and color in developing visual drawing skills. Introduction to figure drawing.

Prerequisite(s): none

Lab Fee: \$25.00

Terms Offered: Fall

ART 1121 Drawing II (3)

Contact hours (4 total): 2 lecture, 2 lab

Interpretation of figure using wet/dry media, black and white, and complex color. For both fine and graphic design artists. Explores use of line value and shape and color in developing visual drawing skills. Two- and three-dimensional problems are given. Study of location of forms in space, their proportion and structure with light and shade as well as perspective. Representational and contemporary problems with complex composition arrangements, wet/dry media, and simple color drawing to develop visual skills. Still life, landscape, and introduction to some figure work. Explores the use of line, value, shape, and color in developing visual drawing skills.

Prerequisite(s): ART 1111

Lab Fee: \$80.00

Terms Offered: Spring

ART 1300 Appreciation of the Arts (3)

Contact hours (3 total): 3 lecture

Survey of the spectrum of the arts embedded within Western Civilization. Examines and evaluates the aesthetic contributions of painting, sculpture, architecture, music, and dance of each historical period. Individual artworks for each period illustrating the nature and problems of the creative process as it evolved during each specific period from the Paleolithic Period to the Post-Modern Period.

Prerequisite(s): none

Pre/Corequisite(s): ENG 1111

Global Awareness.

Terms Offered: Fall, Spring, Summer
(ASL) American Sign Language

ASL 1111 Beginning American Sign Language, Course I (3)

Contact hours (3 total): 3 lecture

Basic vocabulary and grammatical elements necessary to communicate with individuals who are Deaf emphasis on developing beginning-level receptive and expressive skills. History of American Sign Language and its development within the United States. Introduction to the unique culture of the Deaf community.

Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher, and ENG 0900 with a grade of C or higher

Global Awareness.

Terms Offered: Fall

ASL 1112 Beginning American Sign Language, Course II (3)

Contact hours (3 total): 3 lecture

Introduction to American Sign Language (ASL) and the Deaf building on the components of the first ASL course. Vocabulary for conversing with individuals who are Deaf. Complex grammatical elements with a greater understanding of application while signing. Emphasis on increasing expressive and receptive skills and Deaf culture with first-hand experience.

Prerequisite(s): ASL 1111 with a grade of C or higher or demonstrated proficiency in indicated area of study

Global Awareness.

Terms Offered: Spring

ASL 2111 Intermediate American Sign Language, Course I (3)

Contact hours (3 total): 3 lecture

Intermediate integration of learning outcomes across Interpersonal, Interpretive, and Presentational Modes of Communication. Accomplish real-world communicative tasks in culturally appropriate ways to gain familiarity with products, practices, and perspectives of American Deaf culture. Use of grammar, vocabulary, structures, and spatial orientation to meet functional performance goals and build a foundation for continued language learning.

Prerequisite(s): ASL 1112 with a grade of C or higher or demonstrated proficiency in indicated area of study

Global Awareness.
Terms Offered: Fall

ASL 2112 Intermediate American Sign Language, Course II (3)

Continuation of intermediate integration of learning outcomes across Interpersonal, Interpretive, and Presentational Modes of Communication. Accomplish real-world communicative tasks in culturally appropriate ways to gain familiarity with products, practices, and perspectives of American Deaf culture. Use of grammar, vocabulary, structures, and spatial orientation to meet functional performance goals and build a foundation for continued language learning.

Prerequisite(s): ASL 2111 with a grade of C or higher or demonstrated proficiency in indicated area of study

Instructor Permission Required.

Global Awareness.

Terms Offered: Spring

(AVN) Aviation**AVN 1001 Private Pilot Ground (3)**

Contact hours (3 total): 3 lecture

Conduct flight training in a single engine land airplane. Preparation for compute-based private pilot knowledge test. Students must have a High School Diploma/GED and be at least 18 years of age.

Prerequisite(s): Students must have a High School Diploma/GED and be at least 18 years of age

Other Fee: \$150.00

Terms Offered: Fall, Spring, Summer

AVN 1002 Private Pilot Flight Lab (2)

Contact hours (4 total): 4 lab

Aeronautical knowledge and experience. Develop the flight proficiency necessary to meet the requirements for a private pilot certificate. Students must have a High School Diploma/GED and be at least 18 years of age.

Prerequisite(s): (FAA third class medical certificate required.)

Pre/Corequisite(s): AVN 1001 and Students must have a High School Diploma/GED and be at least 18 years of age

Instructor Permission Required.

Other Fee: \$7765.00

Terms Offered: Fall, Spring, Summer

AVN 1003 Supervised Flight I (2)

Contact hours (4 total): 4 lab

Development of cross country flight time requirements for an FAA instrument rating. Students must have a High School Diploma/GED and be at least 18 years of age.

Prerequisite(s): AVN 1001, AVN 1002, or Private Pilot Certificate and Students must have a High School Diploma/GED and be at least 18 years of age

Instructor Permission Required.

Other Fee: \$5040.00

Terms Offered: Fall, Spring, Summer

AVN 1011 Instrument Ground (3)

Contact hours (3 total): 3 lecture

Instrument flight rules and procedures, advanced flight planning and navigation, Federal Aviation Regulations, controlled airspace procedures, advanced communications. Students must have a High School Diploma/GED and be at least 18 years of age.

Prerequisite(s): AVN 1001, AVN 1002, or Private Pilot Certificate
Pre/Corequisite(s): AVN 1003
Other Fee: \$150.00
Terms Offered: Fall, Spring

AVN 1012 Instrument Flight Lab (1.5)

Contact hours (3 total): 3 lab
Aeronautical knowledge and experience. Develop flight proficiency necessary to meet the requirements for an instrument rating. Students must have a High School Diploma/GED and be at least 18 years of age.
Prerequisite(s): AVN 1001, AVN 1002, or Private Pilot Certificate and Students must have a High School Diploma/GED and be at least 18 years of age
Pre/Corequisite(s): AVN 1003
Instructor Permission Required.
Other Fee: \$8451.00
Terms Offered: Fall, Spring, Summer

AVN 1013 Supervised Flight Lab II (2)

Contact hours (4 total): 4 lab
Flight time requirements for a commercial pilot certificate. Students must have a High School Diploma/GED and be at least 18 years of age.
Prerequisite(s): Private Pilot Certificate, AVN 1003, AVN 1012, and Students must have a High School Diploma/GED and be at least 18 years of age
Instructor Permission Required.
Other Fee: \$5040.00
Terms Offered: Fall, Spring, Summer

AVN 1014 Supervised Flight Lab III (2)

Contact hours (4 total): 4 lab
Development of flight time requirements for the commercial pilot certificate. Students must have a High School Diploma/GED and be at least 18 years of age.
Prerequisite(s): AVN 1003, AVN 1013, Private Pilot Certificate, and Students must have a High School Diploma/GED and be at least 18 years of age
Instructor Permission Required.
Other Fee: \$5040.00
Terms Offered: Fall, Spring, Summer

AVN 2001 Commercial Ground (3)

Contact hours (3 total): 3 lecture
Aeronautical knowledge necessary to conduct commercial pilot operations. Necessary aeronautical knowledge to pass the computer-based commercial pilot knowledge test. Students must have a High School Diploma/GED and be at least 18 years of age.
Prerequisite(s): (Private Pilot Certificate) and AVN 1014 and Students must have a High School Diploma/GED and be at least 18 years of age
Instructor Permission Required.
Other Fee: \$150.00
Terms Offered: Fall, Spring, Summer

AVN 2002 Commercial Flight Lab (1)

Contact hours (2 total): 2 lab
Aeronautical knowledge and experience necessary to meet the requirements of the commercial pilot certificate. Students must have a High School Diploma/GED and be at least 18 years of age.

Prerequisite(s): AVN 1014, Private Pilot Certificate Instrument Rating, and Students must have a High School Diploma/GED and be at least 18 years of age
Instructor Permission Required.
Other Fee: \$3987.00
Terms Offered: Fall, Spring, Summer

AVN 2011 Certified Flight Instructor Ground (2.5)

Contact hours (2.5 total): 2.5 lecture
Aeronautical knowledge required to conduct flight training as a certified flight instructor (CFI). Necessary aeronautical knowledge to pass the computer-based fundamentals of instructing (FOI), and the certified flight instructor knowledge test. Students must have a High School Diploma/GED and be at least 18 years of age.
Prerequisite(s): AVN 2002 and Students must have a High School Diploma/GED and be at least 18 years of age
Instructor Permission Required.
Other Fee: \$300.00
Terms Offered: Fall, Spring, Summer

AVN 2012 Certified Flight Instructor Flight Lab (0.75)

Contact hours (1.5 total): 1.5 lab
Aeronautical knowledge and experience necessary to meet the requirements of the certified flight instructor rating. Students must have a High School Diploma/GED and be at least 18 years of age.
Prerequisite(s): AVN 2002 and Students must have a High School Diploma/GED and be at least 18 years of age
Instructor Permission Required.
Other Fee: \$6503.00
Terms Offered: Fall, Spring, Summer

AVN 2021 Certified Flight Instructor Instrument Ground (2.5)

Contact hours (2.5 total): 2.5 lecture
Aeronautical knowledge required to conduct flight training as a certified instrument flight instructor (CFII). Aeronautical knowledge to pass the computer-based certified flight instructor instrument knowledge test. Students must have a High School Diploma/GED and be at least 18 years of age.
Prerequisite(s): AVN 2012 and Students must have a High School Diploma/GED and be at least 18 years of age
Instructor Permission Required.
Other Fee: \$150.00
Terms Offered: Fall, Spring, Summer

AVN 2022 Certified Flight Instructor Instrument Flight Lab (0.5)

Contact hours (1 total): 1 lab
Aeronautical skills and experience necessary to meet the requirements of the certified flight instructor instrument rating. Students must have a High School Diploma/GED and be at least 18 years of age.
Prerequisite(s): AVN 2021 and Students must have a High School Diploma/GED and be at least 18 years of age
Other Fee: \$3665.00
Terms Offered: Fall, Spring, Summer

AVN 2031 Multi-Engine Ground (2)

Contact hours (2 total): 2 lecture

Aeronautical knowledge necessary to meet the requirements of the multi-engine commercial rating. Students must have a High School Diploma/GED and be at least 18 years of age.

Prerequisite(s): AVN 2002 and Students must have a High School Diploma/GED and be at least 18 years of age

Other Fee: \$150.00

Terms Offered: Fall, Spring, Summer

AVN 2032 Multi-Engine Commercial Flight Lab (0.5)

Contact hours (1 total): 1 lab

Aeronautical skills and experience necessary to meet the requirements of the multi-engine commercial rating. Students must have a High School Diploma/GED and be at least 18 years of age.

Prerequisite(s): Students must have a High School Diploma/GED and be at least 18 years of age

Pre/Corequisite(s): AVN 2031

Other Fee: \$6742.00

Terms Offered: Fall, Summer

AVN 2042 Multi-Engine Flight Instructor Flight Lab (0.33)

Contact hours (0.66 total): 0.66 lab

Aeronautical skills and experience necessary to meet the requirements of the multi-engine instructor rating. Students must have a High School Diploma/GED and be at least 18 years of age.

Prerequisite(s): AVN 2022 and Students must have a High School Diploma/GED and be at least 18 years of age

Other Fee: \$9216.00

Terms Offered: Fall, Spring, Summer

AVN 2101 Commercial Pilot Ground PH I (2.5)

Contact hours (3 total): 3 lecture

Aeronautical knowledge necessary to conduct commercial pilot operations. Necessary aeronautical knowledge to pass the computer-based commercial pilot knowledge test. This is phase one of a two-phase program. You must complete AVN 2103 (Commercial Ground PH II) to earn all required ground instruction for the Commercial Pilot Certificate. Students must have a High School Diploma/GED and be at least 18 years of age.

Prerequisite(s): Private Pilot Certificate, Instrument Rating, and Students must have a High School Diploma/GED and be at least 18 years of age

Other Fee: \$0.00

Terms Offered: Fall, Spring, Summer

AVN 2102 Commercial Pilot Flight Lab PH I (2.5)

Contact hours (2 total): 2 lab

Aeronautical knowledge and experience necessary to meet the requirements of the Commercial Pilot Certificate. This is phase one of a two-phase program. You must complete AVN 2104 (Commercial Flight Lab PH II) to earn all required flight experience and instruction for the Commercial Pilot Certificate.

Students must have a High School Diploma/GED and be at least 18 years of age.

Prerequisite(s): Private Pilot Certificate, Instrument Rating, and Students must have a High School Diploma/GED and be at least 18 years of age

Pre/Corequisite(s): AVN 2101

Instructor Permission Required.

Other Fee: \$9265.00

Terms Offered: Summer

AVN 2103 Commercial Ground PH II (3)

Contact hours (3 total): 3 lecture

Aeronautical knowledge necessary to conduct commercial pilot operations. Necessary aeronautical knowledge to pass the computer-based commercial pilot knowledge test. This is phase two of a two-phase program. You must complete AVN 2101 (Commercial Ground PH I) to earn all required ground instruction for the Commercial Pilot Certificate. Students must have a High School Diploma/GED and be at least 18 years of age.

Prerequisite(s): Private Pilot Certificate, Instrument Rating, and Students must have a High School Diploma/GED and be at least 18 years of age and AVN 2101

Other Fee: \$150.00

Terms Offered: Fall

AVN 2104 Commercial Flight Lab PH II (2)

Contact hours (2 total): 2 lab

Aeronautical knowledge and experience necessary to meet the requirements of the Commercial Pilot Certificate. This is phase two of a two-phase program. You must complete AVN 2102 (Commercial Flight Lab PH I) to earn all required flight experience and instruction for the Commercial Pilot Certificate.

Students must have a High School Diploma/GED and be at least 18 years of age.

Prerequisite(s): Private Pilot Certificate, Instrument Rating, and Students must have a High School Diploma/GED and be at least 18 years of age and AVN 2101 and AVN 2102

Pre/Corequisite(s): AVN 2103

Instructor Permission Required.

Other Fee: \$9265.00

Terms Offered: Fall

(BIO) Biology**BIO 1105 Fundamentals of Anatomy and Physiology (3)**

Contact hours (3 total): 3 lecture

Survey of the structure and function of the human body; special emphasis on the major body systems.

Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher, and ENG 0900 with a grade of C or higher

Terms Offered: Fall, Spring, Summer

BIO 1110 Basic Human Nutrition (2)

Contact hours (2 total): 2 lecture

Principles of human nutrition with emphasis on nutrient function, digestion, absorption, metabolism, inter-relationships, and requirements. Explores the influence of socioeconomic, cultural, psychological, and environmental factors on food choices. Incorporates assessment of diet patterns, nutritional health risks, and nutrient needs throughout the life cycle.

Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher, and ENG 0900 with a grade of C or higher, and MTH 0500 with a grade of C or higher
Terms Offered: Fall, Spring

BIO 1119 Muscle Anatomy and Biomechanics (3)

Contact hours (5.67 total): 1.67 lecture, 4 lab
Study of muscle, skeleton, joint structure, and function. Origin, insertion, action, and innervation of trunk and extremity musculature. Science of human motion. Systematic application of mechanical laws to movement. Palpation, fundamentals of posture, and gait analysis. Professional behavior development. Laboratory practice. Classroom component online.
Prerequisite(s): PHY 1100, high school physics with C or better in last 5 years, or ATC
Pre/Corequisite(s): MST 1105, BIO 2121, ENG 1111, PTA 1112, and PTA 1122
Instructor Permission Required.
Lab Fee: \$75.00
Terms Offered: Fall

BIO 1131 Microbiology (3)

Contact hours (4 total): 2 lecture, 2 lab
Study of infectious diseases of the body. Emphasis on the causes and effects of bacteria, fungi, viruses, and parasites to health. Classroom component offered online and onsite.
Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher, and ENG 0900 with a grade of C or higher
Lab Fee: \$100.00
Terms Offered: Fall, Spring, Summer

BIO 1410 Fundamentals of Biology (4)

Contact hours (5 total): 3 lecture, 2 lab
Fundamental concepts in biology including: chemistry essential to understanding living organisms, structure and function of cells, basic concepts of energy in living systems, and introduction to human biology.
Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher
Lab Fee: \$60.00
Terms Offered: Fall, Spring

BIO 1420 Global Biology (4)

Contact hours (5 total): 3 lecture, 2 lab
Basic principles in ecology, evolution, and environmental biology including: diversity of living organisms; interactions between living organisms and the environment; interactions of living organisms with their environment; plant biology and photosynthesis; and mechanisms of evolution and biological aspects of current environmental issues.
Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher
Global Awareness.
Lab Fee: \$70.00
Terms Offered: Spring

BIO 1510 Biology I (5)

Contact hours (7 total): 4 lecture, 3 lab
Concepts in chemistry essential to understanding living organisms. Fundamentals of cellular biology. Molecular genetics and patterns of inheritance. Mechanisms of evolution. [Note: intended for students in science majors]
Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher, and MTH 0650 with a grade of C or higher, and CHM 1150 or high school chemistry
Lab Fee: \$85.00
Terms Offered: Fall

BIO 1520 Biology II (5)

Contact hours (7 total): 4 lecture, 3 lab
Evolutionary processes relevant to biological diversity. Diversity and classification of living organisms. Structure and function of plants and animals. Ecosystem structure and function. [Note: intended for students in science majors]
Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher, and MTH 0650 with a grade of C or higher, and BIO 1510 with a grade of C or higher
Lab Fee: \$85.00
Terms Offered: Spring

BIO 2121 Anatomy and Physiology I (4)

Contact hours (5 total): 3 lecture, 2 lab
Human cells, tissues, skin, bones, muscles, nervous system cells; central, peripheral, and autonomic nervous systems; special senses; endocrine system. Note: The online sections require that exams be taken at approved proctoring sites.
Prerequisite(s): High school biology and chemistry within 5 years with a C or better, BIO 1410 with a C or better within 5 years, or currently practicing LPN or paramedic
Lab Fee: \$35.00
Terms Offered: Fall, Spring, Summer

BIO 2122 Anatomy and Physiology II (4)

Contact hours (5 total): 3 lecture, 2 lab
Human circulatory, cardiovascular, lymphatic, respiratory, digestive, urinary, and reproductive systems. Immunity, nutrition and metabolism, fluid and electrolyte balance/acid-base balance, pregnancy, human development, and heredity. Note: The online sections require that exams be taken at approved proctoring sites.
Prerequisite(s): BIO 2121
Lab Fee: \$35.00
Terms Offered: Fall, Spring, Summer

BIO 2123 Human Cadaver Dissection Lab (1)

Contact hours (3 total): 3 lab
Human cadaver lab emphasizing hands-on study for the following areas; regional surface anatomy, compartments, anatomical and physiological relationships, musculoskeletal structures, vasculature, and nerve supply of the extremities. General organ systems will be explored: Cranium, thorax, abdomen, pelvis, and musculature of extremities. Collaborative work.

Prerequisite(s): BIO 2121 with a grade of B or higher
Pre/Corequisite(s): BIO 2122
Lab Fee: \$50.00
Terms Offered: Fall, Spring

(BNK) Banking

BNK 1000 Principles of Banking (3)

Contact hours (3 total): 3 lecture
An introduction to banking services and financial institutions; examination of the principles of banking transactions and various services of a bank. History of banking, item processing, collection functions, procedures, bookkeeping, loans and investments, and trust operations. Overview of the role of the Federal Reserve.
Terms Offered: Fall

BNK 1100 Consumer Lending (3)

Contact hours (3 total): 3 lecture
Comprehend the consumer lending process from developing and taking loan applications to collection and recovery; describe consumer lending laws and regulations; list characteristics, benefits, and disadvantages of direct lending, indirect lending, and open-end credit products; explain how the five C's of credit are used in credit evaluation and decision making.
Terms Offered: Spring

BNK 2000 Introduction into Investments (3)

Contact hours (3 total): 3 lecture
An introduction to the concepts of investing. Addressing the theory and application of investment topics. It provides the basic knowledge about financial markets, valuation of investment tools, and different investment strategies.
Prerequisite(s): BNK 1000
Pre/Corequisite(s): ECO 2210
Terms Offered: Spring

BNK 2100 Money & Banking (3)

Contact hours (3 total): 3 lecture
Theory, methods, and policies on money, the financial system, and monetary policy; ratio analysis; present value techniques; analysis of interest rates; the role of banking and effects of regulation; and analysis and forecasting of monetary and fiscal policy.
Prerequisite(s): ACC 1100
Pre/Corequisite(s): ECO 2210
Terms Offered: Spring

(CAD) Computer Aided Design

CAD 1101 Computer-Aided Design I (3)

Contact hours (4 total): 2 lecture, 2 lab
AutoCAD software to construct two-dimensional mechanical drawings. AutoCAD commands to produce drawings and fully dimension them according to ANSI standards. Drawings plotted at scale as required.
Prerequisite(s): ENG 0800 with a grade of A, or ENG 0850 with a grade of C or higher
Pre/Corequisite(s): ENT 1000, FYE 1000, FYE 1100, or ENT 1050
Lab Fee: \$20.00
Certification Fee: \$90.00
Terms Offered: Fall, Spring

CAD 1102 Computer-Aided Design II (3)

Contact hours (4 total): 2 lecture, 2 lab
AutoCAD software. Creating libraries, three-dimensional wire frame drawings, solid drawings, and custom menus. Isometric, one-point and two-point perspective techniques used to construct part, exploded, and sectioned assembly drawings. Drawings merged into a desktop publishing program for the addition of notes in preparation of creating finished documents.
Prerequisite(s): CAD 1101 and ENT 1000
Lab Fee: \$20.00
Terms Offered: Fall, Spring

CAD 1301 Architecture I (3)

Contact hours (4 total): 2 lecture, 2 lab
Architectural design with the use of CAD. Research, use of space, preliminary design, formal presentation drawings, and design projects.
Prerequisite(s): CAD 1101
Lab Fee: \$15.00
Terms Offered: Fall, Spring

CAD 2100 Solid Modeling (3)

Contact hours (4 total): 2 lecture, 2 lab
Two-dimensional drafting (2D) and three-dimensional (3D) solid model assemblies. Generating 2D/3D elements, integrating 2D/3D elements, creating orthographic views from solid models, and parametric modeling. Inventor and AutoCAD used.
Pre/Corequisite(s): ENT 1000 and ENT 1050
Lab Fee: \$20.00
Certification Fee: \$90.00
Terms Offered: Fall, Spring

CAD 2200 Advanced Solid Modeling (3)

Contact hours (4 total): 2 lecture, 2 lab
Advanced 3-D modeling techniques. Presentation files, animation, model analysis, piping systems, and assembly models.
Prerequisite(s): CAD 2100
Lab Fee: \$20.00
Terms Offered: Fall, Spring

CAD 2302 Architecture II (3)

Contact hours (4 total): 2 lecture, 2 lab
Emphasis on architectural drawings, electrical, plumbing, and HVAC plans, building codes, cost estimation, and new building materials.
Prerequisite(s): CAD 1301
Instructor Permission Required.
Lab Fee: \$20.00
Terms Offered: Fall, Spring

(CHM) Chemistry

CHM 1150 Introduction to General Chemistry (4)

Contact hours (5 total): 3 lecture, 2 lab
Intensive preparation (equivalent to a year of high school chemistry) for General Chemistry (CHM 1210). Introduction to the composition, structure, properties, and transformations of matter, including dimensional analysis, atomic structure, bonding, chemical reactions, states of matter, energy changes, solutions, reaction rates and chemical equilibrium, acids, bases and buffers, introduction to chemical laboratory equipment and methods, including mass and volume measurements,

graphing, observing chemical and physical properties, carrying out stoichiometric measurements and titrations, drawing conclusions from experimental data, designing experiments to test hypotheses. (* Indicates objectives pertinent to the laboratory portion of the course as well as lecture.)

Prerequisite(s): ENG 0900 with a grade of C or higher, and MTH 0650 or MTH 0750, with a grade of C or higher Global Awareness.

Lab Fee: \$65.00

Terms Offered: Fall, Spring, Summer

CHM 1160 Introduction to Organic and Biological Chemistry (4)

Contact hours (5 total): 3 lecture, 2 lab

Introduction to the structures, chemical and physical properties of hydrocarbons, alcohols, phenols, ethers, aldehydes, ketones, carbohydrates, carboxylic acids, esters, lipids, amides, amino acids, and proteins.

Introduction to the role of enzymes and vitamins in metabolism, structure and function of nucleic acids, and protein synthesis, reactions of hydrocarbons, alcohols, phenol, ethers, carboxylic acids, esters, properties of lipids, saponification, structures and properties of aspirin and other analgesics, amino acids, peptides and proteins, properties of enzymes. (*Indicates objectives pertinent to the laboratory portion of the course as well as lecture.)

Prerequisite(s): MTH 0650 with a grade of C or higher, and CHM 1150 within the last 5 years

Lab Fee: \$70.00

Terms Offered: Fall

CHM 1210 General Chemistry I (5)

Contact hours (7 total): 4 lecture, 3 lab

Significant figures; fundamental structures of atoms and molecules, introduction to quantum mechanics, atomic orbitals; principles of ionic, covalent and metallic bonding, including Lewis structures, valence bond and molecular orbital theories of bonding; mole concept, stoichiometry, and the laws of composition; acids and bases, oxidation-reduction chemistry, and solutions; thermochemistry; behavior of gases, classification of elements, including periodicity; nuclear chemistry; applications of chemistry in society; molecular modeling; collection, analysis and reporting of data; problem-solving using algebraic methods. (*Indicates objectives pertinent to the laboratory portion of the course as well as lecture.)

Prerequisite(s): ENG 0900 with a grade of C or higher, and MTH 0750 with a grade of C or higher, and CHM 1150 with a grade of C or higher or one year of high school chemistry with a grade of C or higher

Pre/Corequisite(s): ENG 1111 and MTH 1280

Lab Fee: \$85.00

Terms Offered: Fall, Spring

CHM 1220 General Chemistry II (5)

Contact hours (7 total): 4 lecture, 3 lab

Intermolecular forces and phase changes; solutions and colligative properties; chemical kinetics; chemical equilibrium; acid-base equilibria; thermodynamics (including entropy and free energy); electrochemistry; descriptive chemistry, including chemical properties and classification of the elements, periodic patterns of reactivity; introduction to organic and biochemistry;

applications of chemistry in society; collection, analysis and reporting of data; problem-solving using algebraic methods. (* Indicates objectives pertinent to the laboratory portion of the course as well as lecture.)

Prerequisite(s): CHM 1210 with grade of C or higher

Pre/Corequisite(s): ENG 1112

Lab Fee: \$85.00

Terms Offered: Spring

(COM) Communication

COM 1110 Interpersonal Communication I (3)

Contact hours (3 total): 3 lecture

An introduction to the principles and theories of interpersonal communication; analyzing, changing, and improving oneself within various relationships. The communication process, listening, perception, verbal and nonverbal communication, emotions, self-concept, power, conflict, gender, and intercultural communication.

Prerequisite(s): ENG 1111

Global Awareness.

Terms Offered: Fall, Spring, Summer

COM 1120 Public Speaking I (3)

Contact hours (3 total): 3 lecture

An introduction to public speaking processes designed to assist students in communicating effectively in a variety of speaking situations. Examines developing, organizing, delivering, and analyzing public presentations. Online sections require digital recording equipment and are not recommended for students with high speech anxiety.

Prerequisite(s): ENG 1111

Terms Offered: Fall, Spring, Summer

COM 1130 Introduction to Mass Communication (3)

Contact hours (3 total): 3 lecture

History of mass media in our society, specifically radio, newspapers, magazines, television, governmental regulation, public relations, marketing, advertising, and the Internet. Relationships between mass media, other forms of media, their respective audiences, and philosophical and ethical issues.

Prerequisite(s): ENG 1111

Terms Offered: Fall, Spring, Summer

COM 1150 Introduction to Communication Theory (3)

Contact hours (3 total): 3 lecture

Principles and foundational theories in the study of communication. Examination of various theories that attempt to describe, explain, and/or predict human communication behavior. Specific areas of study include: communication process, listening, conflict, gender, public speaking, mass communication, group communication, and intercultural communication.

Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher

Pre/Corequisite(s): ENG 0900 with a grade of C or higher

Terms Offered: Fall

COM 1170 Small Group Communication (3)

Contact hours (3 total): 3 lecture

An introduction to the basic terms, principles, and theories of small group communication, examining multi-cultural leadership, roles, goal achievement,

conflict, decision making, and problem solving. Development of effective group decision making, leadership skills, emphasizing methods of expressing oneself, and understanding others.
Prerequisite(s): ENG 1111
Global Awareness.
Terms Offered: Fall, Spring

COM 2240 Organizational Communication (3)

Contact hours (3 total): 3 lecture
An introduction to organizational communication research and theory with emphasis on communication processes to create a productive work environment, quality communication, and adaptation to an evolving workplace. An analysis of methods organizations use to sustain, how they communicate with their respective audiences, and assess principles for best organizational communication by analyzing successful historical practices and cutting edge beliefs which are driving organizations today.
Prerequisite(s): ENG 1111 and COM 1150
Global Awareness.
Terms Offered: Spring

COM 2700 Communication Internship (3)

Planned, structured, work experience in a professional setting applying a variety of classroom theory and acquiring new skills for a career in communication. May earn between 1-3 credit hours. Participate at the internship placement for a minimum of 10 hours per week per co-op credit earned.
Instructor Permission Required.
Terms Offered: Fall, Spring, Summer

(COR) Corrections

COR 1100 Introduction to Corrections (3)

Contact hours (3 total): 3 lecture
Explanation of history, evolution, and components of correctional systems. Identify components of the correctional systems. Current practices and present day issues in Corrections.
Prerequisite(s): ENG 1111
Terms Offered: Fall

COR 1105 Probation and Parole (3)

Contact hours (3 total): 3 lecture
History and philosophy of probation, aftercare, and other community programs for juvenile and adult offenders; function and philosophy of parole, current laws, and case studies.
Prerequisite(s): ENG 0800 with a grade of C or higher
Terms Offered: Spring

COR 1130 Adult/Juvenile Corrections (3)

Contact hours (3 total): 3 lecture
Facilities, programs, and procedures for detention and incarceration.
Prerequisite(s): ENG 0800 with a grade of C or higher
Terms Offered: Spring

COR 2285 Corrections Practicum (3)

Contact hours (2 total): 2 lecture
Field service training (day-time hours). Educational experience through appropriate observation and work assignment in jail and adult correction facilities. 2 hours of lecture/discussion and 7 hours of practicum per week. 105 hours of practicum per semester.

Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher, and ENG 0900 with a grade of C or higher
Terms Offered: Spring
(CPE) College Prep Education

CPE 0700 Intermediate Algebra (3)

Contact hours (3 total): 3 lecture
Selected topics from plane geometry with applications; positive, negative, and fractional exponents; scientific notation; simplifying, rationalizing, and operations with radicals; quadratic equations with applications; introduction to functions and graphing. Institutional credit only.
Prerequisite(s): CPE 0600 with a grade of C or better
Terms Offered: Fall, Spring, Summer

(CRJ) Criminal Justice

CRJ 1100 Introduction to Criminal Justice (3)

Contact hours (3 total): 3 lecture
Overview of the criminal justice system's history, development, and evolution, including subsystems of police, courts, and corrections.
Prerequisite(s): ENG 0800 with a grade of C or higher
Terms Offered: Fall, Spring

CRJ 1115 Victimology (3)

Contact hours (3 total): 3 lecture
Explores victimization's impact upon victims, criminals, criminal justice entities, and the community. Review theories and best practices and identify resources and rights afforded to victim.
Prerequisite(s): (CPE 0100 or ENG 0800 with a grade of C or higher)
Pre/Corequisite(s): (None)
Corequisite(s): (None)
Terms Offered: Fall

CRJ 1116 Systems Approach to Computer Technology (3)

Contact hours (3 total): 3 lecture
Management of police departments through computer applications, using data base, presentation, and other commercial software.
Prerequisite(s): ENG 0800 with a grade of C or higher
Lab Fee: \$75.00
Terms Offered: Fall, Summer

CRJ 1120 Juvenile Procedures (3)

Contact hours (3 total): 3 lecture
Examination of the juvenile justice system's parts, subcultures; and the causative factors, prevention, and treatment of juvenile delinquency.
Prerequisite(s): ENG 0800 with a grade of C or higher
Terms Offered: Spring, Summer

CRJ 1123 Patrol Operations (3)

Contact hours (3 total): 3 lecture
Comprehensive study of police patrol operations, including vehicle patrol techniques, foot patrol, crimes in progress, prowler calls, building searches, stops and approaches, and traffic crash investigation.
Prerequisite(s): ENG 0800 with a grade of C or higher
Terms Offered: Spring, Summer

CRJ 1283 Basic Law Enforcement I (8)

Contact hours (22 total): 1 lecture, 21 lab
Law enforcement skills and techniques to fulfill partial requirements for peace officer training certification as required by the Attorney General's office and the Ohio Peace Officer's Training Council (OPOTC).
Prerequisite(s): High school diploma or GED, ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher, and ENG 0900 with a grade of C or higher
Instructor Permission Required.
Lab Fee: \$1374.00
Terms Offered: Spring, Summer

CRJ 1284 Basic Law Enforcement II (8)

Contact hours (22 total): 1 lecture, 21 lab
Law enforcement skills and techniques to fulfill partial requirements for peace officer training certification as required by the Attorney General's Office and the Ohio Peace Officer's Training Council (OPOTC).
Prerequisite(s): CRJ 1283
Instructor Permission Required.
Lab Fee: \$1374.00
Terms Offered: Spring, Summer

CRJ 2201 Police Administration (3)

Contact hours (3 total): 3 lecture
Examination of administrative design, including personnel selection, training, advancement, discipline, and utilization of resources.
Prerequisite(s): CRJ 1100
Pre/Corequisite(s): ENG 1111
Terms Offered: Fall, Spring

CRJ 2216 Community Relations (3)

Contact hours (3 total): 3 lecture
Principles of community policing including youth-focused activities, community-based crime prevention, reorientation of patrol, police/public accountability, and decentralizing police decision making.
Prerequisite(s): CRJ 1100
Pre/Corequisite(s): ENG 1111
Terms Offered: Fall

CRJ 2225 Forensic Science (4)

Contact hours (4 total): 4 lecture
The search for, recognition, and preservation of physical evidence found at crime scenes.
Prerequisite(s): CRJ 1100
Pre/Corequisite(s): ENG 1111
Lab Fee: \$75.00
Terms Offered: Fall

CRJ 2228 Criminal Investigation (3)

Contact hours (3 total): 3 lecture
Reconstruction of the sequences of a criminal act, including searching, preserving, and evaluating physical evidence including interviewing witnesses and interrogating suspects.
Prerequisite(s): none
Pre/Corequisite(s): ENG 1111
Terms Offered: Fall, Summer

CRJ 2235 Social Justice (3)

Contact hours (3 total): 3 lecture
Exploration of job stresses and the social value and ethics of the criminal justice process.

Prerequisite(s): CRJ 1100
Pre/Corequisite(s): ENG 1111
Terms Offered: Spring, Summer

CRJ 2240 Criminal Law (3)

Contact hours (3 total): 3 lecture
Criminal procedures, criminal law, common defense, and prosecutorial processes.
Prerequisite(s): CRJ 1100
Pre/Corequisite(s): ENG 1111
Terms Offered: Spring, Summer

CRJ 2250 Community Resources (3)

Contact hours (2 total): 2 lecture
Exploration of community resources to individuals involved in the criminal justice system, volunteer hours at a community agency, team teaching.
Prerequisite(s): CRJ 1100 and ENG 1111
Pre/Corequisite(s): ENG 1112
Terms Offered: Fall

CRJ 2260 Constitutional Law (3)

Contact hours (3 total): 3 lecture
History and philosophy of the American constitution; theories of constitutional interpretation; judicial review; role of the Supreme Court in shaping government and society; Supreme Court and the bill of rights; landmark cases.
Prerequisite(s): ENG 1111
Pre/Corequisite(s): ENG 1112
Terms Offered: Spring

CRJ 2280 Practicum (3)

Contact hours (2 total): 2 lecture
Supervised work experience in law enforcement agencies, 105 hours of practicum documentation during the semester. Criminal background investigation required. Students with felony or domestic convictions cannot be enrolled in this course.
Prerequisite(s): CRJ 1100, CRJ 1120, CRJ 1123, CRJ 2201, CRJ 2216, CRJ 2225, CRJ 2228, CRJ 2250, and CRJ 1115
Pre/Corequisite(s): CRJ 2235 and CRJ 2240
Instructor Permission Required.
Terms Offered: Spring

(CSD) Computer Software Development

CSD 1300 Database Management (2)

Contact hours (3 total): 1 lecture, 2 lab
Concepts of database management. Relational databases, database design, normalization. Students must take both CSD 1300 and CSD 1310 to replace the discontinued course CSD 1400.
Prerequisite(s): MTH 0500 and ENG 0850 with a grade of C or higher
Pre/Corequisite(s): ITS 1105 or ITS 1245
Terms Offered: Fall, Spring

CSD 1310 SQL I (2)

Contact hours (3 total): 1 lecture, 2 lab
Introduction to SQL (Structured Query Language). Create and update tables in a relational database. Use queries to retrieve information from tables. Students must take both CSD 1300 and CSD 1310 to replace the discontinued course CSD 1400. A Windows computer

must be used to complete the homework.
 Prerequisite(s): MTH 0500 and ENG 0850 with a grade of C or higher
 Pre/Corequisite(s): ITS 1105 or ITS 1245
 Terms Offered: Fall, Spring

CSD 1510 Programming Fundamentals with Python (3)

Contact hours (5 total): 1 lecture, 4 lab
 Fundamental programming constructs and concepts. Designed for students with little or no programming experience. Study of variables, constants, looping, strings, flowcharting basics, programming logic, and data validation techniques. This course replaces CSD 1500.
 Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher, and MTH 0500 with a grade of C or higher
 Lab Fee: \$20.00
 Terms Offered: Fall, Spring

CSD 1600 JavaScript and jQuery (3)

Contact hours (4 total): 2 lecture, 2 lab
 Use JavaScript and jQuery to create interactive web sites. This course replaces CSD 2200.
 Prerequisite(s): CSD 1500 or CSD 1510 and ITS 1500
 Lab Fee: \$30.00
 Terms Offered: Fall, Spring

CSD 2100 Systems Analysis and Design (3)

Contact hours (4 total): 2 lecture, 2 lab
 A structured approach to the analysis and design of computer-based information systems.
 Prerequisite(s): CSD 1400 and CSD 1510 or CSD 1500 and MTH 0650 with a grade of C or higher
 Pre/Corequisite(s): ENG 2211 and ITS 1105
 Lab Fee: \$20.00
 Terms Offered: Spring

CSD 2310 SQL II (2)

Contact hours (3 total): 1 lecture, 2 lab
 Use SQL (Structured Query Language) to manipulate tables and table data in a relational database. Retrieve data from multiple tables. Develop stored programs and applications. Perform database optimization.
 Prerequisite(s): CSD 1300 with a grade of C or higher and CSD 1310 with a grade of C or higher and CSD 1510 and (CPE 0600 or MTH 0650)
 Terms Offered: Fall

CSD 2521 Java Programming I (3)

Contact hours (4 total): 2 lecture, 2 lab
 Programming concepts and techniques including input/output, arithmetic and logic operations, looping, file handling, report generation, data types, and structures. Practical applications written, entered, tested, and debugged using principles of the Java programming language. Introduction of appropriate tools to aid in program development.
 Prerequisite(s): MTH 0650 with a grade of C or higher, and CSD 1500 or CSD 1510
 Terms Offered: Fall

CSD 2522 Java Programming II (3)

Contact hours (4 total): 2 lecture, 2 lab
 Advanced concepts of computer programming. Use of data structures and tools that facilitate programming.
 Prerequisite(s): CSD 2521
 Terms Offered: Spring

CSD 2531 C# Programming (3)

Contact hours (4 total): 2 lecture, 2 lab
 C# program structure, language, syntax, and implementation details. Object-oriented programming language concepts.
 Prerequisite(s): MTH 0650 with a grade of C or higher, and CSD 1500 or CSD 1510
 Terms Offered: Spring

CSD 2541 C++ Programming (3)

Contact hours (4 total): 2 lecture, 2 lab
 C++ program structure, language, syntax, and implementation details. Object-oriented programming language concepts.
 Prerequisite(s): CSD 1510 and MTH 0650
 Terms Offered: Fall, Spring

CSD 2610 Mobile Web Application Programming (3)

Contact hours (4 total): 2 lecture, 2 lab
 Use HTML and JavaScript to design and create applications for mobile devices.
 Prerequisite(s): CSD 1600
 Lab Fee: \$30.00
 Terms Offered: Fall, Spring

CSD 2800 Advanced Topics (3)

Contact hours (4 total): 2 lecture, 2 lab
 Integration of programming, database, and web design. Project analysis, design, and solution implementation. Writing a final report. Presentation preparation and delivery. Weekly class attendance is required.
 Prerequisite(s): ITS 1500, COM 1120, CSD 1300, CSD 1310, and ITS 1105 and (CSD 2520 or 2521 or 2531 or 2540 or 2541)
 Pre/Corequisite(s): ENG 1111
 Lab Fee: \$20.00
 Terms Offered: Spring

(CSE) CyberSecurity

CSE 1110 Introduction to CyberSecurity (3)

Contact hours (4 total): 2 lecture, 2 lab
 Internet security basics, hackers, spyware, phishing, spam, zombies, Trojan horses, worms, viruses, wi-fi security, denial-of-service, web-blocking, firewalls, and proxy servers. Installation and configuration of security tools and utilities.
 Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher, and ITS 0800
 Lab Fee: \$75.00
 Terms Offered: Spring, Summer

CSE 1120 CyberSecurity - Security + (3)

Contact hours (4 total): 2 lecture, 2 lab
 Security baselines, network infrastructure security, web security, cryptography, operations security, and security management. CompTIA Security+ certification objectives.
 Pre/Corequisite(s): CSE 1110
 Lab Fee: \$75.00
 Terms Offered: Spring, Summer

CSE 2251 CyberSecurity - Security Professional I (3)

Contact hours (4 total): 2 lecture, 2 lab
Information security and risk management, access controls, application security, disaster recovery planning, cryptography, and legal aspects of information security. First course of a two-course sequence covering the ISC2 Computer Information Systems Security Professional (CISSP) certification objectives.
Prerequisite(s): CSE 1120
Lab Fee: \$75.00
Terms Offered: Fall

CSE 2252 CyberSecurity - Security Professional II (3)

Contact hours (4 total): 2 lecture, 2 lab
Information systems operations security, physical and environmental security, security architecture and design, and telecommunications and network security. Second of a two-course sequence covering the ISC2 Computer Information Systems Security Professional (CISSP) certification objectives.
Pre/Corequisite(s): CSE 2251
Lab Fee: \$75.00
Terms Offered: Fall

CSE 2902 Special Topics (2)

Contact hours (2 total): 2 lecture
Overview of computer security and ethical hacking techniques. Discussion of perimeter defenses, escalation of privileges, intrusion detection, policy creation, social engineering, open source intelligence, incident handling, and log interpretation.
Instructor Permission Required.
Terms Offered: Summer

(DSL) Diesel Technologies

DSL 1100 Hydraulic Theory and Operation (2)

Contact hours (4 total): 1 lecture, 3 lab
Fundamental theory, application, and operation of mobile hydraulic systems. Hydraulic pumps, valves, control systems, cylinders, and accessories.
Lab Fee: \$100.00
Terms Offered: Summer

DSL 1200 Fundamentals of Engines (3)

Contact hours (7 total): 1 lecture, 6 lab
Internal combustion gasoline and diesel engines. Construction of the internal combustion engine, with primary focus on the individual systems. Engine maintenance and service, as well as associated tools, equipment, and procedures.
Pre/Corequisite(s): none
Lab Fee: \$100.00
Certification Fee: \$35.00
Terms Offered: Fall, Spring

DSL 1300 Preventative Maintenance (2)

Contact hours (4 total): 1 lecture, 3 lab
Preventative maintenance (PM) and standard service procedures of a heavy duty truck. Familiarization with the heavy duty truck market and equipment, shop and material safety, standard shop equipment, basic hand tool usage and care, usage and care of precision measuring instruments, and shop safety precautions. Individual truck systems, their service and preventative maintenance procedures.

Pre/Corequisite(s): ENT 1000
Lab Fee: \$100.00
Terms Offered: Fall, Spring

DSL 1500 Heavy Truck Drive Trains (3)

Contact hours (5 total): 1 lecture, 4 lab
Examine construction, operation, application, maintenance, and repair of class 6, 7, and 8 truck drive lines. Multi-speed manual transmissions, single and dual reduction differential assemblies, drive shafts, and clutches. Manual shift and auto-shift transmission models.
Pre/Corequisite(s): none
Lab Fee: \$100.00
Terms Offered: Fall, Spring

DSL 1550 Truck Steering and Suspension (2)

Contact hours (4 total): 1 lecture, 3 lab
Highway truck steering systems, suspension systems, and vehicle chassis. Construction, operation, application, service, maintenance, and diagnostics of systems. Laws and regulations governing these areas.
Prerequisite(s): DSL 1300
Lab Fee: \$100.00
Terms Offered: Fall, Spring

DSL 1600 Basic Electrical (3)

Contact hours (5 total): 2 lecture, 3 lab
Principles, operation, and applications of heavy duty truck electrical systems. Testing and diagnostics on batteries, starters, and alternators. Electrical circuit troubleshooting.
Prerequisite(s): none
Lab Fee: \$100.00
Terms Offered: Fall, Spring, Summer

DSL 1650 Truck Brake Systems (3)

Contact hours (7 total): 1 lecture, 6 lab
Medium and heavy duty truck brake systems. Brake system construction, operation, maintenance, and troubleshooting. Anti-lock braking system (ABS) and anti-snaking system (ATC) technology and troubleshooting.
Prerequisite(s): DSL 1100, DSL 1300, and DSL 1600
Lab Fee: \$100.00
Terms Offered: Summer

DSL 2300 Advanced Electrical / Electronics (3)

Contact hours (5 total): 2 lecture, 3 lab
Electrical/electronic systems except power train systems. Heavy duty truck electrical/electronic accessory systems. Operation of individual systems, diagnostics, and troubleshooting.
Prerequisite(s): DSL 1600 and MTH 1115
Pre/Corequisite(s): ITS 1105
Lab Fee: \$100.00
Certification Fee: \$35.00
Terms Offered: Fall, Spring

DSL 2500 Heavy Truck Automatic Transmissions (2)

Contact hours (4 total): 1 lecture, 3 lab
Medium and heavy duty truck automatic transmissions and torque converters. Planetary gearing, power flow, hydro-mechanical operation, electronic hydro-mechanical operation, terminology, service, testing, and troubleshooting. On-vehicle testing and troubleshooting.

Prerequisite(s): DSL 1100, DSL 1300, DSL 1500, and DSL 1600

Lab Fee: \$100.00

Terms Offered: Fall, Spring

DSL 2600 Heavy Truck HVAC (2)

Contact hours (3 total): 1.5 lecture, 1.5 lab

Heavy duty truck heating, venting, and air conditioning systems (HVAC); operation, maintenance, service, and diagnostics. Air conditioning certifications through the Mobile Air Conditioning Society (MACS), the Institute of Mobile Air Conditioning (IMAC) or the National Institute of Automotive Service Excellence (ASE).

Prerequisite(s): DSL 1300 and DSL 1600

Lab Fee: \$100.00

Terms Offered: Summer

(EBE) Experience Based Education

EBE 1000 Employability Skills (1)

Contact hours (1 total): 1 lecture

Life, career, and educational goals; resume and cover letter; research organization; interviewing skills, discussion of professional image; follow-up letter; co-op/internship processes.

Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher

Terms Offered: Fall, Spring

EBE 1100 Prior Learning Portfolio Development (2)

Contact hours (2 total): 2 lecture

Development of a portfolio of prior learning experiences to be assessed for credit for college courses. Overview of experiential learning and production of a work/life experience record, goals paper, learning statements, documentation of experiential learning, and a portfolio suitable for assessment. Students enrolled in or having successfully completed EBE 1100 must pay a \$60 assessment fee per course-equivalent portfolio.

Prerequisite(s): Approval of coordinator. This course is required if seeking more than 4 hours of experiential credit.

Instructor Permission Required.

Other Fee: \$60.00

Terms Offered: Fall, Spring

EBE 2500 Co-op/Internship Seminar (1)

Contact hours (1 total): 1 lecture

Relate classroom theory and practice to the work environment. Discuss work place experiences.

Develop possible solutions to work place issues. Taken concurrently with an internship or co-op experience.

Corequisite(s): EBE 2701, EBE 2702, EBE 2703, EBE 2704, EBE 2801, EBE 2802, EBE 2803, or EBE 2804

Instructor Permission Required.

Terms Offered: Fall, Spring, Summer

EBE 2601 Internship - Project Based (1)

Planned, structured, work experience in a professional work setting. Project-based approach to assisting an organization in accomplishing a goal or goals. Apply classroom theory and acquire new knowledge and skills. Learn about, react to, and write about internship organization and internship experience. A minimum of 15 hours (1 hour per week for 15-week term) of on-site, supervised work in addition to a minimum of 2 hours per week of off-site activities required to complete the project.

Prerequisite(s): 6 hours of oral and written communication courses, 15 hours of course work relevant to the planned internship experience, Approved placement, Instructor permission, and EBE 1000 Instructor Permission Required.

Terms Offered: Fall, Spring, Summer

EBE 2602 Internship - Project Based (2)

Planned, structured, work experience in a professional work setting. Project-based approach to assisting an organization in accomplishing a goal or goals. Apply classroom theory and acquire new knowledge and skills. Learn about, react to, and write about internship organization and internship experience. A minimum of 30 hours (2 hours per week for 15-week term) of on-site, supervised work in addition to a minimum of 4 hours per week of off-site activities required to complete the project.

Prerequisite(s): 6 hours of oral and written communication courses, 15 hours of course work relevant to the planned internship experience, Approved placement, Instructor permission, and EBE 1000

Terms Offered: Fall, Spring, Summer

EBE 2603 Internship - Project Based (3)

Planned, structured, work experience in a professional work setting. Project-based approach to assisting an organization in accomplishing a goal or goals. Apply classroom theory and acquire new knowledge and skills. Learn about, react to, and write about internship organization and internship experience. A minimum of 45 hours (3 hours per week for 15-week term) of on-site, supervised work in addition to a minimum of 6 hours per week of off-site activities required to complete the project.

Prerequisite(s): 6 hours of oral and written communication courses, 15 hours of course work relevant to the planned internship experience, Approved placement, Instructor permission, and EBE 1000 Instructor Permission Required.

Terms Offered: Fall, Spring, Summer

EBE 2701 Co-op Education I (1)

Relating academic studies to the world of work, establishing learning outcomes, preparing related reports. Workplace learning of a minimum of 150 documented hours (10 hours per week for 15-week term).

Prerequisite(s): EBE 1000 or AGR 1100 and Approved co-op placement

Instructor Permission Required.

Terms Offered: Fall, Spring, Summer

EBE 2702 Co-op Education I (2)

Relating academic studies to the world of work, establishing learning outcomes, preparing related reports. Workplace learning of a minimum of 300 documented hours (20 hours per week for 15-week term).

Prerequisite(s): EBE 1000 or AGR 1100 and Approved co-op placement

Instructor Permission Required.

Terms Offered: Fall, Spring, Summer

EBE 2703 Co-op Education I (3)

Relating academic studies to the world of work, establishing learning outcomes, preparing related reports. Workplace learning of a minimum of 450 documented hours (30 hours per week for 15-week term).

Prerequisite(s): EBE 1000 or AGR 1100 and Approved co-op placement

Instructor Permission Required.

Terms Offered: Fall, Spring, Summer

EBE 2704 Co-op Education I (4)

Relating academic studies to the world of work, establishing learning outcomes, preparing related reports. Workplace learning of a minimum of 600 documented hours (40 hours per week for 15-week term).

Prerequisite(s): EBE 1000 or AGR 1100 and Approved co-op placement

Instructor Permission Required.

Terms Offered: Fall, Spring, Summer

EBE 2801 Co-op Education II (1)

Continuation of valuable work experience. In addition to requirements of Co-op Education I, a special project is required based on the technology. Workplace learning of a minimum of 150 documented hours (10 hours per week for 15-week term).

Prerequisite(s): EBE 1000 or AGR 1100 and Approved co-op placement

Instructor Permission Required.

Terms Offered: Fall, Spring, Summer

EBE 2802 Co-op Education II (2)

Continuation of valuable work experience. In addition to requirements of Co-op Education I, a special project is required based on the technology. Workplace learning of a minimum of 300 documented hours (20 hours per week for 15-week term).

Prerequisite(s): EBE 1000 or AGR 1100 and Approved co-op placement

Instructor Permission Required.

Terms Offered: Fall, Spring, Summer

EBE 2803 Co-op Education II (3)

Continuation of valuable work experience. In addition to requirements of Co-op Education I, a special project is required based on the technology. Workplace learning of a minimum of 450 documented hours (30 hours per week for 15-week term).

Prerequisite(s): EBE 1000 or AGR 1100 and Approved co-op placement

Instructor Permission Required.

Terms Offered: Fall, Spring, Summer

EBE 2804 Co-op Education II (4)

Continuation of valuable work experience. In addition to requirements of Co-op Education I, a special project is required based on the technology. Workplace learning of a minimum of 600 documented hours (40 hours per week for 15-week term).

Prerequisite(s): EBE 1000 or AGR 1100, and approved co-op placement

Instructor Permission Required.

Terms Offered: Fall, Spring, Summer

(ECE) Early Childhood Education**ECE 1101 Professional Development for Educators (1)**

Contact hours (1 total): 1 lecture

Overview of basic skills and knowledge necessary for individuals planning a career path in education.

Focus on course planning, scheduling, professional communication, academic preparation, and individual learning styles. Criminal background check at approximate cost of \$60 must be obtained prior to course completion.

Prerequisite(s): ENG 0800 with a grade of C or higher

Pre/Corequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher, and ECE 1102

Terms Offered: Fall, Spring

ECE 1103 Early Childhood Development (3)

Contact hours (3 total): 3 lecture

Focus on applying knowledge of the characteristics and needs of young children prenatal to age eight, to create healthy, respectful, supportive, challenging, and effective learning environments. Multiple and interrelated influences on the development and learning of young children will be examined.

Pre/Corequisite(s): ENG 0800 or ENG 0850 (ENG 0800 with a grade of an A or B) and ENG 0900 (ENG 0900 with a grade of C or higher.)

Lab Fee: \$35.00

Student Liability Fee: \$25.00

Terms Offered: Fall

ECE 1104 Introduction to Early Childhood Education (3)

Contact hours (3 total): 3 lecture

Provides a general introduction to the field of early childhood education related services that support children aged birth to five, and their families. Intended for those interested in the field of early childhood education or who are undecided about their teaching aspirations. Overview of the profession of early childhood education, the role of the teacher/caregiver, history of early childhood education, major models and programs, theories and practices, and current issues in the classroom and child care setting.

Prerequisite(s): CPE 0200, ENG 0800, or ENG 0850 (ENG 0800 must be successfully completed with a grade of A or B) and CPE 0300 or ENG 0900 (ENG 0900 with a grade of C or higher)

An appropriate college placement test, ACT, or SAT score will satisfy the respective CPE requirement.

Lab Fee: \$35.00

Student Liability Fee: \$25.00

Terms Offered: Fall

ECE 1105 Language and Literacy in Education (3)

Contact hours (3 total): 3 lecture

Language and literacy development 0-8. Foundational theories and practices enhancing language development, beginning reading and writing skills in young children. Study of children's literature, connecting language, phonemic awareness, and literacy activities to quality picture book titles, classroom use of different genres. Introduction to American Sign Language (ASL) for classroom use. Observations, methods, practical skills in Language Arts instructional methods and teacher-made materials.

Pre/Corequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher, and ECE 1102
Lab Fee: \$35.00
Terms Offered: Fall

ECE 1106 Health, Safety and Nutrition (2)

Contact hours (2 total): 2 lecture
Examination and discussion of content and issues related to the health, safety, and nutrition of young children aged birth through eleven. Explore safe learning environments, healthy nutrition, and positive interactions that support growth and development of young children. Ways to engage the family in supporting these practices including use of state licensing rules and trainings.

Prerequisite(s): ENG 0800 (a grade of C or higher is required)
Pre/Corequisite(s): (ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher, and ECE 1102)
Lab Fee: \$15.00
Student Liability Fee: \$25.00
Terms Offered: Fall

ECE 1108 Creative and Motor Development in Early Childhood (3)

Contact hours (3 total): 3 lecture
Creative and motor development birth through eight. Foundational learning theories in physical and creative development through play, visual art, music, and movement. Participation in activities of art, drama, music, and movement to enhance creative expression and development of critical thinking, processing, and problem-solving skills of the young child. Observation and resource portfolio.

Pre/Corequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher, and ECE 1102
Lab Fee: \$40.00
Terms Offered: Fall

ECE 1112 Cognitive Development in Early Childhood (3)

Contact hours (3 total): 3 lecture
Cognitive development birth through eight. Brain development, foundational cognitive development learning theories, and Ohio Department of Education (ODE) Early Learning Content Standards. Best practices in enhancing processing skills, problem solving and critical thinking in curriculum content areas math, science, social studies. Planning and implementing small group activities, preparing teacher-made materials for use in advancement of mathematics, science, and social studies skills. Observations, methods, and instructional strategies/skills.

Prerequisite(s): ENG 1111, ECE 1101, ECE 1102, and MTH 0500 with a grade of C or higher
Lab Fee: \$35.00
Terms Offered: Spring

ECE 1115 Observation and Assessment in Early Childhood (3)

Contact hours (3 total): 3 lecture
Observing, recording, assessing, and interpreting behaviors of young children. Emphasis on a variety of assessment tools and appropriate methodologies for collecting data for decision making. Ten hours of observation and field experience required.

Prerequisite(s): ECE 1101, ECE 1102, and ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher
Lab Fee: \$40.00
Student Liability Fee: \$20.00
Terms Offered: Spring

ECE 1200 Infant Toddler Curriculum (2)

Contact hours (2 total): 2 lecture
Exploration and discussion of high-quality care-giving and developmentally appropriate practices when engaging with infants and toddlers and their families. Importance of quality environments that support development, language and literacy, family engagement
Pre/Corequisite(s): ECE 1103 and ECE 1104 (or instructor permission)

Lab Fee: \$15.00
Student Liability Fee: \$25.00
Terms Offered: Spring

ECE 2100 Socioemotional Development in Early Childhood (3)

Contact hours (3 total): 3 lecture
Social and emotional development birth through age eight. Foundational theories of social-emotional development, relational-based/attachment theories, classic and contemporary discipline systems. Positive child guidance and group management techniques to foster self-control and self-discipline. Aggressive behavior intervention methodologies. Emphasis on community-based environment, anti-bias curriculum, and peace instruction to foster prosocial behaviors in young children. Observations required.

Prerequisite(s): ECE 1102, ECE 1115, and ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher
Lab Fee: \$35.00
Terms Offered: Fall

ECE 2120 Leadership, Management, Mentoring in Early Childhood Education (3)

Contact hours (3 total): 3 lecture
Guidelines for leading, staffing, organizing, budgeting, planning, monitoring, and controlling for quality in programs for young children. Examination of leadership styles, teacher development, guiding, and coaching in a variety of settings. Focus on creating culturally responsive and ethical programs through use of anti-bias teaching practices and incorporation of Code of Ethical Conduct in planning and implementation.
Prerequisite(s): ECE 1102, ECE 1115, and ENG 1111
Lab Fee: \$25.00
Terms Offered: Spring

ECE 2130 Practicum Field I (1)

Field Experience I, application of theory, planning, and implementing appropriate lessons in all Ohio Department of Education (ODE) Early Learning Content areas, observational and assessment skills, guidance and behavior management skills, professionalism. Completion of all paper work required for entrance into field experience including FBI/BCI fingerprinting, proof of all certifications, personal references, physical exam. 150 hours supervised experiences in approved field site.

Prerequisite(s): ECE 1102, ECE 1105, ECE 1112, ECE 1115, and ECE 1108
Pre/Corequisite(s): ECE 2100
Corequisite(s): ECE 2133
Instructor Permission Required.
Lab Fee: \$30.00
Student Liability Fee: \$20.00
Terms Offered: Fall

ECE 2133 Early Education Curriculum and Instruction (3)

Contact hours (3 total): 3 lecture
Plan, prepare, and implement appropriate curriculum with emphasis on curriculum models, Ohio Department of Education Content standards, goals, three-part objectives, lesson planning, teaching strategies, National Association for Education of Young Children (NAEYC) best practices, observation, documentation, screening, evaluation processes, review of classroom management principles, learning theories, code of conduct for professionalism, and teaching skills. Begin preparation for Praxis Examination.
Prerequisite(s): ECE 1102, ECE 1105, ECE 1112, ECE 1115, and ECE 1108
Pre/Corequisite(s): ECE 2100
Corequisite(s): ECE 2130
Instructor Permission Required.
Lab Fee: \$35.00
Terms Offered: Fall

ECE 2135 Practicum Field II (2)

Field Experience II, application of theory, child development, and skills in planning and implementing appropriate lessons, units of study. Lead day planning for environment, support staff, managing transitions, guiding and managing both small and large group settings. Professional behaviors working with mentor teacher, support teachers, staff, and parents. Completion of observational tools, including case studies, assessment tools, and documentation of learning expected. 210 hours supervised experiences and final evaluation by mentor teacher and Clark State instructor. Final capstone oral presentation and learning summaries of program goals and field experience.
Prerequisite(s): ECE 2130 and ECE 2133
Corequisite(s): ECE 2137
Instructor Permission Required.
Lab Fee: \$30.00
Student Liability Fee: \$20.00
Terms Offered: Spring

ECE 2137 Seminar II (2)

Contact hours (2 total): 2 lecture
Preparation for field experience II, planning appropriate lessons in all content areas, including creative experiences, use of Ohio Department of Education (ODE) Early Learning Content Standards, planning for environment at field site, observations, assessments. Peer and teacher evaluations, small and large group planning, ten lead days, planning for routine, guidance, support staff, and transitions. Analysis of experiences gained in field, preparation of capstone portfolio and final oral evaluation. Completion of all paper work, documentation needed for entering field site. Praxis examination practice.

Prerequisite(s): ECE 2130 and ECE 2133
Corequisite(s): ECE 2135
Instructor Permission Required.
Lab Fee: \$30.00
Terms Offered: Spring

(ECO) Economics

ECO 1100 General Economics (3)

Contact hours (3 total): 3 lecture
Introduction to basic economic concepts and topics such as resource allocation, costs, supply, demand, public goods, capitalism, market failures, gross domestic product, unemployment, population, inflation, unemployment, taxation, money creation, monetary policy, international trade, and other policy issues. Serves as General Education elective for students whose programs do not require ECO 2210 and ECO 2220.
Prerequisite(s): ENG 1111
Terms Offered: Fall, Spring, Summer

ECO 2210 Principles of Macroeconomics (3)

Contact hours (3 total): 3 lecture
Fundamentals of economics from a macro perspective including gross domestic product (GDP), level of employment, inflation, monetary and fiscal policies, trends and cycles.
Prerequisite(s): ENG 1111
Terms Offered: Fall, Spring, Summer

ECO 2220 Principles of Microeconomics (3)

Contact hours (3 total): 3 lecture
Fundamentals of economics from a micro perspective including elasticity, market efficiency, government intervention, consumer choice theory, production cost, market structures, market pricing, externalities, imperfect information, and public goods.
Prerequisite(s): ENG 1111
Terms Offered: Fall, Spring, Summer

(EDU) Education

EDU 1110 Introduction to Education (3)

Contact hours (3 total): 3 lecture
Purposes, organizations and outcomes of schooling grounded in social foundations of education. Critical inquiry into teaching as a profession, licensure requirements, teachers' legal rights and responsibilities, and accountability of public schools. Examine historical and philosophical foundations, demographic factors, and issues of culturally responsive teaching practice. Requires (4) hours of observation and completion of interviews.
Pre/Corequisite(s): ENG 0800 with a grade of A, or ENG 0850 with a grade of C or higher
Student Liability Fee: \$25.00
Lab Fee: \$20.00
Terms Offered: Fall, Spring

EDU 2110 Family, Community, Schools (3)

Contact hours (3 total): 3 lecture
Effect of family and community environment on the learner. Effect of culture, disability, and socioeconomic status on collaboration and interaction with families. Strategies to promote effective collaboration with emphasis on listening, communication, confidentiality,

problem solving, stress management, ethics, and role as a team member. Field observation and participation.
Prerequisite(s): ENG 1111, ENG 1112, and ECE 1103
Pre/Corequisite(s): ECE 1102, ENG 1111, and ENG 1112
Lab Fee: \$35.00
Terms Offered: Spring

EDU 2217 Individuals with Exceptionalities (3)

Contact hours (3 total): 3 lecture
Overview of exceptionalities, inclusive & self-contained education programs with an opportunity to observe classroom methods, management and strategies for flexible adaptive planning in educational settings. Topics include learner development and individual learning differences, learning environments, curricular content knowledge, assessment, instructional planning and strategies, professional learning and ethical practice & dispositions, and collaborations with families, schools, and communities.
Prerequisite(s): ECE 1102 or EDU 1110 and ENG 1111
Pre/Corequisite(s): ENG 1112
Student Liability Fee: \$30.00
Lab Fee: \$20.00
Terms Offered: Spring

(EMS) Emergency Medical Services

EMS 1100 EMT Theory & Practice (7)

Contact hours (10 total): 6 lecture, 4 lab
Meets current standards of the State of Ohio Division of Emergency Medical Services (EMS) for the Emergency Medical Technician (EMT). Recognizing nature and seriousness of patient's condition/extent of injuries; administering appropriate emergency medical care, developing self confidence, communication skills, and accurate record keeping. Clinical/field observations. Successful students eligible to take Ohio's EMT certification testing.
Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher, ENG 0900 with a grade of C or higher, and MTH 0500 with a grade of C or higher
Corequisite(s): Criminal background check and EMS 1171
Lab Fee: \$150.00
Student Liability Fee: \$62.00
Certification Fee: \$80.00
Terms Offered: Fall, Spring, Summer

EMS 1112 Paramedic Hospital Practice I (1)

Beginning of the clinical practice in the hospital setting observing and practicing skills evaluated in the college laboratory. Includes emergency department.
Corequisite(s): EMS 1131
Instructor Permission Required.
Student Liability Fee: \$62.00
Other Fee: \$90.00
Terms Offered: Fall

EMS 1114 Paramedic Hospital Practice II (1)

Continuing clinical practice in the hospital setting observing and practicing skills evaluated in the college laboratory. Includes emergency department, intensive care, and operating room rotations.
Prerequisite(s): EMS 1112
Corequisite(s): EMS 1133
Instructor Permission Required.
Terms Offered: Spring

EMS 1116 Paramedic Hospital Practice III (1)

Continuing clinical practice in the hospital setting observing and practicing skills evaluated in the college laboratory. Includes emergency department, intensive care, and operating room rotations.
Prerequisite(s): EMS 1114
Instructor Permission Required.
Terms Offered: Summer

EMS 1122 Paramedic Field Practice I (1)

Beginning level of pre-hospital experience with a paramedic team, observing daily responsibilities of the paramedic, opportunity to go on EMS calls, progressing from observation to participant role with the advanced life-support team.
Corequisite(s): EMS 1131
Instructor Permission Required.
Terms Offered: Fall

EMS 1124 Paramedic Field Practice II (1)

Continuation of prehospital experience with a paramedic team, observing the daily responsibilities of the paramedic, giving the student the opportunity to go on EMS calls progressing from an observation role to a participant/leadership role with the Advanced Life Support team.
Prerequisite(s): EMS 1122
Corequisite(s): EMS 1133
Instructor Permission Required.
Terms Offered: Spring

EMS 1126 Paramedic Field Practice III (1)

Continuation of prehospital experience with a paramedic team, observing the daily responsibilities of the paramedic, giving the student the opportunity to go on EMS calls progressing from an observation role to a participant/leadership role with the Advanced Life Support team.
Prerequisite(s): EMS 1124
Instructor Permission Required.
Terms Offered: Summer

EMS 1128 Paramedic Field Practice IV (1)

Continuation of prehospital experience with a paramedic team, observing the daily responsibilities of the paramedic, giving the student the opportunity to go on EMS calls progressing from an observation role to a participant/leadership role with the Advanced Life Support team.
Pre/Corequisite(s): EMS 1126
Corequisite(s): EMS 1135
Instructor Permission Required.
Student Liability Fee: \$62.00
Terms Offered: Fall, Summer

EMS 1131 Paramedic Theory I (6)

Contact hours (6 total): 6 lecture
Introduction to emergency medical services advanced life support following EMT Paramedic National Standard Curriculum. Prehospital environment, overview of roles and responsibilities, EMS systems, medical ethical/legal aspects, therapeutic and professional communications, stress management in emergency services, advanced patient assessment, advanced airway management, IV therapy, introduction to respiratory and cardiac emergencies, emergency pharmacology and medication administration.

Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher, ENG 0900 with a grade of C or higher, MTH 0500 with a grade of C or higher, Ohio Basic EMT Certification, BIO 1105, and MST 1105 and Ohio Basic EMT Certification, BIO 1105, and MST 1105

Corequisite(s): EMS 1112, EMS 1122, and EMS 1141
Instructor Permission Required.

Terms Offered: Fall

EMS 1133 Paramedic Theory II (6)

Contact hours (6 total): 6 lecture

Application of concepts from Paramedic Theory I. Treatment plans for cardiovascular, neurologic, endocrine, gastroenterologic, renal, urologic, gynecologic, obstetric, and specific neonatal, pediatric, and geriatric disorders, allergies and anaphylaxis, toxic exposure, infectious and communicable diseases, environmentally induced emergencies, behavioral emergencies, trauma, acute deterioration of chronic illness, patients with special challenges, and victims of abuse or assault. Management of emergency scene.

Prerequisite(s): EMS 1131

Corequisite(s): EMS 1114, EMS 1124, and EMS 1143

Instructor Permission Required.

Terms Offered: Spring

EMS 1141 Paramedic Practical Skills Lab I (1.6)

Contact hours (5 total): 5 lab

Practical skills lab to support course outcomes and learning objectives of EMS 1131.

Corequisite(s): EMS 1131

Instructor Permission Required.

Lab Fee: \$200.00

Terms Offered: Fall

EMS 1143 Paramedic Practical Skills Lab II (1.7)

Contact hours (5 total): 5 lab

Practical skills lab to support course outcomes and learning objectives of EMS 1133 and previously learned skills.

Prerequisite(s): EMS 1141

Corequisite(s): EMS 1133

Instructor Permission Required.

Lab Fee: \$200.00

Certification Fee: \$150.00

Terms Offered: Spring

EMS 1145 Paramedic Practical Skills Lab III (1.7)

Contact hours (5 total): 5 lab

Practical skills lab to support course outcomes and learning objectives of EMS 1133 and EMS 1135 and previously learned skills.

Prerequisite(s): EMS 1143

Corequisite(s): EMS 1135

Instructor Permission Required.

Lab Fee: \$200.00

Terms Offered: Fall, Summer

EMS 1171 Basic Life Support: CPR (0.5)

Contact hours (0.5 total): 0.5 lecture

Introduction to respiratory and circulatory emergency in infants, children, and adults. Instruction and treatment methods in community and professional cardiopulmonary resuscitation in accordance with the American Heart Association guidelines.

Lab Fee: \$15.00

Terms Offered: Fall, Spring, Summer

EMS 2210 Community Paramedic (4)

Contact hours (4 total): 4 lecture

Survey of the role and function of the Community Paramedic (CP) as a member of the healthcare team functioning in the community under Ohio's paramedic scope of practice. Role of the CP as an advocate for clients in the community. Mapping of community healthcare services and determining demographic impact on the health of clients. Assessing patient healthcare needs and appraising healthcare conditions. Documentation of patient/client encounters.

Prerequisite(s): (The Community Paramedic student must have at least two years experience as a certified paramedic and submit a program recommendation from a physician board-certified in Emergency Medicine.)
Instructor Permission Required.

Terms Offered: Fall

EMS 2288 Paramedic Theory/RNs (5)

Contact hours (7 total): 4 lecture, 3 lab

A complete paramedic curriculum, pre-hospital environment, preparatory, trauma, burns, medical emergencies, OBG/GYN neonatal, and behavioral emergencies for the registered nurse with experience in the care of critically ill or injured patients. An emphasis is placed on practical knowledge in the college laboratory, hospital clinical setting, and field internship. RNs are given credit for past experience for their nursing education and experience.

Prerequisite(s): RN, ACLS, PHTLS, BTLs, PALS, min 2 yrs critical care, TNCC, Ohio EMT-Basic Certification
Instructor Permission Required.

Lab Fee: \$150.00

Student Liability Fee: \$62.00

Certification Fee: \$150.00

Terms Offered: Spring

EMS 2900 Special Topics EMT Theory & Practice I (3.5)

Contact hours (5 total): 3 lecture, 2 lab

Meets current standards of the State of Ohio Division of Emergency Medical Services (EMS) for the Emergency Medical Technician (EMT). Recognizing nature and seriousness of patient's condition/extent of injuries; administering appropriate emergency medical care, developing self confidence, communication skills, and accurate record keeping. Clinical/field observations. Successful students eligible to take Ohio's EMT certification testing.

Prerequisite(s): CPE 0200 or ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher, CPE 0400 or ENG 0900 with a grade of C or higher, and CPE 0500 or MTH 0500 with a grade of C or higher

Corequisite(s): Criminal background check and EMS 1171
Instructor Permission Required.

Lab Fee: \$75.00

Terms Offered: Fall, Spring, Summer

EMS 2901 Special Topics EMT Theory & Practice II (3.5)

Contact hours (5 total): 3 lecture, 2 lab

Meets current standards of the State of Ohio Division of Emergency Medical Services (EMS) for the Emergency Medical Technician (EMT). Recognizing nature and seriousness of patient's condition/extent of injuries; administering appropriate emergency medical care, developing self confidence, communication skills, and

accurate record keeping. Clinical/field observations. Successful students eligible to take Ohio's EMT certification testing.
Prerequisite(s): CPE 0200 or ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher, CPE 0400 or ENG 0900 with a grade of C or higher, and CPE 0500 or MTH 0500 with a grade of C or higher and EMS 2900
Corequisite(s): Criminal background check and EMS 1171
Instructor Permission Required.
Lab Fee: \$75.00
Student Liability Fee: \$62.00
Terms Offered: Fall, Spring, Summer

(ENG) English

ENG 0800 College Reading Comprehension I (3)

College reading skills at the fundamental to intermediate level. General reading comprehension skills, vocabulary development, and study skill strategies needed for college-level courses. Institutional credit only.

Prerequisite(s): (Appropriate placement score)
Corequisite(s): FYE 1000, FYE 1100, AGR 1100, or ENT 1000
Terms Offered: Fall, Spring, Summer

ENG 0850 College Reading Comprehension II (3)

Contact hours (3 total): 3 lecture
College reading skills at the intermediate level, displaying competency in reading college level texts. General reading comprehension skills, vocabulary development, and study skill strategies needed for college-level courses. Institutional credit only.

Prerequisite(s): ENG 0800 (with a grade of B or C, or appropriate placement score)
Corequisite(s): FYE 1000, FYE 1100, AGR 1100, or ENT 1000
Terms Offered: Fall, Spring, Summer

ENG 0900 College Writing Essentials (3)

Prepares students for English 1111. Builds reading and writing skills, introduces students to MLA guidelines and the college's library. Institutional credit only.

Prerequisite(s): (Appropriate placement score)
Pre/Corequisite(s): FYE 1000, FYE 1100, AGR 1100, or ENT 1000
Corequisite(s): ENG 1111
Terms Offered: Fall, Spring, Summer

ENG 0950 College Writing Workshop (1)

Contact hours (1 total): 1 lecture
Supports students in English 1111. Continues to build reading and writing skills, emphasis on revising, editing, reflecting, and individualized goal setting. Institutional credit only.

Prerequisite(s): ENG 0900 with a grade of C or repeating ENG 1111
Pre/Corequisite(s): FYE 1000, FYE 1100, AGR 1100, or ENT 1000
Corequisite(s): ENG 1111
Terms Offered: Fall, Spring, Summer

ENG 1111 English I (3)

Contact hours (3 total): 3 lecture
Writing and revising process, academic and argumentative essays; literary examples of descriptive, narrative, expository, and persuasive modes; language issues and library skills. Writing intensive. Primary focus on formal, written work, composed for a variety of audiences. (Note: If repeating ENG 1111, must also register for ENG 0950)
Prerequisite(s): ENG 0800 with a grade of C or higher and ENG 0900 with a grade of C or higher
Pre/Corequisite(s): ENG 0800 with a grade of A, or ENG 0850
Terms Offered: Fall, Spring, Summer

ENG 1112 English II (3)

Contact hours (3 total): 3 lecture
Critical thinking. Critical thinking, persuasive writing, research skills, and literary analysis. Writing intensive. Writing a variety of texts, including the researched essay. Opportunities for revision. Minimum of 5000 total words (20 pages). Electronic or other projects of academic rigor and substance considered. Primary focus on formal, written work.
Prerequisite(s): ENG 1111 with a grade of C or higher
Terms Offered: Fall, Spring, Summer

ENG 1600 Introduction to Literature (3)

Contact hours (3 total): 3 lecture
Critical readings, discussion and analysis of poetry, fiction, and drama.
Pre/Corequisite(s): ENG 1111
Global Awareness.
Terms Offered: Fall, Spring, Summer

ENG 2211 Business Communication (3)

Contact hours (3 total): 3 lecture
Preparing and analyzing business documents using fundamental business communication principles and standards, technology, critical thinking skills, and research techniques in preparation for the workplace. Substantial focus on customs and traditions of a non-English-speaking country and the impact of those customs and traditions on expanding American business to that country. Development of oral communication skills using appropriate technology, strategy, and methods. Use of digital recording and PowerPoint slide projection equipment in online sections.
Prerequisite(s): ENG 1111 or OAD 1105
Global Awareness.
Terms Offered: Fall, Spring, Summer

ENG 2230 Technical Report Writing (3)

Contact hours (3 total): 3 lecture
Technical communications encountered on the job, including memos, technical definitions, descriptions, instructions and procedures, proposals, progress reports, analytical reports, oral presentations, and e-mail.
Prerequisite(s): ENG 1111
Terms Offered: Summer

ENG 2250 Creative Writing (3)

Contact hours (3 total): 3 lecture
Introduction and discussion of three major literary genres: fiction, poetry, and drama. Writing a collection

of poems, short and long fiction, a one-act script, a screen play or play, and a literary analysis.

Prerequisite(s): ENG 1111

Pre/Corequisite(s): ENG 1112

Terms Offered: Fall

ENG 2300 Great Books: World Literature (3)

Contact hours (3 total): 3 lecture

Chronological selection of the major works, genres, and periods of world literature beginning with the ancients and progressing through modern times.

Prerequisite(s): ENG 1111

Pre/Corequisite(s): ENG 1112

Global Awareness.

Terms Offered: Fall, Spring, Summer

ENG 2500 American Literature (3)

Contact hours (3 total): 3 lecture

Themes, ideas, and periods in American literature from its beginning through modern times.

Prerequisite(s): ENG 1111

Pre/Corequisite(s): ENG 1112

Terms Offered: Fall

ENG 2510 American Literature I (3)

Contact hours (3 total): 3 lecture

Survey of American literary works from colonial times to 1865. Major writers, literary movements, forms and themes of national literature.

Prerequisite(s): ENG 1111

Pre/Corequisite(s): ENG 1112

Terms Offered: Fall

ENG 2520 American Literature II (3)

Contact hours (3 total): 3 lecture

Survey of American literary works from 1865 to present. Major writers, literary movements, forms and themes of national literature.

Prerequisite(s): ENG 1111

Pre/Corequisite(s): ENG 1112

Instructor Permission Required.

Terms Offered: Spring

ENG 2610 British Literature to 1800 (3)

Contact hours (3 total): 3 lecture

Survey of the major works and periods of British literature from 700 to 1800.

Prerequisite(s): ENG 1111

Pre/Corequisite(s): ENG 1112

Global Awareness.

Terms Offered: Fall, Summer

ENG 2620 British Literature from 1800 to the Present (3)

Contact hours (3 total): 3 lecture

Survey of major works, themes ideas, and periods of British literature from 1800 to the present time.

Prerequisite(s): ENG 1111 and ENG 1112

Terms Offered: Spring

(ENT) Engineering Technology

ENT 1000 Introduction to Industrial and Engineering Technology (3)

Contact hours (4 total): 2 lecture, 2 lab

Exploration of industrial and engineering technology careers. Introduction to sketching, critical thinking, design, and project management skills. Introduction

to campus resources and computer services. Time management, study skills, communication skills.

Using electronic media for information gathering, presentations, communication and data management.

Prerequisite(s): Must have a NextGen Accuplacer score of Reading 220+, Writing 2+, Pre-Algebra/Math 220+
Lab Fee: \$25.00

Terms Offered: Fall, Spring, Summer

ENT 1050 Manufacturing Foundations (4)

Contact hours (6 total): 2 lecture, 4 lab

Instruction in print reading and part visualization from drawings, including sketching multi-view drawings and three-dimensional models, location of key features and dimensioning specifications. Beginning concepts in geometric dimensioning and tolerancing. Instruction in using precision measurement tools including, but not limited to: scales, calipers, micrometers, dial indicators, coordinate measurement machines. The use of computer interfaces in metrology and basic statistical process control. Topics in lean manufacturing.

Pre/Corequisite(s): ENT 1000 and Must have a NextGen Accuplacer score of Reading 220+, Writing 2+, Pre-Algebra/Math 220+

Lab Fee: \$25.00

Terms Offered: Fall, Spring

ENT 1310 Computer Numerical Control (CNC) Machine Operator - Turning (3)

Contact hours (4 total): 2 lecture, 2 lab

Focuses on the Computer Numerical Control (CNC) lathe machine operator, including such tasks as maintaining machines, recording Statistical Process Control (SPC) data, tool identification and set-up, machining processes and quality inspection.

Pre/Corequisite(s): ENT 1000 and ENT 1050

Lab Fee: \$100.00

Terms Offered: Fall, Spring

ENT 1320 Computer Numerical Control (CNC) Machine Operator - Milling (3)

Contact hours (4 total): 2 lecture, 2 lab

Focuses on the Computer Numerical Control (CNC) milling machine operator, including such tasks as maintaining machines, recording Statistical Process Control (SPC) data, tool identification and set-up, machining processes and quality inspection.

Pre/Corequisite(s): ENT 1000 and ENT 1050

Lab Fee: \$100.00

Terms Offered: Fall, Spring

ENT 1330 Fundamentals of Computer Numerical Control (CNC) (3)

Contact hours (4 total): 2 lecture, 2 lab

An introduction to G and M codes necessary to program Computer Numerical Controlled (CNC) machines with an emphasis on programming and operations of machining and turning centers. Emphasis on tool geometry, tool selection, and the tool library. Instruction in Computer-Aided Manufacturing (CAM) software.

Prerequisite(s): ENT 1310 and ENT 1320

Lab Fee: \$50.00

Terms Offered: Fall, Spring

ENT 1410 Introduction to Additive Manufacturing (3)

Contact hours (4 total): 2 lecture, 2 lab
 Principles of the applications of Additive Manufacturing. Advantages of using Additive Manufacturing over traditional Subtractive Manufacturing processes. An overview of the most widely used technologies, materials and applications. Create files, select appropriate technology, build settings and parameters, and print complex three-dimensional parts.
 Prerequisite(s): CAD 2100
 Lab Fee: \$100.00
 Terms Offered: Fall, Spring

ENT 1420 Rapid Prototyping Model Design and Fabrication (3)

Contact hours (4 total): 2 lecture, 2 lab
 Examines the key elements of product development from the concept through design to production. Provides knowledge of the theory of Rapid Prototyping and enables critical thinking in new product development, process building, sustainability, and innovation theories. Engineering parts inspection and reverse engineering processes employing 3 Dimensional (3D) printing, scanning, and Coordinate Measuring.
 Prerequisite(s): ENT 1410 and CAD 2100
 Lab Fee: \$100.00
 Terms Offered: Fall, Spring

ENT 1450 Direct Current (DC) Circuits (3)

Contact hours (4 total): 2 lecture, 2 lab
 Examine series, parallel, and series-parallel circuits. Apply circuits laws and theorems including Kirchhoff's Law, Thevenin's Theorem, Norton's Theorem, and superposition theorem. Analyze electrical components and determine their role in an electrical circuit. Discussion of capacitors and inductance.
 Pre/Corequisite(s): MTH 1280 and ENT 1000
 Lab Fee: \$25.00
 Terms Offered: Fall, Spring

ENT 1460 Alternating Current (AC) Circuits (3)

Contact hours (4 total): 2 lecture, 2 lab
 Examine Alternating Current (AC) fundamentals including complex numbers, impedance concepts, resonance, transformers, superposition theorem, Thevenin's Theorem, Norton's Theorem, and power transfer theorems.
 Prerequisite(s): ENT 1450 and MTH 1340
 Lab Fee: \$25.00
 Terms Offered: Fall, Spring

ENT 1500 Engineering Materials (3)

Contact hours (4 total): 2 lecture, 2 lab
 Structural and mechanical properties of ferrous (iron) and non-ferrous (aluminum, copper, nickel, etc.) materials and alloys. Non-metallic materials such as glass, ceramics, concrete, wood, and electromagnetic and semi-conductor materials.
 Prerequisite(s): ENT 1000 and ENT 1050
 Lab Fee: \$20.00
 Terms Offered: Fall, Spring

ENT 1600 Introduction to Robotics (3)

Contact hours (4 total): 2 lecture, 2 lab
 Investigating the history and evolution of robotics. Classification and characteristics of robots, robotic applications, and safety protocols. Introduction of

various industrial robotic teach pendants and robotic movement. Introduction to robotic programming.
 Pre/Corequisite(s): ENT 1000 and ENT 1050
 Lab Fee: \$30.00
 Terms Offered: Fall, Spring

ENT 1650 Robotic Applications (3)

Contact hours (4 total): 2 lecture, 2 lab
 Program and operate FANUC and Motoman robots. Develop programming skills for material handling, including the integration of vision systems and conveyors.
 Prerequisite(s): ENT 1600
 Lab Fee: \$30.00
 Terms Offered: Fall, Spring

ENT 1700 Robot Maintenance (3)

Contact hours (4 total): 2 lecture, 2 lab
 Robot maintenance procedures, preventive maintenance, and troubleshooting techniques. Hands-on maintenance and troubleshooting.
 Prerequisite(s): ENT 1600
 Lab Fee: \$30.00
 Terms Offered: Fall, Spring

ENT 1750 Robotic Welding (3)

Contact hours (4 total): 2 lecture, 2 lab
 Program and operate a FANUC robotic weld cell. Introduction to Gas Metal Arc Welding (GMAW), including safety, joint designs, and troubleshooting.
 Prerequisite(s): ENT 1600
 Lab Fee: \$100.00
 Terms Offered: Fall, Spring

ENT 2100 Manufacturing Processes (3)

Contact hours (4 total): 2 lecture, 2 lab
 Overview of manufacturing process, including machine tool operations, metal forming, welding processes, and casting. Setup and operation of metal lathe, mill, drill press, band saw, and grinder for the completion of lathe and milling projects.
 Prerequisite(s): ENT 1000 and ENT 1050
 Lab Fee: \$50.00
 Terms Offered: Fall, Spring

ENT 2200 Statics (3)

Contact hours (4 total): 2 lecture, 2 lab
 The force analysis of rigid bodies at rest: vectors, forces, moments, centroids, equilibrium conditions, analysis of trusses and frames, friction, moments of inertia, and applications.
 Prerequisite(s): ENT 1000 and MTH 1340
 Pre/Corequisite(s): PHY 1501
 Lab Fee: \$10.00
 Terms Offered: Fall, Spring

ENT 2300 Strength of Materials (3)

Contact hours (4 total): 2 lecture, 2 lab
 Equilibrium, stress and strain, review of centroids and moments of inertia, torsion, stresses and deflections in beams, combined loading, compression members, and Mohr's Circle Method.
 Prerequisite(s): ENT 2200
 Lab Fee: \$15.00
 Terms Offered: Fall, Spring

ENT 2500 Digital Switching (3)

Contact hours (4 total): 2 lecture, 2 lab
Principles and applications of digital systems. Combinational and sequential logic from a systems approach. Integrated circuits, digital timing diagrams, and waveforms. Programmable logic devices.
Prerequisite(s): ENT 1100 and INT 1500
Pre/Corequisite(s): MTH 1340
Lab Fee: \$15.00
Terms Offered: Spring

ENT 2600 Engineering Design (3)

Contact hours (4 total): 2 lecture, 2 lab
Analysis of machine design. Design and development of engineering drawings for machine components. Converting engineering drawings into working prototypes. Computer simulations and destructive testing on designs.
Prerequisite(s): ENT 1000 or ENT 1100 and ENT 1050 or ENT 1300
Pre/Corequisite(s): ENT 2100
Lab Fee: \$40.00
Terms Offered: Fall, Spring

ENT 2700 Engineering Technology Project (3)

Contact hours (4 total): 2 lecture, 2 lab
Capstone class. Application of industrial and engineering technology skills to design, fabricate, install, document and debug a class-designed project of a scale and type normally done in-house by local plants in the areas of engineering and design.
Prerequisite(s): ENT 2600, ENT 2100, and ENG 1112
Lab Fee: \$20.00
Terms Offered: Spring

(FFC) Fire Fighter Certificate**FFC 1010 Volunteer Firefighter (1)**

Contact hours (2.70 total): 0.20 lecture, 2.5 lab
Basic firefighter course used by volunteer fire departments. Minimum training, State of Ohio defined as Awareness level only. (SCBA) self contained breathing apparatus, hose streams, fire behavior. (Financial aid is not available for this course.)
Prerequisite(s): NIMS 100, 700 and ENG 0800 with a grade of C or higher
Instructor Permission Required.
Lab Fee: \$155.00
Terms Offered: Fall, Spring, Summer

FFC 1020 Firefighter I Transition (5)

Contact hours (8 total): 3.5 lecture, 4.5 lab
Bridge course to expand a 36-hour volunteer firefighter to a level I firefighter. Permits a firefighter to enter and operate at a fire from the interior of a building. (Financial aid is not available for this course.)
Prerequisite(s): ENG 0800 with a grade of C or higher and FFC 1010 (valid 36-hour volunteer certification) and NIMS 100, 700
Instructor Permission Required.
Lab Fee: \$254.00
Terms Offered: Fall, Spring, Summer

FFC 1070 Firefighter I (7)

Contact hours (11 total): 3 lecture, 8 lab
Expanded initial firefighter training. Basic and intermediate level training in all aspects of firefighting

for those beginning a career path as a firefighter. (Financial aid not available for this course.)
Prerequisite(s): ENG 0800 with a grade of C or higher and NIMS 100, 700
Instructor Permission Required.
Lab Fee: \$125.00
Terms Offered: Fall, Spring, Summer

FFC 2020 Firefighter II (4)

Contact hours (7 total): 1 lecture, 6 lab
Instruction in advanced techniques of fire behavior, hazardous material, and rescue. This course meets the National Fire Protection Association (NFPA) 1001 standard for career firefighter with instruction in advanced techniques. (Financial aid not available for this course.)
Prerequisite(s): FFC 1060 or FFC 1070
Instructor Permission Required.
Lab Fee: \$475.00
Terms Offered: Fall, Spring, Summer

FFC 2050 Firefighter I & II (11)

Contact hours (17.5 total): 4.5 lecture, 13 lab
Firefighter training program. 260-hour course encompasses all aspects of fire, rescue, hazardous materials, and extrication. Meets all NFPA 1001 standards. (Financial aid is not available for this course.)
Prerequisite(s): ENG 0800 with a grade of C or higher and NIMS 100, 700
Instructor Permission Required.
Lab Fee: \$325.00
Terms Offered: Fall, Spring, Summer

FFC 2070 PSI (Public Safety Instructor) (3)

Contact hours (5 total): 2 lecture, 3 lab
Meets the State of Ohio and (NFPA) National Fire Protection Association 1041 standard for fire service instructor I and II. Basic instructional knowledge to develop skills for preparing and presenting training for fire and emergency services personnel. (Financial aid is not available for this course.)
Prerequisite(s): State of Ohio Level II Firefighter Card
Instructor Permission Required.
Terms Offered: Fall, Spring

FFC 2080 FSI (Fire Safety Inspector) (3)

Contact hours (5 total): 2 lecture, 3 lab
Meets the requirements for the fire safety inspector as required by H.B. 590 and (NFPA) National Fire Protection Association 1031. Fundamental knowledge and skills necessary to conduct fire safety inspections. Various codes needed to develop a working knowledge of the inspection process. (Financial aid is not available for this course.)
Prerequisite(s): Firefighter certification and Other (Check with College's Fire Training Coordinator)
Instructor Permission Required.
Terms Offered: Fall, Spring

(FRN) French**FRN 1111 French I (3)**

Contact hours (3 total): 3 lecture
Beginning-level vocabulary and structures of French. Practice speaking, reading, writing, and listening in the target language. Introduction to indicative mood of regular and irregular verbs; preterit and imperfect. Not

for credit if successfully completed equivalent course at any other accredited institution.

Prerequisite(s): ENG 0800 with a grade of C or higher, and ENG 0900 with a grade of C or higher

Pre/Corequisite(s): ENG 1111

Global Awareness.

FRN 1112 French II (3)

Contact hours (3 total): 3 lecture

Further study of the vocabulary and structure of the French language; practice in speaking, reading, listening comprehension, and writing. Introduction to commands, present and imperfect subjunctive moods, future, and conditional. Not for credit if successfully completed equivalent course at any other accredited institution.

Prerequisite(s): FRN 1111 with a C or higher (or equivalent course at accredited institution or instructor permission)

Global Awareness.

FRN 2111 French III (3)

Grammar review. Reading and discussion of selected texts with practice in speaking and writing the language.

Prerequisite(s): FRN 1112 with a C or higher, equivalent course at accredited institution, or instructor permission

Pre/Corequisite(s): ENG 1111

Global Awareness.

Terms Offered: Fall

(FST) Food Science Technologies

FST 1100 Introduction to Food Science (3)

Contact hours (4 total): 2 lecture, 2 lab

Fundamental concepts in food science including food processing, food chemistry, human nutrition, food safety, and sanitation. Students will be handling and processing food.

Prerequisite(s): ENG 0900 with a grade of C or higher, and MTH 0500 with a grade of C or higher

Lab Fee: \$50.00

Terms Offered: Fall

FST 1200 Introduction to Food Processing (3)

Contact hours (4 total): 2 lecture, 2 lab

Fundamental concepts in food processing, including unit operations, food formulations, identification of major processing equipment, and basic quality assurance techniques.

Prerequisite(s): FST 1100

Pre/Corequisite(s): AGR 1100 and ENG 1111

Lab Fee: \$50.00

Certification Fee: \$90.00

Terms Offered: Spring

FST 2000 Food Marketing (3)

Contact hours (4 total): 2 lecture, 2 lab

Management of marketing functions in food industry, focusing on stages of research processes including planning, gathering, analyzing, and interpreting data related to food marketing management.

Prerequisite(s): ENG 0900 with a grade of C or higher

Terms Offered: Fall

FST 2300 Hazard Analysis and Critical Control Points (HACCP) (3)

Contact hours (4 total): 2 lecture, 2 lab

Introduction to relationship of Good Manufacturing Practices (GMPs), Sanitation Standard Operating Procedures (SSOPs), the seven principles of Hazard Analysis and Critical Control Points (HACCP), and proper control of physical, chemical, and biological hazards.

Prerequisite(s): FST 1200

Lab Fee: \$50.00

Certification Fee: \$65.00

Terms Offered: Fall

FST 2400 Food Laws and Regulations (3)

Contact hours (3 total): 3 lecture

Introduction to laws, regulations, history, and policies that govern food regulation in the United States.

Prerequisite(s): FST 2300

Terms Offered: Spring

FST 2700 Advanced Topics in Food Science (4)

Contact hours (6 total): 2 lecture, 4 lab

Development of strategy and policy, industry analysis of product development, and process implementation. Coordination of food science, food processing, marketing, Hazard Analysis and Critical Control Points (HACCP), and food law and regulation.

Prerequisite(s): FST 2000 and FST 2300

Corequisite(s): FST 2400

Lab Fee: \$50.00

Terms Offered: Spring

(FYE) First Year Experience

FYE 1100 College Success (1)

Contact hours (1 total): 1 lecture

Demonstrate effective studying, note-taking, and test-taking techniques; apply critical thinking skills to coursework and college and career planning; and examine college culture and resources and personal skills and behaviors related to successful academic performance.

Terms Offered: Fall, Spring, Summer

(GEO) Geography

GEO 1000 Introduction to Cartography with GIS (3)

Contact hours (4 total): 2 lecture, 2 lab

Geographic Information Systems (GIS), their capabilities, uses, and limitations. Basic cartographic concepts including manipulation, analysis, and graphic representation of spatial information. Emphasis on technology of map design principles with GIS and desktop mapping programs.

Prerequisite(s): ENG 0800 with a grade of A or ENG

0850 with a grade of C or higher, and MTH 0500 with a grade of C or higher

Global Awareness.

Lab Fee: \$50.00

Terms Offered: Fall, Spring, Summer

GEO 1100 Human Geography (3)

Contact hours (3 total): 3 lecture

Survey of the distribution of culture, language, religion, and economic and political activities across the world; the role of ethnicity and the occurrence of ethnic conflict; map of the distribution of human activities, links between culture and politics, culture and religion, economic development, and natural resources; rural and urban settlements and patterns of population growth.

Pre/Corequisite(s): ENG 1111

Global Awareness.

Terms Offered: Fall, Spring

GEO 1400 Introduction to Physical Geography (3)

Contact hours (3 total): 3 lecture

Earth-Sun relationships and their connection to latitude and longitude; the processes responsible for the evolution of surface landscapes; general weather patterns; general climate zones and soil profiles; how climate variations relate to global distributions of plants and animals; glacial, fluvial, coastal landscapes, and the processes associated with them; components associated with weather and atmospheric processes such as cloud types, precipitation, pressure, and wind; global environmental change and factors responsible for it.

Pre/Corequisite(s): ENG 1111

Terms Offered: Fall, Spring

GEO 2200 World Regional Geography (3)

Contact hours (3 total): 3 lecture

Human interaction with the physical environment across regions; cultural practices, religious practices, and political practices and their interaction with the natural surroundings; human impact on the environment and the impact of the environment on human activities; mapping the distribution of these activities across the globe; comparing and contrasting major world regions.

Pre/Corequisite(s): ENG 1111

Global Awareness.

Terms Offered: Fall, Spring, Summer

(GLG) Geology

GLG 1130 Earth and Space Science (4)

Contact hours (5 total): 3 lecture, 2 lab

Introduction to the earth sciences. Concepts developed in astronomy, geology, oceanography, and meteorology. Laboratory experience in rock and mineral identification, weather map reading and interpretation, and problems in oceanography and astronomy. This course contains a lab and is for transfer.

Prerequisite(s): ENG 0800 with a grade of C or higher
Lab Fee: \$45.00

Terms Offered: Fall, Spring, Summer

GLG 1131 Physical Geology (4)

Contact hours (5 total): 3 lecture, 2 lab

Study of the materials of which the world is composed. Examination of ongoing surface processes such as the movement of water and ices, formation of the land shape about us, and the chemical and mechanical breakdown of earth materials. Processes leading to mountain building, alteration of deep and near surface rocks, and earthquakes.

Prerequisite(s): ENG 0800 with a grade of C or higher

Lab Fee: \$45.00

Terms Offered: Fall, Summer

GLG 1132 Historical Geology (4)

Contact hours (5 total): 3 lecture, 2 lab

Study of earth in space; physical evolution of oceans, atmosphere, and continents; origins of life and biological evolution; physical and biological development of the North American continent.

Prerequisite(s): ENG 0800 with a grade of C or higher

Lab Fee: \$45.00

Terms Offered: Spring, Summer

GLG 1133 Environmental Geology (4)

Contact hours (5 total): 3 lecture, 2 lab

The interaction of geological processes with the purposes posed by humans. Includes use and misuse of resources, hazardous environments, engineering difficulties, waste, and effects on health.

Prerequisite(s): ENG 0800 with a grade of C or higher

Lab Fee: \$45.00

Terms Offered: Fall, Spring, Summer

(GPH) Graphic Design

GPH 1001 Introduction to Graphic Design (3)

Contact hours (4 total): 2 lecture, 2 lab

Survey of graphic design as a profession, theory and practice, basic principles, and fundamentals.

Introduction to the Macintosh (Mac) as an artistic tool. Introduction to Adobe InDesign, Adobe Illustrator, and Adobe Photoshop.

Prerequisite(s): ENG 0800 with a grade of C or higher

Lab Fee: \$85.00

Terms Offered: Fall

GPH 1110 Digital Illustration I (3)

Contact hours (4 total): 2 lecture, 2 lab

Use of Adobe Illustrator for technical illustration.

Generating professional quality technical drawings and information graphics.

Prerequisite(s): GPH 1000 or GPH 1001 and ART 1111

Lab Fee: \$85.00

Terms Offered: Spring

GPH 1112 Typography (3)

Contact hours (4 total): 2 lecture, 2 lab

The study of type characteristics. Practical application of basic and intermediate typographic principles within the design process. Use of Illustrator and InDesign.

Prerequisite(s): GPH 1000 or GPH 1001

Lab Fee: \$85.00

Terms Offered: Spring

GPH 1201 Electronic Imagery I (3)

Contact hours (4 total): 2 lecture, 2 lab

Basic to intermediate image editing including: scanning, retouching, selections, layers, type, and composite imagery. Adobe Photoshop utilized.

Prerequisite(s): ENG 0800 with a grade of C or higher

Lab Fee: \$85.00

Terms Offered: Fall, Spring

GPH 2011 Computer Layout I (3)

Contact hours (4 total): 2 lecture, 2 lab
 Layout and design using a variety of layout formats in black and white and/or color. Creative problem solving through the use of thumbnails and computer refined comprehensives. Software: Quark Xpress/InDesign and Adobe Photoshop.
 Prerequisite(s): GPH 1112 and GPH 1201
 Lab Fee: \$85.00
 Terms Offered: Fall

GPH 2012 Computer Layout II (3)

Contact hours (4 total): 2 lecture, 2 lab
 Advanced layout and design using a variety of layout formats in black and white and/or color. Creative problem solving through the use of thumbnails and computer refined comprehensives. Software: Quark Xpress, Adobe InDesign, Adobe Illustrator, and Adobe Photoshop.
 Prerequisite(s): GPH 2011
 Lab Fee: \$85.00
 Terms Offered: Spring

GPH 2051 Professional Development (3)

Contact hours (4 total): 2 lecture, 2 lab
 Life, career, and educational goals; resume and cover letter; research organization; interviewing skills, discussion of professional image; follow-up letter. Development of an individual portfolio from course work within the graphic design curriculum. Methods of self-promotion for the purpose of seeking employment and free-lance work included. Software: QuarkXPress, Adobe Photoshop, Adobe Illustrator, Adobe InDesign.
 Prerequisite(s): GPH 2011, GPH 2111, GPH 2202, and GPH 2120
 Lab Fee: \$165.00
 Terms Offered: Spring

GPH 2085 Service Learning Capstone (3)

Contact hours (4 total): 2 lecture, 2 lab
 Assemble a design studio, creating work for “real-world” clients. Application of principles, theories, and experiences, establishing learning outcomes, preparing related reports.
 Prerequisite(s): GPH 2011, GPH 2111, GPH 2202, and GPH 2120
 Lab Fee: \$85.00
 Terms Offered: Spring

GPH 2111 Digital Illustration II (3)

Contact hours (4 total): 2 lecture, 2 lab
 Advanced study in developing illustrations. Special emphasis placed on using Adobe Illustrator and Adobe Photoshop to produce professional quality illustrations and information graphics.
 Prerequisite(s): GPH 1110
 Lab Fee: \$85.00
 Terms Offered: Fall

GPH 2120 Logo, Symbol, Corporate I.D. (3)

Contact hours (4 total): 2 lecture, 2 lab
 Application and study of type, logo/trademark, and symbols for the creation of identification systems. Software: Adobe Illustrator.
 Prerequisite(s): GPH 1110 and GPH 1112
 Lab Fee: \$85.00
 Terms Offered: Fall

GPH 2202 Electronic Imagery II (3)

Contact hours (4 total): 2 lecture, 2 lab
 Advanced image editing from scanning and retouching images to working with selections, layers, type, and composite imagery. Adobe Photoshop utilized.
 Prerequisite(s): GPH 1201
 Lab Fee: \$85.00
 Terms Offered: Fall

(GST) Geospatial Technologies**GST 1300 Introduction to UAS (3)**

Contact hours (3 total): 3 lecture
 Introduction to Unmanned Aerial Systems (UAS) platforms, their history, commercial applications. Special emphasis in precision agriculture, Federal Aviation Administration (FAA) regulatory framework, data collection, privacy issues, and navigation concepts.
 Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher
 Lab Fee: \$25.00
 Terms Offered: Fall, Spring

GST 1350 UAS Operations, Planning, and Piloting (3)

Contact hours (4 total): 2 lecture, 2 lab
 Training on unmanned aerial systems (UAS) operations. Practical flight training on simulators, and mini and mid-sized unmanned aerial vehicles (UAV). Development of flight plans for a variety of situations and purposes supported by industry-standard operations and safety protocols. Demonstration of commercial UAS missions.
 Prerequisite(s): GST 1300
 Instructor Permission Required.
 Lab Fee: \$100.00
 Terms Offered: Spring

GST 1400 Mapping and Georeferencing with GIS (3)

Contact hours (4 total): 2 lecture, 2 lab
 Processing, editing, and mapping spatial data in the context of solving geospatial problems. Creation and use of locational data using both continuous and discrete georeferencing methods. Translating vector and raster data into correct cartographic formats. Creation and editing of metadata.
 Prerequisite(s): GEO 1000, ITS 1105, and MTH 0750 with a grade of C or higher
 Lab Fee: \$50.00
 Terms Offered: Spring

GST 1500 Remote Sensing (3)

Contact hours (4 total): 2 lecture, 2 lab
 Collection and processing of aerial data; interpretation of aerial photography data. Map analysis. Current technology and Geographic Information Systems (GIS) relationship highlighted.
 Prerequisite(s): GEO 1000 and MTH 0500 with a grade of C or higher
 Lab Fee: \$100.00
 Terms Offered: Fall, Spring

GST 2100 Intermediate GIS Analysis and Data Management (3)

Contact hours (4 total): 2 lecture, 2 lab
 Creation and management of geographic information within a Geographic Information System (GIS). Higher-level applications of and decision making with ArcGIS

software. Advanced analysis tools and techniques for visualizing, creating, and managing geographic data within a geographic information system (GIS). Conceptual models and query languages.
Prerequisite(s): GST 1400
Pre/Corequisite(s): CSD 1300, CSD 1310, and STT 2640
Lab Fee: \$50.00
Terms Offered: Fall

GST 2700 Advanced Topics in Geospatial Technology and GIS (4)

Contact hours (6 total): 2 lecture, 4 lab
Use of geospatial technology in business, science, government, education, and research. Modeling and decision making using spatial data. Legal and ethical aspects. Trends in geospatial technology. Geodatabases. Capstone project.
Prerequisite(s): CSD 1300, CSD 1310, and GST 2100
Lab Fee: \$25.00
Terms Offered: Spring

(HRM) Human Resource Management

HRM 1725 Human Resource Management (3)

Contact hours (3 total): 3 lecture
Examination of the human resource functions in the business organization. Ethical and legal considerations, job analysis, recruitment, selection, training and development, performance management, compensation, safety and health, employee and labor relations, and global human resources. Psychological forces motivating workers, discipline, and morale.
Pre/Corequisite(s): MGT 1060 or MGT 1120
Terms Offered: Fall, Spring, Summer

HRM 2300 Training and Development (3)

Contact hours (3 total): 3 lecture
Comprehensive study of training and organization development. Includes needs assessment, learning theories, training methods, and evaluation. Application through training program creation and presentation. Online sections require students to record and upload video presentation.
Pre/Corequisite(s): HRM 1725
Terms Offered: Fall

HRM 2350 Employment Law (3)

Contact hours (3 total): 3 lecture
Thorough examination of laws regulating employment relationship, discrimination, harassment, performance, and employment environment. Includes legal concepts and forums, sources of law, and terms and conditions of employment.
Pre/Corequisite(s): HRM 1725
Terms Offered: Fall, Spring

HRM 2400 Staffing (3)

Contact hours (3 total): 3 lecture
Staffing models, recruitment strategies, legal compliance, equal opportunity laws, assessment methods, selection process, and staffing management.
Prerequisite(s): HRM 1725
Terms Offered: Fall, Spring

HRM 2450 Compensation and Benefits (3)

Contact hours (3 total): 3 lecture
Broad study of organizational compensation systems, including legal issues, bases for pay, pay structures, executive compensation, and required and discretionary benefits.
Prerequisite(s): HRM 1725
Terms Offered: Spring

(HST) History

HST 1110 Western Civilization to 1600 (3)

Contact hours (3 total): 3 lecture
The history of Western Civilization from early man to 1600. Focus on the social, economic, political, religious, and cultural development of the ancient, medieval, and early modern worlds.
Prerequisite(s): ENG 0800 with a grade of C or higher
Pre/Corequisite(s): ENG 0900 with a grade of C or higher
Global Awareness.
Terms Offered: Fall, Spring, Summer

HST 1120 Western Civilization Since 1600 (3)

Contact hours (3 total): 3 lecture
The history of Western Civilization from 1600 to the present. Focus on the social, economic, political, religious, and cultural evolution of the Western world from the age of reason to the Twenty-First Century.
Prerequisite(s): ENG 0800 with a grade of C or higher
Pre/Corequisite(s): ENG 0900 with a grade of C or higher
Global Awareness.
Terms Offered: Fall, Spring, Summer

HST 1210 American History to 1865 (3)

Contact hours (3 total): 3 lecture
American history from before colonization to the Civil War. Focus is on the political, social, economic, and cultural developments that shaped colonial, early national, and antebellum United States.
Prerequisite(s): ENG 0800 with a grade of C or higher
Pre/Corequisite(s): ENG 0900 with a grade of C or higher
Terms Offered: Fall, Spring, Summer

HST 1220 American History Since 1865 (3)

Contact hours (3 total): 3 lecture
American history from the end of the Civil War to the present day. Focus is on political, social, cultural, and economic events that shaped current United States history.
Prerequisite(s): ENG 0800 with a grade of C or higher
Pre/Corequisite(s): ENG 0900 with a grade of C or higher
Global Awareness.
Terms Offered: Fall, Spring, Summer

HST 2200 Topics in African American History and Culture (3)

Contact hours (3 total): 3 lecture
The history of African Americans from 1500 to the present. Focus on African background, social, economic, political, religious, and cultural development in the Americas.

Prerequisite(s): ENG 1111 and college level American history course recommended
Pre/Corequisite(s): ENG 1112
Global Awareness.
Terms Offered: Fall

(HUM) Humanities

HUM 1110 Introduction to the Humanities (3)

Contact hours (3 total): 3 lecture
Cross-cultural analysis of the humanities focusing on human forms of expression in the western and non-western world; examines the role of the humanities in contextualizing the values of diverse cultures from the prehistoric age through post-modernism.
Prerequisite(s): ENG 0800 with a grade of C or higher
Pre/Corequisite(s): ENG 0900 with a grade of C or higher
Global Awareness.
Terms Offered: Fall, Spring, Summer

HUM 2899 Capstone Seminar (3)

Contact hours (3 total): 3 lecture
Interdisciplinary approach to the study of the human condition, including readings from the natural and social sciences, literature, history, religion, and philosophy; course content will vary.
Prerequisite(s): ENG 1112 and 40 credit hours earned
Global Awareness.
Terms Offered: Fall, Spring, Summer

(HVC) Heating, Ventilation, and Cooling

HVC 1015 HVAC-R Fundamentals and Practices (3)

Contact hours (7 total): 1 lecture, 6 lab
Refrigeration process, changes in state, pressure, temperature, and heat content. Mechanical cycle, absorption refrigeration cycle, systems components, proper selection and use of Heating, Ventilation, Air Conditioning & Refrigeration (HVAC-R) tools and accessories, proper use and testing of electrical components circuits and various electronic instruments. Brazing, soldering, and welding principles including safety, testing brazed joints, oxyacetylene torches, electrical resistance soldering, torch soldering, resistance welding, and plastic fusion welding. Principles of piping and tubing, refrigerant piping materials, copper tubing, and tube sizes for different HVAC-R application.
Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher
Lab Fee: \$100.00
Terms Offered: Fall, Spring

HVC 1100 Basic Electricity and Motors for HVAC-R (4)

Contact hours (8 total): 2 lecture, 6 lab
Static electricity, current electricity, direct current, alternating current, power formula, power sources, loads, electrical circuits, control devices and switches, phase shift, power distribution, electric meters, AC induction motors, induction motor principles, capacitor principles, single phase motors, three phase motors,

motor protection, start relays, and principles of motor operation. Design and operation of Electronically Commutated Motors (ECM). Electrical HVAC Excellence Certificate preparation.
Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher
Lab Fee: \$25.00
Certification Fee: \$25.00
Terms Offered: Fall, Spring

HVC 1215 EPA Certifications (2)

Contact hours (3 total): 1 lecture, 2 lab
EPA mandated educational material in preparation for the EPA 608 and EPA refrigerant exam.
Lab Fee: \$85.00
Certification Fee: \$25.00
Terms Offered: Fall, Spring

HVC 1315 Commercial Refrigeration (2)

Contact hours (2.5 total): 1.5 lecture, 1 lab
Commercial refrigeration evaporators, condensers, expansion devices, and compressors. Describe special refrigeration components, applications of refrigerant systems. Describe the operation of a commercial ice machine. State special refrigeration applications.
Prerequisite(s): HVC 1015
Lab Fee: \$50.00
Terms Offered: Fall, Summer

HVC 1600 Air Conditioning and Refrigeration Systems (1)

Contact hours (3 total): 3 lab
Air conditioning and refrigeration systems, compressors, evaporators, condensers, metering devices, and refrigerant piping.
Pre/Corequisite(s): HVC 1400
Lab Fee: \$110.00
Terms Offered: Spring

HVC 2010 Residential Gas Heating (4)

Contact hours (8 total): 2 lecture, 6 lab
Combustion, fuel installation, startup, checkout, operation and controls in the HVAC-R industry. Control system components, sensing devices, operators, fuel controls, gas valves, and regulators. Troubleshooting heating systems, gas furnaces, electrical or mechanical problems. Gas Heat, Heating, Ventilation, Air Conditioning (HVAC) Excellence Certificate preparation. Remedial action to place system in operating condition.
Prerequisite(s): HVC 1100
Lab Fee: \$30.00
Certification Fee: \$25.00
Terms Offered: Fall, Spring

HVC 2030 Heat Pump Systems (2)

Contact hours (3 total): 3 lab
History of heat pumps, heat pump cycles, air source systems, water source systems, air-to-water systems, and heat pump efficiency ratings. Troubleshooting of air system problems, refrigeration system problems, problem analysis.
Prerequisite(s): HVC 1015, HVC 1100, and HVC 1315
Lab Fee: \$25.00
Terms Offered: Spring, Summer

HVC 2040 Oil and Hydronic Heat (2)

Contact hours (2.5 total): 1.5 lecture, 1 lab
Oil-fired forced air systems. Types of furnaces, ratings and efficiencies. Oil storage. Primary oil burner controls and oil valves. Oil service: startup, sequence operation, efficiency testing, over-fire draft, smoke testing, efficiency calculations, routine maintenance, and soot management. Troubleshooting oil heating systems. Air handling units, water chillers used in the Heating, Ventilation, Air Conditioning, Refrigeration (HVAC-R) industry, hydronic heating, boilers and cooling towers.
Prerequisite(s): HVC 1015 and HVC 1100
Lab Fee: \$25.00
Terms Offered: Fall, Spring

HVC 2220 Residential Electric Heating (1)

Contact hours (3 total): 3 lab
Electric furnaces: applications, air handling units, duct heaters, system components, safety, and heating elements. Troubleshooting components of an electric furnace.
Prerequisite(s): HVC 1015 and HVC 1100
Lab Fee: \$25.00
Terms Offered: Fall, Spring

HVC 2230 Residential Heat Pump Systems (1)

Contact hours (3 total): 3 lab
History of heat pumps, heat pump cycles, air source systems, water source systems, air-to-water systems, and heat pump efficiency ratings. Troubleshooting of air system problems, refrigeration system problems, problem analysis.
Prerequisite(s): HVC 1000, HVC 1200, HVC 1300, and HVC 1700
Lab Fee: \$25.00
Terms Offered: Fall

HVC 2315 Air Conditioning (2)

Contact hours (4 total): 1 lecture, 3 lab
Air conditioning systems: types of unitary equipment, room air conditioners, construction and installation, performance and operation, controls, dehumidifier units, single package conditioners, horizontal conditioners, vertical conditioners, rooftop conditioners, and desiccant cooling systems. Air handling units: types of air handling units, fan coil units, and central station air handling units. Package unit electrical systems: mixing dampers, mixed air control, face and bypass control, variable air volume control system, multi-zone unit and fans and motors. Central air conditioning: adjusting airflow, determining system capacity, split system conditioners, add-on coils, air cooled condensing units, outdoor installation, refrigerant piping, condensing units and evaporators. Troubleshooting air conditioning systems. Heating, Ventilation, Air Conditioning (HVAC) Excellence certification preparation.
Prerequisite(s): HVC 1015 and HVC 1315
Lab Fee: \$150.00
Certification Fee: \$25.00
Terms Offered: Summer

HVC 2415 Indoor Air Quality and Distribution (3)

Contact hours (3 total): 3 lecture
Duct system types, extended plenum, air distribution and balancing, and air quality. Zoning, types of zone dampers, and types of zoning systems. Testing general requirements, report forms, instruments for testing,

and balancing the complete system. Refrigeration and residential heating load calculations. Air conditioning, indoor air quality, filters, and humidifiers. Role of the Heating, Ventilation, Air Conditioning (HVAC) technician.

Prerequisite(s): HVC 1015 and HVC 1100
Lab Fee: \$10.00
Terms Offered: Summer

HVC 2700 HVAC-R Job Skills (2)

Contact hours (4 total): 4 lab
Advanced installation techniques; codes, ordinances, and standards; international residential code; equipment placement; refrigerant charging; oil charging. Customer service and planned maintenance.
Pre/Corequisite(s): HVC 1015, HVC 1100, and HVC 2010
Instructor Permission Required.
Terms Offered: Fall, Summer

(INS) Insurance

INS 1050 Property and Liability Insurance Principles (3)

Contact hours (4 total): 2 lecture, 2 lab
Insurance characteristics and purposes. Types of insurance. Underwriting, determining rates, marketing. Insurance company financial performance, risk management, loss exposure, and insurance contracts.
Prerequisite(s): ITS 0800 and ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher
Terms Offered: Fall, Spring

INS 1100 Insurance Claims Handling Principles/Practices (3)

Contact hours (4 total): 2 lecture, 2 lab
Develop and enhance professionalism and skills in handling property-casualty insurance claims. Investigate cause of loss, liability, and damages. Negotiation and litigation techniques in claim settlements. Ability to recognize insurance fraud and ethical situations.
Prerequisite(s): ENG 0800 with a grade of A, or ENG 0850 with a grade of C or higher, and ENG 0900 with a grade of C or higher, and MTH 0500 with a grade of C or higher
Pre/Corequisite(s): INS 1050
Lab Fee: \$0.00
Terms Offered: Fall, Spring

INS 1115 Customer Service for the Insurance Industry (2)

Contact hours (2 total): 2 lecture
Develop and enhance professionalism and skills in handling insurance claims. Provide proper customer service to clients and claimants.
Prerequisite(s): ENG 0800 with a grade of A, or ENG 0850 with a grade of C or higher, and ENG 0900 with a grade of C or higher
Terms Offered: Fall, Spring

INS 1200 Software for the Insurance Claims Industry (1)

Contact hours (1 total): 1 lecture
Review of computer fundamentals. Use of specialized software for the insurance-claims industry.
Prerequisite(s): ENG 0800 with a grade of A, or ENG 0850 with a grade of C or higher, and MTH 0500 with a grade of C or higher
Terms Offered: Fall, Spring

INS 1325 Property Coverages (3)

Contact hours (3 total): 3 lecture
 Property loss exposure and coverages. Specialized property coverages. Commercial property and business income insurance. Commercial crime and equipment breakdown insurance. Inland, ocean marine, farm, and other specialty coverages.
 Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher
 Pre/Corequisite(s): INS 1050
 Terms Offered: Fall, Spring

INS 1400 Property Loss Adjusting (5)

Contact hours (5 total): 5 lecture
 Property loss adjusting with special emphasis on persons/property insurance coverage, causes of loss, loss adjusting process and procedures, fraud, residential construction, preparing estimates (cost estimating software), merchandise/time element loss, auto physical damage, and contractor equipment.
 Prerequisite(s): ENG 0800 with a grade of A, or ENG 0850 with a grade of C or higher, and ENG 0900 with a grade of C or higher, and MTH 0500 with a grade of C or higher
 Pre/Corequisite(s): INS 1050
 Lab Fee: \$0.00
 Terms Offered: Spring

(INT) Industrial Technology**INT 1000 OSHA 10-Hour General Safety (1)**

Contact hours (1 total): 1 lecture
 Training program for general industry. Provides training for workers and employers on the recognition, avoidance, abatement, and prevention of safety and health hazards in work place settings. (10-Hour General Industry Certificate)
 Certification Fee: \$25.00
 Terms Offered: Fall, Spring, Summer

INT 1050 Blueprint Reading and Schematics (3)

Contact hours (5 total): 2 lecture, 3 lab
 Part visualization from drawings, location of key features, drawing dimensioning methods, geometric dimensioning and tolerancing symbols. Electrical, Heating, Ventilation, Air Conditioning and Refrigeration (HVAC-R), pneumatic and hydraulic, and wiring schematics, symbols, and diagrams. Interpretation of drawing specifications.
 Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher
 Lab Fee: \$10.00
 Terms Offered: Fall, Spring, Summer

INT 1201 Hydraulics and Pneumatics I (3)

Contact hours (5 total): 2 lecture, 3 lab
 Components and principles utilized in basic industrial hydraulic and pneumatic circuits. Schematics for fluid systems, component operation, troubleshooting techniques, and basic calculations for the design and troubleshooting of systems.
 Prerequisite(s): AGR 1100 or ENT 1000
 Lab Fee: \$80.00
 Terms Offered: Fall, Spring, Summer

INT 1202 Hydraulics and Pneumatics II (3)

Contact hours (5 total): 2 lecture, 3 lab
 Application of hydraulic systems. Connection and operation of circuits utilizing cylinders, valves, hydraulic motors, and other components. Control of advanced hydraulic circuits using electrical and pneumatic devices. Application of electronic sensors to fluid power systems. Principles of vacuum systems.
 Prerequisite(s): INT 1201
 Lab Fee: \$75.00
 Terms Offered: Fall, Spring, Summer

INT 1300 Electrical Systems (3)

Contact hours (5 total): 2 lecture, 3 lab
 Components and operation of common alternating and direct current circuits. Use of test equipment for electrical circuits. Calculations involved in troubleshooting circuits. Series and parallel circuits. Basic logic circuits, control circuits, and the use of circuits to control mechanical processes, electrical wiring techniques, and system installation.
 Pre/Corequisite(s): ENT 1000, ENT 1050, or AGR 1100
 Lab Fee: \$80.00
 Terms Offered: Fall, Spring, Summer

INT 1350 Motor and Motor Controls (3)

Contact hours (5 total): 2 lecture, 3 lab
 Direct and alternating current motors including their performance characteristics and application. Motor control concepts and selection of motors for specific applications. Speed, torque, and power and their effects on motor performance. Industrial mechanical power transmission devices.
 Prerequisite(s): INT 1300
 Lab Fee: \$80.00
 Terms Offered: Fall, Spring, Summer

INT 1400 Mechanical Maintenance (3)

Contact hours (5 total): 2 lecture, 3 lab
 Troubleshooting and maintenance of mechanical power transmission equipment. Lubrication, bearings, couplings, flexible drives, valves, centrifugal pumps, gearing, gear reducers, V-belts, brakes, and clutch assemblies.
 Prerequisite(s): ENT 1000
 Pre/Corequisite(s): ENT 1050
 Lab Fee: \$75.00
 Terms Offered: Fall, Spring, Summer

INT 2200 Hydraulic and Pneumatic Troubleshooting (3)

Contact hours (7 total): 1 lecture, 6 lab
 Location, identification, and correction of various inserted faults in industrial quality electro-hydraulic and electro-pneumatic systems.
 Prerequisite(s): INT 1201
 Lab Fee: \$80.00
 Terms Offered: Fall, Spring, Summer

INT 2300 Electrical Troubleshooting (3)

Contact hours (5 total): 2 lecture, 3 lab
 Maintenance and troubleshooting of motors, solenoids, electrical controls, electrical circuitry, and sensors using common testing equipment. Diagnose problems at the component, machine, and inter-machine levels. Introduction and operation of the Computer Integrated Manufacturing System (CIMS).

Prerequisite(s): INT 1350
Lab Fee: \$75.00
Terms Offered: Fall, Spring, Summer

INT 2325 Alternating Current/ Direct Current (AC/DC) Servos (3)

Contact hours (5 total): 2 lecture, 3 lab
Examine Alternating Current (AC) and Direct Current (DC) servomotor drives including silicon controlled rectifier, spindle drives, modulation drives, and vector drives. Troubleshoot AC and DC motors.
Prerequisite(s): INT 1350
Lab Fee: \$25.00
Terms Offered: Fall, Spring, Summer

INT 2350 Electrical Distribution (3)

Contact hours (5 total): 2 lecture, 3 lab
Transformers, AC power distribution, power factor correction, voltage regulation, and DC power supplies. Circuit protection using circuit breakers, fuses, and ground fault interrupters.
Prerequisite(s): INT 1350
Lab Fee: \$40.00
Terms Offered: Fall, Spring, Summer

INT 2400 Industrial Machine Maintenance (3)

Contact hours (5 total): 2 lecture, 3 lab
Skills to troubleshoot machines and system levels. Manufacturer's documentation and maintenance logs. Introduction to planned and predictive maintenance. Troubleshooting charts and efficient sequence for failure analysis. Operation of the CSCC CIM System.
Prerequisite(s): INT 1350 and INT 1400
Lab Fee: \$75.00
Terms Offered: Fall, Spring, Summer

INT 2500 Programmable Logic Control (3)

Contact hours (5 total): 2 lecture, 3 lab
Programmable Logic Controllers (PLCs). Programming, connecting, and testing PLCs for control of industrial/commercial processes. Interfacing with sensors, using PLCs in a variety of process applications.
Prerequisite(s): INT 1300
Lab Fee: \$40.00
Terms Offered: Fall, Spring, Summer

INT 2510 Process Control (3)

Contact hours (5 total): 2 lecture, 3 lab
Principles utilized in process control systems. Systems control of liquid variables such as flow rate, pressure, temperature, liquid level, density, and pH. Calibrate, adjust, install, operate, and connect process control systems in industrial applications.
Prerequisite(s): INT 2500
Lab Fee: \$30.00
Terms Offered: Fall, Spring, Summer

INT 2520 Supervisory Control and Data Acquisition (SCADA) (3)

Contact hours (5 total): 2 lecture, 3 lab
Monitor and control process applications using sensors networked to equipment on the plant floor. Introduction to process visualization, universal digital controller (UDC) configuration, process visualization system operation, application editing, project screens, input and output objects, two-state output objects, symbolic input/output field output objects, and alarms.

Prerequisite(s): INT 2510
Lab Fee: \$30.00
Terms Offered: Fall, Spring, Summer

INT 2550 Automated Systems (3)

Contact hours (5 total): 2 lecture, 3 lab
Fixed automation using transfer lines controlled by relay logic and flexible automation using proportionalâ€”integralâ€”derivative (PID) Analog Controllers, robots, Computer Numerical Control (CNC) tools, conveyors, intro to Automatic Storage/Retrieval System and Automatic Guided Vehicles. Computer integration of mechanical components. Introduction and operation of CSCC Computer-Integrated Manufacturing (CIM) System.
Prerequisite(s): INT 2500
Lab Fee: \$40.00
Terms Offered: Fall, Spring, Summer

INT 2800 Industrial Technology Projects (3)

Contact hours (5 total): 2 lecture, 3 lab
Capstone class to apply skills to design, fabricate, install, document, and debug an assigned project of a scale and type normally done in-house by local plants' engineering and maintenance personnel.
Prerequisite(s): INT 2300
Pre/Corequisite(s): ENG 2211 or ENG 1112
Lab Fee: \$40.00
Terms Offered: Fall, Spring, Summer

(ITS) Information Technology Systems

ITS 0800 Computer Fundamentals (1)

Contact hours (2 total): 2 lab
Concepts of computers, operating systems, and network usage. Preparatory course for students with little or no computer background. Graded on an S or U (satisfactory or unsatisfactory) basis.
Prerequisite(s): ENG 0800 with a grade of C or higher
Terms Offered: Fall, Spring

ITS 0810 Keyboarding (1)

Contact hours (2 total): 2 lab
Keyboarding techniques, Fingering techniques, development of speed and accuracy on the keyboard. Office ergonomics and basic electronic file management.
Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher
Terms Offered: Fall, Spring

ITS 1105 Computer Concepts and Software Applications (3)

Contact hours (4 total): 2 lecture, 2 lab
Overview of basic computer concepts, basic word processing, spreadsheets, databases, and presentation graphics using Microsoft Office.
Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher and ITS 0800 and ITS 0810
Terms Offered: Fall, Spring, Summer

ITS 1205 Windows Concepts (1)

Contact hours (2 total): 0 lecture, 2 lab
 Familiarization with the mouse and a Graphical User Interface (GUI) operating environment. Major aspects of Microsoft Windows 10 and usage of WordPad and NotePad. Knowledge of a personal computer keyboard strongly recommended.
 Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher and ITS 0800 and ITS 0810
 Terms Offered: Fall, Spring, Summer

ITS 1210 Keyboarding/Word Processing (2)

Contact hours (3 total): 1 lecture, 2 lab
 Keyboarding techniques. Development of speed and accuracy. Creating and editing documents using packaged word processing software (Microsoft Word). Strongly recommended for students who have few or no keyboarding skills.
 Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher and ITS 0800 and ITS 0810
 Terms Offered: Fall, Spring, Summer

ITS 1235 Beginning Spreadsheet (1)

Contact hours (2 total): 2 lab
 Creation and manipulation of data within an electronic spreadsheet including planning and creating workbooks, using formulas and functions, creating charts, and formatting spreadsheet objects using Microsoft Excel. Students with minimal computer skills will take longer in completing the assigned tasks.
 Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher and ITS 0800 and ITS 0810
 Terms Offered: Fall, Spring, Summer

ITS 1238 Intermediate Spreadsheet (2)

Contact hours (3 total): 1 lecture, 2 lab
 Spreadsheet manipulation techniques using Microsoft Excel; functions, managing files and memory, graphing, database functions, programming, and formulas.
 Prerequisite(s): ITS 1105 or ITS 1235
 Terms Offered: Spring

ITS 1245 Beginning Database (1)

Contact hours (2 total): 2 lab
 Database manipulation: creating, updating, and generating reports using Microsoft packaged Access 2019. Keyboarding skills strongly recommended.
 Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher and ITS 0800 and ITS 0810
 Terms Offered: Fall, Spring, Summer

ITS 1300 Introduction to Computers and Networks (2)

Contact hours (3 total): 1 lecture, 2 lab
 Computer and Internet basics. Overview of computer hardware, software, and networks.
 Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher, and ENG 900 with a grade of C or higher
 Pre/Corequisite(s): ENG 1111
 Terms Offered: Fall, Spring

ITS 1500 HTML and CSS (3)

Contact hours (4 total): 2 lecture, 2 lab
 Use HTML (Hypertext Markup Language) and CSS (Cascading Style Sheets) to develop websites without the aid of web page composition software.
 Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher
 Lab Fee: \$20.00
 Terms Offered: Fall, Spring

(JCR) Judicial Court Reporting**JCR 1001 Realtime Theory I (3)**

Contact hours (5 total): 2 lecture, 3 lab
 Writing, reading, and translating the written and spoken word by means of a National Court Reporters Association (NCRA) approved, conflict-free realtime theory. Emphasis on mastery of beginning machine shorthand principles, speed development of 40 words per minute (wpm) on dictation of familiar material, and rapid and accurate reading of steno notes. Introduction to realtime career opportunities, professional organizations, ethics of the realtime profession, the National Court Reporters Association (NCRA) code of Professional Ethics, certifications, and life-long learning.
 Prerequisite(s): ENG 0800 with a grade of C or higher
 Instructor Permission Required.
 Lab Fee: \$80.00
 Terms Offered: Fall, Spring

JCR 1003 Realtime Theory Applications (3)

Contact hours (7 total): 1 lecture, 6 lab
 Application of realtime theory foundation. Emphasis on mastery of brief forms, phrases, basic realtime editing functions, speed development of 60 words per minute (wpm) on dictation of unfamiliar material, and rapid and accurate reading of steno notes.
 Prerequisite(s): JCR 1002S or RCR 1201 or IRT 122
 Lab Fee: \$100.00
 Terms Offered: Spring, Summer

JCR 1101 Skill Building I (3)

Contact hours (7 total): 1 lecture, 6 lab
 Development of writing skills, readback and analysis of shorthand notes, proofreading skills, and quality practice habits. Dictation in literary, jury charge, and testimony material for development of skill and accuracy in speeds ranging from 50-100 words per minute (wpm). Monitored realtime transcription of speed dictation tests in each of the areas of dictation completed within 70 minutes immediately following recorded dictation. Student analysis of vocabulary, grammar, spelling, and punctuation. Use of online, computer-aided transcription technology with teacher interaction. Designed for competency-based modular instruction.
 Prerequisite(s): JCR 1003 or RCR 1202 or IRT 129
 Lab Fee: \$100.00
 Terms Offered: Fall, Spring

JCR 131S Legal Terminology (SS) (3)

Contact hours (4 total): 2 lecture, 2 lab
 Instruction in legal terminology in civil law; criminal law; and the discovery, trial, and appellate processes. Upon completion, the student should be able to comprehend, appreciate, and use legal terms.

JCR 2103 Skill Building III (3)

Contact hours (7 total): 1 lecture, 6 lab

Application of writing skills, readback and analysis of shorthand notes, proofreading skills, and quality practice habits. Dictation in literary, jury charge, and two-voice testimony material for development of skill and accuracy in speeds ranging from 90-160 words per minute (wpm). Development of writing skill in multivoice dictation and use of speaker IDs. Application of computer-integrated courtroom setup knowledge. Monitored transcription of speed dictation tests in each of the areas of dictation concentration completed within 70 minutes immediately following recorded dictation. Student analysis of vocabulary, grammar, spelling, and punctuation. Production of two-page unedited realtime transcript of unfamiliar material with accuracy rate of 96 percent. Use of online, computer-aided transcription technology with teacher interaction. Designed for competency-based modular instruction.

Prerequisite(s): JCR 1102 or RCR 1203 or IRT 129

Lab Fee: \$100.00

Terms Offered: Fall, Summer

JCR 2105 Skill Building V (3)

Contact hours (7 total): 1 lecture, 6 lab

Implementation of writing skills, readback and analysis of shorthand notes, proofreading skills, and quality practice habits. Dictation in literary, jury charge, and two-voice testimony material for development of skill and accuracy in speeds ranging from 130-200 words per minute (wpm). Development of writing skill in medical terminology. Execution of writing skill in multivoice dictation and use of speaker IDs. Application of current events tools. Monitored transcription of speed dictation tests in each of the areas of dictation concentration completed within 70 minutes immediately following recorded dictation. Student analysis of vocabulary, grammar, spelling, and punctuation. Production of four-page unedited realtime transcript of unfamiliar material with accuracy rate of 96 percent. Use of online, computer-aided transcription technology with teacher interaction. Designed for competency-based modular instruction.

Prerequisite(s): JCR 2104 or RCR 2201 or IRT 123

Instructor Permission Required.

Lab Fee: \$100.00

Terms Offered: Fall, Spring

JCR 2200 Realtime Business Procedures (3)

Contact hours (5 total): 1 lecture, 4 lab

Role of the realtime court reporter in trials, depositions, and administrative hearings with application of the National Court Reporters Association (NCRA) Guidelines for Professional Practice for Court Reporters; overview of transcript preparation and production; development of office management skills; overview of broadcast captioning and Communication Access Realtime Translation (CART) including the psychology of on-air captions, Federal Communications Commission (FCC) regulations, broadcast news production, pre-scripting, the NCRA CART Provider's Manual, NCRA Guidelines for Professional Practice for Captioners and CART Providers, and the Americans with Disabilities Act (ADA); overview of interview process; professional

development in dress and conduct; involvement in professional associations and appreciation of continuing education.

Terms Offered: Fall

JCR 2300 CAT Transcript Production (2)

Contact hours (4 total): 1 lecture, 3 lab

Application of principles of transcript editing and production techniques using computer-aided transcription (CAT) software with a focus on CAT terminology, proper scoping and proofreading skills, applying correct grammar rules, dictionary management, parenthetical creation and application, and template file usage in preparation for employment. Prerequisite(s): IDT 122 or ITS 1105; JCR 2200 or RCR 2050

Instructor Permission Required.

Terms Offered: Spring

JCR 2450 Introduction to Captioning (1)

Contact hours (2 total): 2 lab

Requirements of and opportunities in the field of captioning, including the skills and knowledge required, professional organizations, and the ethics of captioning. Topics: Broadcast captioning, Communication Access Realtime Translation (CART) captioning, webcasting, offline captioning, National Court Reporters Association (NCRA), NCRA Code of Professional Ethics (COPE), NCRA CART & Broadcast Captioners Code of Ethics, NCRA CART Providers Manual, NCRA Policies and Procedures Manual, certifications, continuing education units (CEUs), mentoring, and job shadowing.

Terms Offered: Fall, Summer

JCR 2500 Deaf Culture for Captioners (3)

Contact hours (3 total): 2 lecture, 1 lab

Overview of some aspects of the Deaf, deaf, and hard-of-hearing communities and their social, cultural, and educational experiences, including myths and misconceptions and types of accommodations, introduction to some aspects of American Sign Language (ASL) as used in the United States and parts of Canada. Implementation of National Court Reporters Association (NCRA) Guidelines for Professional practice for Captioners and CART Captioners and current Communication Access Realtime Translation (CART) Provider's Manual.

Prerequisite(s): JCR 2400S or a court reporting degree from an institution of higher learning and an appropriate placement score, ACT, or SAT score. and an appropriate placement score, ACT, or SAT score.

Terms Offered: Fall, Summer

JCR 2501 Basic Captioning/CART (3)

Contact hours (3 total): 1 lecture, 2 lab

Introduction to captioning/Communication Access Realtime Translation (CART) skills, including a broad-based vocabulary content specific to the captioning/CART environments and the National Court Reporters Association's (NCRA) Code of Professional Ethics, Guidelines for Professional Practice for Broadcast Captioners, Guidelines for Professional CART Providers, CART Provider's Manual, and Recommended Style and Format Guidelines. Setup and maintenance of equipment and application of Computer-aided Transcription (CAT) functions for captioning/CART

technologies, including on-site, remote, and legal software applications for text transmission and audio acquisition; obtaining software and system support; use and editing of phonetic translator; guidelines to display captions for broadcast captioning and CART captioning; building, managing, and loading dictionaries for proper translation; pre-scripting to include text preparation, format, and software functions; on-air captioning and finger spelling; necessary prefixes, suffixes, environmental and sound descriptors, number translation, and web site and Internet addresses; and screen setup and display. Build captioning/CART-specific writing endurance.

Prerequisite(s): JCR 2400S or a court reporting degree from an institution of higher learning.

Instructor Permission Required.

Lab Fee: \$100.00

Terms Offered: Fall, Summer

(LPN) Practical Nursing

LPN 1101 Nursing Fundamentals (9)

Contact hours (17 total): 5 lecture, 5 lab, 7 clinical
Practical nurse's role and scope of practice, ethical and legal issues. Health maintenance and promotion. Biological and social sciences. Data collection techniques, nursing process, and medical/surgical asepsis. Basic practical nursing skills and safe medication administration. Introduction to IV therapy.

Prerequisite(s): ENG 1111, BIO 1105, and MST 1105

Pre/Corequisite(s): PSY 1111, LPN 1201, and LPN 1301

Instructor Permission Required.

Lab Fee: \$407.00

Student Liability Fee: \$20.00

Terms Offered: Fall, Spring

LPN 1201 Disease Process and Diet Therapy (4)

Contact hours (4 total): 4 lecture
Basic principles of microbiology, signs and symptoms of common disease/disorders of body systems, diagnostic tests, treatment and principles of nursing care, and dietary treatment.

Prerequisite(s): BIO 1105, ENG 1111, and MST 1105

Instructor Permission Required.

Lab Fee: \$180.00

Terms Offered: Fall, Spring

LPN 1301 Pharmacology (3)

Contact hours (3 total): 3 lecture
Systems of measurement and calculation of drug dosage. Principles of pharmacology. Action, prototype drugs, therapeutic implications, side/adverse effects, and associated nursing implication of major drug classes and IV antibiotic administration. Ohio Board of Nursing laws and rules related to LPN practice and IV therapy.

Prerequisite(s): BIO 1105, ENG 1111, MST 1105, and MTH 0650 with a grade of C or higher

Pre/Corequisite(s): LPN 1201

Instructor Permission Required.

Lab Fee: \$180.00

Terms Offered: Fall, Spring

LPN 1401 Nursing Care of Adults (9)

Contact hours (17 total): 5 lecture, 1 lab, 11 clinical
Application of skill competencies from LPN 1101. Intravenous (IV) therapy for the practical nurse. Care of clients with medical and surgical conditions in skilled and hospital settings. Preceptor experience and leadership/management skills. Comprehensive review for National Council Licensure Examination (NCLEX) preparation.

Prerequisite(s): LPN 1101, LPN 1201, LPN 1301, and PSY 1111

Pre/Corequisite(s): PSY 2223 and LPN 1501

Lab Fee: \$347.00

Student Liability Fee: \$20.00

Terms Offered: Fall, Spring

LPN 1501 Nursing Care of Women, Infants & Children (5)

Contact hours (7 total): 4 lecture, 2 lab, 1 clinical
Holistic approach to women's healthcare and its relationship to the childbearing female. Female anatomy and physiology, male reproductive system, fetal growth and development, normal changes of pregnancy, labor and delivery, postpartum, care of the newborn with emphasis on preventing complications. Impact of childbirth and newborn on family unit and current trends in women's health. Family-centered approach to meeting needs of pediatric clients. Application of the nursing process and role of the nurse in the care of the infant/child/adolescent with common diseases, illnesses, and conditions.

Prerequisite(s): PSY 1111, LPN 1101, LPN 1301, and LPN 1201

Pre/Corequisite(s): PSY 2223

Lab Fee: \$385.00

Terms Offered: Fall, Spring, Summer

(LSC) Logistics and Supply Chain Management

LSC 1100 Introduction to Supply Chain Management (3)

Contact hours (3 total): 3 lecture
Basic concepts of logistics, warehousing, transportation, purchasing, inventory management, supplier relationships, strategic sourcing, quality process management, globalization, and customer relationship management

Terms Offered: Fall, Spring

LSC 2100 Purchasing and Supply Management (3)

Contact hours (3 total): 3 lecture
Purchasing, materials management, supply chain management, and sourcing management perspectives on the core tasks and challenges required to manage the purchasing function within the context of an integrated supply chain.

Prerequisite(s): MGT 1060 or MGT 1105 or MGT 1120

Terms Offered: Spring

LSC 2220 Logistics and Physical Distribution (3)

Contact hours (3 total): 3 lecture
Design and management of a logistical process of coordinating the flow of goods, services, and information among members of a supply chain with a focus on the area of physical distribution management, including warehouse management and layout, transportation, and customer service.

Prerequisite(s): MGT 1060 or MGT 1105 or MGT 1120
Terms Offered: Fall

LSC 2270 Operations Management (3)

Contact hours (3 total): 3 lecture
Design and management of the models and methods used in operations management including forecasting, system design, quality, supply chain management, project management, and inventory management and scheduling.

Prerequisite(s): MGT 1120 and MTH 1060
Terms Offered: Spring, Summer

(MAS) Medical Assisting

MAS 1103 Medical Administrative Office I (2)

Contact hours (4 total): 1 lecture, 3 lab
Front office administrative duties required of the medical assistant. Telephone and other electronic communication devices, appointment scheduling, the medical record, written communication, filing systems, and basic office management. Ethical and legal issues relevant to the medical office employee.

Prerequisite(s): Permission of Program Coordinator
Pre/Corequisite(s): BIO 1105, ENG 1111, MST 1105, and MST 1101
Instructor Permission Required.
Lab Fee: \$40.00
Terms Offered: Fall, Spring

MAS 1104 Exam Room Procedures I (2)

Contact hours (4 total): 1 lecture, 3 lab
Clinical knowledge, skills, and behaviors expected of medical assistant including therapeutic and professional communication, patient history and exam, anthropometric measures and vital signs, infection control, medical and surgical asepsis, safety and emergency practices, and coping skills. Specialties of pediatrics, otolaryngology, ophthalmology, orthopedics, and dermatology.

Prerequisite(s): Permission of Program Coordinator
Pre/Corequisite(s): BIO 1105, ENG 1111, MST 1105, and MST 1101
Instructor Permission Required.
Lab Fee: \$75.00
Terms Offered: Fall, Spring

MAS 1105 Medical Administrative Office II (3)

Contact hours (5 total): 2 lecture, 3 lab
Financial aspects of the office, ICD-10 and CPT coding, managed care, medical insurance, reimbursement procedures, and managing patient accounts. Professional etiquette and job search skills.
Prerequisite(s): none
Instructor Permission Required.
Lab Fee: \$40.00
Terms Offered: Spring, Summer

MAS 1106 Exam Room Procedures II (3)

Contact hours (5 total): 2 lecture, 3 lab
Medication administration and medical office emergencies. Review ECG skills. Specialties of pediatrics, obstetrics and gynecology, otolaryngology,

ophthalmology, orthopedics, cardiology, pulmonary medicine, urology, gastroenterology, and dermatology.
Prerequisite(s): Acceptance to the Medical Assisting Program.
Pre/Corequisite(s): MAS 1112
Instructor Permission Required.
Lab Fee: \$75.00
Terms Offered: Fall, Spring

MAS 1112 Pharmacology for the Medical Office (3)

Contact hours (3 total): 3 lecture
Principles of pharmacology for the medical assistant: sources of drugs, drug classifications, actions, and interactions. Dosage calculations.
Prerequisite(s): Acceptance to the Medical Assisting Program. and MTH 0500 with a grade of C or higher
Instructor Permission Required.
Terms Offered: Spring, Summer

MAS 1115 Laboratory Procedures for the Medical Office (2)

Contact hours (3 total): 1 lecture, 2 lab
Diagnostic physician office laboratory procedures: collection and processing of specimens, laboratory safety, microbiology, urinalysis, hematology, serology, and blood chemistry.
Prerequisite(s): Acceptance to Medical Assisting Program
Pre/Corequisite(s): MST 1160 and MST 1161
Instructor Permission Required.
Lab Fee: \$75.00
Terms Offered: Fall, Spring

MAS 1117 Medical Assisting Directed Practice (2)

Integration of content and competencies covered in the Medical Assistant certificate program. Two hundred (200) unpaid, supervised clinical hours.
Prerequisite(s): MST 1171, MST 1160, MST 1161, MAS 1105, MAS 1106, MAS 1112, and MAS 1115
Pre/Corequisite(s): PSY 1111
Corequisite(s): MAS 1118
Instructor Permission Required.
Student Liability Fee: \$20.00
Terms Offered: Spring, Summer

MAS 1118 Clinical Perspectives Seminar (1)

Contact hours (1 total): 1 lecture
Forum for shared learning and problem solving of directed practice experiences.
Prerequisite(s): MST 1171, MST 1160, MST 1161, MAS 1105, MAS 1106, MAS 1112, and MAS 1115
Pre/Corequisite(s): PSY 1111
Corequisite(s): MAS 1117
Instructor Permission Required.
Certification Fee: \$125.00
Terms Offered: Spring, Summer

MAS 2100 Medical Assisting Certification Review (2)

Contact hours (2 total): 2 lecture
Preparation for the American Association of Medical Assistants (AAMA) national certification examination.
Pre/Corequisite(s): MAS 1105, MAS 1106, MAS 1112, and MAS 1115 or Instructor Permission
Terms Offered: Fall, Summer

(MGT) Management

MGT 1060 Organizational Behavior (3)

Contact hours (3 total): 3 lecture

Theories, concepts, and applications of organizational behavior as it relates to individuals, groups, and organizations in today's global business environment. Conceptual frameworks, case discussions, and skill-oriented activities. Personality, assessment of self, motivation, stress, job success, ethics, conflict resolution, managing change, group behavior, team problem solving and decision making, interpersonal and organizational communication.

Pre/Corequisite(s): ENG 1111

Terms Offered: Fall, Spring, Summer

MGT 1100 Personal Finance (3)

Contact hours (3 total): 3 lecture

Financial decision-making in personal budgeting, credit, insurance, medical care, investment, home ownership, retirement planning, and income taxes

Terms Offered: Fall, Spring

MGT 1105 Contemporary American Business (2)

Contact hours (2 total): 2 lecture

Current concepts of American business encompassing social and ethical responsibilities, global markets, government regulation, and taxation. Forms of business, administration, management, organized labor, and other basic business concepts.

Prerequisite(s): ENG 0800 with a grade of A or ENG

0850 with a grade of C or higher

Terms Offered: Fall, Spring, Summer

MGT 1115 Customer Relations (2)

Contact hours (2 total): 2 lecture

Philosophy, purpose, techniques, and principles of management and customer service and relations. Communication skills. Customer-related complaints and customer-relations technologies. Problem-solving skills.

Prerequisite(s): ENG 0800 with a grade of A or ENG

0850 with a grade of C or higher

Terms Offered: Fall, Spring, Summer

MGT 1120 Principles of Management (3)

Contact hours (3 total): 3 lecture

This course examines theories and applications of management and organizational behavior with an emphasis on the interaction among individuals, teams, and organizations that impact performance. This course prepares students to succeed in dynamic, diverse organizational environments.

Pre/Corequisite(s): ENG 1111

Terms Offered: Fall, Spring, Summer

MGT 1500 Lean Six Sigma Yellow Belt / Problem Solving for Team Members (1)

Contact hours (1 total): 1 lecture

Prepares students for workplace employment. Basic knowledge and skills to be an effective team member on a problem solving team. Participants will use the 5 step problem solving process called DMAIC (Define, Measure, Analyze, Improve, Control) at Team Member level. Lean Six Sigma Yellow Belt is a nationally recognized Certification. This course must be taught by an instructor who is a Certified Master Black Belt. This

course is be taught by an instructor who is a certified Master Black Belt or by an instructor certified as an Education Six Sigma Black Belt trainer. This course is limited to those students enrolled in the College's Bachelor of Applied Technology in Manufacturing Technology Management (BAS-MTM) Program.

Instructor Permission Required.

Terms Offered: Fall, Spring

MGT 1510 Lean Six Sigma Green Belt / Problem Solving for Team Leaders (3)

Contact hours (3 total): 3 lecture

Building on the knowledge gained in the Lean Six Sigma Yellow Belt Team Member Course, this course, prepares students for workplace employment. Students who complete this course are prepared for supervisory/management positions as a problem solving Team Leader. Participants will use the 5 step problem solving process called (DMAIC) Define, Measure, Analyze, Improve, Control at Team Leadership level. Lean Six Sigma Green Belt is a nationally recognized Certification. This course is be taught by an instructor who is a certified Master Black Belt or by an instructor certified as an Education Six Sigma Black Belt trainer. This course is limited to those students enrolled in the College's Bachelor of Applied Technology in Manufacturing Technology Management (BAS-MTM) Program.

Prerequisite(s): MGT 1500

Instructor Permission Required.

Terms Offered: Fall, Spring

MGT 2000 Introduction to Project Management (3)

Contact hours (3 total): 3 lecture

Business, interpersonal, and technical skills required to successfully manage business and system development projects. Project integration. Scope, time, cost, quality, human resource, communications, risk, and procurement management. Microsoft Project software. Use of Windows PC is required.

Prerequisite(s): ENG 0800 with a grade of A, or ENG

0850 with a grade of C or higher and ITS 0800

Terms Offered: Fall, Spring

MGT 2020 Quality Management (3)

Contact hours (3 total): 3 lecture

Customer satisfaction and quality management through employee involvement. Continuous process improvement, performance measures, Statistical Process Control (SPC), ISO9000, benchmarking, and the use of various management tools used for managing quality.

Prerequisite(s): MGT 1060 or MGT 1105 or MGT 1120

Terms Offered: Fall, Spring

MGT 2140 Small Business Management (3)

Contact hours (3 total): 3 lecture

Small business and entrepreneurship. Decision for self-employment through small business opportunities; business planning, financing, marketing, and management. Integration of functional business courses into a balanced overview of entrepreneurship. Application through activities and projects.

Prerequisite(s): ACC 1100 and (MGT 1105 or MGT 1120)

Terms Offered: Spring

MGT 2255 Community Leadership (4)

Contact hours (4 total): 4 lecture
Development of leadership skills, especially as they relate to community leadership. Credit/No Credit course.

Prerequisite(s): Acceptance into Leadership Clark County Community Leadership Academy
Instructor Permission Required.

Terms Offered: Spring

MGT 2270 Business Finance (3)

Contact hours (3 total): 3 lecture
Theory, methods, and concerns of corporate finance, elements of financial planning, capital management techniques, valuation, cost of capital, capital budgeting, ratio analysis, leverage, and diversification through mergers.

Prerequisite(s): ACC 1100

Terms Offered: Fall, Spring, Summer

MGT 2450 Data Analytics (3)

Contact hours (4 total): 2 lecture, 2 lab
Data mining, analysis, and reporting. Interpretation of results using examples from various industries.

Prerequisite(s): [MTH 0650 with a C or higher, or MTH 1060, or MTH 1200] and [AGR 1100 or ITS 1105 or (ITS 1235 and ITS 1245)]

Terms Offered: Fall, Spring

MGT 2600 Legal Environment of Business (3)

Contact hours (3 total): 3 lecture
History of the law, law of contracts, agency, sales, and personal property. The law of negotiable instruments, partnership, corporations, and real property.

Pre/Corequisite(s): ENG 1112 or ENG 2211

Terms Offered: Fall, Spring, Summer

MGT 2650 Negotiation Skills (3)

Contact hours (3 total): 3 lecture
Psychology and techniques of conducting purchasing and other types of business negotiations; mock negotiations using case studies. Principles apply to situations in personal life.

Prerequisite(s): MGT 1060, MGT 1105, or MGT 1120

Terms Offered: Spring

MGT 2680 Introduction to International Business (3)

Contact hours (3 total): 3 lecture
Global dimensions of business; an overview of theories and institutions of trade, investment, and management emphasizing the managerial perspective on issues arising from international business and worldwide operations.

Prerequisite(s): MGT 1060, MGT 1105, or MGT 1120

Global Awareness.

Terms Offered: Spring

MGT 2800 Business Strategy/Policy Seminar (Capstone) (3)

Contact hours (3 total): 3 lecture
Development of business strategy and policy and the integration of skills learned in prior management study, including strategy formulation, implementation, and evaluation. Coordination of management, economics, marketing, operations management, financial accounting, legal environment and ethics, and social

responsibility to achieve competitive advantage.

Students must have a minimum of 45 semester credit hours.

Prerequisite(s): MGT 1120, MKT 2000, and Students must have a minimum of 45 semester credit hours

Terms Offered: Fall, Spring

(MKT) Marketing

MKT 2000 Marketing Management (3)

Contact hours (3 total): 3 lecture
Management of the marketing functions in various business contexts. Marketing activities, analysis, strategies, and decision making in the context of other business functions. Integration of product, price, promotion, and distribution activities; research and analysis of markets, environments, competition, and customers; market segmentation and selection of target markets; and emphasis on behavior and perspectives of consumers and organizational customers. Planning and decision making for products and services in profit and nonprofit, domestic, and global settings.

Pre/Corequisite(s): ECO 2220, ECO 2210, or instructor permission

Global Awareness.

Terms Offered: Fall, Spring, Summer

MKT 2100 Pricing Strategies (3)

Contact hours (3 total): 3 lecture
Managerially-focused, integrated, pricing analysis and strategy. Pricing calculation methods and tools, analysis and identification of pricing strategy effects on the organization.

Prerequisite(s): MTH 0500 with a grade of C or higher and MKT 2000

Terms Offered: Fall

MKT 2150 Product Management (3)

Contact hours (3 total): 3 lecture
Overview of product management and the product development process. Overview of a product manager's tasks of market analysis, strategy development, and decision making regarding pricing, advertising, promotion, and distribution.

Prerequisite(s): MKT 2000 and MGT 1120

Terms Offered: Fall, Spring

MKT 2400 Electronic Business Applications (3)

Contact hours (3 total): 3 lecture
Electronic business and the unique requirements of conducting business on the Internet. Application of electronic business techniques and tools. Management issues of electronic commerce. Legal, ethical, social responsibility issues.

Prerequisite(s): (MGT 1105 or MGT 1120) and (ITS 1100 or ITS 1105)

Global Awareness.

Terms Offered: Spring

MKT 2450 Sales and Sales Management (3)

Contact hours (3 total): 3 lecture
Role of selling in our economy. Psychology of selling, sales process, motivation of the salesperson. Fundamentals and techniques of selling in relation to various types of goods and services.

Prerequisite(s): MKT 2000 or MGT 1120 or Pre/co-req: AGR 2700
Terms Offered: Spring

MKT 2550 Promotion & IMC Strategies (3)

Contact hours (3 total): 3 lecture
Integrated marketing communication systems, and its tools for communication with internal and external customers, promotion and integrated communication strategies and techniques.
Prerequisite(s): MKT 2000
Terms Offered: Spring

(MLT) Medical Laboratory Technology

MLT 1120 Introduction to Medical Laboratory Science (2)

Contact hours (2 total): 2 lecture
History, role, and professional responsibilities of the medical laboratory technician. Organization of the medical laboratory. Medical terminology. Comprehensive background in the theory and principles of phlebotomy. Quality assurance and total quality management. Note: The online sections require that exams be taken at approved proctoring sites.
Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher, ENG 0900 with a grade of C or higher, and MTH 0650 with a grade of C or higher
Corequisite(s): MLT 1125, MLT 1160, and MLT 1165
Terms Offered: Fall

MLT 1125 Introduction to Medical Laboratory Science Laboratory (1)

Contact hours (3 total): 3 lab
Principles of medical laboratory instrumentation. Use and care of medical laboratory instruments. Medical Laboratory Safety. Up-to-date instruction in phlebotomy procedures. Quality assurance and total quality management for laboratory practice.
Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher, ENG 0900 with a grade of C or higher, and MTH 0650 with a grade of C or higher
Corequisite(s): MLT 1120
Lab Fee: \$100.00
Terms Offered: Fall

MLT 1130 Clinical Chemistry (3)

Contact hours (3 total): 3 lecture
Organic chemistry: hydrocarbons (saturated and unsaturated), alcohols, aldehydes, ketones, and carbohydrates. Principles, procedures, quality assurance, and clinical significance of quantitative chemical analysis of body fluids, carbohydrates, lipids, proteins, electrolytes, endogenous toxic substances, blood gases, pH, enzymes, vitamins, hormones, and exogenous toxic substances. Note: The online sections require that exams be taken at approved proctoring sites.
Prerequisite(s): CHM 1150, MLT 1120, MLT 1125, MLT 1160, MLT 1165, MLT 1140, and MLT 1145
Corequisite(s): MLT 1135, MLT 2130, and MLT 2135
Instructor Permission Required.
Terms Offered: Spring

MLT 1135 Clinical Chemistry Lab (2)

Contact hours (6 total): 6 lab
Qualitative chemical analysis of body fluids, carbohydrates, lipids, proteins, electrolytes, endogenous toxic substances, blood gases, pH, enzymes, vitamins, hormones, and exogenous toxic substances.
Prerequisite(s): CHM 1150, MLT 1120, MLT 1125, MLT 1140, MLT 1145, MLT 1160, and MLT 1165
Corequisite(s): MLT 1130
Instructor Permission Required.
Lab Fee: \$115.00
Terms Offered: Spring

MLT 1140 Medical Microbiology I (2)

Contact hours (2 total): 2 lecture
Identification of bacteria by microscope, media, inoculation, biochemical activities, and sensitivity testing. Basic disease processes. Note: The online sections require that exams be taken at approved proctoring sites.
Prerequisite(s): MLT 1120, MLT 1125, MLT 1160, and MLT 1165
Corequisite(s): MLT 1145, MLT 1130, and MLT 1135
Instructor Permission Required.
Terms Offered: Spring

MLT 1145 Medical Microbiology I Lab (2)

Contact hours (6 total): 6 lab
Basic microbiology concepts. Identification of bacteria by microscope, media, inoculation, biochemical activities, and sensitivity testing.
Prerequisite(s): MLT 1120, MLT 1125, MLT 1160, and MLT 1165
Corequisite(s): MLT 1140, MLT 1130, and MLT 1135
Instructor Permission Required.
Lab Fee: \$105.00
Terms Offered: Spring

MLT 1150 Hematology I (2)

Contact hours (2 total): 2 lecture
The origin, formation, and purpose of the formed elements of the blood, differential morphology, and staining techniques. Quality control. Note: The online sections require that exams be taken at approved proctoring sites.
Prerequisite(s): MLT 1120, MLT 1125, BIO 1105, ENG 1111, MLT 1160, MLT 1165, MLT 1140, MLT 1145, MLT 2130, MLT 2135, MLT 1130, and MLT 1135
Corequisite(s): MLT 1155, MLT 2122, and MLT 2125
Instructor Permission Required.
Terms Offered: Fall

MLT 1155 Hematology I Laboratory (2)

Contact hours (6 total): 6 lab
Manual and automated hematology instrumentation techniques and principles of counting erythrocytes, leukocytes, and thrombocytes; determination of red blood cell indices. Quality control.
Prerequisite(s): MLT 1120, MLT 1125, BIO 1105, ENG 1111, MLT 1160, MLT 1165, MLT 1140, MLT 1145, MLT 2130, MLT 2135, MLT 1130, and MLT 1135
Corequisite(s): MLT 1150
Instructor Permission Required.
Lab Fee: \$100.00
Terms Offered: Fall

MLT 1160 Urinalysis & Body Fluids (2)

Contact hours (2 total): 2 lecture
Urinalysis principles including physical and chemical characteristics and microscopic analysis of urinary sediment. Body fluids: synovial, cerebrospinal, serous, amniotic, and seminal fluids. Note: The online sections require that exams be taken at approved proctoring sites.

Prerequisite(s): Acceptance to Medical Laboratory Technology program

Corequisite(s): MLT 1165, MLT 1120, and MLT 1125

Instructor Permission Required.

Terms Offered: Fall

MLT 1165 Urinalysis & Body Fluids Laboratory (1)

Contact hours (3 total): 3 lab

Basic urinalysis techniques including physical and chemical characteristics and microscopic analysis of urinary sediment. Basic technique for synovial, cerebrospinal, serous, amniotic, and seminal fluids.

Prerequisite(s): Acceptance to Medical Laboratory Technology program

Corequisite(s): MLT 1160

Instructor Permission Required.

Lab Fee: \$85.00

Terms Offered: Fall

MLT 2122 Immunology & Blood Banking (3)

Contact hours (3 total): 3 lecture

Principles and theories of the production and characteristics of antigen-antibody reactions, formation, and reactions of antigens and antibodies. Responsibility of blood bank procedures, blood collection, and processing. Genotypes and phenotypes of ABO and Rh blood group systems. Note: The online sections require that exams be taken at approved proctoring sites.

Prerequisite(s): ENG 1111, BIO 1105, MLT 1120, MLT 1125, MLT 1140, MLT 1145, MLT 1160, MLT 1165, MLT 2130, MLT 2135, MLT 1130, and MLT 1135

Corequisite(s): MLT 2125, MLT 1150, MLT 1155, MLT 2140, and MLT 2145

Instructor Permission Required.

Terms Offered: Fall

MLT 2125 Immunology & Blood Banking Lab (4)

Contact hours (12 total): 12 lab

Techniques of agglutination, precipitation, flocculation, immunodiffusion, immunofluorescence, ELISA (Enzyme-linked immunosorbent assay), and EIA (Enzyme immunoassay). Typing techniques, principles, procedures; crossmatch and panel screening; atypical antibody identification and quality control.

Prerequisite(s): ENG 1111, BIO 1105, MLT 1120, MLT 1125, MLT 1160, MLT 1165, MLT 1140, MLT 1145, MLT 2130, MLT 2135, MLT 1130, and MLT 1135

Corequisite(s): MLT 2122

Instructor Permission Required.

Lab Fee: \$175.00

Terms Offered: Fall

MLT 2130 Medical Microbiology II (2)

Contact hours (2 total): 2 lecture

Identification of microbial agents associated with disease in man including bacteria, viruses, and parasites. Specimen collection. Quality control. Note: The online sections require that exams be taken at approved proctoring sites.

Prerequisite(s): BIO 1105, MLT 1120, MLT 1125, MLT 1160, MLT 1165, MLT 1140, and MLT 1145

Pre/Corequisite(s): none

Corequisite(s): MLT 2135

Instructor Permission Required.

Terms Offered: Spring

MLT 2135 Medical Microbiology II Lab (2)

Contact hours (6 total): 6 lab

Techniques to isolate, identify, and evaluate the presence of clinically significant microorganisms.

Prerequisite(s): BIO 1105, MLT 1120, MLT 1125, MLT 1140, MLT 1145, MLT 1160, and MLT 1165

Corequisite(s): MLT 2130, MLT 1130, and MLT 1135

Instructor Permission Required.

Lab Fee: \$150.00

Terms Offered: Spring

MLT 2140 Hematology II (2)

Contact hours (2 total): 2 lecture

Disorders of blood cells and platelets including biochemistry of the red blood cell, anemias, leukemias. Principles and procedures of coagulation. Note: The online sections require that exams be taken at approved proctoring sites.

Prerequisite(s): ENG 1111, BIO 1105, MLT 1120, MLT 1125, MLT 1160, MLT 1165, MLT 1140, MLT 1145, MLT 2130, MLT 2135, MLT 1130, MLT 1135, MLT 1150, and MLT 1155

Corequisite(s): MLT 2145

Instructor Permission Required.

Terms Offered: Fall

MLT 2145 Hematology II Lab (2)

Contact hours (6 total): 6 lab

Manual and automated instrumentation techniques used within a hematology department. Differential counting of abnormal cells. Coagulation.

Prerequisite(s): ENG 1111, BIO 1105, MLT 1120, MLT 1125, MLT 1160, MLT 1165, MLT 1140, MLT 1145, MLT 2130, MLT 2135, MLT 1130, MLT 1135, MLT 1150, and MLT 1155

Corequisite(s): MLT 2140

Instructor Permission Required.

Lab Fee: \$110.00

Terms Offered: Fall

MLT 2156 Directed Practice /Seminar (5)

Four hundred (400) hours at assigned clinical site; departmental rotation; application of principles and techniques under supervision of clinical staff and college faculty. Includes directed reflection on the clinical experience.

Prerequisite(s): All prior MLT coursework with a grade of C or better

Instructor Permission Required.

Student Liability Fee: \$20.00

Terms Offered: Spring

MLT 2160 MLT Review and Update (2)

Contact hours (2 total): 2 lecture

Review and update of urinalysis, hematology, clinical chemistry, medical microbiology, immunology, immunohematology. Note: The online sections require that exams be taken at approved proctoring sites.

Prerequisite(s): All prior MLT coursework with a grade of C or better

Instructor Permission Required.

Terms Offered: Spring

(MST) Multi-Skilled Health Care

MST 1101 Introduction to Health Care (3)

Contact hours (3 total): 3 lecture

History of health care delivery systems, current systems, services, trends and challenges, health care careers, and ethical and legal responsibilities. Foundational concepts of patient care including human growth and development, basic human needs, patient rights and responsibilities, provider and patient safety, communication skills, and computer literacy. Professionalism and securing and maintaining employment.

Prerequisite(s): ENG 0800 with a grade of C or higher
Pre/Corequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher, and ENG 0900 with a grade of C or higher

Terms Offered: Fall, Spring, Summer

MST 1105 Medical Terminology (2)

Contact hours (2 total): 2 lecture

Language of medicine. Medical prefixes, suffixes, root words, singular/plural forms constructed to form medical terminology. Definition, spelling, and pronunciation of terms related to organization of the body, body systems, pathology, diagnostic and treatment procedures, pharmacology and medical specialists. Standard medical abbreviations. TAG OHL020 approved course.

Prerequisite(s): ENG 0800 with a grade of C or higher
Pre/Corequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher, and ENG 0900 with a grade of C or higher

Terms Offered: Fall, Spring, Summer

MST 1140 Human Disease (3)

Contact hours (3 total): 3 lecture

Basic concepts of pathophysiology. Pathophysiological processes, clinical manifestations, and diagnostic and therapeutic management of common disorders and diseases of major body systems.

Prerequisite(s): MST 1105 and BIO 1105 or BIO 2122

Terms Offered: Fall, Spring, Summer

MST 1160 Phlebotomy (2)

Contact hours (2 total): 2 lecture

Comprehensive background in the theory and principles of phlebotomy. Quality assurance and total quality management.

Prerequisite(s): ENG 0800 with a grade of A, or ENG 0850 with a grade of C or higher

Corequisite(s): MST 1161

Terms Offered: Fall, Spring, Summer

MST 1161 Phlebotomy Lab (1)

Contact hours (2 total): 2 lab

Application of principles of phlebotomy. Performance of phlebotomy procedures.

Prerequisite(s): ENG 0800 with a grade of A, or ENG 0850 with a grade of C or higher

Corequisite(s): MST 1160

Lab Fee: \$50.00

Terms Offered: Fall, Spring, Summer

MST 1171 Introduction to Electrocardiography (2)

Contact hours (2.5 total): 1.5 lecture, 1 lab

Principles of electrocardiography (ECG) including basic cardiac anatomy and physiology, basic ECG interpretation, and identification of common abnormal tracings. Recording of rhythm strips and multi-lead ECGs. Equipment operation and troubleshooting.

Pre/Corequisite(s): BIO 1105 or BIO 2122 and MST 1105

Lab Fee: \$20.00

Terms Offered: Fall, Spring, Summer

MST 1181 Nurse Aide Training (4)

Contact hours (6 total): 3 lecture, 2 lab, 1 clinical
Introduction to basic patient/resident care. Classroom, skills lab practice, and clinical experiences. Successful completion meets the requirements to apply for the Ohio Nurse Aide State Test.

Prerequisite(s): ENG 0800 with a grade of C or higher

Corequisite(s): Criminal background check

Lab Fee: \$25.00

Student Liability Fee: \$20.00

Terms Offered: Fall, Spring, Summer

(MTH) Math

MTH 0500 Pre-Algebra (4)

Contact hours (4 total): 4 lecture

Topics include whole numbers; mixed numbers; fractions; decimals; percentages; ratios and proportions; operations with the metric system; operations with integers; solving linear equations; solving literal equations; and solving linear inequalities. Institutional credit only.

Pre/Corequisite(s): FYE 1000, FYE 1100, AGR 1100, or ENT 1000

Terms Offered: Fall, Spring, Summer

MTH 0550 Foundation of Statistics (2)

Contact hours (2 total): 2 lecture

Topics include operations with signed numbers; evaluating algebraic expressions; exponents and square roots; basic statistical calculations; converting between fractions, decimals, and percents; solving linear equations; summation notation; Venn diagrams; interval and set notation; rectangular coordinate system; and graphing linear equations. Institutional credit only.

Prerequisite(s): MTH 0500 or Academic Placement Test
Pre/Corequisite(s): FYE 1000, FYE 1100, AGR 1100, or ENT 1000

Terms Offered: Fall, Spring, Summer

MTH 0650 Algebra for Non-STEM Majors (4)

Contact hours (4 total): 4 lecture

Topics include solving various application/word problems involving linear equations; operations with polynomials; positive, negative, and fractional exponents; scientific notation; operations with radicals; solving quadratic equations using the quadratic formula; graphing linear equations; solving linear systems in two variables; and an introduction to functions and graphing. Institutional credit only.

Prerequisite(s): MTH 0500 or Academic Placement Test
Pre/Corequisite(s): FYE 1000, FYE 1100, AGR 1100, or ENT 1000

Terms Offered: Fall, Spring, Summer

MTH 0750 Algebra for STEM Majors (5)

Contact hours (5 total): 5 lecture

Topics include solving various types of word problems; operations on polynomials including factoring; operations on rational expressions; solving equations containing rational expressions; graphs of points and lines; linear systems with two variables; positive, negative, and fractional exponents; scientific notation; operations with radicals; solving quadratic equations; and an introduction to functions and graphing. Institutional credit only.

Prerequisite(s): MTH 0500 or Academic Placement Test

Pre/Corequisite(s): FYE 1000, FYE 1100, AGR 1100, or ENT 1000

Terms Offered: Fall, Spring, Summer

MTH 1060 Business Mathematics (3)

Contact hours (3 total): 3 lecture

Application of fundamental problem solving concepts, techniques, and skills relating to the quantitative aspects of business. Topics covered include bank reconciliations, percentages, simple and compound interest, depreciation, markups and markdowns, trade and cash discounts, sales and property taxes, promissory notes, insurance, loan amortization, mortgages, and business statistics.

Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher, and NextGen Accuplacer math score of 220 or greater

Terms Offered: Fall, Spring, Summer

MTH 1070 Quantitative Reasoning (3)

Contact hours (3 total): 3 lecture

Real world mathematical models and decision making for percentages, managing money, statistical literacy, variation, linear and exponential growth and decay, proportion, and voting methods. [Note: Online sections require that exams be taken at an approved proctoring site.]

Prerequisite(s): ENG 0800 (with a grade of C or higher) and MTH 0650 or MTH 0750 (with a grade of C or higher)

Terms Offered: Fall, Spring, Summer

MTH 1115 Industrial Calculations (3)

Contact hours (4 total): 2 lecture, 2 lab

Application of mathematical concepts to the design and maintenance of products and processes. Basic concepts in measurement and geometry. Presenting and analyzing data using charts, graphs, algebraic equations, vector diagrams, statistical calculations, and trigonometric relationships.

Pre/Corequisite(s): ENT 1000, ENT 1050, or FYE 1100 and ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher

Terms Offered: Fall, Spring, Summer

MTH 1200 Technical Math for Agriculture (3)

Contact hours (3 total): 3 lecture

Development and application of practical mathematical principles in agriculture including algebra, geometry, and trigonometry fundamentals with emphasis on applications involving equations, percents, measurements, graphing, and problem solving techniques.

Prerequisite(s): ENG 0800 with a grade of C or higher, and MTH 0500 with a grade of C or higher

Terms Offered: Spring

MTH 1280 College Algebra (4)

Contact hours (4 total): 4 lecture

Algebraic expressions, coordinates and graphs, transformation and composition of functions, inverse functions, polynomial and rational functions, complex numbers, synthetic and long division, remainder and factor theorem, exponential and logarithmic functions, systems of equations. [Note: Online sections require that exams be taken at an approved proctoring site.]

Prerequisite(s): ENG 0800 with a grade of C or higher and MTH 0750 with a grade of C or higher

Terms Offered: Fall, Spring, Summer

MTH 1340 Pre-Calculus (5)

Contact hours (5 total): 5 lecture

Transformation and composition of functions, inverse functions, polynomial and rational functions, synthetic and long division, remainder and factor theorem, exponential and logarithmic functions, systems of equations and inequalities, analytic geometry, matrices and determinants, Gauss-Jordan, sequences and series, trigonometric functions, solving triangles, laws of sines and cosines, unit circles, vectors, graphs of trigonometric functions, polar coordinates, trigonometric identities, and trigonometric equations

Prerequisite(s): MTH 1280 with a grade of C or higher

Terms Offered: Fall, Spring, Summer

MTH 2100 Calculus for the Management, Life and Social Sciences (5)

Contact hours (5 total): 5 lecture

Functions; limits; derivatives of polynomial, exponential, and logarithmic functions; integrals of polynomial, exponential, and logarithmic functions; maxima and minima; applications appropriate to biology, medicine, business, economics, social, and behavioral sciences.

Prerequisite(s): MTH 1280 with a grade of C or higher

Terms Offered: Spring, Summer

MTH 2200 Calculus I (5)

Contact hours (5 total): 5 lecture

Limits, continuity, derivatives, rules of differentiation, differentiation of the trigonometric, inverse trigonometric, logarithmic, and exponential functions, related rates, linear approximations and differentials, extrema, curve sketching, Mean Value Theorem, optimization problems, L'Hopital's rule, Newton's method, Fundamental Theorem of Calculus, definite and indefinite integrals, integration by substitution.

Prerequisite(s): MTH 1340 with a grade of C or higher

Terms Offered: Fall, Spring

MTH 2220 Calculus II (5)

Contact hours (5 total): 5 lecture

Riemann sums, integrals, techniques of integration, applications of integration, area, volumes of revolution, integrating various functions (polynomial, trigonometric, exponential, and logarithmic), polar coordinates. Power series, Taylor series, Maclaurin series, vectors, dot product, cross product, equations of lines and planes polar curves, polar coordinates.

Prerequisite(s): MTH 2200 with a grade of C or higher

Terms Offered: Spring, Summer

MTH 2242 Multivariable Calculus (5)

Contact hours (5 total): 5 lecture

Three-dimensional coordinate systems, polar coordinates, cylindrical and spherical coordinates, curves in space, arc length and curvature, limits and continuity, partial differentiation, local extrema, exact differentials, chain rule, directional derivative and gradient, Lagrange multipliers, derivative tests, velocity and acceleration vectors, vector fields, parametric equations, partial derivatives, differentials, multiple integrals, line and surface integrals, path independence, Green's, Stokes', and The Divergence Theorems, volume, and other applications.

Prerequisite(s): MTH 2220 with a grade of C or higher

Terms Offered: Fall

MTH 2330 Differential Equations (3)

Contact hours (3 total): 3 lecture

Ordinary differential equations of first order, higher order linear equations, uniqueness and existence of solutions, Laplace transform methods, and series methods.

Prerequisite(s): MTH 2220 with a grade of C or higher

Terms Offered: Spring

MTH 2530 Matrix Algebra (4)

Contact hours (4 total): 4 lecture

Linear systems, matrices, matrix algebra, inverse matrices, determinants, vectors, vector operations, orthogonal projections, vector spaces, subspaces, linear independence, row space, column space, null space, rank, nullity, span, dimension of a vector space, linear transformations, diagonalization, eigenvalues, eigenvectors, inner product, Gram-Schmidt process, least square, and orthogonality.

Prerequisite(s): MTH 2220 with a grade of C or higher

Terms Offered: Summer

MTH 3000 Math for Manufacturing Technology (4)

Contact hours (5 total): 3 lecture, 2 lab

Integration and application of statistics, statistical analysis, geometry, trigonometry, and algebra. Applications in business, manufacturing, and engineering. Use of an integrated teaching model, (I-BEST) with manufacturing and business management faculty.

Prerequisite(s): MTH 1340

Lab Fee: \$50.00

Terms Offered: Spring

(MTM) Manufacturing Technology Management**MTM 3000 Technical Manufacturing Skills for Management I (5)**

Contact hours (7 total): 3 lecture, 4 lab

Foundational skills in areas of manufacturing technology. Serve as team leader in various manufacturing environments. Technical knowledge and higher-level skills in the following areas: welding, robotics, mechanical and electrical systems, preventive maintenance and troubleshooting. Leadership skills within the context of a manufacturing environment are emphasized. Use of an integrated teaching model, (I-Best) with manufacturing and business management faculty.

Prerequisite(s): ENT 2600 or Instructor Approval

Lab Fee: \$50.00

Terms Offered: Fall

MTM 3100 Technical Manufacturing Skills for Management II (5)

Contact hours (7 total): 3 lecture, 4 lab

Emphasis on project management; development of higher level skills in communication through project management, meeting facilitation, development of Gantt charts, timelines, and project outcomes. Manufacturing technology skills which include: computer numerical control, computer-aided design, and additive manufacturing. Concepts in design and modeling, part documentation, production, and part verification. Use of an integrated teaching model, (I-BEST) with manufacturing and business management faculty.

Prerequisite(s): MTM 3000

Lab Fee: \$50.00

Terms Offered: Fall

MTM 3200 Integrative Manufacturing Technology (4)

Contact hours (6 total): 2 lecture, 4 lab

Advanced technical skills embedded into manufacturing projects. Concepts in automation, programming, and lean manufacturing covered. Design, construct, and operate an automated work cell. Create project proposals, troubleshoot issues, and resolve conflict in teams. Collaborate with local employers on projects. Use of an integrated teaching model (I-Best) with manufacturing and business management faculty.

Prerequisite(s): MTM 3100

Lab Fee: \$50.00

Terms Offered: Spring

MTM 3300 Quality Management Systems in Manufacturing (4)

Contact hours (6 total): 2 lecture, 4 lab

Fundamentals of quality systems. Practical relationships between current production methods and quality systems. Focus on process improvement. Best practices of high-performing quality organizations. Implement continuous improvement in manufacturing processes. Quality validation. Overview of International Organization for Standardization (ISO) certification process. ISO 9001:215 standard. Use of an integrated teaching model (I-Best) with manufacturing and business management faculty.

Prerequisite(s): MTM 3100

Lab Fee: \$50.00

Terms Offered: Spring

MTM 3400 OSHA 30-Hour General Safety (3)

Contact hours (3 total): 3 lecture

Comprehensive safety program designed for general industry including directors, foremen, and field supervisors. Employee rights, employer responsibilities, and how to identify, abate, avoid and prevent job related hazards. 30 Hour OSHA card received upon successful completion.

Prerequisite(s): MTM 3100

Certification Fee: \$115.00

Terms Offered: Spring, Summer

MTM 4000 Real World Applications in Manufacturing (3)

Contact hours (3 total): 3 lecture

Co-op work experience. Minimum of 300 hours at a manufacturing company. Work plan and goal development between student and employer. Oral and written reports. Topics including business etiquette, writing, presentation, and supervisory skills.

Prerequisite(s): MTM 3200, successful completion of a previous co-op, and approved co-op placement
Instructor Permission Required.

Lab Fee: \$50.00

Terms Offered: Fall

MTM 4100 Technical Communications (3)

Contact hours (3 total): 3 lecture

Produce oral and written scientific and technical information for executives and shop floor technicians. Include formal reports, proper use of technology for relaying complex information, formats for ISO documents and procedures and other quality assurance documents. Focused on the writing process: clear, accurate, and professional communication essential to organization management. Write effectively in terms of specified audiences. Use of an integrated teaching model (I-Best) with manufacturing and business management faculty.

Pre/Corequisite(s): MTM 4000

Terms Offered: Fall

MTM 4300 Manufacturing Innovations (5)

Contact hours (6 total): 2 lecture, 4 lab

Interdisciplinary approach to solve real employer-identified problems. Research and analysis methodology. Focus on continued growth of leadership roles, communication techniques, systematic problem-solving skills, and critical thinking. Identify how to remedy training gaps in individuals and teams. Understand complex project timelines and their interdependencies. Organizational planning and decision making. Identify cost savings efficiencies. Strategies to foster innovation. Responsibilities in innovation skill-building/leadership. Use of an integrated teaching model, (I-BEST) with manufacturing and business management faculty.

Prerequisite(s): PHY 1501

Pre/Corequisite(s): MTM 4000

Terms Offered: Spring

MTM 4400 Advanced Project Management for Manufacturing Processes (4)

Contact hours (6 total): 2 lecture, 4 lab

Analysis of logistics, product relationships, cost factors, inventory management. Examine International Organization for Standardization (ISO). Development of a process improvement plan. Managing budgets and cost factors, leading project teams, resource allocation, delegation of tasks and how they relate to the manufacturing environment. Team development and ways to enhance team performance through planning and executing a project. Evaluation of employees. Applying management theory at all levels. Use of an integrated teaching model, (I-BEST) with manufacturing and business management faculty.

Prerequisite(s): MTM 4300

Lab Fee: \$50.00

Terms Offered: Spring

(MUS) Music

MUS 1001 Music Theory I (3)

Contact hours (3 total): 3 lecture

Conventions of musical notation. Introduction to the elements of tonal music. Melodic organization, texture reduction, and voice-leading practices for four voices.

Terms Offered: Fall

MUS 1002 Music Theory II (3)

Contact hours (3 total): 3 lecture

Chord progressions. Creating and harmonizing melodies. Using non-harmonic tones in melodies and chords. Seventh chords and leading-tone chords. Methods for changing keys. Two and three-part forms.

Prerequisite(s): MUS 1001

Terms Offered: Spring

MUS 1130 Music Appreciation (3)

Contact hours (3 total): 3 lecture

A survey of Western and non Western (secular and sacred) music from approximately 450 AD to the present; a chronological presentation of material supplemented with basic elements of music, listening examples, and live performances.

Prerequisite(s): ENG 0800 with a grade of C or higher
Global Awareness.

Terms Offered: Fall, Spring

MUS 1151 Applied Guitar I (1)

Private instrument instruction focusing on the fundamentals of instrument performance skills. Thirty minutes of private instruction per week. A minimum of 6.5 hours of practice time required per week. May be taken up to 4 terms.

Other Fee: \$100.00

Terms Offered: Fall, Spring

MUS 1152 Applied Guitar II (2)

Private instrument instruction focusing on the fundamentals of instrument performance skills. Sixty minutes of private instruction per week. A minimum of 13 hours of practice time required. May be taken up to 4 terms.

Other Fee: \$150.00

Terms Offered: Fall, Spring

MUS 1161 Applied Voice (1)

Private voice instruction focusing on the fundamental of voice production, song literature interpretation, and performance skill. Thirty minutes of private instruction per week. May be taken up to 4 terms.

Prerequisite(s): none

Lab Fee: \$100.00

Terms Offered: Fall, Spring, Summer

MUS 1171 Applied Piano (1)

Individual piano instruction focusing on the fundamentals of piano performance skills. May be taken up to 4 terms.

Other Fee: \$100.00

Terms Offered: Fall, Spring, Summer

(NTK) Networking

NTK 1110 PC Hardware Essentials (3)

Contact hours (4 total): 2 lecture, 2 lab
Installing, configuring, upgrading, and troubleshooting microcomputer hardware. Desktop, notebook, server systems, and basic networking. First of two-course sequence covering A+ certification objectives.
Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher, and ITS 0800
Lab Fee: \$75.00
Terms Offered: Fall, Spring, Summer

NTK 1120 PC Operating Systems Essentials (3)

Contact hours (4 total): 2 lecture, 2 lab
Intensive introduction to multitasking operating systems and network operating systems. Operating system upgrades/configuration, installation procedures, security issues, backup procedures, remote access, command line, and graphical user interfaces. Second of a two-course sequence covering the A+ certification objectives.
Pre/Corequisite(s): NTK 1110
Lab Fee: \$75.00
Terms Offered: Fall, Spring, Summer

NTK 1211 Convergence Technology I (3)

Contact hours (4 total): 2 lecture, 2 lab
Convergence technology terms and concepts. Networking fundamentals, TCP/IP networking basics, and merging of voice, and data traffic. Hands-on experience with convergence equipment and software. Planning, installing, configuring, managing, optimizing, and troubleshooting voice, video, and data infrastructures. Configuring wireless technologies and security.
Prerequisite(s): NTK 176 or NTK 1110
Lab Fee: \$75.00
Terms Offered: Spring

NTK 2100 Cisco - Introduction to Networks (3)

Contact hours (4 total): 2 lecture, 2 lab
Overview of computer networking concepts, theories, and structures. Discussion of the OSI network model, network addressing, data encapsulation, and TCP/IP network-layer protocols. Part of a set of courses covering material for the CCENT and CCNA certification exams.
Prerequisite(s): NTK 1120
Lab Fee: \$75.00
Terms Offered: Fall

NTK 2110 Cisco - Routing and Switching (3)

Contact hours (4 total): 2 lecture, 2 lab
Overview of network router concepts and theory. Discussion of router elements, Transmission Control Protocol/Internet Protocol (TCP/IP) transport-layer protocols, and flow control. Hands-on experience with router setup, configuration, and monitoring. Part of a set of courses covering material for the CCENT and CCNA certification exams.
Pre/Corequisite(s): NTK 2100
Lab Fee: \$75.00
Terms Offered: Fall

NTK 2120 Cisco - Scaling Networks (3)

Contact hours (4 total): 2 lecture, 2 lab
Overview of local area networking (LAN) concepts and theory. Discussion of LAN redundancy and aggregation, wireless technologies and advanced routing protocols. Hands-on experience with switch and router setup, configuration, and monitoring. Part of a set of courses covering material for the CCNA certification exam.
Prerequisite(s): NTK 2110
Lab Fee: \$75.00
Terms Offered: Spring

NTK 2130 Cisco - Connecting Networks (3)

Contact hours (4 total): 2 lecture, 2 lab
Advanced network routing and switching concepts and theory. Discussion of Wide Area Networks (WANs) and supporting protocols and structures. Hands-on experience with advanced router setup and configuration. Part of a set of courses covering material for the CCNA certification.
Pre/Corequisite(s): NTK 2120
Lab Fee: \$75.00
Terms Offered: Spring

NTK 2212 Linux Server Administration (3)

Contact hours (4 total): 2 lecture, 2 lab
Hands-on experience with Linux server operating systems. Planning, installing, configuring, managing, optimizing, and troubleshooting.
Pre/Corequisite(s): NTK 1110
Lab Fee: \$75.00
Terms Offered: Spring

NTK 2220 Microsoft Client Administration (3)

Contact hours (4 total): 2 lecture, 2 lab
Hands-on experience with the Microsoft Client operating system. Installing, configuring, optimizing, and troubleshooting. Course covers Microsoft certification objectives.
Pre/Corequisite(s): NTK 1120
Lab Fee: \$75.00
Terms Offered: Fall

NTK 2222 Administering Microsoft Server (3)

Contact hours (4 total): 2 lecture, 2 lab
Hands-on experience with the Microsoft Server operating system. Planning, installing, configuring, managing, optimizing, and troubleshooting. Course covers Microsoft certification objectives.
Prerequisite(s): NTK 2220
Lab Fee: \$75.00
Terms Offered: Fall

NTK 2710 Introduction to High Performance/Clustered Computing (3)

Contact hours (4 total): 2 lecture, 2 lab
Introduction to high performance/clustered computing (HP/CC). High performance/clustered computing jobs and career opportunities. High performance/clustered computing terms and concepts. High performance/clustered computing vendors and technologies. Research on clustered computer systems.
Prerequisite(s): NTK 1120
Lab Fee: \$75.00
Terms Offered: Spring

NTK 2712 High Performance/Clustered Computing Design (3)

Contact hours (4 total): 2 lecture, 2 lab
Methods and processes used to create high-performance/clustered computer systems (HPC).
Evaluating clustered computing hardware and software options. Installing and configuring a high-performance/clustered system.

Pre/Corequisite(s): NTK 2710

Lab Fee: \$75.00

Terms Offered: Spring

NTK 2890 Computer Networking Capstone (3)

Contact hours (3 total): 3 lecture
Overview of ethics in the information technology field.
Assessment of skills and competencies of network administration through project-based activities.

Requires an oral and written presentation. Should be taken in final term prior to graduation.

Prerequisite(s): CSE 1120, MGT 2000, ENG 1111, ENG 2211, and NTK 2100

Lab Fee: \$75.00

Terms Offered: Spring

(NUR) Nursing

NUR 1110 Dosage Calculation (1)

Contact hours (1 total): 1 lecture
Systems of measurement and calculation of drug dosage. Note: The online sections require that exams be taken at approved proctoring sites.

Prerequisite(s): MTH 0650 or MTH 0750, with a grade of C or higher

Terms Offered: Fall, Spring, Summer

NUR 1130 Basic Nursing Concepts (6.5)

Contact hours (11.5 total): 4 lecture, 2.5 lab, 5 clinical
Introduces basic nursing concepts, psychomotor skills, assessment techniques, nursing process, and study skills. Applies concepts of ethics and safety in the care of adults undergoing surgery, experiencing problems of mobility, and experiencing endocrine disorders.

Incorporates the principles of evidence-based care, advocacy, caring and learning to promote health in adults within the context of environment.

Prerequisite(s): Current Ohio State Tested Nurse Aide (STNA) certification or MST 1181 within 2 years.

Pre/Corequisite(s): BIO 2121 and NUR 1110

Instructor Permission Required.

Lab Fee: \$418.00

Student Liability Fee: \$20.00

Terms Offered: Fall, Spring

NUR 1132 Adult Nursing I (6.5)

Contact hours (12.5 total): 3.5 lecture, 9 clinical
Applies principles of ethics, safety, and nursing process in the care of adults with fluid and electrolyte, acid/base balance, respiratory, renal and select endocrine disorders; hypertension; and congestive heart failure.

Incorporates the principles of evidence-based care, advocacy, caring, and learning to promote health in adults within the context of environment.

Prerequisite(s): NUR 1130, ENG 1111, PSY 1111, BIO 2121, and NUR 1110 or NUR 1120

Pre/Corequisite(s): BIO 2122

Lab Fee: \$223.00

Terms Offered: Fall, Spring

NUR 1134 Behavioral Health Nursing (2.5)

Contact hours (3.5 total): 2 lecture, 1.5 clinical
Introduces concepts of behavioral health and psychosocial assessment across the lifespan in a variety of settings. Applies concepts of ethics and safety in the care of patients experiencing commonly occurring psychiatric, emotional, and developmental disorders, substance abuse, family violence, difficult life transitions, and challenging behaviors. Incorporates the principles of evidence-based care, advocacy, caring, and learning to promote behavioral health within the context of the environment.

Prerequisite(s): ENG 1111, PSY 1111, and BIO 2121

Pre/Corequisite(s): BIO 2122 and NUR 1132, NUR 1135, or NUR 1137

Lab Fee: \$160.00

Terms Offered: Fall, Spring

NUR 1135 LPN to RN Transition (3)

Contact hours (4 total): 2 lecture, 2 lab
Assists in the transition of the LPN to the role of RN. Refines and updates previous learning of basic nursing concepts, psychomotor skills, assessment techniques, and study skills. Applies principles of ethics, safety, and nursing process in the care of adults. Incorporates the principles of evidence-based care, advocacy, caring, and learning to promote and maintain health. Follows the Ohio Nursing Articulation Model.

Prerequisite(s): BIO 2122 and ENG 1111

Pre/Corequisite(s): NUR 1136 and NUR 1110

Instructor Permission Required.

Lab Fee: \$321.00

Student Liability Fee: \$20.00

Terms Offered: Fall, Spring

NUR 1136 Adult Nursing for LPNs (2)

Contact hours (2 total): 2 lecture
Applies principles of ethics, safety, and nursing process in the care of adults with mobility, fluid and electrolyte, acid/base balance, respiratory, endocrine, and renal disorders; hypertension; and congestive heart failure. Incorporates the principles of evidence-based care, advocacy, caring, and learning to promote health in adults within the context of environment.

Prerequisite(s): BIO 2122 and ENG 1111

Pre/Corequisite(s): NUR 1135

Instructor Permission Required.

Lab Fee: \$240.00

Terms Offered: Fall, Spring

NUR 1137 Paramedic to RN Transition (2.5)

Contact hours (3.5 total): 2 lecture, 1.5 lab
Assists in the transition of the paramedic to the role of RN. Refines and updates previous learning of assessment techniques, psychomotor skills, and study skills. Introduces basic nursing concepts and nursing process. Applies principles of ethics, safety, and nursing process in the care of adults undergoing surgery, experiencing problems of mobility, and experiencing endocrine disorders. Incorporates the principles of evidence-based care, advocacy, caring, and learning to promote and maintain health.

Prerequisite(s): BIO 2122, PSY 1111, and ENG 1111 and MST 1181 (or current STNA certificate or proficiency testing)
 Pre/Corequisite(s): NUR 1110
 Instructor Permission Required.
 Lab Fee: \$328.00
 Terms Offered: Fall

NUR 1138 Adult Nursing for Paramedics (4.5)

Contact hours (8.5 total): 2.5 lecture, 6 clinical
 Applies principles of ethics, safety, and nursing process in the care of adults with fluid and electrolyte, acid/base balance, respiratory, and renal disorders; hypertension; and congestive heart failure. Incorporates the principles of evidence-based care, advocacy, caring, and learning to promote health in adults within the context of environment.

Prerequisite(s): NUR 1110, NUR 1137, BIO 2122, PSY 1111, and ENG 1111

Instructor Permission Required.

Lab Fee: \$240.00

Student Liability Fee: \$20.00

Terms Offered: Fall

NUR 2232 Children-Family Nursing (2.5)

Contact hours (3.5 total): 2 lecture, 1.5 clinical
 Applies principles of ethics, safety, and nursing process in the care of children and families experiencing common childhood and developmental disorders. Incorporates the principles of evidence-based care, advocacy, caring, and learning to promote and maintain health within the context of family.

Prerequisite(s): BIO 2122, PSY 2223, ENG 1112, and NUR 1132 or NUR 1138, or NUR 1135 and NUR 1136, NUR 2236

Pre/Corequisite(s): BIO 1131

Lab Fee: \$160.00

Terms Offered: Fall, Spring

NUR 2234 Maternal-Newborn Nursing (2.5)

Contact hours (3.5 total): 2 lecture, 1.5 clinical
 Applies principles of ethics, safety, and nursing process in the context of female reproduction and newborn health. Emphasis on physiological changes of pregnancy, prevention of complications, conditions of the high-risk newborn, and common gynecological disorders. Incorporates the principles of evidence-based care, advocacy, caring, and learning using a family-centered approach.

Prerequisite(s): ENG 1112, PSY 2223, BIO 2122, and NUR 1132 or NUR 1138 or NUR 1135 and NUR 1136

Pre/Corequisite(s): BIO 1131

Lab Fee: \$160.00

Terms Offered: Fall, Spring

NUR 2236 Adult Nursing II (6.5)

Contact hours (11.5 total): 4 lecture, 0.5 lab, 7 clinical
 Applies the nursing process utilizing evidence-based, patient-centered nursing care of adult patients with cardiovascular, neurological, gastrointestinal, immunological, and hematological disorders. Demonstrates appropriate nursing judgment skills in the clinical setting, providing safe, quality care. Utilizes technology to communicate and function effectively within the inter-professional team.

Prerequisite(s): BIO 2122, ENG 1112, PSY 2223, and NUR 1132 or NUR 1138 or NUR 1135 and NUR 1136

Pre/Corequisite(s): BIO 1131

Lab Fee: \$244.00

Student Liability Fee: \$20.00

Terms Offered: Fall, Spring

NUR 2239 Adult Nursing III (8)

Contact hours (15 total): 4.5 lecture, 0.5 lab, 10 clinical
 Applies the nursing process utilizing evidence-based, patient-centered nursing care of adult patients with complex cardiovascular, respiratory, neurological, multi-system, oncological disorders, and burns. Professional leadership and management utilizing teamwork and collaboration, integrating quality improvement methodologies to improve safety in the delivery of nursing care. Utilizes appropriate nursing judgments in the clinical setting; identifies appropriate care for communities during emergency, disaster, and bio-terrorism events. Emphasis on current National Council Licensure Exam (NCLEX) test plan.

Prerequisite(s): NUR 2236, NUR 2234, NUR 1134, and BIO 1131

Pre/Corequisite(s): NUR 2232

Lab Fee: \$213.00

Terms Offered: Fall, Spring

(NWM) New Media

NWM 1000 Introduction to New Media (2)

Contact hours (3 total): 1 lecture, 2 lab
 Introduction to technology, theory, practice, and basic principles of new media. Portfolio development.

Prerequisite(s): ENG 0800 with a grade of C or higher and ENG 0900 with a grade of C or higher

Lab Fee: \$75.00

Terms Offered: Fall

NWM 1005 Digital Aesthetics and User Experience (3)

Contact hours (4 total): 2 lecture, 2 lab
 Aesthetic online design and layout including design elements and principles, color theory, and typography. User experience design and usability testing.

Prerequisite(s): ENG 0800 with a grade of C or higher and ENG 0900 with a grade of C or higher

Lab Fee: \$55.00

Terms Offered: Spring

NWM 1010 Social Media and Digital Interactivity (3)

Contact hours (4 total): 2 lecture, 2 lab
 Social media vocabulary. Social media as a marketing and promotional tool. Online tools that encourage interactivity. "Viral" phenomenon and online advertising.

Prerequisite(s): ENG 0800 with a grade of C or higher and ENG 0900 with a grade of C or higher

Lab Fee: \$55.00

Terms Offered: Spring

NWM 1020 Adobe for Web Professionals (3)

Contact hours (4 total): 2 lecture, 2 lab
 Use Adobe products to enhance web designs and online media. Create eBook. Software: Adobe Illustrator, Adobe Photoshop, and Adobe InDesign.

Prerequisite(s): GPH 1000 or GPH 1001 (or instructor permission)

Lab Fee: \$60.00

Terms Offered: Spring

NWM 1610 Web Design (3)

Contact hours (4 total): 2 lecture, 2 lab
Web design and publishing, introduction to responsive design, and use content management system.
Prerequisite(s): ITS 1500
Lab Fee: \$60.00
Terms Offered: Spring

NWM 2000 Digital Multimedia I (3)

Contact hours (4 total): 2 lecture, 2 lab
Digital video and audio. Post and share projects online.
Prerequisite(s): NWM 1000, GPH 1000, or GPH 1001 (or Instructor Permission)
Lab Fee: \$175.00
Terms Offered: Fall

NWM 2010 Digital Multimedia II (3)

Contact hours (4 total): 2 lecture, 2 lab
Digital photography. Stop motion animation, and 2D computer animation. Software: Adobe Photoshop and Adobe Flash Professional.
Prerequisite(s): NWM 2000
Lab Fee: \$140.00
Terms Offered: Spring

NWM 2100 Web Programming, Scripting, and Database (3)

Contact hours (4 total): 2 lecture, 2 lab
PHP scripting language and MySQL, open source database. Ruby on Rails for web programming. Dynamic web pages and interactive elements.
Prerequisite(s): CSD 1500 or CSD 1510 and NWM 1600
Lab Fee: \$60.00
Terms Offered: Fall

NWM 2200 New Media Internship (2)

Contact hours (1 total): 1 lecture
New media solutions for local companies or community organizations.
Prerequisite(s): NWM 1010, NWM 2000, and ITS 2310
Lab Fee: \$30.00
Terms Offered: Spring

NWM 2210 New Media Capstone (3)

Contact hours (4 total): 2 lecture, 2 lab
New media solutions for local companies or community organizations. Portfolio evaluation and preparation.
Prerequisite(s): NWM 1010 and NWM 2000 and NWM 1600 or NWM 1610
Lab Fee: \$175.00
Terms Offered: Spring

NWM 2400 Advanced Web Design (3)

Contact hours (4 total): 2 lecture, 2 lab
Open source content management systems, websites with advanced functionality, including e-commerce and search engine optimization techniques.
Prerequisite(s): NWM 1005 and CSD 1600 or CSD 2200 and NWM 1600 or NWM 1610
Lab Fee: \$60.00
Terms Offered: Spring

(OAD) Office Administration

OAD 1101 Document Production I (3)

Contact hours (5 total): 1 lecture, 4 lab
Production of common business correspondence, simple reports, and basic tables, using Microsoft Word 2016 software; emphasis on accuracy. Minimum typing speed of 35 gwpm required.
Pre/Corequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher
Terms Offered: Fall, Spring

OAD 1102 Document Production II (3)

Contact hours (5 total): 1 lecture, 4 lab
Production of complex business correspondence, reports and tables, using Microsoft Word 2016 software. Introduction to desktop publishing; emphasis on speed and accuracy. Minimum typing speed of 40 words per minute expected.
Prerequisite(s): OAD 1101
Terms Offered: Fall, Spring

OAD 1105 Business English (4)

Contact hours (4 total): 4 lecture
Parts of speech; sentence elements, varieties, patterns, types, and faults; nouns; possessive nouns; personal pronouns; pronouns and antecedents; verb kinds, voices, and moods; verb tenses and parts; subject-verb agreement; adjective and adverb modifiers; prepositions; conjunctions; commas; semicolons and colons; capitalization; number style; and proofreading.
Pre/Corequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher
Terms Offered: Fall, Spring, Summer

OAD 1205 Office Procedures (3)

Contact hours (3 total): 3 lecture
Basic office administrative skills and concepts, including the work environment; ethics; stress, anger, and time management; workplace technologies; information processing; telecommunications; written communication; presentations; the workplace team; customer service; workplace mail and copiers; travel arrangements; meetings and conferences; and leadership. Also included is a comprehensive overview of records management procedures including alphabetic indexing rules, electronic file management, alphabetic records management, equipment, and procedures, and storing, retrieving, and transferring records.
Pre/Corequisite(s): ENG 0800 with a grade of A, or ENG 0850 with a grade of C or higher
Terms Offered: Fall

OAD 2205 Electronic Health Records (3)

Contact hours (5 total): 1 lecture, 4 lab
Development of techniques for acquiring advanced skills in the use of medical office management software. Encompasses the entire reimbursement process and applies it to practice-management software starting with appointment scheduling and moving through patient registration, procedure posting, medical billing with paper claims and electronically, payment posting, secondary insurance billing, patient billing, patient collections, and insurance tracking and follow-up.
Pre/Corequisite(s): MST 1105
Terms Offered: Spring

OAD 2301 CPT/ICD-10-PCS Coding (3)

Contact hours (3 total): 3 lecture
Introduction to CPT codes for insurance billing and reimbursement. Use of coding manuals plus the most recent coding classifications and guidelines. Coding steps explained. Procedural classification system. This course is offered in a hybrid format that is required to meet every week.

Pre/Corequisite(s): BIO 1105 and MST 1105
Terms Offered: Fall, Spring

OAD 2302 ICD-10-CM Coding (3)

Contact hours (3 total): 3 lecture
Introduction to ICD-10-CM codes for insurance billing and reimbursement. Coding manuals, recent code updates and guidelines. Coding steps. Diagnostic classification system. This course is offered in a hybrid format that is required to meet every week.

Pre/Corequisite(s): BIO 1105 and MST 1105
Terms Offered: Fall, Spring

OAD 2312 Advanced Medical Coding (3)

Contact hours (3 total): 3 lecture
Coding experience using ICD-10-CM, CPT/ICD-10-PCS and HCPCS numeric representation. Specialized areas of coding. Certification related to specialty areas. Policies, forms, technology, and processes associated with medical billing protocol. Medicare information. Reimbursement. This course is offered in a hybrid format that is required to meet for the first two weeks and then every other week thereafter.

Prerequisite(s): OAD 2301 and OAD 2302
Terms Offered: Fall, Spring

OAD 2320 Medical Office Certification Review (1)

Contact hours (1 total): 1 lecture
Review of electronic health records, medical ethics, and medical coding requirements for credentialing exam. Emphasis on Certified Coding Associate (CCA) and Certified Electronic Health Records Specialist (CEHRS). Certification exams administered within course. This course is offered in a hybrid format that is required to meet every other week.

Prerequisite(s): OAD 2301 and OAD 2302
Pre/Corequisite(s): MST 1140
Certification Fee: \$299.00
Terms Offered: Fall, Spring

OAD 2703 Co-op Education/Internship (3)

Contact hours (1.5 total): 1.5 lecture
Relating academic studies to the workplace through a supervised work placement that provides hands-on experience in a professional office or medical office. Applying principles and theories learned in the classroom, establishing learning outcomes, and preparing related reports. Attending weekly seminars that allow opportunity for discussion of work-related experiences and relevant topics. Workplace learning equal to fifteen (15) hours per week for a fifteen (15) week term as well as a minimum of 225 documented hours.

Prerequisite(s): EBE 1000 and co-op placement
Instructor Permission Required.
Terms Offered: Spring

(PED) Physical Education**PED 1001 Beginning Pilates Mat Science (1)**

Contact hours (2 total): 2 lab
Proper breathing. Principles of mat science. Components of fitness. Pilates equipment.
Terms Offered: Fall, Spring

PED 1002 Step Aerobics (1)

Contact hours (2 total): 2 lab
Warm-up exercises, strength and flexibility exercises, and cool down exercises. Knowledge of safe fitness techniques and benefits.
Terms Offered: Fall, Spring

PED 1003 Beginning Weight Training (1)

Contact hours (2 total): 2 lab
Correct weight training procedures, proper handling of equipment, training principles, composition of an individual total workout program, and dietary effects.
Terms Offered: Fall, Spring

PED 1004 Intermediate Weight Training (1)

Contact hours (2 total): 2 lab
Intermediate level of free weight training. Setting up a personal program. Safety and nutrition information.
Terms Offered: Fall, Spring

PED 1005 Beginning Tennis (1)

Contact hours (2 total): 2 lab
Forehand drive, backhand drive, volleying, serving, and footwork. History, rules, terms, scoring, simple strategies, and the etiquette of tennis.
Terms Offered: Fall, Spring, Summer

PED 1006 General Physical Conditioning (1)

Contact hours (2 total): 2 lab
Principles and benefits of physical conditioning, warm-up/stretching exercises, aerobic and strength exercises (walking, jogging, rope skipping, stationary biking, weight training), flexibility exercises, and cool down exercises.
Terms Offered: Fall, Spring

PED 1007 Yoga for Beginners (1)

Contact hours (2 total): 2 lab
Reducing stress through focused breathing and relaxation exercises using meditation techniques.
Terms Offered: Fall, Spring

PED 1008 Beginning Basketball (1)

Contact hours (2 total): 2 lab
Shooting, passing, dribbling, and defense along with game play. Includes equipment, rules, terms scoring, and etiquette of basketball.
Terms Offered: Fall, Spring

PED 1009 Intermediate Basketball (1)

Contact hours (2 total): 2 lab
Intermediate phase of shooting, passing, dribbling, and defense along with game play. Includes equipment, rules, terms, scoring, and etiquette of basketball.
Terms Offered: Fall, Spring

PED 1010 Beginning Golf (1)

Contact hours (2 total): 2 lab
Driving, putting, chipping, and pitching along with fair play. Also includes the history, equipment, rules, terms, scoring, and etiquette of golf.

Prerequisite(s): none
Lab Fee: \$20.00
Terms Offered: Fall, Spring

PED 1011 Pilates II Mat Stability Ball (1)

Contact hours (2 total): 2 lab
Advanced study of breathing techniques, progressive mat science, detailed practice in core stability, Pilates equipment.
Terms Offered: Spring

PED 1012 Continuing Yoga (1)

Contact hours (2 total): 2 lab
Using yoga and meditation techniques to reduce stress.
Terms Offered: Fall, Spring

PED 1013 Karate Self Defense for Beginners (1)

Contact hours (2 total): 2 lab
Punching and kicking drills, takedown, self-discipline, and control of hostile situations. History, philosophy, and discipline used in Kenpo and Aikijitsu. Belt rank in karate optional at additional cost.
Terms Offered: Fall

PED 1014 Intermediate Karate Self Defense (1)

Contact hours (2 total): 2 lab
Intermediate level kicks, hand techniques, hand trapping, and escapes. Belt rank in karate optional at additional cost.
Prerequisite(s): PED 1013 (or equivalent experience as determined by instructor)
Instructor Permission Required.
Terms Offered: Fall, Spring

(PHL) Philosophy

PHL 2000 Critical Thinking (3)

Contact hours (3 total): 3 lecture
Introduction to basic reasoning skills: distinguish knowledge from belief and truth; evaluate relevant information; identify assumptions; detect biased and fallacious reasoning; identify, analyze, and evaluate basic inductive and deductive arguments.
Pre/Corequisite(s): ENG 1111
Terms Offered: Fall

PHL 2050 Deductive Logic (3)

Contact hours (3 total): 3 lecture
Formal methods for determining the validity of deductive arguments; construction of truth tables, sentential proofs, and categorical syllogisms.
Pre/Corequisite(s): ENG 1111
Terms Offered: Fall

PHL 2100 Ethics (3)

Contact hours (3 total): 3 lecture
Philosophical analysis and critique of predominant ethical perspectives from Western philosophy and religion. Application of these perspectives to contemporary moral problems such as abortion, drug use, the death penalty, racism, war and terrorism, animal rights, and the moral status of the natural environment. [Note: Online sections require that exams be taken at an approved proctoring site.]
Pre/Corequisite(s): ENG 1111
Global Awareness.
Terms Offered: Fall, Spring, Summer

PHL 2300 Medical Ethics (3)

Contact hours (3 total): 3 lecture
Application of philosophical analysis and ethical theories to the moral problems arising from modern medical care such as abortion, patients' rights, euthanasia, and experimentation with human subjects and ethics of cloning. Discussion of how moral values affect, and are affected by, medical and biological knowledge and practice. [Note: Online sections require that exams be taken at an approved proctoring site.]
Pre/Corequisite(s): ENG 1111
Terms Offered: Spring

PHL 2400 Philosophy of World Religions (3)

Contact hours (3 total): 3 lecture
Philosophical analysis of the basic salvational beliefs and practices of Judaism, Christianity, Islam, Hinduism, and Buddhism, including: absolutist vs. enculturated conceptual interpretations of ultimate sacred reality; the impact of current scientific theories on arguments for the existence of God and scriptural interpretation; psychological and sociological interpretations of religion; religious vs. scientific explanations of the self, mystical visions, and near-death experiences; and scientific vs. religious arguments on the possibility of resurrection and reincarnation.
Pre/Corequisite(s): ENG 1111
Global Awareness.
Terms Offered: Fall, Spring, Summer

(PHY) Physics

PHY 1100 Fundamentals of Physics (4)

Contact hours (5 total): 3 lecture, 2 lab
Concepts and applications of physics for non-science majors to include: one and two dimensional motion, forces, work and conservation of energy, properties of matter, heat and thermodynamics, waves and sound, electricity, electromagnetism (EM) and EM waves, optics, modern physics. Collection, analysis, and reporting of data, problem-solving concepts, and methods of physics.
Prerequisite(s): ENG 0900 with a grade of C or higher, and MTH 0650 or MTH 0750 with a grade of C or higher
Lab Fee: \$48.00
Terms Offered: Fall, Spring, Summer

PHY 1200 Introduction to Astronomy (4)

Contact hours (5 total): 3 lecture, 2 lab
Introduction to astronomy; astronomical terminology, origins and composition of our universe and solar system, planetary features; the quest to find other life forms in our universe.
Prerequisite(s): ENG 0800 with a grade of C or higher
Lab Fee: \$40.00
Terms Offered: Summer

PHY 1501 General Physics I with Algebra (5)

Contact hours (6 total): 4 lecture, 2 lab
College algebra based physics to include: kinematics in one and two dimensions; vector arithmetic; force and Newton's Laws of Motion and Gravitation; work, energy, and conservation of energy; linear momentum and collisions; rotational kinematics and dynamics, including angular momentum and rotational energy; simple harmonic motion; waves and sound; fluids and

elasticity; heat and thermodynamics; kinetic theory of gases; collection, analysis and reporting of data; problem-solving using college algebra concepts and methods.

Prerequisite(s): MTH 1280

Pre/Corequisite(s): ENG 1111 and MTH 1340

Lab Fee: \$55.00

Terms Offered: Fall

PHY 1502 General Physics II with Algebra (5)

Contact hours (6 total): 4 lecture, 2 lab

College algebra based physics to include: electricity, magnetism, electromagnetism, geometric, and wave optics; relativity, quantum physics, atomic physics, nuclear physics, collection, analysis, and reporting of data; problem-solving using algebra concepts and methods.

Prerequisite(s): MTH 1280 and PHY 1501

Pre/Corequisite(s): ENG 1111 and MTH 1340

Lab Fee: \$65.00

Terms Offered: Spring

PHY 2501 College Physics I with Calculus (5)

Contact hours (6 total): 4 lecture, 2 lab

Kinematics in one and two dimensions; vectors and simple vector analysis; force and Newton's Laws of Motion and Gravitation; work, energy, and conservation of energy; impulse and linear momentum, including elastic and inelastic collisions; rotational kinematics and dynamics, including angular momentum and rotational energy; simple harmonic motion and damped-driven oscillations; waves and sound; fluids and elasticity; heat and thermodynamics; kinetic theory of gases; collection, analysis, and reporting of data; problem-solving using calculus concepts and methods.

Prerequisite(s): PHY 1100 or PHY 1501

Pre/Corequisite(s): ENG 1111 and MTH 2200

Lab Fee: \$55.00

Terms Offered: Fall

PHY 2502 College Physics II with Calculus (5)

Contact hours (6 total): 4 lecture, 2 lab

Calculus-based physics to include: electricity; magnetism; electromagnetism; geometric and wave optics; relativity; quantum physics; atomic physics; nuclear physics; collection, analysis, and reporting of data; problem-solving using calculus concepts and methods.

Prerequisite(s): PHY 2501

Pre/Corequisite(s): ENG 1112 and MTH 2220

Lab Fee: \$65.00

Terms Offered: Spring

(PLS) Political Science

PLS 1100 Introduction to American Politics (3)

Contact hours (3 total): 3 lecture

Historical foundations of US government; theoretical underpinnings of important government documents; political behavior, voting behavior, and the campaign process. Policymaking process and the role of interest groups and the media. The history and role of political parties in the US. Three branches of United States government and how they function. Formal rules and procedures in American government.

Pre/Corequisite(s): ENG 1111

Terms Offered: Fall, Spring, Summer

PLS 1300 Introduction to Comparative Politics (3)

Contact hours (3 total): 3 lecture

Comparative method as it applies to government authority structures, parliamentary, and presidential democratic systems; authoritarian, totalitarian, hybrid, and democratic regimes; patterns of economic and political development; linkages between economic and political development; comparison of political institutions; political ideologies including liberalism, communism, socialism, anarchism, conservatism, and islamism; civil society and social capital; democratization and regime change.

Pre/Corequisite(s): ENG 1111

Global Awareness.

Terms Offered: Fall, Spring, Summer

PLS 2300 Introduction to International Relations (3)

Contact hours (3 total): 3 lecture

Evolution of world system, state and nonstate actors, intergovernmental organizations, nation-states, multinational corporations, conflict and cooperation between actors, democratic peace theory, liberalism, realism, constructivism, Marxism, feminism, international events and daily life, links between domestic and international politics, foreign policymaking process, historical world events and contemporary world events, and international political economy.

Pre/Corequisite(s): ENG 1111

Global Awareness.

Terms Offered: Fall, Spring

PLS 2400 State and Local Politics (3)

Contact hours (3 total): 3 lecture

Overview of state and local governments in the United States Constitutional structure. The role of the states in American federalism. Comparison of political structures across states and localities, including executive, legislative, and judicial institutions. Comparison of electoral systems across states and localities. Overview of policy issues across the states, including fiscal and budgetary policy. Overview of Ohio politics, including Ohio political history, political institutions, and current policy challenges.

Pre/Corequisite(s): ENG 1111

Terms Offered: Fall

(PSY) Psychology

PSY 1111 Introduction to Psychology (3)

Contact hours (3 total): 3 lecture

Introduction to fundamental principles and practices of psychology, including history, methods, biology of behavior, consciousness, perception, learning, thinking, intelligence, language, memory, social and organizational behavior, development, personality, psychopathology, and treatment.

Prerequisite(s): ENG 0800 with a grade of A or ENG

0850 with a grade of C or higher

Pre/Corequisite(s): ENG 0900 with a grade of C or higher

Global Awareness.

Terms Offered: Fall, Spring, Summer

PSY 2218 Introduction to Educational Psychology (3)

Contact hours (3 total): 3 lecture
Major theories of learning, development, and motivation in an educational setting. Exploration of the similarities and differences in student learning, types of instructional strategies, factors that affect student's learning and development. Principles of assessment strategies, including design, implementation, and evaluation.
Prerequisite(s): EDU 1110 or PSY 1111, and ENG 1111
Global Awareness.
Terms Offered: Fall

PSY 2223 Lifespan Human Growth and Development (3)

Contact hours (3 total): 3 lecture
Study of the biological, cognitive, cultural, environmental, and psychosocial development of human beings and the issues surrounding these developments from conception to death. Analysis of theories, myths and misconceptions, and methodological approaches of human development are explored. Applications of developmental psychology principles to daily life throughout the lifespan.
Prerequisite(s): ENG 1111 and PSY 1111
Pre/Corequisite(s): none
Global Awareness.
Terms Offered: Fall, Spring, Summer

PSY 2230 Abnormal Psychology (3)

Contact hours (3 total): 3 lecture
Clinical picture and assessment of suicide, major psychological disorders: anxiety, stress, dissociative, somatoform, mood, eating, substance, sexual, schizophrenia, personality, childhood, and aging disorders. Diagnosis, etiology, prognosis, and treatment of psychological disorders. Evaluate research, historical and cultural viewpoints, current theoretical views of psychological disorders.
Prerequisite(s): ENG 1111 and PSY 1111
Pre/Corequisite(s): ENG 1112
Global Awareness.
Terms Offered: Fall, Spring, Summer

(PTA) Physical Therapist Assistant

PTA 1112 PTA Survey (1)

Contact hours (1 total): 1 lecture
History of physical therapy. History and role of professional organizations, legal and ethical accountability, and healthcare delivery systems. Introduction to the role and scope of work for the physical therapist assistant. Introduction to interpersonal communication, cultural diversity, disability awareness, and professional behavior. Note: The online sections require that the final exam be taken onsite during approved proctoring sessions.
Pre/Corequisite(s): ENG 1111
Terms Offered: Fall, Spring

PTA 1122 PTA Procedures I (3)

Contact hours (5.67 total): 1.67 lecture, 4 lab
Introduction and practice of basic therapeutic procedures: body mechanics, vital signs, infection control, goniometry for all appropriate joints, manual muscle testing for all appropriate muscles / muscle

groups; verbal and written communication; clinical documentation; professional behavior; introduction to therapeutic exercise, laboratory practice. The classroom component is online.
Pre/Corequisite(s): ENG 1111, BIO 1119, BIO 2121, MST 1105, and PTA 1112
Instructor Permission Required.
Lab Fee: \$95.00
Terms Offered: Fall

PTA 1148 PTA Procedures II (5)

Contact hours (9 total): 3 lecture, 6 lab
Pathology, data collection, and physical therapy interventions for cardiovascular, lymphatic, immune, endocrine/metabolic, integumentary, gastrointestinal, genitourinary, respiratory disorders, and amputations. Positioning, wheelchair mobility, bed mobility, transfers, gait training, aerobic conditioning, breathing techniques, hydrotherapy, orthotics, and prosthetics. Professional behavioral development. Laboratory practice. Classroom component online.
Prerequisite(s): BIO 2121, MST 1105, BIO 1119, PTA 1112, and PTA 1122
Pre/Corequisite(s): BIO 2122 and PTA 1162
Lab Fee: \$105.00
Terms Offered: Spring

PTA 1162 PTA Rehabilitation I (5)

Contact hours (9 total): 3 lecture, 6 lab
Pathology, data collection, and physical therapy (PT) intervention for orthopedic conditions and musculoskeletal disorders. Positioning, bed mobility, transfers, gait training application to course related diagnoses, tissue healing and repair, pain theories, special orthopedic tests, aquatics, massage, joint mobilization, and detailed study of therapeutic exercise and exercise design. Professional behavioral development. Laboratory practice. Classroom component online.
Prerequisite(s): BIO 2121, MST 1105, BIO 1119, PTA 1112, and PTA 1122
Pre/Corequisite(s): BIO 2122
Lab Fee: \$80.00
Terms Offered: Spring

PTA 2243 PTA Procedures III (4)

Contact hours (6 total): 3 lecture, 3 lab
Physical agents including superficial thermal, electrical stimulation, phonophoresis, iontophoresis, traction, infrared, and ultraviolet. Theories of pain. Professional behavioral development. Laboratory practice. Classroom component online.
Prerequisite(s): PTA 1148, PTA 1162, and BIO 2122
Corequisite(s): none
Lab Fee: \$95.00
Terms Offered: Summer

PTA 2245 PTA First Year Capstone (1)

Contact hours (1 total): 1 lecture
Goniometry, manual muscle testing, wheelchair mobility, transfers, gait training, exercise design, clinical reasoning, communication. Professional behavior development. Classroom component is online.
Prerequisite(s): BIO 2122, PTA 1148, and PTA 1162
Pre/Corequisite(s): PTA 2243
Terms Offered: Summer

PTA 2262 PTA Rehabilitation II (5)

Contact hours (9 total): 3 lecture, 6 lab
 Pathology, data collection, and PT interventions for adult neurological impairments and pediatrics. Normal motor development and motor control. Application of positioning, bed mobility, transfers, gait training, and therapeutic exercise to course-related diagnoses. Adaptive seating, environmental assessment, and professional behavior development. Laboratory practice. Classroom component is online.
 Prerequisite(s): PTA 2243 and PTA 2245
 Lab Fee: \$150.00
 Terms Offered: Fall

PTA 2270 PTA Trends and Issues (1)

Contact hours (1 total): 1 lecture
 Current trends in practice. Healthcare financing. Interpersonal communications. Contracts. Supervisory/management skills. Ethical issues. Professional behavioral development. The classroom component is online.
 Prerequisite(s): PTA 2243 and PTA 2245
 Pre/Corequisite(s): PTA 2260 or PTA 2262
 Terms Offered: Fall

PTA 2275 PTA Special Topics (1)

Contact hours (1 total): 1 lecture
 Special topics related to the field of physical therapy including women's health, health promotion, mental health, emergency medicine, occupational work hardening, and common diagnostic procedures. Offered in an 4-week session. The classroom component is online. Onsite requirement for guest speakers.
 Prerequisite(s): PTA 2270, PTA 2281, PTA 2291, and PTA 2262
 Terms Offered: Spring

PTA 2281 PTA Directed Practice I (2)

Provision of physical therapy services in a clinical setting; application of knowledge and role of the physical therapist assistant, performance of skills, and professional behavior at a developing level. Supervised by clinical and academic faculty. Forty hours a week for four weeks; total 160 hours.
 Pre/Corequisite(s): PTA 2245 and PTA 2243
 Student Liability Fee: \$20.00
 Terms Offered: Summer

PTA 2282 PTA Directed Practice II (2)

Provision of physical therapy services in a clinical setting. Continued application of knowledge and role of the physical therapist assistant, performance of skills and professional behavior at a progressively developing level. Supervised by clinical and academic faculty. Forty hours per week for five weeks; total 200 hours.
 Prerequisite(s): PTA 2270, PTA 2281, PTA 2291, and PTA 2262
 Terms Offered: Spring

PTA 2283 PTA Directed Practice III (3)

Provision of physical therapy services in the clinical setting. Continued application of knowledge and role, performance of skills, and professional behavior. Performance progresses to entry-level practice consistent with the role and scope of practice of the

physical therapist assistant in implementing the plan of care established by the physical therapist. Supervised by clinical and academic faculty. Forty hours per week for seven weeks; total 280 hours.

Prerequisite(s): PTA 2270 and PTA 2262
 Pre/Corequisite(s): PTA 2282 and PTA 2292
 Terms Offered: Spring

PTA 2291 PTA Seminar I (1)

Contact hours (1 total): 1 lecture
 Companion course to PTA 2281. Clinical situations and problem solving; focus on self-evaluation; understanding the work setting and client, coworker behaviors as related to Directed Practice I. Ethical issues. Offered in a 4-week session. The classroom component is online.
 Pre/Corequisite(s): PTA 2245 and PTA 2243
 Corequisite(s): PTA 2281
 Terms Offered: Summer

PTA 2292 PTA Seminar II (1)

Contact hours (1 total): 1 lecture
 Companion course to PTA 2282. Discussion of clinical situations and problem solving; focus on self-evaluation; understanding the work setting and client, coworker behaviors as related to Directed Practice II. Ethical issues and selected course-related topics as determined by the instructor. Resume development. Offered in a 4-week session. The classroom component is online.
 Prerequisite(s): PTA 2270, PTA 2281, PTA 2291, and PTA 2262
 Corequisite(s): PTA 2282
 Terms Offered: Spring

PTA 2293 PTA Seminar III (1)

Contact hours (1 total): 1 lecture
 Companion course to PTA 2283. Discussion of clinical situations and problem solving; understanding the work setting, and client/coworker behaviors related to Directed Practice III. Ethical issues and selected course-related topics as determined by the instructor. Present a second-year Capstone Project. Job search and interview prep. Offered in an 8-week session.
 Prerequisite(s): PTA 2270 and PTA 2262
 Pre/Corequisite(s): PTA 2282 and PTA 2292
 Corequisite(s): PTA 2283
 Lab Fee: \$40.00
 Terms Offered: Spring

(RES) Real Estate**RES 1100 Real Estate Principles (3)**

Contact hours (3 total): 3 lecture
 Ohio Division of Real Estate & Professional Licensing principles and practices. Introduction to the market of real property, contractual/property rights, investment, and ownership. Guidelines and operations for the real estate professional. Meets state requirements for licensing.
 Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a C or higher
 Terms Offered: Fall, Spring, Summer

RES 1200 Real Estate Law (3)

Contact hours (3 total): 3 lecture

Real estate transactions and development from the perspective of legal professionals. Contracts, agency, civil rights, deeds, mortgages, and listing/purchasing agreements. Meets state requirements for licensing. Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher

Terms Offered: Fall, Spring, Summer

RES 1300 Real Estate Appraisal (2)

Contact hours (2 total): 2 lecture

Real estate appraisal techniques including market comparison, cost, and income. Principles, process, and factors that influence the value of real estate. Single-family residential property, with some aspects of commercial income producing properties. Meets state requirements for licensing.

Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher

Terms Offered: Fall, Spring, Summer

RES 1400 Real Estate Finance (2)

Contact hours (2 total): 2 lecture

Real estate finance in both primary and secondary markets. Financing instruments and techniques. Mortgage payment patterns, economic characteristics, standards, and financing of single and income-producing properties. Meets state requirements for licensing.

Prerequisite(s): ENG 0800 with a grade of A or ENG 0850 with a grade of C or higher

Terms Offered: Fall, Spring, Summer

(RST) Regional Studies

RST 2600 Regional Studies: North India (3)

An introduction to the land, people, history, politics, social institutions, literature, and the philosophical and religious heritage of India.

Prerequisite(s): ENG 1111

Pre/Corequisite(s): ENG 1112

Global Awareness.

Terms Offered: Spring

RST 2700 Regional Studies: Africa (3)

Contact hours (3 total): 3 lecture

The history of Africa from prehistoric times to the present. Focus on the social economic, political, religious, and cultural development from the ice age to the ancient, medieval, and to the present world.

Prerequisite(s): ENG 1111

Pre/Corequisite(s): ENG 1112

Global Awareness.

Terms Offered: Fall, Spring, Summer

RST 2800 Regional Studies of Latin America (3)

Contact hours (3 total): 3 lecture

Survey course of the land, people, history, politics, social institutions, economic development, literature, and the arts of Latin America.

Prerequisite(s): ENG 1111

Pre/Corequisite(s): ENG 1112

Global Awareness.

Terms Offered: Fall, Spring

(SOC) Sociology

SOC 1110 Introduction to Sociology (3)

Contact hours (3 total): 3 lecture

Analysis of social theory, methodology, and principles to provide a framework to study culture, socialization, stratification, and deviance. Comparative analysis of sociologically relevant diverse worldviews: examining political, spiritual, and social systems and economic and cultural traditions.

Pre/Corequisite(s): ENG 1111

Global Awareness.

Terms Offered: Fall, Spring, Summer

SOC 2220 Comparing Cultures (3)

Contact hours (3 total): 3 lecture

Compare and contrast non-Western world cultures with focus on family organizations, food-getting, social stratification, economics, religion, the arts, and change.

Pre/Corequisite(s): ENG 1111

Global Awareness.

Terms Offered: Fall, Spring, Summer

SOC 2230 Social Problems (3)

Contact hours (3 total): 3 lecture

Builds on a general understanding of contemporary causes, treatment, and prevention of social problems within the United States. Advance understanding of social problems, and proposed solutions through the lens of three sociological theories and methodologies. Analyzing proposed solutions to social problems from culturally diverse perspectives.

Pre/Corequisite(s): SOC 1110 and ENG 1111

Terms Offered: Fall, Spring, Summer

SOC 2240 Racial and Cultural Minorities (3)

Contact hours (3 total): 3 lecture

Sociological exploration of American racial and ethnic groups. Emphasis placed on the social construction of race and ethnicity, patterns of intergroup contact. Historical comparative analysis of selected groups with emphasis on economic, political and structural inequalities.

Pre/Corequisite(s): ENG 1111 and SOC 1110

Global Awareness.

Terms Offered: Fall, Spring

SOC 2250 Sociology of Poverty: Feminization of Poverty (3)

Contact hours (3 total): 3 lecture

Historical trends of poverty, stratification of social class, homelessness, families in poverty, feminization of poverty, and racialization of poverty. Consider proposed poverty reducing strategies.

Pre/Corequisite(s): SOC 1110 and ENG 1111

SOC 2260 Sociology of Sex and Gender (3)

Contact hours (3 total): 3 lecture

Analysis of the impact of social and cultural values and norms on human sexuality and gender.

Prerequisite(s): SOC 1110 and ENG 1111

SOC 2270 Marriage and Family (3)

Contact hours (3 total): 3 lecture

Sociological examination of theoretical perspectives related to the institutions of marriage and family. Topics covered include: historical context of family, role of

marriage and family in society, socialization, parenting, impact of family on the individual, family issues, family throughout the life course. Variations of global family types and lifestyles among diverse groups examined. Prerequisite(s): ENG 1111 and SOC 1110
Global Awareness.
Terms Offered: Fall, Spring, Summer

(SPN) Spanish

SPN 1100 Survival Spanish (3)

Contact hours (3 total): 3 lecture
Basic pronunciation, phrases, and greetings in Spanish for travel or work. Tools for understanding and forming sentences in Spanish. May not be taken for credit toward graduation if successfully completed SPN 1111, 1112, 2111, 2112 or above at Clark State or any other accredited institution. True beginners' level. Will not meet language requirement for transfer at four-year institutions.

Prerequisite(s): ENG 0800 with a grade of C or higher
Global Awareness.
Terms Offered: Fall, Spring

SPN 1111 Beginning Spanish, Course I (3)

Contact hours (3 total): 3 lecture
Integration of Interpersonal, Interpretive, and Presentational Modes of Communication. Practice real-world communicative tasks in culturally appropriate ways. Identify products, practices, and perspectives of the target culture(s). Use grammar, vocabulary, and structures to meet functional performance goals to build a foundation for continued language learning. Perform in the Novice range on the American Council of Teachers of Foreign Languages (ACTFL) Performance Scale. College-level textbook required.

Pre/Corequisite(s): ENG 1111
Global Awareness.
Terms Offered: Fall

SPN 1112 Beginning Spanish, Course II (3)

Contact hours (3 total): 3 lecture
Integration of Interpersonal, Interpretive, and Presentational Modes of Communication. Practice real-world communicative tasks in culturally appropriate ways. Identify products, practices, and perspectives of the target culture(s). Use grammar, vocabulary, and structures to meet functional performance goals to build a foundation for continued language learning. Perform better and stronger in the Novice range on the American Council of Teachers of Foreign Languages (ACTFL) Performance Scale. Some abilities developing in Intermediate range. College-level textbook required. Prerequisite(s): SPN 1111 with a grade of C or higher, or demonstrated proficiency in indicated area of study
Pre/Corequisite(s): ENG 1111

Global Awareness.

Terms Offered: Spring

SPN 2111 Intermediate Spanish, Course I (3)

Contact hours (3 total): 3 lecture
Integration of learning outcomes across Interpersonal, Interpretive, and Presentational Modes of Communication. Accomplish real-world communicative tasks in culturally appropriate ways and gain familiarity

with products, practices, and perspectives of the target culture(s). Use grammar, vocabulary, and structures for meeting functional performance goals at this level and to build a foundation for continued language learning. Consistently perform in the Novice range. More abilities emerge and develop in the Intermediate range. College-level textbook required.

Prerequisite(s): SPN 1112 with a grade of C or higher, or instructor permission

Pre/Corequisite(s): ENG 1111

Global Awareness.

Terms Offered: Fall

SPN 2112 Intermediate Spanish, Course II (3)

Contact hours (3 total): 3 lecture
Integration of learning outcomes across Interpersonal, Interpretive, and Presentational Modes of Communication. Accomplish real-world communicative tasks in culturally appropriate ways and gain familiarity with products, practices, and perspectives of the target culture(s). Use grammar, vocabulary, and structures for meeting functional performance goals at this level and to build a foundation for continued language learning. Perform better and stronger in the Intermediate range. A few abilities emerge in the Advanced range. College-level textbook required.

Prerequisite(s): SPN 2111 with a grade of C or higher or instructor permission

Pre/Corequisite(s): ENG 1111

Global Awareness.

Terms Offered: Spring

(STT) Statistics

STT 2640 Elementary Statistics I (3)

Contact hours (3.60 total): 2.40 lecture, 1.20 lab
Introduction to statistical techniques and methodology, including terminology, sample methods, descriptive statistics, data analysis, data relationships, elementary set theory, elementary probability, random variables, binomial distribution, contingency tables, and estimation; with a laboratory exploration of probabilistic and statistical concepts, and compilation of routine statistical computations. [Note: Online sections require that exams be taken at an approved proctoring site.] Prerequisite(s): ENG 0800 with a grade of C or higher, and MTH 0650 or MTH 0750, with a grade of C or higher

Lab Fee: \$0.00

Terms Offered: Fall, Spring, Summer

STT 2650 Elementary Statistics II (2)

Contact hours (2.40 total): 1.60 lecture, 0.80 lab
Application of statistical techniques and methodology, sampling theory, design of experiments, correlation and regression, hypothesis testing, and analysis of variance; with a computer laboratory exploration of statistical concepts, computation of statistical parameters, and analysis of statistical significance. [Note: Online sections require that exams be taken at an approved proctoring site.]

Prerequisite(s): STT 2640 with a grade of C or higher

Lab Fee: \$0.00

Terms Offered: Fall, Spring

(SWK) Social Work

SWK 1100 Introduction to Social Work (3)

Contact hours (3 total): 3 lecture
Introduction to the profession: historical development, value base, social systems perspective on social problems, and major fields of practice. Includes required knowledge, skills and values; critical thinking; problem solving; self-awareness; and appreciation of racial, ethnic, and cultural pluralism.
Pre/Corequisite(s): ENG 1111
Terms Offered: Fall, Spring

SWK 1105 Chemical Dependency I: Pharmacology and Physiology of Psychoactive Substances (3)

Contact hours (3 total): 3 lecture
Pharmacology of psychoactive substances including physiological and psychological effects and their propensity for addiction. Identification of basic treatment theories and treatment and prevention strategies in the field of addictions.
Prerequisite(s): ENG 0800 with a grade of C or higher or ENG 0850
Pre/Corequisite(s): ENG 0900
Terms Offered: Fall, Spring

SWK 1110 Peer Support Fundamentals I (4)

Contact hours (6.75 total): 4.5 lecture, 2.25 lab
Paraprofessional training for individuals with lived experience in mental health issues and/or substance use recovery to work with populations of the same to promote stability and long-term recovery. Knowledge and training in methods of engagement, process of recovery, and ethical concerns. Utilization of concepts from the I-Best model to develop basic skills.
Instructor Permission Required.
Terms Offered: Fall, Spring, Summer

SWK 1115 Peer Support Co-op I (1)

Development of paraprofessional skills to work with clients in mental health and/or addiction recovery. Integration of skills in screening, case management, advocacy, education and mentorship with clients to stabilize their recovery.
Prerequisite(s): SWK 1110
Corequisite(s): SWK 1131
Instructor Permission Required.
Student Liability Fee: \$20.00
Terms Offered: Fall, Spring, Summer

SWK 1116 Peer Support Co-OP II (3)

Development of paraprofessional skills to work with clients in mental health and/or addiction recovery under supervision of site supervisor integrate skills in screening, case management, mentoring, and advocacy utilizing the instructional support of an academic instructor.
Corequisite(s): SWK 1132
Instructor Permission Required.
Student Liability Fee: \$20.00
Terms Offered: Fall, Spring, Summer

SWK 1122 Social Work Methods and Procedures (3)

Contact hours (3 total): 3 lecture
Conceptual framework of generalist social work practice model. Creative problem solving, social work values, ethics, and principles related to interventions with

individuals, groups, organizations, and communities. Exposure to different theoretical perspectives. Motivational interviewing techniques.
Prerequisite(s): SWK 1100
Terms Offered: Fall, Spring

SWK 1131 Peer Support Seminar I (1)

Contact hours (1 total): 1 lecture
Designed to provide a forum for student shared learning and problem-solving their co-op placement issues. Integrate classroom into practical setting.
Prerequisite(s): SWK 1110
Corequisite(s): SWK 1115
Instructor Permission Required.
Terms Offered: Fall, Spring, Summer

SWK 1132 Peer Support Seminar II (1)

Contact hours (1 total): 1 lecture
Designed to provide a forum for student-shared learning and problem-solving their co-op placement issues. Integrate classroom into practical setting.
Prerequisite(s): SWK 1115 and SWK 1131
Corequisite(s): SWK 1116
Instructor Permission Required.
Terms Offered: Fall, Spring, Summer

SWK 1136 Affective Education and Group Treatment (3)

Contact hours (3 total): 3 lecture
Intrapersonal and interpersonal communication skills. Emphasis on personal growth and development. Group treatment model. Various group types, functions, and processes.
Pre/Corequisite(s): ENG 1111 and SWK 1100 or Instructor Permission
Terms Offered: Spring

SWK 2205 Chemical Dependency II: Assessment, Diagnosis, and Treatment Strategies (3)

Contact hours (3 total): 3 lecture
Theories of addiction. Treatment and prevention models and strategies with abusive/addicted populations. Counseling techniques and strategies used in individual, group, and family approaches to addictions treatment. Concepts and practices of assessment, diagnosis, and treatment planning.
Prerequisite(s): ENG 1111 and SWK 1105 or Instructor Permission
Terms Offered: Fall, Spring

SWK 2215 Chemical Dependency III: Co-Occurring Disorders of Addiction and Mental Health (3)

Contact hours (3 total): 3 lecture
Study of the population presenting with both substance abuse/addiction and mental health symptoms. History, definitions, symptomatology, assessment, and treatment strategies of Co-Occurring Disorders (COD).
Prerequisite(s): ENG 1111 and SWK 1105 and SWK 2205 or instructor permission
Terms Offered: Spring

SWK 2218 Social Work and Mental Health (3)

Contact hours (3 total): 3 lecture
Social work practice serving individuals with mental health issues. Overview of the service systems and treatment approaches.
Pre/Corequisite(s): SWK 1122 or instructor permission
Terms Offered: Fall

SWK 2230 Introduction to Social Welfare (3)

Contact hours (3 total): 3 lecture
 Social welfare policy process through history, development, and organization of social welfare and social work.
 Pre/Corequisite(s): ENG 1112 and SWK 1100 or Instructor Permission
 Terms Offered: Fall

SWK 2231 Introduction to Social Welfare (3.2)

Contact hours (3 total): 3 lecture
 Social welfare policy process through history, development, and organization of social welfare and social work. Associate of Arts/Pre-Social Work degree majors for transfer into Wright State University's College of Social Work. 30 observation hours. May not take both SWK 2230 and SWK 2231 for credit toward graduation.
 Pre/Corequisite(s): ENG 1112 and SWK 1100 or Instructor Permission
 Terms Offered: Fall

SWK 2232 Generalist Practice with Families (3)

Contact hours (3 total): 3 lecture
 Generalist social work practice model with emphasis on families, social work role, planning, goal setting, evaluation, and crisis work strategies within a generalist model of intervention.
 Pre/Corequisite(s): SWK 1122 or Instructor permission
 Terms Offered: Spring

SWK 2260 Multicultural Competence in a Diverse World (3)

Contact hours (3 total): 3 lecture
 Introduction to the knowledge, skills, and processes required to develop a cultural competency. Historical development of discrimination. Need for cultural competency within the U.S. and international communities in the delivery of health and human services practices.
 Prerequisite(s): ENG 1111 and SWK 1100 or Instructor Permission
 Terms Offered: Fall

SWK 2271 Social Services Practicum I (2)

Practicum placement of 210 hours in local social service agency under professional supervision. Development of professional social work skills, integration of social work theories and skill-based training and professional social work documentation.
 Prerequisite(s): SWK 1122
 Corequisite(s): SWK 2291
 Instructor Permission Required.
 Student Liability Fee: \$20.00
 Terms Offered: Fall, Spring

SWK 2272 Social Services Practicum II (2)

Practicum placement of 210 hours in local social service agency under professional supervision. Development of professional social work skills, integration of social work theories and skill-based training and professional social work documentation.
 Prerequisite(s): SWK 1122
 Corequisite(s): SWK 2292
 Instructor Permission Required.
 Student Liability Fee: \$20.00
 Terms Offered: Fall, Spring

SWK 2291 Social Services Seminar I (1)

Contact hours (1 total): 1 lecture
 The first of two courses designed to provide a forum for student shared learning and problem solving involving their practicum placements. Integrate the practicum experience and social work theory in a classroom setting.
 Prerequisite(s): SWK 1122
 Corequisite(s): SWK 2271
 Instructor Permission Required.
 Terms Offered: Fall, Spring

SWK 2292 Social Services Seminar II (1)

Contact hours (1 total): 1 lecture
 The second of two courses designed to provide a forum for student shared learning and problem solving involving practicum placements. Will integrate the practicum experience and social work theory in a classroom setting.
 Prerequisite(s): SWK 1122
 Corequisite(s): SWK 2272
 Instructor Permission Required.
 Terms Offered: Fall, Spring

(THE) Theatre**THE 1101 Acting Practicum I (1)**

Experience in acting in a live, Clark State Theatre Arts production.
 Instructor Permission Required.
 Terms Offered: Fall, Spring

THE 1102 Acting Practicum II (1)

Continued acting experience in a live, Clark State Theatre Arts production.
 Instructor Permission Required.
 Terms Offered: Fall, Spring

THE 1111 Stagecraft I (3)

Contact hours (4 total): 2 lecture, 2 lab
 Introduction to the areas of technical theatre with a strong emphasis on scenery construction techniques. Tools, materials, hardware, and basic approaches to building and painting scenery for the stage. Hands-on experiences and lectures culminating in the final class project of building and painting the Theatre Program's fall production.
 Prerequisite(s): ENG 0800 with a grade of C or higher
 Lab Fee: \$35.00
 Terms Offered: Fall, Spring

THE 1112 Stagecraft II (3)

Contact hours (4 total): 2 lecture, 2 lab
 Continuation of Stagecraft I with special emphasis on advanced scenic and painting techniques, reading working drawings, and the basics of scenic design. Hands-on experiences and lectures culminating in the final class project of building and painting the Theatre Program's spring production.
 Prerequisite(s): THE 1111
 Lab Fee: \$35.00
 Terms Offered: Fall, Spring

THE 1115 Props, Wardrobe, and Makeup (4)

Contact hours (4 total): 2 lecture, 2 lab
Focus on skills needed to work on props, wardrobe, and makeup for the theatre. General techniques for building and finding properties, repairing and dressing costumes, and applying corrective and specialty makeup.
Lab Fee: \$70.00
Terms Offered: Spring

THE 1121 Theatre Technology Practicum I (1)

Experience in using theatre technology in a live, Clark State Theatre Arts production.
Instructor Permission Required.
Terms Offered: Fall, Spring

THE 1122 Theatre Technology Practicum II (1)

Continued theatre technology experience in a live, Clark State Theatre Arts production.
Instructor Permission Required.
Terms Offered: Fall, Spring

THE 1130 Theatre Appreciation (3)

Contact hours (3 total): 3 lecture
Exploration of the artists, the plays, and the history that has shaped today's theatre.
Prerequisite(s): ENG 0800 with a grade of C or higher Global Awareness.
Terms Offered: Fall, Spring

THE 1133 Script Analysis (3)

Contact hours (3 total): 3 lecture
Introduction to script analysis: identifying plot, structure, action, themes, and application to the stage.
Prerequisite(s): ENG 0800 with a grade of C or higher
Pre/Corequisite(s): ENG 1111
Terms Offered: Spring

THE 2103 Acting Practicum III (1)

Improve acting skills experience in a live, Clark State Theatre Arts production.
Instructor Permission Required.
Terms Offered: Fall, Spring

THE 2104 Acting Practicum IV (1)

Advanced acting experience in a live, Clark State Theatre Arts production.
Instructor Permission Required.
Terms Offered: Fall, Spring

THE 2110 Movement and Voice (3)

Contact hours (4 total): 2 lecture, 2 lab
Movement principles and vocal training for the stage.
Pre/Corequisite(s): THE 2201
Terms Offered: Fall

THE 2123 Theatre Technology Practicum III (1)

Improve theatre technology skills experience in a live, Clark State Theatre Arts production.
Instructor Permission Required.
Terms Offered: Fall, Spring

THE 2124 Theatre Technology Practicum IV (1)

Advanced theatre technology skills experience in a live, Clark State Theatre Arts production.
Instructor Permission Required.
Terms Offered: Fall, Spring, Summer

THE 2201 Acting I (3)

Contact hours (4 total): 2 lecture, 2 lab
Basic training and practice in vocal, physical, and creative processes used by the actor for the stage, emphasis on character development and scoring techniques.
Pre/Corequisite(s): ENG 1111
Terms Offered: Spring

THE 2202 Acting II (3)

Contact hours (4 total): 2 lecture, 2 lab
Continuation of actor training for the stage. Increased emphasis on character development, scoring, and styles.
Prerequisite(s): THE 2201
Terms Offered: Spring

THE 2205 Acting Practicum V (2)

Advanced acting experience in a live, Clark State Theatre Arts production in a leading role.
Instructor Permission Required.
Terms Offered: Fall, Spring

THE 2215 Lighting and Sound (3)

Contact hours (4 total): 2 lecture, 2 lab
Theory and practice of stage lighting and sound techniques and equipment.
Prerequisite(s): ENG 0800 (with a grade of C or higher)
Pre/Corequisite(s): THE 1111
Terms Offered: Spring

THE 2225 Theatre Technology Practicum V (2)

Advanced theatre technology skills experience in a live, Clark State Theatre Arts production in a responsible role.
Instructor Permission Required.
Terms Offered: Fall, Spring, Summer

THE 2230 Theatre Management (3)

Contact hours (3 total): 3 lecture
Organization and operation of the theatre including staff, funding, ticket sales, marketing, and grant writing. Offered Fall, even numbered years.
Prerequisite(s): THE 1130
Terms Offered: Fall

THE 2235 Stage Management (3)

Contact hours (3 total): 3 lecture
Stage management responsibilities including; rehearsal and performance document preparation; and the development of organizational skills. Offered Fall, odd numbered years.
Prerequisite(s): THE 1130
Terms Offered: Fall

THE 2240 Basics of Theatre Design (3)

Contact hours (4 total): 2 lecture, 2 lab
Preliminary concepts of set, lighting, sound, and costume design for live theatre, including history of theatrical presentation and motivation for design concepts.
Pre/Corequisite(s): THE 2210 or THE 2220
Terms Offered: Spring

THE 2241 Theatre History I (3)

Contact hours (3 total): 3 lecture
 Survey of the history and development of theatrical production from Ancient Greece through Neoclassical France. Emphasis on play production rather than literature. Representative plays studied.
 Pre/Corequisite(s): ENG 1111
 Global Awareness.
 Terms Offered: Fall

THE 2242 Theatre History II (3)

Contact hours (3 total): 3 lecture
 Survey of the history and development of theatrical production from Restoration through the present. Emphasis on play production rather than literature. Representative plays studied.
 Pre/Corequisite(s): ENG 1111
 Global Awareness.
 Terms Offered: Spring

THE 2280 Directing (3)

Contact hours (4 total): 2 lecture, 2 lab
 Introduction to the art and techniques of directing for the stage, including visual storytelling, script analysis, and working with actors.
 Prerequisite(s): THE 1130
 Terms Offered: Spring

THE 2282 Co-Op Education (3)

Contact hours (1 total): 1 lecture
 Apply classroom studies in a technical theatre workplace.
 Prerequisite(s): THE 1111 and THE 1112
 Terms Offered: Fall, Spring, Summer

(WLD) Welding**WLD 1000 Introduction to Welding Processes (3)**

Contact hours (5 total): 2 lecture, 3 lab
 An introduction to the fundamentals of equipment used in oxyacetylene and arc welding, including welding and cutting safety. Skill development in oxyacetylene brazing, cutting, and plasma cutting.
 Prerequisite(s): ENG 0800 with a grade of C or higher
 Pre/Corequisite(s): AGR 1100 or ENT 1000
 Lab Fee: \$150.00
 Terms Offered: Fall, Spring

WLD 1010 Gas Metal and Flux Cored Arc Welding (GMAW/FCAW) (3)

Contact hours (7 total): 1 lecture, 6 lab
 Introduction to Gas Metal Arc Welding (GMAW) and Flux Cored Arc Welding (FCAW) process. Perform GMAW and FCAW in the flat, horizontal, vertical, and overhead position. Emphasis on power source, electrode wire selection, various joint designs, and troubleshooting techniques. Qualification standards and acceptance criteria will be provided in accordance with American Welding Society, Schools Excelling through National Skills Education, AWS QC10, Specification for Qualification and Certification of SENSE Level 1 - Entry Welders.
 Prerequisite(s): WLD 1000 or Instructor Permission
 Lab Fee: \$150.00
 Certification Fee: \$20.00
 Terms Offered: Fall, Spring

WLD 1020 Shielded Metal Arc Welding (SMAW) (3)

Contact hours (7 total): 1 lecture, 6 lab
 Introduction to the Shielded Metal Arc Welding (SMAW) process. Perform SMAW in the flat, horizontal, vertical, and overhead position. Emphasis placed on power sources, electrode selection, various joint designs, and troubleshooting techniques. Qualification standards and acceptance criteria will be provided in accordance with American Welding Society, Schools Excelling through National Skills Education. AWS QC10, Specification for Qualification and Certification of SENSE Level 1 - Entry Welders.
 Prerequisite(s): WLD 1000 or Instructor Permission
 Lab Fee: \$150.00
 Certification Fee: \$20.00
 Terms Offered: Fall, Spring

WLD 1030 Gas Tungsten Arc Welding (GTAW) (3)

Contact hours (7 total): 1 lecture, 6 lab
 Introduction to the principles of Gas Tungsten Arc Welding (GTAW), setup and safe use of GTAW equipment. Perform GTAW in the flat, horizontal, vertical, and overhead positions. Emphasis on power source, tungsten selection, various joint designs, and troubleshooting techniques. Qualification standards and acceptance criteria will be provided in accordance with American Welding Society, Schools Excelling through National Skills Education. AWS QC10, Specification for Qualification and Certification of SENSE Level 1 - Entry Welders.
 Prerequisite(s): WLD 1000
 Lab Fee: \$150.00
 Certification Fee: \$20.00
 Terms Offered: Fall, Spring

WELCOME!
